BATTLE OF ELANDSLAAGTE.

WAR NOTES.

Generals White and Yule have a combined force of all arms of 49 guns and 20,000 men.

A splendid instance of the spontaneous co-operation of army and navy is given in the action of Captain Lambton, commanding the British first-class cruiser Powerful while on the way to the Cape. Calling at Mauritius, he found a line regiment that had been ordered to Durban unable to leave for want of a transport. Without awaiting instructions, he embarked the whole regiment aboard the Powerful and landed them at Cape Town, making an extra quick passage for their benefit.

Describing the fight at Elands-laagte, the Daily News' correspondent says: "The approaching fall of darkness was a great factor in the last phases of the fight, making the capture of the position at once absolutely imperative. By this time the crack of rifles and the rattle of Maxims had become absolutely furious. Our men understood the necessity well enough. Nothing loth, they exposed themselves gallantly in their resolution to drive the Boers from their last stand. Officers, sergeants and men fell in the lines, but nothing checked the fierce onset. conspicuous among the Gordon Highlanders end in the fighting line through-cut was Lord Ava, attached especially to the brigadier's staff. The British was a sight to see. With levelled bayonets, cheering as they went our men sprang over the boulders that were strewn at their feet. The Boers, recoiling, fired wildly and they dashed down the rugged steep to escape the annihilation threatened them. Some, desperately determined on killing, returned, however, to the Nek, in the rear of which the Highlanders had crouched behind some boulders. These men fired on ambulance men at work among the wounded. I and others there can certify from our own experience to this dastardly act." The correspondents' details of the fighting confirm the reports of the magnificent bravery of the Boers in the face of their equally intrepid enemy. The Dutchmen's artillery practice was excellent, far superior, says one correspondent, to anything they have yet shown.

WEDDING BELLS.

The marriage of Mr. E. Hildreth Duchemin and Miss Minnie A. Cook was solemnized last evening at the residence of the bride's mother. The interesting ceremony was performed by Rev. D. B. McLeod, pastor of Zion church, appropriate music being furnished throughout by Professors Watts and Grant. Miss Ida Clark, of Mount Stewart, was bridesmaid, and the groom was supported by his brother, Mr. W. N. Duchemin. The bride was given away by her brother, Mr. Pope Cook, of York. She wore white silk, with veil and orange blossoms. The bridesmaid wore pale bluesilk with feather-trimming. After the ceremony a collation was served. The bride received a great many gifts, prominent among the number being a fancy table of elegant design the gift of Mr. and Mrs. James Barrett. During the evening the Artillery Band, of which the groom is a member, serenaded the happy couple. The groom is Recording Secretary of Court Mount Stephen, I. O. F., and the officers and members of the court presented him with a congratulatory address. Mr. and Mrs. Duchemin will reside on Upper Great George Street, where Mrs. Duchemin will be "at home" after Monday, Nov. 6th. They have the best wishes of a large circle of friends, to which we add those of THE EXAMINER.

The residence of Chief Engineer Large was last evening the scene of a highly interesting event, the occasion being the marriage of his youngest daughter, Miss Edith Mary, to Mr. Wallace Stewart, second son of Major D. Stewart, of this city. Rev. T. F. Fullerton spoke the words which made the two one. The bride wore cream silk crepon trimmed with chiffon, and carried a bouquet of white roses and carnations. The bridesmaid, Miss Margaret Large, wore white flowered organdie made over pale green and carried a bouquet of pink roses and carnations. The groom was supported by his brother, Mr. W. A. Stewart. The ceremony was witnessed only by the immediate relatives of the contracting parties. The house was tastefully decorated, and after the ceremony a tempting array of delicacies was served. The popularity of the bride and groom was attested by the great number of presents received. After passing a very pleasant evening Mr. and Mrs. Stewart repaired to their future residence on Fitzroy Street, followed by the good wishes of all. THE EXAMINER joined in wishing them a happy wedded life. Mrs. Stewart will be "at home" Oct. 30th, 31st and Nov. 1st.

Morell Notes.

The starch factories are getting more potatoes than they can take care of. The crop of cheneages "however" is not so good as expected, and considerable dry rot is seen. The reds and whites are a good crop, but also liable to rot.

Mr. and Mrs. Edward Duff have returned to Boston. Mr. Duff and Alfred, son of Wm. Duff have had excellent sport duck shooting having bagged in two days about 60 birds. Edward is a crack shot and Alfred is not far behind him having gone under a course of training by the "old man," a veteran sportsman.

Our mail managements are wretched in fact no better than the days of the stage coach of "Auld Lang Syne." An express train goes flying to Charlottetown in the morning but takes no mail nor is there any from Charlottetown by the evening train. It takes almost two days to get a reply from Charlottetown. We have no money order office nor P. O. Savings Bank, and yet some people prate of the wonderful "business" government. The Department requires a petition praying and begging for our rights, yet the same Department can change the Post Office at Lot 40 against the wishes of 99-100 of the people without a petition.

We have in this vicinity first class horses and big—fair cattle and sheep, but our geese and chickens are very inferior. It someone could devise a plan to induce our farmers to substitute the small hens for the improved Plymouth Rocks or other similar breeds that person would be a philanthropist indeed. The chicken industry is a coming one, and there is money in it. But no market can be found for the majority of the small and poor stock offered here.

Court "Morell" I. O. F. have secured rooms from W. T. Anderson, Esq., for their meetings, having failed to make satisfactory arrangements with the Morell Hall Co. Their new quarters will be very comfortable, and prospects are good for a greatly increased membership this winter.

R. W. Cox, Esq. has decided to build a starch factory here. He has a grand site for one. We understand the contract for the building is already let.

Morell, Oct. 25, 1899.

THE EVENING NEWSPAPER.—It is almost midnight in South Africa when the evening newspaper in Canada is going to press, and thus its readers will not have to wait until the next morning for the record of each day's campaign. The difference of seven hours in time between Toronto and Cape Town operates to the advantage of the evening newspaper as against the morning paper in Canada. All the news which is available for publication in the papers to be printed in Cape Town tomorrow morning can be printed in the evening papers of Canada to-night. The evening paper is able to publish the first record of every great event in the history which the world is now making, and the trouble in South Africa is likely to more completely establish the morning press in its position as a purveyor of second-hand news.—Toronto Telegram.

OUR CONTINGENT.—See their photograph in Johnson & Johnson's downtown drugstore. Leave your order for one at the drugstore, at Westlake Bros' studio, at THE EXAMINER office, or with Robert L. Cotton, who has the sole control of the photo. Price \$1.00. Names of men printed on it. Orders filled in order in which they are received.
