Toronto Stocks

TORONTO, (CP)—Profit-taking hit all sections of the stock market Tuesday and the trading pace eased to the slowest in two weeks.

All major sections closed with a majority of losses but drops in individual issues were mostly small. A few scattered issues climbed sharply on strength of rumors.

Imperial Oil featured industrials, hitting a 1954 high of $39.87 1-2 and closing at $39.25 for a $1.50 gain.

Most changes were less than a point but International Pete climbed $1. General Dynamics lost $2.25.

Most Uraniums ended lower but a half-hour before the close a rumor hit the market that the federal government will build a custom uranium smelter in the Bancroft, Ont., area. Issues with holdings in the area reacted. Centre Lake gained 33 cents on the day, Croft Uranium five cents and Faraday two.

Western oils ended with a two-to-one majority of losses although the index showed a small gain. Peace River Gas dropped 35 cents. Bailey Selburn A and Husky each gained 35.

Senior base metals eased minor fractions and juniors lost pennies. Senior golds were steady, juniors narrowly ahead and prospects easier.

Geologists Seek Fresh Finds Near N. S. Copper Mine

ANTIGONISH, N.S. (CP)—Crews of geologists armed with the latest scientific paraphernalia are looking for fresh finds near the site of an abandoned mine that produced about 1000,000 tons of copper for export before the turn of the century.

Early miners dug the shaft 300 feet deep and pushed out nearly 1,400 feet to develop the vein. The mine was abandoned early in the 1900s when the copper got too scarce to work economically.

If the detailed survey now under way by Sharpe Geophysical Surveys Limited shows pay dirt it will mean a big boost for this area on the Strait of Canso.

The economy is wrapped up with the ferry service across the strait and experts say it will be shattered when the Canso causeway is completed next year.

EXTENSIVE SURVEY

The geologists are probing a 22-square-mile area 18 miles south of here with electromagnetic and gravity metre surveys.

When the district is charted in detail, crews will follow up leads with diamond drills.

The work is being financed by a group of listed mining companing including Red Poplar Gold Mines, Consolidated Orlac, High Charger Petroleums and Durham and Red Lake gold mines.

The companies are reportedly in association with H. J. Isaac of Montreal, who optioned the concession from Northern Minerals Limited.

It is believed the group will form a new company to followed up findings.

Montgomery To Visit Ottawa

OTTAWA, (CP)—Viscount Montgomery, second in command of Allied forces in Europe, will confer here with Canadian military and government officials next month.

Field Marshal Montgomery will arrive at Montreal's Dorval airport Nov. 10 and fly immediately to Ottawa. He will remain here until Nov. 12 as guest of Sir Archibald Nye, United Kingdom high commissioner.

Later he will open the Royal Winter Fair at Toronto, visit Buffalo, N. Y., Nov. 16 and fly from Toronto to Washington Nov. 19.

Victor Hugo famous French writer used an inkstand in which the inkwells of three other celebrated French writers were combined with his own. The other three were George Sand, Alexandre Dumas and Lamartine. He would dip his pen alternately in the four inkwells.
