

Ice Water—Doctors Disagree.

A celebrated physician says "All ice-water drinking is bad," also that "a severe blow upon the body just over the solar plexus," which in good United States language means an important portion of the nervous system located just back of the stomach, "will cause almost instant death," and he further says "the sudden shock caused by a deluge of ice-water into the stomach has exactly the same effect upon the solar plexus as the blow, and may cause sudden death by its action upon it and through that on the heart."

All Right, 5817.

THIS SPLENDID HORSE is too well known to the breeders of Prince Edward Island to need any puffing. They all know what he is, and what a grand family of trotters and roadsters he has built up in the Maritime Provinces, where his stock have taken high rank, and are every year coming to the front. He is one of the very few horses in the provinces that contributed a representative to the 230 list in 1889, his son Charlie Mitchell having made a record, in a contested race, of 2.28 1/2.

ALL RIGHT, 5817, is the sire of

If you want to raise trotters—and of course you do—send to ALL RIGHT, and you will get fast trotters and first-class roadsters.
