Apl24tf

NURSING MOTHERS
want Scott's emulsion of cod-liver oil, almost without exception. So before they get to be mothers, eating for two is no small tax, continued for months. The emulsion not only is food itself; it gives strength for digesting usual food. If the milk is scanty or poor, the emulsion increases supply and enriches quality.

We'll send you a little to try if you like. **SCOTT & BOWNE, Chemists, Toronto.**

TIME TABLES.
(LOCAL TIME)

Arrival and Departure of Trains and Steamers.

TRAINS.

THE HILLSBOROUGH
Leaves Prince Street ferry wharf for Southport every half hour.

CARDIGAN NORTH NOTES
The farmers of this vicinity have finished harrowing their root crops. They report a fair yield.
Prof. Hugh E. McDonald, of New York, is visiting relatives here these few weeks past. During this time he has paid our school several visits. Miss Lannan, our popular teacher, has every reason to be proud of the well merited praise which he bestows on the management of our school.
Miss Mahar and Miss Hoar, of the city, are visiting at Mr. Michael Costello's.
Miss Florence McDonald has returned from Boston as her mother, Mrs. Alex McDonald, is dangerously ill.
Mr. Chas McCormack, of Woodville, is erecting a blacksmith shop on land purchased from Mr. D. D. Campbell.
We regret to say we are about to lose some of our most popular residents—Mr. D. McIsaac is auctioning off his property and intends making his future home in the United States. Report says also that Mr. Hugh Finlayson is about to take his departure. Mr. John McPherson, our popular music teacher, has left us to seek his fortune in Sydney, C. B. We wish him every success. His position here is ably filled by Mr. W. McKinnon, of St. George's.
Mr. Henry Green has secured the contract for rebuilding the Seal River Bridge, which had been carried away by the recent storm. Mr. J. B. McLean, of this place, is one of the many working on it.

The Westmorland Machine.
(St. John Sun.)
Today the Sun was permitted to see one of the triumphs of modern civilization. It was the ingenious mechanical device used in behalf of Mr. Emmerson in the Westmorland election. Superficially examined, it might be a tract. The first outside page is blank, and an oblong space nearly across the page is cut out. Page three has pasted over it the form of ballot used in Westmorland. This is clipped from the Moncton Transcript. The portion cut out of the first page or cover fits over this, so that when the book is shut the name of Henry Emmerson and the cross opposite can be seen. The elector whose vote is to be traced is asked to take this tract in his pocket. When he gets behind the screen he is to place the official ballot over the one pasted on the book, close the first leaf, mark his ballot for Emmerson, take out the marked ballot, give it to the returning officer and return the machine to the friend outside for purposes of identification. How does the elector know that the ballot has been marked for Emmerson? Behind the form of ballot, and between it and the sheet of paper to which it is pasted on the edges, is slipped a piece of carbon paper, such as typewriters use in "manifolding." Behind the carbon paper is placed a small square of white paper, which takes the impression of the mark made by the voter. These are so placed that the location of the mark is established, and the secret of the vote is revealed. As soon as one voter is dealt with the white square of paper is thrown aside, another is slipped in behind the carbon and the machine is again ready for action. The machine is so simple that a man could make a score of them in an hour, at a cost of perhaps five cents a hundred, supposing he could get his copy of the Transcript for nothing.

Tales Out of School.
An interesting comment on the way the new liberalism voices public opinion is afforded by the Richibucto Review, one of the government organs. The Review says editorially:
Mr. Leblanc's victory is especially due to the unity of effort and unselfish zeal of the liberal workers in every district in the country. No more earnest effort was put forth for the triumph of the liberal principle in any part of Canada than was manifested by one and all of the party friends in this constituency. Where all were so zealous it would perhaps be invidious to make special mention even of those who bore the heat and burden of the fray. The liberal party may well be proud of its band of workers, and on behalf of Mr. Leblanc we desire to thank one and all for their unselfish service in the recent campaign.
In the same issue of the same paper we find the following grateful letter:
Editor Review:
Allow me through the columns of your paper to thank, on behalf of the people of Molus river, James Barnes, M. P. P., H. M. Ferguson and other friends of the government who have been so kind in assisting us in securing money to build a road from the K. N. railway through to Molus River, and also for the way in which we were used on election. Never before, that I can remember, during any election was there so much money spent in Molus River and vicinity, and we trust that

HELPLESS.
The man trussed up so that he can neither move hand nor foot is in his helplessness a fair type of many a man affected by rheumatism. Often the disease only partially disables, and with crutch and cane the sufferer hobbles painfully about.
Rheumatism can be cured by the use of Dr. Pierce's Golden Medical Discovery. This great blood purifying medicine eliminates the poisons which cause the disease. It increases the activity of the blood-making glands, and so increases the purity and abundance of the blood supply, thus giving vigor and vitality to all organs of the body which depend for their health on plenty of pure blood. It builds up the body with firm flesh instead of flabby fat. The "Discovery" contains neither alcohol nor narcotics.
"I had been troubled with rheumatism for twelve years, so bad at times I could not leave my bed," writes Mr. E. J. McKnight, of Cades, Williamsburg Co., S. C. "It was badly crippled. Tried many doctors, and two of them gave me up to die. None of them did me much good. The pains in my back, hips and legs (and at times in my head), would nearly kill me. My appetite was very bad. Everybody who saw me said I must die. I took five bottles of the 'Golden Medical Discovery' and four vials of the 'Pellets,' and today my health is good after suffering twelve years with rheumatism."
Doctor Pierce's Pleasant Pellets assist the action of the "Discovery."

Read "The Malpeque Oyster at Home," by Rev. J. M. Withycombe of Summerside, with seven illustrations by the author, in the November P. E. Island Magazine. At all the bookstores. Five cents the copy.

if ever the time comes when we have an opportunity of assisting the government, or the friends of the government in any way, we will be only too pleased to do so.
Trusting I have not taken up too much of your space,
I am sir,
Yours very truly,
FARMER.
Molus River, Nov. 12th, 1900.

TRACADIE CROSS NOTES.
Smash the Machine on Dec. 10.
A Grit motto—"Hypocrisy, thou art a jewel."
Mr. and Mrs. Mitchell, of Battery Point, paid us a pleasant visit this week.
Mr. Bruce McAuley has returned from an enjoyable visit with his Black River chums.
Mr. A. S. McAuley, student at the Charlottetown Business College, has spent the past few days with his parents here.
Mrs. R. Carmichael, who has been seriously ill, is improving in health. Her many friends wish her a speedy recovery.
In King's County they have a floating bridge, in Black River we have a rolling bridge. This consists of five and a half old fence poles that roll which ever way the horse goes. If the poles were new and peeled there would be less friction during the rolling process.
An agent for patent medicine visited us recently. One of our citizens who has been complaining for some time, has, so reports says, been cured of tania scilium and is now looking as bright and cheerful as a morning in June.
The farmers of this section are about through hauling their produce. Owing to the very low prices not as much was done in shipping circles, as in former years. Farmers are beginning to realize here, as well as in other sections that it is more remunerative to feed the raw products on the farm, thereby increasing the fertility of the soil, and as there is always a good market for the finished products, butter and cheese. Farmers can look in another direction for means of a livelihood, besides selling potatoes at sixteen cents per bushel.

RAMBLER
How One Gets Bilious
A sluggish liver fails to filter the bile from the blood, and when the poisonous matter goes through the body in the circulation, the whole system is tainted and deranged. This is called biliousness, and can be completely cured by Dr. A. W. Chase's Kidney Liver Pills, which act directly on the liver, making it healthy and active. One pill a dose, 25c a box. The cheapest medicine in the world.

NIGHT CLASSES
—AT THE—
C. B. C. 5 Sessions per Week
OPENED ON
Monday, Nov. 22, 1900
at 7.30 p. m.
Thorough instruction in Book Keeping, Business Penmanship, Arithmetic, Commercial Law, Short hand, and Typewriting. Intending students are asked to enter at once, or as soon as possible. Terms, etc., on application to
L. B. MILLER, Principal.

The "Albert" Toilet Soap Co's Baby's Own Soap makes youngsters, clean, sweet, and fresh.
It keeps their delicate skins in good order.
Made entirely from vegetable fats, it is an emollient as well as a cleanser, and is as useful on a lady's toilet as in the nursery.
Faintly but exquisitely aromatic.
Beware of imitations.
