They were used for speedy delivery of express and for freight in less than carload lots. The practice of using trucks to supplement train service for these two types of handling goods had become general in the Maritimes, Mr. Gordon said.

Mr. McLure asked the C.N.R. president if any steps were being taken by the railway to ensure security of travel on the "Abbeville" in event of a future railway strike such as occurred in 1950.

Mr. Gordon said the matter had been given considerable thought and would come up for active discussion this fall.

When speaking of the proposed C.N.R. bus service, Mr. McLure jokingly told the C.N.R. president that he had decided not to repeat the remarks made some months ago by P. E. I. Premier Walter Jones on the issue of Canadian National Railways efficiency.

"Don't hold back, Mr. McLure," Mr. Gordon said, "we're here today to answer questions and to take anything the members have to shoot at us."

The Queen's member asked if the Railway was taking any steps to prevent recurrence of the fatal accident at Traveller's Rest three months ago when two persons lost their lives. Mr. Gordon said he was not aware of the tragedy and presumed no application had been made for protection of a crossing. He assured Mr. McLure he would enquire into

Report Little Ice Off East Coast of P.E.I.

Reports last night indicated that the east coast line of the island was relatively free of ice formation, and lobster fishermen, except in the Murray Harbor area, expected to experience little difficulty running lines today at noon. All along the north shore of King's to East Point the coast is clear of ice, and continues free to Panmure Island except for a small loose ice pack which floated in off Souris yesterday.

From Panmure to Cape Bear another loose ice pack is located, while to the south there extends a large ice formation along the south shore.

The bait situation looks good, two vessels having arrived at Georgetown and one at Murray Harbor from the Magdalen Islands. Another vessel left for Pictou Island on Monday, but was obliged to return to Georgetown owing to an ice pack which came down the strait from near the Pugwash area.

However, it is understood that the vessel got through to Pictou Island yesterday. Locally herring are reported running light, about one hundred herring to a net, but the situation is expected to improve in the next few weeks.

Mrs. J. B. Murley of the Canadianization Committee reported that 3 large parcels of good used clothing and some new babies and children's clothes had been sent to families of new Canadians in our Province. More parcels will be packed in the chapter rooms next Friday as a number of donations were brought to the meeting.

Mrs. E. V. Bell, liaison officer for C. A. C. spoke on the need of more members for that organization, stressing the fact that its strength is in its membership.

The regent was named delegate to the national annual meeting which is to be held in Niagara Falls from May 31 - June 4th, and money was voted toward her expenses.

On leaving the committee room and the Parliament Buildings, the C.N.R. president reminded Mr. McLure that he owed him either a luncheon or a dinner as the result of an argument during the sittings of the 1951 Commons railway committee. He said he had not forgotten the wager and would make good at an early date.
