Local and Other Items.

To KEEP the beard from turning gray, and thus prevent the appearance of age, use Buckingham's Dye for the Whiskers, the best dye made.

I. O. O. F.—St. Lawrence Lodge meets tonight at 8 o'clock. Second and last night for nomination of officers. The first degree will be conferred.

EARLY AT WORK.—Mr. Albert Williams, of Biddeford, has informed the *Pioneer* that he has already found a number of bugs among his potatoes.

MORE TALL TIMOTHY.—Mr. Robert Glover, of Summerside, left a stalk of timothy at the *Journal* office, on Saturday, which measured 3 feet 11 inches in height.

WHAT LICENSE HAS DONE.—The *Record* says a year of high license in Philadelphia has reduced drunkenness one-half, has abolished the debasing dive, has practically wiped out liquor selling on Sunday, and has added \$534,400 to the city treasury.

The benefits of vacation season may be greatly enhanced, if, at the same time, the blood is being cleansed and vitalized by the use of Ayer's Sarsaparilla. A good appetite, fresh vigor, and buoyant spirits attend the use of this wonderful medicine.

PAINFUL ACCIDENT.—We learn from the *Summerside Pioneer* that a young man named John Macdonald, employed at can-making in Holman's factory, met with a very painful accident on Thursday last. It appears that while using the cutting machine his hands got caught in some way, and he lost the tops of two fingers. Dr. Gillis is in attendance.

GREAT HEAT.—Monday last was a terribly hot day in New York. One adult died from heat in Brooklyn, and an infant in New York. About a dozen cases of prostration from heat are also reported. The temperature on that day was as follows:—At 6 a. m., 72°; at noon, 83°; at 3.30 p. m., 93°; and at midnight, 73°. The average temperature for the day was 78°; for the corresponding day last year, 69°.

NOT TO RACE FOR THE CUP.—It seems to be well understood, says a recent despatch, that Lord Dunraven's Valkyrie will not sail against the Volunteer for the America's cup. Lord Dunraven, however, will undoubtedly bring over the yacht on a pleasure cruise, and will enter her in the race for the Guelph cup. Another race which has been talked of for some time will probably be over Marblehead course, and in this the Valkyrie will also take part. It will be for seventy-foot yachts.

PROPERTY IN SUMMERSIDE.—The *Agriculturist* says:—The Clifton House property was, according to advertisement, offered at auction on Friday last. Mr. Daniel Stewart bid it in for \$5,500. Five and three-quarters acres of land north of the Pope Road were sold at the same time for \$305. Dr. Heckman, of Miscouche, being the purchaser. The Brunswick House, owned by Mr. John T. Linkletter, was offered at the same sale, and was bid in by Mr. N. McQuarrie for \$2,300.

NARROW ESCAPE.—While the ten-year-old son of Mr. J. M. Davison, accountant in the Merchant's Bank of P. E. Island, was playing in the Driving Park on Saturday afternoon, he narrowly escaped being killed. It appears that the little fellow had jumped on a cart loaded with stone, to get a drive. After he had gone some distance the cart went over a rut in the road and he was thrown head foremost to the ground. The wheel of the cart just grazed his head, leaving some mud on his hair. The driver stopped as quickly as possible and picked up the lad, who was more frightened than hurt.

FROM BOSTON.—The steamer Carroll, Capt. Brown, arrived from Boston on Saturday evening, at eight o'clock. She had the usual general cargo and the following passengers: Miss Agnes McKinnon, Miss E. J. Johnston, Miss J. G. McDonald, Miss Campbell, Mrs. R. Anderson and 4 children, Miss Anderson, Mr. J. P. Murray, Miss Bessie Fraser, Miss Mary Stewart, Miss Ruth Hawley, Mr. C. McMillan, Mrs. Kennedy, Miss S. Lamont, Miss Smallcomb, Mrs. Larmer, Miss Eva McLeod, Miss Kate Hughes, Miss Grace Cunningham, Mrs. Colby, Miss McInnis, Mr. H. McMillan, D. McLeod, J. Kennedy, Wm. Brown, R. McLeod, Miss Ella Freeman, Mrs. A. Wilson, Mr. Sandwood, Mr. O. E. French, Miss M. E. Chase—34.

MORE FAT CATTLE.—Messrs. Blake Bros. and Saunders & Newson had some very prime cattle weighed at the city scales Saturday forenoon. Twenty-three of the cattle were for the first-named firm, and weighed respectively 1855 lbs., 1425 lbs., 1312 lbs., 1285 lbs., 1262 lbs., 1197 lbs., 1197 lbs., 1182 lbs., 1180 lbs., 1175 lbs., 1172 lbs., 1142 lbs., 1143 lbs., 1142 lbs., 1140 lbs., 1137 lbs., 1137 lbs., 1135 lbs., 1132 lbs., 1100 lbs., 1097 lbs., 1085 lbs., 1055 lbs. The remainder were for Messrs. Saunders & Newson. They tipped the scales at the following weights each: 1192 lbs., 900 lbs., 945 lbs., 845 lbs. The lot were fed by the following gentlemen: F. Holland, W. Howatt, Richard Lee, M. McLeod, John Lee, Crapaud and Tryon, and A. McLeod, Lot 49.

CATTLE AND HORSES.—The *Summerside Agriculturist* says:—On Saturday morning Messrs. Avar and Drummond shipped 32 head of cattle to Mr. John McDonald, St. John. The animals in this shipment, which is undoubtedly the finest made here this season, were a superior lot. Among them were two very fine cows, both of which were bred on the Stock Farm near Charlottetown. One of them, which was fed by Mr. Charles Clark, of Tryon, weighed 1,600 pounds. The other was fed by Mr. William H. Enman, Crapaud, and weighed 1,470 pounds. A pair of two-year-old steers, fed by Mr. Enman, weighed 2,650 pounds. There was not an inferior animal in the whole lot. The twin steers shipped by Mr. Avar on the previous Saturday were consigned to Mr. McDonald, and not to Mr. Keele, as erroneously reported. The same paper says that Mr. Thomas P. Lowther shipped four horses to Amherst on Thursday morning last, and Mr. Patterson shipped five to Maine the same day.

A Practical Sermon.

Rev. John Read, in his sermon last evening, made special reference to the recent disaster at Johnstown, Pa., the burning of Seattle, and St. Suaver, and the disaster to the excursion train at Armagh. He said it was unfair and exceedingly wrong to charge the Almighty with the destruction of cities and the many horrors occurring. Many people say, "Oh, it is a judgment from God, sent to punish a wicked people." If such were the case and chastisement was meted out in this way, we perhaps would not have a Charlottetown to live in, and many of the centres of population would be swept from the face of the earth. According to report, the gigantic destruction of life and property at Johnstown was caused by the criminality of the workmen who constructed the reservoir, building it of poor material, without the cement required—thus making the dam insecure. After its abandonment, as a source of supply to the city, a party of sportsmen took possession, and in order to prevent the escape of fish, closed the various outlets which were necessary to carry off the surplus water. What a commentary of the selfishness of man!—in order to admit of casting the fly and catching the fish, the safety of eight towns were jeopardized!! In Seattle, W. T., the entire city has been destroyed—only one business house of any note remaining. The railway accident in the Green Isle was caused by the common practice of attaching too many cars, thus making the ascent impossible—some of the couplings had to give, part of the train disconnected, and the catastrophe occurred. The cars were also locked!! When will Europe wake up to the necessity of giving passengers by rail a chance for their lives? In St. Suaver, Que., the destruction of that suburb by fire is attributable to the contemptible penuriousness of one individual who owned several buildings in it, and in order to prevent his property being taxed, succeeded in preventing a bountiful supply of water being introduced. The fire came, and there being no means of quenching it the entire suburb fell a prey to the devouring element. When will man cease unloading his own responsibility on to the shoulders of a merciful God?

The Cronin Murder.

THE CLAN-NA-GAEL DENOUNCED—WHAT WILL THE FEDERAL GOVERNMENT DO?—WARD'S SUICIDE.
BUFFALO, N. Y., June 14.—Rev. Father Cronin, editor of the *Catholic Union*, Bishop Ryan's paper, has a long editorial denouncing the Clan-na-Gael and the murderers of Dr. Cronin, who was not a relative of the editor-priest. Father Cronin warns Irishmen against the order and says it is on the road to destruction. He adds: "No matter what the outcome of the Cronin murder investigation may be, the cause of Ireland, and the accepted policy of Parnell by the Irish and American people demand that the Clan-na-Gael, by whatever name known, shall have nothing more to do with the control of the National League."

WASHINGTON, June 14.—The question has arisen with the revelations made at Chicago touching the inner proceedings and purposes of the Clan-na-Gael bring the society into collision with the federal government. It is stated that the only ground of government interference with the order is to be found in the section of the revised statutes which provides against military expeditions against friendly powers. The Clan being a secret order the federal government has not acquired a knowledge of the violation of that statute by members of the order, and doubtful acts and preparations of the society have not yet been definite enough to bring anyone practically within the penalty of the statute. The British government has been kept well informed of the doings of the order, but has not sought to have the law set in motion. In fact, the current and ample knowledge always possessed by the British government robbed the order of any terrors in the direction professedly aimed at by its constitution.

INDIANAPOLIS, Ind., June 14.—Intimate friends of Patrick A. Ward, President of the Irish-American Republican Club, who committed suicide last night, say that he had been low spirited ever since the murder of Dr. Cronin, and that the murder has been the constant subject of his conversation. When President Harrison was nominated, Ward organized a Republican club, and was very active in the campaign, although he had always been an uncompromising Democrat. Local republican managers promised that his services would be recognized, and for three months he had been looking for an appointment. When Cronin's body was found, and later developments pointed so strongly to a Clan-na-Gael conspiracy, Ward seemed to think his prominence in the order would prevent the fulfillment of the promises that had been given him.

THE SUMMER TIME TABLE.—For the convenience of the public we condense the hours of departure and arrival of trains (local time):
FOR THE WEST.
7 and 9.45 a. m.; 4.30 p. m.
FROM THE WEST.
10.35 a. m.; 4 and 8.10 p. m.
FOR THE EAST.
7.30 a. m. and 4.15 p. m.
FROM THE EAST.
10.20 a. m. and 7.15 p. m.

"My father at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor, the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, New York.
MARRIED.
In this city, on the 15th inst., by Rev. W. Harrison, James R. Carr, of Charlottetown, to Miss Ada Stewart, of Scotch Fort, Lot 36.

Telegraphic Tips.

BERLIN, June 12.—Emperor William and the Shah attended a military review yesterday. Afterwards a banquet was given in honor of the Shah, at which the usual toasts of friendship were exchanged. In the evening the Shah witnessed a ballet performance at the theatre. The Shah has presented a portrait of himself set in brilliants to Count Herbert Bismarck.

VIENNA, June 12.—The *Tagblatt* has information that a plot existed in the palace to dethrone the young king Alexander and proclaim Prince Peter Kara Zorgivitch king.

MONTREAL, June 12.—About 984 pilgrims from Burlington, Vt., and Salem, Mass., returned to-day from the shrine of St. Anne de Beaupre, and after having heard mass, and a special sermon at Bonsecours Church, left for their homes. They report that quite a number who passed through the city five days ago, crippled, halt and deformed, were now returning cured.

PARIS, June 14.—Fighting occurred between the French and Italian navies in the department of Haut-Marne. Troops have been sent to quell the disturbance.

LONDON, June 14.—The Caspian Bank, with a capital of 5,000,000 roubles, is being established at Moscow. It will afford facilities for trade with Russian Asia where numerous branches will be established.

BERLIN, June 14.—The *Kreuz Zeitung* says it is feared the Czar will not consent to the proposed marriage of the Czarowitch to Princess Maud of Wales, as the Greek rites prohibit a union of cousins.

Personal.

The King of Spain has just entered on his fourth year.

Sir George Stephen, of Montreal, has sent \$1,000 to the Pennsylvania sufferers.

John L. Sullivan in ten years has boxed before audiences that paid nearly \$600,000 to see him spar.

5,000 feet galvanized iron pipe received to-day ex Nova Scotia, direct from Liverpool.—NORRIS & FENWELL.

Mr. William Wickham, of Summerside, has returned from Montreal. It is pleasing to learn that his daughter's health is improving.

The Rev. J. C. Edghill, D. D., Q. H. C., Chaplain-General to the Forces, has been appointed Honorary Chaplain to H. R. H. the Duke of Cambridge, Commander-in-Chief.

A pleasing proof of the growth of a united Canadian sentiment was furnished by the visit to British Columbia of Sir Leonard Tilley. As a distinguished man he was greeted by his fellow-citizens on their way with a gratifying cordiality.

British Columbia are thousands of miles apart, but the bond of a common citizenship is strong enough to unite them.
The Duke of Portland is the luckiest man in England. When he was born the chances against his ever holding his present title were very great. But he became a peer very early in life and his income is sufficient to keep a whole multitude of wolves from the door. His racing stable consists of only sixteen horses, but he has won the Derby two years in succession, and this season he will probably carry off the leading three and four year old events. He is as fortunate in love as in other ways and is madly devoted to six feet of English girlhood.
Mr. Gladstone will in a few months (if he lives) enter upon his eighty-first year. Yet he is now stamping Great Britain in behalf of "Home Rule" and the Liberal Party. Two or three times a day and every working day of the week, the grand old man addresses immense multitudes and everywhere, the cable says, is enthusiastically received. In this hour, Gladstone is carrying out an educational policy, for the part of the country he is visiting is a stronghold of the so-called unionists, and he is seeking to enlighten the electors on the true state of affairs so that when the time for election comes around they may reverse the present order of things.

News Notes.

Rye six feet high is reported from Frontenac County, Ont.

At Holyoke, Mass., a few days ago, a canal burst its banks, causing damage to the extent of \$75,000.

One of the "sure cures for consumption" sold in Philadelphia was analysed the other day and found to consist of rum, molasses and extract of dandelion.

What divorced an Indiana couple was the fact that the husband insisted on calling the baby Beelzebub. The Judge said that such a man had no business with wife or children.

Last year when the price of potatoes was very low, a Dundee farmer put a lot of them at the bottom of a silo. When it was opened the other day they were as fresh as when they were dug.

Odds and Ends.

Not a physiognomist.—Barber—"Wish any hair oil on your hair, sir?" Customer (explosively)—"Nobody that has any sense uses hair oil nowadays. Do I look like a howling idiot?" Barber (deferentially)—"No, sir; but I'm not a good judge of faces. I always ask the question, anyhow."

Fresh Barber (shaving customer)—"Who is that old hen going along the other side of the street with a bundle on her like a boxing glove?" Customer (rising deliberately and looking)—"That? Oh, she's my wife."

DANGER AHEAD.—A recent Ottawa despatch says that in the Gattineau river, in the vicinity of the cascades, is a monster jam of about 400,000 logs. Men have been at work day and night for over a week endeavoring to extricate this enormous mass but with slow progress. It is feared a miniature Johnstown disaster is feared. The dams between Ottawa and Hogsbay, especially the St. Louis dam, are in a dangerous condition. The mud forming the dams has been softened by the rains and the water pressure has been increasing. If these dams give way a large proportion of the business part of the city will be submerged.
