OUR NEWS BUDGET for OUR SATURDAY SUBSCRIBERS

MONDAY

The fourth annual meeting of the Maritime Wildlife Federation will be held aboard the M. V. "Abegweit" as she plies on her regular runs between Borden and Tormentine on the evening of September 18th.

This popular meeting place has won favor with the members of the organization residing in New Brunswick and Nova Scotia, as well as the Island representatives, as evidenced by the increase in attendance each year since it's adoption as a rendezvous by the Fish and Game Association leaders from each of the provinces.

During heavy electrical storms that swept the south shore district yesterday afternoon, a barn owned by Mr. James McMahon of Kelly's Cross was struck by lightning and burned to the ground.

When the barn was struck Mr. McMahon was sitting in a car in his yard with three other men. So sudden was the destruction by fire that nothing could be done to save the barn. The loss included one calf, one threshing outfit and a large quantity of hay. The building was the main barn of the farm.

The wind at the time was blowing in a direction that carried the flames away from the house nearby and this, together with the heavy rain falling at the time, prevented the loss of any other building.

As far as could be learned last evening the storm had caused no damage in the Summerside or western sections of the Province.

TUESDAY

Mr. Floyd MacKinnon was re-elected president of convention officers at the annual convention of the Churches of Christ of P. E. Island at New Glasgow, P. E. I., which included a three day session with three meetings on Sunday.

The Young People's program opened on Friday evening with a devotional period led by Mr. Elmer Nicholson followed by an address "The Challenge of Youth" by Mr. W. O. Weale.

No lack of confidence in the Maritime Central Airways or its workmen is expressed in a reply received by Mayor J. D. Stewart to a telegram sent to the Minister of Defense Production, Ottawa, protesting aggravation of the employment situation here by reason of the R. C. A. F. ceasing the maintenance work being done at M. C. A. Little hope however, is held out for a resumption of activities.

The reply came from Mr. T. N. Beaupre, Assistant Deputy Minister, and was in answer to the telegram of His Worship following a meeting of the City Council on August 17 when a resolution was passed regretting the situation.

Conflicting interests and desires have caused a halt to be called in the Trans-Canada Highway project at Bedeque. As a result of overtures made by a large body of the travelling public and a resolution by the Town Council at Borden, a decision was reached to route the highway back of the village. Engineers were also anxious to avoid the bottleneck which would be occasioned in the centre of the village by the junction of two paved highways, according to officials of the Department of Public Works and Highways.

A strong delegation from Bedeque waited on Premier Matheson yesterday with the request that the matter receive furher consideraion, and as a result the subject will be dealt with again at an early meeting of the Government.

—A squadron of the Naval Air Arm of the Royal Canadian Navy presently based temporarily at Scoudouc, New Brunswick, will move to the R.C.A.F. Station at Summerside before the end of September, according to reliable but unofficial information.

Two types of single engine aircraft are used by the squadron—the Sea Fury, a single seater, is said to be the world's fastest propellor driven, conventional navy fighter, and the Avenger, which normally carries a crew of three, and which is said to be the largest single engine aircraft still controlled by a "joy stick".

The Air Navigation School now located at Summerside will be moved to Winnipeg following the last wings parade at which student navigators will graduate from the Summerside Air Station. This wings parade will probably take place at Summerside about September 11th.

With a majority of rural schools already open and city schools due to start early next month, officials of the Department of Education have been giving serious thought to conditions which may be encountered this term.

It is expected that as in past years the early grades will be crowded, and this condition is expected to obtain for several more years. This September will see a change in the curriculum as the Province is making Grade XI uniform in all parts of the Island. So far as the schools themselves are concerned there will be little change with the only variations from other years being the result of installations of small laboratories or libraries.

There are approximately five newly constructed schools opening this term in rural areas and another five presently under construction.

No shortage of teachers is anticipated as there is presently a sufficient supply although not all may be fully qualified. There will be a number of "permit" teachers in the profession again but Dr. L. W. Shaw, Deputy Minister of Education, believes that in this respect Prince Edward Island is better off than other Canadian Provinces.

All schools have already opened excepting those in this city and in Summerside which by custom open the day after Labor Day.

WEDNESDAY

—On charges of marketing potatoes without a producer's license, Mr. Aden Mulligan of Emerald, R.R., and Mr. Delbert Rayner of Travellers Rest were each found guilty in county magistrate's court before Magistrate R. S. Hinton, Q.C., at Summerside yesterday.

James Bulpitt. Rev. Francis Metherall and a host of others.

The minister, Rev. J. Murdock Fraser, conducted both services. with the large church choir leading the service of praise.

Mr. Hammond Bowness of Bedeque carried away top honors at the second annual provincial flower show at Summerside yesterday. This two-day show is sponsored by the Abegweit Chapter of the I. O. D. E. and this year, as last, is being held in the Baptist Church hall.

Spraying for potato late blight is now more important than at any previous period during this season, states the weekly bulletin issued by the Science Service Laboratory. Recent weather conditions have been exceptionally favourable for the development and spread of this disease, and all fields should be treated thoroughly and frequently if the health of the plants is to be maintained.

Mrs. W. E. Cotton of Charlottetown retained the Prince Edward Island ladies' golf championship yesterday as she shot a 103 over the Summerside Golf Course for a two round score of 203.

Mrs. Cotton, who went into the final round in fifth position six points behind the first round leader Mrs. Fred Cannon, played steady golf as she stroked her way to her second Provincial championship in two years.

The other event took place in 1903 and at that time the gallery was removed and the auditorium enlarged 12 ft. in length. The method used was to cut the church in the middle and move both ends out. A spire was added and it is noted that the Scotch Thistle which adorns it cost only five dollars, certainly much less than it would cost today.

Only two candidates nominated in Fourth Queens District on Nomination Day yesterday. The by-election was made necessary in order to fill the Provincial Legislature vacancy caused by the naming of former Premier J. Walter to the Canadian Senate.

The official Opposition, the Progressive Conservatives, did not name a candidate in the traditional Liberal stronghold.

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
