W. R. Johnston's Spring suitings are here and they're exceptional—even for W. R. Johnston, who's always been noted for the fine selection and quality of their fabrics.

They feature many of the colourful tweed effects in the smooth comfort of fine worsteds—fabrics that are aptly called "tweed-tone worsted". We also have a fine showing of classic British flannel worsteds, lustre tones and all the other Spring cloths.

Come in and look over the range that offers you everything, up-to-the-minute patterns, warm spring colours, a fineness of quality that you will enjoy wearing in your new Spring suit, in the following materials:

Melange flannels, Twist-tone, Novelty Weave, Shadow Line worsted, pin point worsteds, Pic & Pic, Thornbury Twist, Harris Tweed and the popular material for summer, wool and silk and wool with mohair.

The complete range of W. R. Johnston's tailored-to-measure cloths are on display, and new samples are arriving daily.

We look forward to seeing you soon.
