

THE DAILY EXAMINER

JUNE 20, 1894.

NOTES AND COMMENTS.

—What about band music in Queen Square Gardens? Is anything being done in the matter?

—Elsewhere in to-day's issue is published a letter received by Mayor Dawson from Professor Robertson regarding the approaching visit of the Governor-General. The subject matter of the letter is worthy of prompt consideration, and it is expected that there will be a large attendance of citizens at the meeting to be held in the City Council Chamber on Thursday afternoon.

—The general opinion is that the appearance of the city has greatly improved as a result of the removal from the principal streets of unsightly signs, posts, etc. Now the Electric Company are having their posts painted, and it is expected that in doing likewise. Much has also been done by private citizens in the way of improving their premises, and the painters have been kept very busy. Let the good work continue.

—The anti-Canadian crusade which has been in progress at Buffalo, N. Y., for some time past has just gained an important point. Heretofore the Street Railway Company has employed a very large number of Canadians annually. Street Commissioner Byrne recently proposed a grant of right of way to the company because of this fact, and had the grant tabled. President Watson, of the Street Railway, now announces that hereafter only citizens will be employed by the company.

—In yesterday's issue it was announced that J. R. Hooper had been sentenced to twenty-five years imprisonment for attempting to drown his wife at Louisville, Quebec, about a year ago. It will be remembered that Hooper was tried last autumn for murdering his wife by poison, and was acquitted. During the progress of that trial the facts connected with the visit of Hooper and his late wife to Louisville, and her escape from the river at one o'clock in the morning, were brought out. But at that time they were only regarded as links in the chain of suspicious circumstances that preceded the death of the unfortunate woman. But after Hooper's acquittal on the charge of causing his wife's death by poison, it occurred to the authorities in Quebec to try him over again on the charge of having attempted to drown his wife.

—The Montreal Gazette expresses the opinion that the "killing" of Mr. Charles Sunday Observance bill will not cause very much regret. Our contemporary points out that while in its original shape the bill was calculated to produce little good, in its amended form it was useless. The measure was a compromise, and compromises on matters pertaining to the principles of christian duty must be failures. It prohibited some kinds of labor on Sunday and permitted others not a whit more necessary. It allowed the canals to be operated for the benefit of grain dealers; it forbade daily newspaper publishers to work save on lines that would in practice deprive their employees of their day's cessation from labor they now enjoy. It forbade Sunday trains, but assumed that railway operating staffs would be on duty on Sunday in case they should be called on for a work of mercy or necessity. In fact, says the Gazette it was so framed as to fail in its purpose.

PERSONAL.

Angus McLeod, Esq., Brown's Creek, is visiting Charlottetown.

Mr. A. C. McDonald, M. D., Warsaw, Indiana, is at the Queen Hotel.

Mrs. F. J. Nash left this morning for a visit to Dr. and Mrs. McKay, of Halifax.

J. A. Nichols, Montreal, and G. Crawford, St. John, were at the Hotel Davies this forenoon.

Mrs. Dr. McMillan, of Summerside, P. E. I., is in the city visiting her father, Mr. James Fitzpatrick.—Moncton Transcript.

Hon. David Laird and Rev. D. Sutherland, who have been attending the Presbyterian Assembly at St. John, arrived home last evening.

Mr. J. Louis White, who was in Charlottetown last week, is at the Hotel Davies.

Mr. Fred Sawyer, who was for many years pastor of the Boston & Atlantic line's steamers, is at the Halifax.

Mr. J. J. Cremer and Miss Cremer were passengers by the western train on Sunday night. Mr. Cremer is to be married at Boston on Saturday next, and his bride leaves for Europe on the same day.

A number of his friends were at the station last night to express their well-wishes.—St. John Globe.

A MATHEMATICAL WONDER.—Rube Field, the Waterbury, Pa., mathematical wonder, is an interesting case. His pastime is to give off-hand answers to problems like this: "What will 3294 yards of calico amount to at 51 cents per yard with a discount of 5 and 21 per cent. It takes but a moment for him to answer such questions, and the reply is said to be invariably correct.

WEST INDIA TRADE.—On the 11th inst. the schr. Ida, Capt. Fraser, took from Summerside the following cargo, shipped by Messrs. A. M. Wright & Co. for the British West Indies: 12,000 bush. white oats, 10 horses, and sundries, value \$6,746.

On the 13th inst. the schr. Bertha H., Capt. LeGain, cleared for Barbadoes, 10,150 bush. oats and 20 cases lobsters, valued at \$4,700, shipped by the same firm.—Summerside Journal.

THE COGNAN AFFAIR.—On Monday Miss Gertrude Cognan sent the following letter to the Halifax Chronicle:

DEAR SIR:—In your paper of this morning there were several misstatements I should like to set correct. Mr. Cognan (my papa) is ill, quite seriously, and as it is most important to keep him very quiet mamma (Mrs. Cognan) thought it best to travel in his family and mother's name. There is no mystery in our doing so. He has no desire to conceal his identity. Miss Beveridge (who is still in New York) did not leave Mr. Cognan. He came back to us. It is the opinion of his doctors, as well as of all his friends, that he was not responsible for his actions at the time of the midnight ceremony in Indianapolis. He is in no way being treated so ill as it is doubtful if he will leave Halifax at present. I shall feel greatly obliged if you will kindly put these statements in your paper, as we have many friends in Canada, and it is our home.

CITY COUNCIL MEETING.

An emergency meeting of the City Council was held last evening. Present: His Worship Mayor Dawson and all the Councillors, excepting Councillor Hughes. His Worship explained that the meeting was called to take into consideration a letter from the Department of Public Works, Ottawa. He then read the correspondence in connection therewith, from Hon. L. H. Davies, Senator Ferguson, Thos. Fuller, Government architect, and E. H. Roy, Secretary of the Public Works Department. Considerable discussion, pro and con, as to the location of the Sanitary arrangements in the market building, then took place.

Resolved, that the sanitary arrangements of Market House be placed inside the centre of the market, on the north wall.

The motion carried on the following division:—Ayes—Fennell, Douse, Tanton, Taylor—4. Nays—Hazard, Robertson, Hooper—3. Moved by Councillor Hooper and seconded by Councillor Fennell.

Resolved, that the sanitary arrangements for the Market building be referred to the Market Committee, and that they be authorized to have plans prepared, said plans to be submitted to a meeting of the Council to be called for such purpose before the next meeting, Carried. Council adjourned.

Immediately after the adjournment of the Council, an informal meeting of the Board of Health was held. Mayor Dawson, President of the Board, stated that a case of scarlet fever was reported to him by the health officer, but in view of the mildness of the case, and on Dr. McLeod, the attending physician's statement, that all necessary precautions had been taken, he had done nothing in the matter. All the members of the Board concurred in the action of the Mayor.

THE GOVERNOR-GENERAL.

Prof. Robertson writes Mayor Dawson concerning His Visit to the Island. His Worship Mayor Dawson yesterday received the following letter from Prof. Robertson:—

Dear Sir:—His Excellency the Governor-General has been pleased to intimate that he will attend at least one gathering of farmers and others on P. E. I., to be held in connection with the dairying service of the department of Agriculture. I would like to meet you and such other gentlemen as you may desire to invite to discuss the dates, local arrangements, etc., on Thursday afternoon of this week, at say, 2 o'clock.

I believe that the occasion of His Excellency's visit can be made one which will render good service to the material interests of the Island, in regard to agriculture and other matters; and I trust you will be joined by the Board of Trade in the endeavor to make it an entire success. (Sgd.) JAMES W. ROBERTSON.

Mayor Dawson will accordingly call a meeting on Thursday, at 2 o'clock, in the City Council Chamber, and invites his fellow citizens interested in this matter to attend. It is hoped there will be a large attendance.

THE MARCH OF SCIENCE.

Believed by Surgeons a Cure for Cancer May Have Been Found. Surgeons of Chicago and New York and other cities of this country and Europe are watching closely the developments of a new cure for cancer or sarcoma. The latter is a most malignant form of tumor, and until recently was considered incurable.

The cure is the inoculation of the tumor with toxic products of erysipelas, or in other words the germ of this disease. The fact of the curative agency of erysipelas in contact with sarcoma was an accident and I came through the fact of the existence of erysipelas and cancer in the same patient at the same time. It is believed that Dr. William B. Coley, of the Post-Graduate Medical School of New York was the discoverer.

Subsequently sarcoma was treated with erysipelas germs, but further research suggested changes. It was found that to inoculate the tumor with the poison of the germ the same effects were produced and the objectionable feature of propagation of the erysipelas germ was avoided.

The city treasurer of Iron Mountain, Mich., gets a salary of \$160 a year and gives a bond of \$150,000.

PRESBYTERIAN ASSEMBLY.

St. John, June 18.—The meeting opened with singing by the Assembly, and prayer by Principal Grant.

The section of the home mission report requiring that graduating students and ministers from other churches be required to give at least one year's service in the mission field before being eligible to a call was referred to presbyteries and college senates for their opinions.

The finance report, western section, for 1893-94, was read by Rev. John Y. Reid. The report contains a statement of the money received, which, because of the year being a hard one, shows a diminution in nearly every case, the largest being the Foreign Mission fund. During the year, copies of the minutes of last Assembly had been received, which, because of the whistening Conference, the Methodist Church of Canada, indicted to meet in London, Ont., in the month of September next.

The Assembly was asked to decide whether the present system of distribution should be enforced this year as last. The business of the Assembly this afternoon consisted of discussions on finance and statistics.

At 4:30 occurred a pleasant interruption when the delegates from the Church of England, the Established Church of Scotland, and the Baptist churches of St. John were received and addressed by Mr. Chalmers, P. in the Dominion House of Commons, and a strong feeling was manifested against the Senate for its action thereon.

It has been decided to hold the next Assembly in London, Ont.

It is expected the Assembly will complete its labors on Wednesday or Thursday.

GENERAL TELEGRAPHIC NEWS.

VIENNA, June 18.—Since the great hail-storm in Vienna there have been continuous rains and cold weather. Everywhere in Austria the wheat crop has been damaged by frost and snow.

MALTA, June 18.—The British ironclads Spania Parail and Howe and the cruiser Sappas have been ordered to Tetuan, Morocco, to guard British interests in case of rebellion against Abdul Aziz.

LONDON, June 18.—The Madrid correspondent of the Standard says: "England, Spain and France have postponed their recognition of Abdul Aziz as Sultan of Morocco, owing to the refusal of Germany, Italy, Austria and Belgium, to act in concert with Spain. This refusal is due to Spain's dilatoriness in securing ratifications of commercial treaties."

CORK, June 18.—The Pope has appointed Monsignor Brown to be Bishop of the Diocese of Clerrif (Queen's County). The appointment has greatly incensed the National party, who are furious at the rejection of Canon Keller, who was imprisoned for refusing to disclose the secrets of the "Plan of Campaign." Canon Keller was selected by the laity of the diocese for the bishopric, and his name was placed at the head of the approved list of candidates.

VIENNA, June 18.—Count von Larisch, owner of the Karwin mines, where the explosions occurred last week, will pay to every woman who lost her husband in the explosion a pension of 1000 florins yearly to every one of her children 12 florins yearly up to the 14th year. Thirty-five hundred miners will be out of work while the mines are repairing. During this period Count von Larisch will give them half pay. The supposition is that an earthquake forced explosive gases into the mines.

OBESSA, June 18.—News of a collision in the Sea of Azov, between the Greek laurque Egypt and the Russian steamer Maroussi, has just been received here. Both vessels sank. Four of the crew of the Egypt, and twenty-two of the Maroussi were drowned.

BOUR, June 18.—The government has received news from the African district of Ouhanghi, bordering on the Congo State, that the French and Belgians there are on bad terms. The hostile feeling grows out of disputes in regard to the occupation of that territory. As was announced in the French Chamber of Deputies by M. Hanotaux, French troops are en route to the Ouhanghi country, but the Belgians there greatly outnumber the French, and in these circumstances a conflict would result very seriously to the latter. It is hoped an armed collision may be averted by negotiations between the governments of Brussels and Paris.

FOR CRAMPS in the stomach take a few drops of Dr. Manning's German remedy, diluted in either warm or cold water. The effect is instantaneous. Sold by all druggists.

Mrs. Martha Needle, a widow, keeper of a lodging house at Melbourne, Australia, has been arrested, charged with attempting to kill one of her lodgers named Jucken by giving him arsenic. From discovery she was released on bail, but the woman's husband and three children and Jucken's brother, all of whom died recently, were poisoned by her.

SIXTY DOLLARS FOR HIS BRIDE.

Undo Brought Her to America, But Kolloro Settled the Bill.

An interesting case was settled by Alderman Dundas last week at Wilketts, P. The prosecutor was a Hungarian, who insisted that the expense incurred in bringing a young woman from Hungary should be paid by the man who had won her heart from him and had married her. John Undo, who came to this country some time ago, left a sweetheart, Mary Nico, in the old country. When he had saved a little money he was advised by Mary's aunt, Mrs. Koloski, to send to the old country for the girl. Mary was sent for and she came. There was a reception at Mrs. Koloski's on the night of Mary's arrival. Undo took a friend, Michael Kolloro, to see Mary, and the friend fell in love with her. Several weeks passed and one night Michael and Mary were quietly married.

Undo then argued that the bridegroom should pay the \$60 which he had expended in bringing Mary to this country. "Mike" declined to listen to the demand, but Alderman Dundas told him that he had been sent to each elder, he got the girl, and that she ought certainly to be worth \$60. "Mike" finally agreed to pay the bill.

SENSATION IN FREDERICTON.

Rev. Fenlow Alexander and Professor Stockley

Leave the Church of England for the Church of Rome.

FREDERICTON, June 20.

The community was startled yesterday with the report that the Rev. Fenlow Alexander, sub-dean of the Cathedral and right hand man of Bishop Kingdon, had renounced the Episcopal faith and intended to join the Roman Catholic communion. The intelligence was received with incredulity, but was confirmed by Bishop Kingdon who at the afternoon service in the Cathedral formally made the announcement of his sub-dean's change of views, and proceeded to suspend him from his ecclesiastical functions. The convert to Rome is an elderly man who has been many years in the Cathedral. He was previously chaplain in the Royal Navy. He is a retiring and quiet man, little known locally but greatly respected for his learning and his charitable disposition. The Alexander case is not the only sensation. Professor Stockley, who for three or four years has held the chair of modern languages and literature in the University of New Brunswick, has also gone over to Rome from the Church of England. In fact, it is supposed that his powerful mind has had much to do with right hand man of Bishop Kingdon, in whose house Professor Stockley has been living.
