We have been shown some apple blossoms found growing on the same tree with apples, in the orchard of Mr. A. Lund, Lot 48, a day or two ago. In addition to the tree from which the blossoms shown us were taken, there are several others in the same orchard, upon which are to be seen both apples and blossoms growing at the one time. Singular isn't it?

MR. MALCOLM MCINNES, who has been book-keeper for some time past with the firm of McEachern & Co., left Souris this morning en route for The Dalles, Oregon, where he takes a position in the office of Messrs. The many Charlottetown friends of the Dr. will be pleased to learn that he is prospering in New York.

TELEGRAPHIC NEWS.

(SPECIAL DESPATCHES TO THE EXAMINER.)

A Lively Debate.

LONDON, Aug. 25. Gladstone was greeted with cheers in the Commons this evening as he arose to move his resolution: "That an humble address be presented to the Queen representing that the Viceroy of Ireland had proclaimed the National League as a dangerous association, that no information had been furnished Parliament to justify the proclamation by virtue of which Her Majesty's subjects were rendered liable to be punished as criminals without judicial inquiry into the nature of their acts, and that the House in the absence of such information, prays that said proclamation be not continued in force as to the associations named and described therein." Mr. Gladstone spoke at length. Mr. Bal-four, Sir William Vernon Harcourt, Mr. Harrington (Nat.), Mr. Buchanan, (Lib. Unionist), and Bradlaugh, participated in the debate. T. W. Russell protested against coercing the league; but said, that, having supported the Crimes Bill, he could not withhold from the Government the powers they demanded. On motion of Sir G. O. Trevelyan the debate was adjourned.

A New Route.

CHICAGO, Aug. 25. Information was received to-day that the Canadian Pacific Railway will, within the next thirty days, put on a new and powerful steamer between Portland and Vancouver. This means a new route between Columbia River and the East, especially New York, Boston and Chicago. The trade in canned goods and wool will be heavily promoted.

Liberals and the League.

LONDON, Aug. 25. Forty Liberal Members of Parliament held a meeting in the House of Commons to-day and resolved to support the Irish National League, as they were satisfied the organization was purely political. Twenty other Liberals wrote letters expressing sympathy with the purpose of the meeting. No party leaders were present.

The Salvation Army Attacked

QUEBEC, Aug. 25. While the Salvation Army were celebrating their fifth annual jubilee here to-day they were attacked by a ruffianly mob with stones and sticks. Fifteen members of the Army were seriously injured and many more slightly. No arrests have yet been made.

The Thistle.

NEW YORK, Aug. 25. The Scotch cutter Thistle will hoist her canvass to-morrow for a spin about the harbor. The sailors worked hard to-day, and by sunset all the heavy canvass was in position.

Insignia Presentation.

ALEXANDRIA, Aug. 25. The Duke of Connaught has invested the Khedive with the insignia of the Order of the Bath as a jubilee token from Queen Victoria. The first attendance at the presentation was very brilliant.

Weather Bulletin.

TORONTO, Aug. 26—10 a. m. Moderate to fresh winds, shifting to west and northwest, clearing weather, not much change in temperature.

Canadian Notes.

The Globe recalls a characteristic anecdote of the Dominion Premier. They say that Sir John, in the old days before us, consented to give a sketch of his career to the publisher of "biographies of very remarkable Canadians." In due time the book reached him, accompanied by a bill "for inserting notice." "Hang the fellow," said John A., "the chap's worse than a highwayman—he asks for both money and life."

The officials recently appointed under the Ontario Factory Act have completed a preliminary inspection of the factories in the province. Of the three inspectors, two, Messrs. Roque and Barber, visited the principal factories in Eastern Ontario, including those at Cornwall and Almonte. Upon their report the way the new act is to be enforced will depend. They declare the factories already visited to be in a satisfactory condition. The manufacturers were willing to co-operate and observe the new law whenever the defects were pointed out to them. They found very few cases of children employed under legal age, that of 12 for boys and 14 for girls. Some improvements were necessary in fire escapes on the higher flats of large mills and also the sanitary arrangements required changes in conformity with the act. They noted that young women were earning high wages in a number of mills, owing to their industry and skill.

It is an unfortunate circumstance that statistics should show that crime in the United States is decidedly on the increase. It is undoubtedly the case that the foreign element in the population furnishes the larger proportion of criminals; but the number of cases of crime occurring among native American is still unduly large. This is not a result that would have been anticipated a generation ago when hopes were running high as to the effects upon public morality of popular education. It is also disappointing to think that the vast amount of work that has been done of late years in the way of circumscribing the liquor traffic should not have told more favorably on the statistics of crime. It is evidently true that our neighbors should bestir themselves more than they have hitherto done in the cause of social order. Far more important than the question as to who shall next fill the Presidential chair is the question whether life and property are going to be increasingly secure or increasingly insecure in the years to come. More important than the strengthening of the navy is the improvement of the domestic administration of justice. There is very little threatening the Republic from without just now; but with a high and increasing crime rate there is serious danger from within.

Naval Notes.

The British flagship Bellerophon, accompanied by the tenders Canada and Tourmaline, after spending the forenoon at target practice off St. Peter's Island, arrived in the harbor about four o'clock yesterday afternoon, and are now anchored off the wharves.

The Bellerophon, which is 7,550 tons register, and 6,520 horse power, carries some 700 men and 20 guns.

The Canada is a screw corvette, 2,380 tons register, 2,430 horse power, carrying about 240 men and 10 guns.

The Tourmaline is a composite corvette, 2,120 tons register, and 2,000 horse power. She carries about the same number of men and guns as the Canada.

Since December last all three ships have been refitted with torpedoes, etc.

The ships will remain in port until Sunday morning next, when they sail for Quebec and expect to return to Halifax in about a month's time.

The officers of the ships will be entertained at a ball at Government House to-night; and, should the weather prove fine there will be cricket and tennis matches at the Park.

The ships will be open for the inspection of visitors from noon until about four o'clock of each day during their stay in port.

His Honor Lieut.-Governor Macdonald and suite visited the Bellerophon this forenoon and the usual salute was fired in their honor.

Quite a large number of visitors went on board to-day.

The Bellerophon gave an exhibition of the electric light last evening, much to the edification of a large number of people on the wharves who pronounced the "searcher" simply wonderful.

The market to-day was fairly well attended and stocked, and sales were somewhat lively at the following prices: Beef (small) 7 to 12 cents per lb.; do per qtr 6 to 6 1/2; black currants per quart, 10 to 12 cts; butter, (fresh) 18 to 20 cts; butter, (tub) per lb., 16 to 18 cts; cabbage, per doz., 60 to 72 cts; ducks, per pair, 70 to 75 cts; flour, per cwt, \$2.25 to \$2.75; Gooseberries, per quart, 16 cts; hides, 6 to 6 1/2; hay per 100 lbs., 30 to 35; ham per lb., 10 to 15; lamb, per lb., 4 to 6; mutton, per lb., 5 to 8; oats, per bushel, (black, 28 to 30; oatmeal per cwt, \$2.30 to \$2.50; pork, (small) 6 to 8; pork, (carcass) per lb., 5 1/2; potatoes, 30 to 35; straw per load, \$2; sheep pelts, 25 to 30; eggs per doz., 12 to 14; fowls, per pair, 35 to 45; blueberries, 3 cts; raspberries, 10 to 12, cherries, 20 to 25 cts.
