We notice in the *Islander* an address to Benjamin Davies, Esq., purporting to be signed by 93 electors of the Fourth District of Queen's County, requesting him to offer himself as a candidate for the District at the ensuing election. It is chiefly silent on all public principles, except Confederation, which it denounces. Mr. Davies replies to the address, gratefully accepting the nomination, and states that he will offer himself for the District on the no-Confederation principle whenever the time for an election shall arrive. The *Islander*, alluding to this address, says:—"If Mr. Davies should be returned by the electors of the Belfast District, we are of opinion that Mr. Palmer will be spared the trouble of attempting to form a coalition." What does all this mean? Has Mr. Palmer—who is really politically nowhere at present—been meditating or preparing for a coalition, and with whom? It is a noticeable fact, that the Attorney General and the Queen's Printer—very prominent office holders under Government—do not seem to tolerate their horses very comfortably together.

The editor of the *Patriot* has, in his issue of Saturday evening, again exhibited much concern in view of the relations which subsist between Mr. Whelan and his constituents. The pious editor is evidently chagrined at the prospect of Mr. Whelan's re-election; and as defamation and misrepresentation are quite congenial to his pacific contemporary, these means will be used to interfere, if possible, with Mr. Whelan's re-election. Instead of injuring, they will serve Mr. W. Our paper for the Second District of King's County, being part of our country edition, was printed before we noticed the venomous article in the *Patriot*, otherwise we would, perhaps, take a longer notice of it than we do at present.

Mrs. STEVENSON'S CONVERTS.—PRAISE-WORTHY LIBERALITY.—We understand that Mrs. Stevenson has already realized some £20, P. E. Island currency, clear of travelling and other expenses, for the object for which she has been giving a series of Concerts; and though the incessant rain caused several Concerts to be put off—and consequently entailed more expense—yet she hopes to be able to make £50 in all, by the time of her return, in aid of the poorer sufferers by the late great fire. This with the £10 already given, will make £60. We are requested to state that Mrs. Stevenson feels herself under great obligations to Capt. DeWald, H. M. S. *Cordelia*, now in St. John harbour, for kindly permitting some of the officers of his ship, including the only one who had anything to do with the public Tea party lately held at Souris, answer the Presbytery's summons in Cobble's words, with a few added, that:—"I'll see the little man," whom I believe proposed the resolution, commendatory of our Tea party, and all those of the Presbytery who then supported him, damaged ere I travel to Charlottetown or even one mile, to give any explanation of the matter.

I am, Sir, Yours, &c., A. LESLIE.

Souris, 2nd Oct., 1866.

### IMPORTANT ANNOUNCEMENT.

The *Islander* of Friday last announced, with something like an air of authority, that as soon as the Hon. J. C. Pope, President of the Council, will arrive here from England, words will be issued for a general election. Mr. Pope is now ten days on his way out, and may be expected here this week. The *Islander* would scarcely make the announcement in a semi-official form, unless advised or instructed to do so. It will confirm the general belief that we have alluded to in our issue of the 1st inst., that we will have the elections in November next. Still, we are all as cool as an autumnal day in view of the great event.

TO CORRESPONDENTS.

We have received two communications, one signed "Spud Digger," and the other "Swivel." They would both occupy at least three columns of this paper—they are written with much ability, but they are violently personal against some individual known to the writers, in the western part of Prince County, who parades his communications in the *Weekly* over the most signature of "Somebody." There is no public principle involved in this dispute; it is altogether a private one, which few besides the parties interested, could appreciate, and we therefore decline to entertain the communications referred to.

We publish in another column a clever and characteristic letter from A. Leslie, Esquire, Souris. Our correspondent—who is a good Presbyterian, no less—seems quite anxious to set a caper against the Bigots of the "Summer-side Presbytery" on the score of dancing, which they have condemned in an extra judicial *fiat*. Mr. Leslie has good sound sense, forcible argument, and solid information on his side—the "Presbytery," whose heels he trips up, have only senseless bigotry to support them.—The hard, obstinate Scotch head of our correspondent will carry him through any fray; and we advise the "Presbytery" to be chary of dealing with so doughty a fighter. We hope he will live many years to "employ and pay the pipe" on festive occasions similar to that to which his letter refers.

THE CIVIC ELECTIONS FOR HALIFAX took place on Monday last. They were as quiet as our own here in August last. Mr. Mayor Rieley has been re-elected, and all the Aldermen and Common Council men, with the exception of two.

A telegram recently received in Liverpool, B., states that a fearful storm had prevailed off the Indian coast, and that three large East Indian mail had been wrecked—the *Themis*, the *Vernon*, and *Zenobia*. The *Themis* was a fine ship of 800 tons, owned in Liverpool. The *Zenobia* was a comparatively new ship of 1,116 tons register, and owned by Messrs. Rathbone Brothers, of Liverpool. The *Vernon*, 911 tons register, was owned in London. The whole of the three vessels had their cargoes on board, and were homeward bound to England. The scene of the wreck was a place called Albano, outside the harbour of Bombay.

The St. John *News* of the 1st inst., says the equinoctial gale of the 22nd made great havoc with the telegraph lines in northern latitudes, and caused much damage to shipping. It was reported over the wires that a French frigate had been destroyed in the gale off St. Pierre, and that the bodies of one hundred persons had been washed ashore.

Excessive rains have completely flooded the low lands in the vicinity of Three Rivers, Canada, in some places the water is six inches deep in the grain fields.

On the passage of H. M. S. *Tenar* to Quebec, with the 53d Regt. on board, she experienced very rough weather and was on fire, but it was extinguished without much difficulty.

Governor Gordon at last consented to the recommendation of his council to remove the New Brunswick Railway Commissioners, viz: J. W. Lawrence, R. C. Stovell, and Francis Collins. Geo. Thomas (Chairman), C. H. Fairweather and Hon. J. Stanham have been appointed to take their places.

REVOLVING SCENES NEAR CALCUTTA.

A gentleman who has travelled nearly 300 miles through the districts southwest of Calcutta, in which the famine is raging, has sent to the *Times* the following details of the "sinking spectacles" which met his view at various parts of his journey.

"I started from Midnapore, a civil station about 70 miles south-west of the capital, on the morning of the 21st of June, and had hardly proceeded some seven miles when I encountered the painful sight of a man lying on the ground, who I again returned to this place.

"Rain had fallen heavily during the night, and the path was very muddy, and I was obliged to wade, when a little after daybreak I saw two bodies under a tree. As they seemed to be a man and a woman, I went to them, and found that the man was lying on his back, with a spear of corn left in him, an old man slowly dying from hunger. He appeared as if he had a thin piece of transparent and a rubber tightly drawn across his chest, and he was so emaciated that he could not get up. I gave him some beer, and he slowly lay on his back, and he died in a few minutes. His wife lay on her back, and she was so emaciated that she could not get up. I gave her some beer, and she slowly lay on her back, and she died in a few minutes. Her husband lay on his back, and he was so emaciated that he could not get up. I gave him some beer, and he slowly lay on his back, and he died in a few minutes. His wife lay on her back, and she was so emaciated that she could not get up. I gave her some beer, and she slowly lay on her back, and she died in a few minutes. Her husband lay on his back, and he was so emaciated that he could not get up. I gave him some beer, and he slowly lay on his back, and he died in a few minutes. His wife lay on her back, and she was so emaciated that she could not get up.
