Girl Quarrels

cause I know she isn't... DEAR V.Y.: Taking the story at face value, one feels sympathetic to you in this hassle.

Furthermore, your heartick distress caused by the ugly row with your mother and her improper chiding of your undressed sister, is something you have normal sensibilities that you have a sound inductive yearning for the right kind of deal in family relations; also that you aren't a pushover for unfair treatment.

All things considered, including the fact that you are a minor, it is best to unburden your problem to a professional counsellor at the Telephone Service Society (see telephone directory) in a friendly agency in your town.

As your parents are well fixed, you don't make sense, according to the rules of our society? (But perhaps she is an immigrant?) Her harshness hurts; it is a trouble breeder; it robs you of dignity, initiative and filial respect for her character.

Home Damaged By Lightning

During Monday evening's severe electrical storm a bolt of lightning struck the home of Mr. and Mrs. Addison Rayner, Alberton, causing minor damage. The bolt struck the house with a terrific report tearing a hole in the kitchen wall and giving the occupants a bad fright. No one was injured and fortunately there was no fire.

Sport Echoes From Prince County

Here we go again, folks! The muse has smiled at us again. A rather sickly grin, perhaps, but we'll act on it anyway.

The Ballad of Dorothy Peters With the grace of silken oysters, One of Summerside's fair daughters Plunged into the midnight waters From Cape quite near to Tormentine.

With a crawl-like locomotion O'er a tide-swept arm of ocean, Smoothly swam without commotion, Flutter kicking through the phosphorus brine.

Buffeted by wind and breaker, Hope did never once forsake her, Neptune's rudeness could not shake her, Like Columbus she went on-- and a visit to several places in N.B. and Bangor, Maine.

Through the lonely night she breasted Monstrous looking waves, foam-crested, Full her stubborn will was tested Ere the darkness changed to rosy dawn.

In the motor boat beside her Donald Smith was there to guide her, Ever ready to provide her With everything from soup to soup sat Tony Coles In a wildly pitching dory Adding interest to the story. Sort of sharing in the glory. As they all crept closer to the Borden shoals.

As the swim was nearly ended, Folks on shore with gazes bended Saw a dot (no pun intended) Bobbing half a mile from Borden piers. Then with brother Alban pacing, Dorothy came quickly racing. Spouse and children soon embracing. To the tune of many Island cheers.

Norm Haney, after having a lot of trouble with his control during most of the softball season, struck his full stride just when he was needed the most. The Crystal Dairy tagged him with a defeat on Saturday afternoon, and he came back to clinch the semifinal series with a four-hit performance that evening. Then he led the Sunshine Dairy down with three hits to win the first game of the finals. He will be tough to beat if he doesn't suddenly lose the magic touch again.

The Halifax Chipettes eliminated the Sportettes whom we saw play in Summerside last year, before they took over Capital Stars, and the team looked quite a bit stronger than last year's Sportettes. They had lots of hustle, were exceptionally fast at fielding ground balls, and getting them over to first, and they knew the game thoroughly.

Our girls didn't do too badly considering the caliber of team they were up against. They were a bit jittery starting out, and played a bit under form, but on the whole put up a pretty fair battle. Their power hitters weren't coming through with those extra-base hits, however.

SWIMMER CONGRATULATED BY PREMIER

Successful swimmer of Northumberland Strait, Mrs. Dorothy Peters, 23, of Summerside receives congratulations from Hon. A. W. Matheson, Premier of Prince Edward Island as she rests in the cabin of Captain Herb McKenzie, entering the water from the New Brunswick shore 45 minutes before midnight Saturday night before

and tides from Cape Tormentine, N. B. to Borden, Prince Edward Island. She fulfilled the confidence she expressed on the eve of her swim in the story under her photo in Saturday's issue of the Guardian held by Premier Matheson.

Entering the water from the New Brunswick shore 45 minutes before midnight Saturday night before the ship gave spontaneous expression to their admiration of this courageous girl with a collection of \$50.00 which they presented to her.

Among those present to witness the completion of the swim was her husband, Henry Peters, with whom she and the two children left on Monday of this week to take up residence in Sydney, N. S., where he is employed in a bakery. (Photo by Wotton).

S'ide Board Of Trade Council Protests Site Of New Civic Auditorium

A meeting of the council of the Summerside Board of Trade held last night in the Court House resulted in a decision to prepare a strong resolution to be presented to the Mayor and Town Council protesting their decision to build the new auditorium on the Brennan property, which is now owned by the town of Summerside.

Mr. J. F. Arnett led the discussion and said that the citizens of the town were justly proud of the many improvements that have been made by the Mayor and his Council and particularly commended them for their foresight in purchasing the Brennan property for \$20,000. It was, he said, one of the few remaining beauty spots in the town.

Mr. T. E. Hickey said that he was in favor of the plan of the council to build the auditorium on the Brennan property. Plans for the building were now drawn up and in his estimation it would mean a further outlay of \$30,000 to change them at this late date.

Mr. R. S. Hinton, Q. C., said he did not think that it would be too late or too expensive even now to make the changes. He referred to the last minute change that had been brought about when it had been planned to erect the new Federal Building on the Allan property instead of on its present location.

The beneficial results of the change are such that they can hardly be estimated. He agreed with previous speakers that there would exist a constant danger to the lives of the children in crossing the busy street to get to the auditorium from the school.

According to present plans it is proposed to build both the auditorium and the new High School on the Brennan property. As a compromise, Mr. Hinton advocated that the auditorium be erected on the land north of the present school and the High School on the Brennan property, facing Summer Street. Such a plan would leave the lower part of the property clear for any future plans that might arise.

His suggestion met with the favorable approval of the various citizens present including Mr. Leslie Simmons, Mr. E. P. Foley, Mr. L. A. and Mr. John S. Wright. Mr. Wright said that the Board of Trade should take immediate steps to present all the arguments to the Town Council at the earliest possible moment.

Lake Ontario Marathon Swim Begins This Morning

TORONTO (CP)—The Canadian National Exhibition Tuesday night announced its cross-Lake Ontario marathon swim will start at 4 a.m. ADT today.

CNE president William A. Harris announced here that weather conditions were improving rapidly this evening and the swimmers would definitely leave Niagara-on-the-Lake today.

However, he said there was some possibility of delaying the start beyond 3 a. m. if the weather did not improve as rapidly as forecast.

Mr. Harris made the announcement at 8 p. m. ADT Tuesday. He said a simultaneous announcement was being made to the 35 entrants who have been waiting since Monday at the port on the mouth of the Niagara river.

Stiff winds were blowing across the lake at the time of the announcement but Mr. Harris said forecasts indicated they would abate sufficiently to start the swim early in the morning.

The swim, originally scheduled to start at midnight Labor Day, was postponed Monday night when the lake was calm as a millpond and many entrants made no secret of their annoyance. However, as the weather bureau predicted, the winds blew strongly on Tuesday.

OSLO (AP) — Hungary's Laslo Tabornosi nudged Denmark's Gunnar Nielsen in a sensational 1,500-metre race in which both clipped a full second off the listed world record of 3:41.8. Each was timed in 3:40.8.

At first it was ruled a dead heat but the judges then announced the Hungarian as the winner. John Landy's 3:41.8 is the recognized world mark for the metric Sandor Baros, ran a 3:40.8 1,500-metres July 28 in Helsinki, mile but Tabornosi's countryman.
