gather as much money as will pay the debt, and buy his farm besides. Col. Gray, who claims to be the originator of the Royal Commission, and who promised so many wonderful things on the strength of the Award, has repeatedly declared that that measure would enable the tenantry to buy their farms at prices ranging from five shillings to seven shillings and sixpence an acre, the total value of which they could pay at any time, and in any any instalments that would be most convenient to themselves.

The price of land in large blocks, and modes of payment, are now pretty well determined by former transactions. The Worrell, Selkirk, Lot 11 and Lot 54 estates were sold to the Government at one fourth the price now demanded by the proprietors. These properties were resold to the settlers thereon at prices ranging from 5s. to 12s. 6d. an acre, without any reservation as regards mill sites or improvements, unless in very important cases; all the back rents were forgiven, and ten years were allowed for the payment of the purchase money.

There are some private speculations, too, which go far towards fixing the standard value of land. One of the most valuable Townships on the Island, Lot 31, was bought by Mr. Douse from Lord Selkirk for about four shillings sterling an acre; Mr. Yeo bought Lot 13 from Sir George Seymour for about the same price; and Mr. Haviland, some years ago, if we remember rightly, offered to sell a very large portion of his property for 7s. 6d. an acre; and even very lately these gentlemen have been offering to their tenantry terms infinitely superior to those contained in the Proprietors' Bill.

That that Bill cannot be regarded with any other feeling than one of profound detestation, throughout the length and breadth of the land, is our settled conviction; but it will be useful in opening the eyes of the people to the real intentions of the proprietary party; and will show them what they may expect from the Government here, who are so closely mixed up with that party, and who have so steadily laboured to promote proprietary interests ever since they came into office.

Since writing the remarks in the foregoing article relative to Mr. Palmer, we have received the following letter from that gentleman, which we cheerfully publish. There are two or three passages in it, upon which we should like to comment at some length, but we have not space to do so. We have no doubt that his disclaimer of the Bill is perfectly sincere; and we suppose he would not make the disclaimer if he did not consider the Bill is likely to be a very unpopular one. The thing was bad enough in itself before Mr. Palmer repudiated it, but it becomes very odious when that gentleman indirectly declares that it falsely and unwarrantably includes his name as one of the consenting parties to its provisions. Some one has imposed upon Sir Samuel Cunard most grieviously in giving him the name of the Hon. E. Palmer.

The President of the Council insinuates that we experience a dearth of facts to serve our political ends. We beg to assure our correspondent that we are doing our best to advance the public interests, and that he and his colleagues every day contribute a multitude of facts to prove that the country *cannot* be faithfully served so long as they are continued in office.

Mr. Palmer seems to think that his facile majority in the present House of Assembly are entitled to praise for having obtained from the Proprietors some valuable concession on behalf of the tenantry, which, according to his statement, the Bill under consideration proposes. We have not been able to discover anything in the Bill deserving the name of a concession; but we recommend Mr. Palmer's majority, when they go to the hustings shortly, to point out "whatever concession or value is contained in the Bill proposed by the *Proprietors*," and then demand their meed of praise from the constituencies.

TO THE EDITOR OF THE EXAMINER.

SIR,—In your paper, issued last Monday, you have published an editorial on the subject of the recent despatch from the Duke of Newcastle, transmitting to His Excellency the Lt. Governor the Bill proposed by certain Proprietors as an offer to their tenantry in lieu of the Award. In that editorial you have stated that I am "a consenting party to the iniquitous Bill;" and further you say, "There is very little doubt in our mind that the Bill was framed by himself or under his supervision." I assure you there is not the slightest foundation in truth for either of these statements. I neither knew or heard of the Bill until it was received here by his Excellency the Lieutenant Governor. Its Schedule, it is true, contains, among others, my name, and although I feel the utmost indifference to its effect on myself by appearing there, whatever may be the result of the Bill, I may truly, up to this moment, say in the words of the Duke of Newcastle, "I don't know on what authority it has been placed there."

I have no intention of interfering with the freedom of invention of your own mind in your throwing out surmises to serve your political ends at any season, when there may be a great dearth of facts, but as you have made uncommonly free with my name in this instance, I have a right to let even your own supporters see that I have as yet discovered no reason to deviate in any manner from the course I have taken in my place in the Legislature with reference to the Bills passed last Session, for the confirmation and carrying into effect the Award of the Land Commissioners. It is for this reason I address you, and not, by any means, to disclaim the merit which is, in my opinion, due to the majority of the present House of Assembly for whatever concession or value is contained in the Bill proposed by the Proprietors to the Duke of Newcastle.

I remain, Sir,
Your obedient servant,
EDWARD PALMER.

ENGLISH MAIL.

THE English Mail arrived at Halifax on Thursday last. It was not, of course, in time for the Westmorland, which arrived here from Pictou on Friday morning. It will be here to-morrow morning.

LATE NEWS FROM THE STATES.

WE have no space to notice editorially the intelligence from the States. It is important, and will be found under the usual head. The news by the Mail of Saturday night represents a battle having been fought before Richmond, the capital of the Southern Confederacy, in which the troops of the latter are said to have been defeated. Advices by Telegraph are as late as the 30th May. The following items contain the news of most importance. How far they can be depended upon as true, we are not prepared to say:—

BANGOR, May 29.

The battle of Hanover Court House, before Richmond, resulted in the complete route of the enemy, who lost 500 prisoners, and left a hundred on the field. Their whole loss was about 1000.—Federal loss nearly 400—53 of whom were killed.

Halleck's army has moved within three quarters of a mile of the enemy's fortifications at Corinth, by regular approaches, and fortifying as it goes.

Confederates at Fort Wright have been largely reinforced within a few days, and another attack on the Federal flotilla is expected.

Natchez has surrendered to the Federal vessels.

Ten thousand troops have left New York for Washington.

BANGOR, May 30.

The Federals have burned the bridge over South Anna Creek, cutting the Railroad communications between Richmond and Jackson's command.

Authentic advices reports the evacuation of Corinth yesterday.

The prisoners report that the Confederates are gone to Okolona, about 150 miles South, on the Mobile and Ohio railroad.

Gen. Nelson occupies the deserted entrenchments.

The Maine Cavalry in Banks' command lost 70 in missing; killed and wounded unknown. The 10th Maine lost the same number in missing.

3,000 Georgians refused to fight, their term having expired, they were disbanded and sent home.

Gen. Butler has taken Beauregard's wife under his protection.

BLACKWOOD'S MAGAZINE, for May, has been received from the American publishers, and is filled with very interesting articles, nearly all of which we have read with deep interest, but we have not room to particularise them. Whoever wants a standard literary periodical, at a cheap rate, cannot do better than subscribe for Blackwood.

DEAF AND DUMB.

Amid the din of war, and the rending asunder of a mighty nation, surrounded by the horrors of a strife, before which civilization shrinks and humanity veils her face, it is profitable to record the movement of society and to feel that a kind providence still watches over the children of its creation.

It is comforting to think that while in the neighbouring States the course of events is such as to dry up the very fountain of charity, and to swallow up in the struggle for a useless victory everything that tends to the advancement of the human family, the relief of the necessitous and the amelioration of the afflicted, there should be heard among us the voice of sympathy for those whom the Creator has disabled from making themselves heard, and whose peculiar deprivation, whilst it cuts them off from communication with man, seems to throw them exclusively upon the benevolence and fatherhood of God.

We are induced to make these remarks by the announcement in our columns of the formation of a Society for the instruction of the Deaf and Dumb of this Island.

Our readers will recollect that in the summer of last year attention was called to this matter by the appearance amongst us of Mr. Hutton, manager of a prosperous establishment for the education of the Deaf and Dumb at Halifax, Nova Scotia.

The statements of Mr. Hutton, and the display made by several of his pupils at Charlottetown, and at various other places in the Island, of the results of their educational course at Halifax, not only gave the most entire satisfaction, but created an earnest desire for the establishment of some original or affiliative arrangements for the similarly afflicted in this Island.

It appeared on enquiry, that there were sixty-one persons of that class, of whom thirty are supposed to be capable of treatment, and that the expense of their board and education at Halifax would be about £30 currency per head.

It also appeared, that in the present circumstances of the Island, it was undesirable to attempt the formation of a separate institution here, and that the Society should commence its operations by raising sufficient funds to send some few selected objects to the institution at Halifax.

To the efforts of our fellow citizen, Hon. Dr. Young, the public are indebted, not only for the formation of the Society, but also for the fact, that he is about making arrangements with the parents of two deaf mutes at Malpeque, to send them to Halifax in September next, towards the expense of which the inhabitants of Malpeque will contribute a liberal sum of money.

The Society, therefore, starts with a good beginning, and it now remains for the country to sustain its efforts. In this, as in all other cases, funds are the first requisite. It is proposed to raise a sufficient sum to educate in time the thirty persons capable of instruction at Halifax, as the cheapest and best course. £900 currency per annum is required for this. If the larger portion of this can be provided by the public, the Legislature no doubt will grant a subsidy. The Nova Scotia Legislature grants £500; that of New Brunswick £100, for this object per year.

It is no part of our position as a public journalist to solicit subscriptions; but on behalf of this Charity, I second in importance only to the Asylum for the insane, we do put forth an earnest appeal. The public only can carry out its objects by their united efforts. A subscription of five shillings constitutes a membership, with a voice in the proceedings.

This is no partisan or sectarian body; its committee embraces all denominations, Protestant as well as Catholic. Charity is universal. If the times are bad, let us remember that we are happily free from the miseries and curses of a civil war; and let us rejoice in the blessings of peace, and cheered by the prospect of an abundant harvest, let us shew our gratitude to God, to the giver of all good, by our efforts on behalf of those whose very helplessness commends them to our care.—*Com.*

The following is the Constitution of the Association for the Instruction of the Deaf and Dumb of P. E. Island, being an auxiliary to the Institution at Halifax, Nova Scotia:—

1st. The objects of the Association are to disseminate information as to the number and condition of the Deaf and Dumb in this Island—to awaken public interest and sympathy on their behalf, and to adopt measures to raise funds to assist poor deaf and dumb persons in obtaining the blessings of education, &c.

2nd. The Association to consist of all persons paying an annual subscription of five shillings to its funds, such persons to be the ordinary members thereof.

3rd. All persons paying the sum of five pounds to be life members thereof.

4th. A general meeting to be held annually, (after the first year), on the first Monday in August in each year, for the election of Office-bearers, and for the transaction of general business.

5th. The Office-bearers to consist of a Patron, Patroness, Vice Patrons, President, Vice Presidents, Secretary and Treasurer, with an acting Committee, composed of persons belonging to each religious denomination, four of whom, with the President or Vice Presidents, to form a quorum.

6th. All Clergymen in this Island, being members of the Association, to be ex officio members of the Committee, and when present to be deemed a part of the quorum.

7th. That each congregation be requested to make an annual collection in the respective Churches in aid of the funds of the Association.

The following are the Office-bearers, viz:—

Patron—His Excellency the Lieut. Governor.
Patroness—Mrs. Dundas.
Vice Patrons—Lieut. Col. Gray,
His Worship the Mayor,
Mrs. Edward Palmer, and
Mrs. Alexander.
President—The Hon. Dr. Young.
Vice President—George W. Deblois, Esquire.
Secretary—Alfred Phillips, Esquire.
Treasurer—William Cundall, Esquire.
Committee—Hon. E. Palmer, Prest. Ex. C.
James Purdie,
Kenneth Henderson,
David Laird,
William Heard,
John Trenaman,
James Reddin, and
John Scott, Esquires,
Hon. James Pope,
Hon. Edward Thornton,

and all Clergymen thoughout the Island, being members of the Association.

GOLD!

The exhibition of Gold from the Nova Scotia mines has rightly created a high estimate of their value, and has elicited the critical admiration of the whole *elite* of our city. His Excellency the Lieut. Governor made a lengthened visit to it this day; he compared many of the specimens with specimens he himself brought from Australia, and expressed himself agreeably disappointed; the gold from Nova Scotia being identical in colour and density with that from Australia, whilst the quartz of the former appeared to contain larger proportions of the precious metal. Critical as has been the audiences, there exists but one opinion of the ability of Mr. Pratt to do justice to the Geological subject he has undertaken; he handles his subject with ease, and without gloves or stilts conveys to the most uninitiated satisfactory data. The Colonies may be thankful to him for pointing out the undesirability of an indiscriminate exodus to the mines, and the desirability of capitalists becoming assured of remunerative returns if investing in gold seeking. From the fervor which Mr. Pratt throws into this part of his addresses we shrewdly suspect this is the chief purpose of his mission. It was pleasing, however, to learn his conviction of the high moral and hospitable character of the native inhabitants of rural Nova Scotia, and to hear his well merited compliments to the Executive of its Government.

A COMPLIMENT FROM ROYALTY.

We clip the following item from a recent number of the London (Court) Journal:—"We have of late observed with pleasurable feelings a growing tendency among the higher circles to contract a closer intimacy with the disciples of art and science. This is as it should be, for in our humble opinion England rises higher in the scale of civilization by the fertile genius of her sons than by the rays of military glory reflected from her arms. At the late levee in the Queen's Drawing Rooms among other notabilities, we noticed with unfeigned satisfaction the celebrated Dr. Holloway, whose Pills and Ointment have won for him a universal and imperishable name, his sober habiliments strangely contrasted with the elegant and recherche dress of the courtiers who surrounded him. On introducing him to the Queen, Her Majesty extended her hand to him in the most gracious and smiling manner, detaining him a few moments by well merited compliments to his fame, which had been echoed to the uttermost boundaries of the earth, wherever sickness had found a "local habitation," or disease sown its dragon's teeth. Her Majesty particularly alluded to the benefits which not only the wounded British but even French soldiers had received from his Ointment during the Russian war. The Doctor bowed his venerable head in acknowledgment of this proud tribute from his Sovereign Mistress to his unceasing efforts in the cause of suffering humanity. From the united testimony of the medical Staff, the Officers, and Miss Florence Nightingale, who all concurred in the great efficacy of Dr. Holloway's Ointment in gun-shot wounds, sloughing ulcers, sabre cuts and contusions, the Government has issued orders that the Ointment be used for dressings in all the Military Hospitals throughout Great Britain and her dependencies."—Chester 'Morning Times.'

UNITED STATES.

The New York Herald states that Mr. E. P. Christy, the well known proprietor and originator of Christy's Ministrels, attempted to, and nearly succeeded in, committing suicide at his residence, 78 East 18th street, on Friday afternoon. For six months past Mr. Christy has been laboring under an aberration of mind, being at times greatly depressed and fearing that he should come to want. The idea firmly possessed him that the South would be successful in their rebellion against the North, and that the Southern armies would overrun the North and render his property valueless. No efforts of his friends have succeeded in eradicating this impression from his mind. On Friday afternoon he was sitting with his wife in the back parlor on the 2nd floor. His conversation was rational, but as Mrs. Christy turned and left him for a moment he dashed through the window, striking violently upon the flagging of the court yard below, fracturing his skull, breaking one of his lower limbs, dislocating his right wrist, and injuring his spine so badly as to cause paralysis of the legs. He was taken up for dead, but it was subsequently found that life was not extinct. Physicians were called in, but he sank rapidly, and at 11 o'clock on Saturday night he was not expected to live till morning. Mr. Christy is about 40 years of age, and has acquired a fortune of nearly $200,000 in the minstrel business.

At a public meeting of the members of the New York bar, on Saturday, to consider the charges against Mr. Edwin James, the celebrated English counsellor, lately admitted to the New York bar, the proceedings of the Law Institute in his case were reprobated, and resolutions complimentary to Mr. James, and expressing satisfaction with his character and reputation, were unanimously passed.

The once famous Ellsworth Zouaves have come to nought. All that were left of them, after a sad unsoldierly dragging on in quarrelling, inaction, and half-mutiny, are, it is stated, to be disbanded shortly and sent home.

News has been received at Washington that the youngest daughter of the late Senator Mason, now rebel agent in England, has become a confirmed lunatic, and is the inmate of a madhouse. The cause is the present condition of the country.

MONUMENT TO THE LATE DR. ALEXANDER AT PRESTON-PANS.—A monument is about to be erected to this gentleman, at Preston-Pans—the preparations for the erection being now nearly completed. Our townsman, Mr. Brodie, Edinburgh, is the sculptor of the statue; and in speaking of his handiwork, the *Haddington Courier* says—

The statue, which we have seen in Mr. Brodie's studio, at Edinburgh, has just received the finishing stroke from the sculptor's chisel, and is ready for removal. It is of colossal dimensions, being eight feet in height, and is altogether a noble piece of statuary. The figure is represented attired in the full uniform appertaining to the rank which the deceased held as Director-General of the Medical Department of the British Army, with the left hand supported on the hilt of the sword, and the right resting on the waist belt. An ample military cloak hangs gracefully over the shoulders, and falls in classic folds around the statue. The details of the costume, including numerous medals and decorations of merit, hung on the left breast, are well managed, while the figure itself is instinct with life. The manly, open, and highly expressive features are chiselled with startling truthfulness; the *pose* of the body is free and natural; whilst the idea of indomitable energy, under the control of high intellect and benevolent principle, so characteristic of the original, breathes unmistakeably out of the entire figure. Altogether, as a work of art, the statue is, in every way, well worthy of Mr. Brodie's high reputation. When placed upon its pedestal, the figure will tower above the street at an altitude of twenty-three feet, and prove an object of interest and atttaction to strangers, while it will be regarded with pride by the inhabitants.

NEW TOPOGRAPHICAL MAP OF PRINCE EDWARD ISLAND.—We would call the attention of our readers to the New Topographical Map of Prince Edward Island, now being published by Messrs. W. E. & A. A. Baker. Every road is being carefully surveyed by course and distance; and, we are informed by the Publishers, that they are taking the pains to give the location of every house on the Island, with the name of the owner carefully engraved at the point designated for his house, and also the location of all the Schoolhouses, Churches, Post Offices, Mills, Streams, etc. This will be, indeed, a work of great merit, and be found a valuable guide to every part of our Island, showing to any one the distance to any point he may wish to refer, and will give to the scholar who may study it a good knowledge of the geography and topography of the Island.

All this is being done at a large expense to the publishers, and it is necessary that the most liberal encouragement be extended to these gentlemen, as they pass through the different Townships, revising their surveys, and taking orders for their work. It will make a large and ornamental Map, and will be handsomely colored and mounted. The low price of Thirty shillings, at which they offer such a Map, will place it within the reach of a large number.

Mr. Baker has exhibited several of his surveys for examination, and has received the following testimonial:—

We, the undersigned, having examined the surveys, made for the purpose of constructing a large Topographical Map of Prince Edward Island, take pleasure in recommending to the public such a Map, as being very reliable and valuable, and well worthy of liberal patronage. Considering the large expense attending such a survey, and procuring so accurately the names, locations, distances, &c., we think the price, thirty shillings, very reasonable for such a Map.

His Excellency the Lieut. Governor,	William Cundall,
Edward Palmer,	John Aldous,
W. H. Pope,	T. H. Haviland,
George Wright,	Joseph Hensley,
	John Ings.

Upon the Map will also be given an enlarged plan of Charlottetown, giving the name of every street, the location of every dwelling, and the numbers of the different lots; and similar plans of Georgetown, Summerside, and the larger villages. Messrs. Baker & Co. come among us well recommended, bringing letters of introduction from the Provincial Secretary of New Brunswick, and we have no doubt that the work will be performed to the satisfaction of our people; and as this is entirely a local work, they will publish no more copies than what they receive orders for as they pass through.—ISL.

A public meeting, convened by His Worship the Mayor, was held in the City Hall yesterday forenoon, to consider the propriety of sending two or three of our Island Volunteers to England, to compete for the Prizes to be awarded at Wimbledon in the month of July next. After considerable discussion, it was deemed advisable to relinquish all idea of competing for those prizes for the present. It was stated that a large number of Volunteers from New Brunswick and Nova Scotia might be expected here to compete for our Prize Cup, every man of whom is determined to bear it away in triumph from our shores! To prevent this, the best skill and energy of our Volunteers must be directed. The conclusion arrived at by the meeting was, we believe, the correct one, viz: that the arrangements for our own Shooting Match of the present year should be rendered alike worthy of ourselves and of the occasion.—MONITOR, May 28.

At the meeting in the City Hall, yesterday, Lieut. Col. Haviland started a subscription list for prizes to be given to our Island Volunteers when they are brought together this summer to contend with the Volunteers of New Brunswick and Nova Scotia. Last evening, the amount subscribed was upwards of £40. Lieut. Col. Haviland intends, we believe, to raise at least £100 in this way for the above object. We wish him every success; and we think that, if appealed to, the good people of St. Eleanor's, Summerside, Georgetown, &c. would gladly contribute to a Prize Fund which is intended for the benefit of the Volunteers throughout the country. If more than £100 could be collected, so much the better.—IB.

The specimens of gold-bearing quartz—among which is a slab weighing thirty pounds—from Tangier, Lunenburg, Sherbrooke, Wine Harbor, &c., in the Province of Nova Scotia, now on exhibition at Mrs. Cameron's, next door to the Royal Agricultural Society's Seed Store, are well worth inspection by all who feel an interest in or intend proceeding to the gold-fields of Nova Scotia. Mr. Pratt, who has made a professional inspection of these gold-fields, proposes giving a lecture on Monday evening next, when much reliable and interesting information with reference thereto will be communicated. The price of admission to the exhibition is only ninepence. No further charge will be made for admission to the lecture.—IB.

DEAF AND DUMB.—We are happy to be able to congratulate our fellow Islanders on the formation of a Society for the Instruction of the Deaf and Dumb members of this community. A meeting of ladies and gentlemen, deeply impressed with the importance of the subject, was held on Wednesday last, at the City Hall, under the presidency of the Hon. E. Palmer, when a constitution proposed by the Hon. Dr. Young was agreed to, the necessary committee forthwith appointed, and a Society formed, called "The Association for the Instruction of the Deaf and Dumb, P. E. I." His Excellency the Lieutenant Governor has consented to act as Patron, and Mrs. Dundas has kindly agreed to preside over the Ladies' Department of the Society's operations. We understand that, to the untiring exertions of Dr. Young, the public are indebted for the existence of this Society.—COM.

THE NEW CANADIAN MINISTRY.—The Toronto *Leader* gives the following as the correct list of the names of the new ministers constituting the Canadian Cabinet:

Attorney General Upper Canada, Mr. J. S. Macdonald; Solicitor General Upper Canada, Mr. Wilson; Postmaster General, Mr. Foley; Receiver General, Mr. James Morris; Crown Lands, Mr. Macdougall; Finance Minister, Mr. Howland; Attorney General Lower Canada, Mr. Sicotte; Solicitor General Lower Canada, Mr. Abbot; Public Works, M. A. A. Dorion; Provincial Secretary, M. Evanturol; Agriculture and Emigration, Mr. McGee; Receiver General, M. Tessier.

☞ By the last English Mail, a Circular was received from the Colonial Office announcing Her Majesty's pleasure, that hereafter each of the Governors and Lieut. Governors of these Provinces may be absent from his Government for four weeks in each year, without special leave, for the purpose of visiting any other Government, but not to be absent longer than three weeks at any one time, and reporting the several absences at the close of the year.—*Empire.*

We are pleased to learn that His Excellency the Lieut. Governor has received a Telegram from Quebec, announcing the arrival there on Sunday last of H. M. Surveying Schooner "Gulnare," with Mrs. Dundas on board.—*Protestant.*

SUDDEN DEATH.—Mr. Nathan Wright, an old gentleman of 85 years, residing on Prince-street, died in his chair on Tuesday morning last. He got up in the morning as usual, worked some time in his garden, and about 10 o'clock went in, complaining a little, and immediately died.—R. W.

FIRE.—On Tuesday afternoon the barn and workshop combined of Mr. Wm. Harper, on Upper Great George-street, was destroyed by fire, together with a quantity of tools, a couple of new sleighs, a waggon, hay, etc. Origin of fire unknown.—R.W.

HOLLOWAY'S PILLS.—Luxurious Living—Dissipated habits.—Let the too self-indulgent beware of the future penalties he is storing up for himself. Nausea, morning cough, sick headache and biliousness, should warn him that excess is throwing the animal machine into disorder, for the correction of which early measures are required. None can compete for celerity, safety, and efficiency, with Holloway's far-famed Pills, which act directly on the stomach, liver, and bowels; regulate the distinctive functions of each, and restore confidence, energy, and health. They agree admirably with all constitutions. Holloway's Pills may be taken with the certainty of their proving beneficial to both delicate and robust at all times, and in any climate. Ample directions for use accompany each box.

BLACKWOOD'S MAGAZINE AND THE BRITISH REVIEWS.

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:—

1
THE LONDON QUARTERLY (Conservative).

2
THE EDINBURGH REVIEW (Whig).

3
THE NORTH BRITISH REVIEW (Free Church).

4
THE WESTMINSTER REVIEW (Liberal).

5
BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

For Blackwood and two Reviews	7 00
For Blackwood and three Reviews	9 00
For Blackwood and the four Reviews	10 00

Money current in the State where issued will be received at par.

CLUBBING.

A discount of twenty-five per cent. from the above prices will be allowed to CLUBS ordering four or more copies of any one or more of the above works. Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.—Subscribers in the British Provinces will receive the Reprints Free of U. S. Postage.

N. B.—The price in Great Britain of the five Periodicals above named is $31 per annum.

THE FARMER'S GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE.

By HENRY STEPHENS, F. R. S., of Edinburg, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal octavo. 1600 pages and numerous Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

$5 FOR THE TWO VOLUMES!

When sent by mail (post-paid) to California and Oregon the price will be $7. To every other part of the Union, and to Canada (post-paid), $6. ☞ *This book is* NOT *the old "Book of the Farm."*

Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,
