

COPPER MINE EXPANSION PLANNED

Plans have been announced in Montreal for a \$12,500,000 expansion program involving this mill and other facilities at Murdochville, Que., owned by Gaspé Copper Mines Limited. The company's Copper Mountain mine is located at upper right of picture. The leopards president, R. J. Forritt, said in Montreal the company planned to spend some \$8,000,000 to put the Copper Mountain mine into production. It will invest another \$4,500,000 to increase the plant's mill capacity to 11,000 tons of ore a day. At present the company is milling 7,250 tons a day from Needle Mountain pits.

Parliamentary Lines Form Over Constitution Formula

By KEN KELLY
OTTAWA (CP)—Battling lines are forming in Parliament on the question of whether the constitutional amending formula produced last week at the federal-provincial conference will be approved with a minimum of public discussion and expert advice.
At the moment, it appears that the federal government will try the shortest legislative route to having the formula adopted by the Canadian Parliament and later by the British Parliament.
No opposition has been voiced in the Commons to the objection of the formula to make it possible for the constitution to be changed wholly in Canada. At present, Canada must ask the British Parliament to make certain kinds of amendments.
Andrew Brewin (NDP—Toronto Greenway) summed them up in the Commons last week: "We say this hole in the corner procedure is totally unsatisfactory."
"It seems to me that the government of Canada is not being carried on by the elected representatives of the people in Parliament but rather by presentation to Parliament of falls accomplished, arrived at in closed conferences."
The worry among some members arises from the fact that the formula in effect becomes final simply by passage of resolutions of the Commons and Senate. It is traditional that the British Parliament merely adopts the changes requested with virtual assent.
As a resolution in the Canadian Commons and Senate, there would be only limited opportunities to examine in detail the important provisions.

REPEAT FORMULA
It is argued that the formula merely follows that agreed on in principle among the provinces and federal government three years ago. The common sense of federal-provincial meetings this year have carefully referred back to the 1961 form.

GEORGETOWN

Mr. and Mrs. John Cruickshanks of Halifax, N.S., were recent visitors to Georgetown, where they were guests of Captain and Mrs. Nelson Dick. Mr. Cruickshanks is well known in horse racing circles in this province, as he is manager of Sackville Downs race track in Halifax.
Stewart Hansen, auditor with Irving Oil Company Limited of Saint John, N.B., recently motored to Georgetown, where he was the guest of his parents, Mr. and Mrs. N.W. Hansen. On his return to Saint John, he was accompanied by Mrs. Hansen and son Nelson, who had been visiting here for the past two weeks.
Mrs. Henry Deveaux, recently motored from Somerville, Mass., to Georgetown, where she was the guest of her father, Daniel Deveaux, and his wife, Catherine Burke.

Mrs. R.S. Glidden of Nantucket, Mass., arrived in Georgetown on Sunday, where she is visiting with her nephew, J.W. Lavers and his wife, and her sister, Beatrice Skinner.
William Wood recently motored from Boston, Mass., and visited here with his mother, Mrs. Ida Wood and his sister, Jennie Lee and Margaret Richards.
Mr. and Mrs. William J. Fitzgerald, motored to Charlottetown recently where they spent Thanksgiving day as the guests of their daughter, Mrs. Albert Burke and Mr. Burke.
Laverne Merrill left recently for Boston, Mass., where she will visit with relatives.
Sheila Conohou of Cardigan is a patient in the Kings County Memorial Hospital in Montague, after having broken her arm.
Mr. and Mrs. Richard DeLory and family recently motored from Halifax, N.S., and spent the Thanksgiving weekend as the guests of Mr. DeLory's parents, Mr. and Mrs. F.J. DeLory.
Mrs. Elsie Munroe of Halifax, N.S., is spending the winter in Georgetown at the home of Captain and Mrs. Nelson Dick.
Mr. and Mrs. Stephen DeLory of Halifax, N.S., were recent guests of Mr. DeLory's parents, Mr. and Mrs. F.J. DeLory. Mr. DeLory, who is employed with the Canadian Broadcasting Corporation, was in the province in connection with the television coverage of the Royal Tour.

Laval Students Seeking Apology

QUEBEC (CP)—The Students Association at Laval University has threatened another demonstration unless authorities apologize for police action during the Queen's visit to Quebec City.
The council of the Association des Etudiants de l'Université Laval passed a resolution to this effect Friday, as well as a letter demanding those who made the security arrangements for the visit be fired.
The latter specified Inspector Maurice Nadon, chief of the RCMP Quebec City detachment; Director Lucien Desautels.

15 Million Acres Needed For More Beef

By DON HANRIGHT
OTTAWA (CP)—Wanted for business expansion: About 15,000,000 acres of suitable land, or slightly more than the total area of Nova Scotia. That's how much additional land Canada will need by 1980 to feed the cattle, to feed the people, who by then—barring a switch by fickle palates—will be eating more beef.
The forecast has been prepared in the agriculture department here to help farmers plan ahead, to aid government planning for pasture development, and gauge credit needs for financing beef enterprises.
Keys to the long-term prospects: How much beef in 1980 menus? And how many people? Population is expected to rise to 27,000,000 from today's 19,300,000.
Beef consumption in the 1956-62 period averaged 75.5 pounds a year for every man, woman and child. The average has been rising by about 1.2 pounds a year. So, say about 85 pounds by 1980.
An important achievement in strengthening national defence, an important contribution to the defence of world peace," trumpeted the official Peking People's Daily in a special edition.
The Chinese announcement late Friday gave only the barest information that the bomb had been exploded in western China.
Only a few nations shared the Chinese Communist mood of flattery, chiefly those who support the Chinese line of violence and revolution.
In the eyes of the many people the Chinese bomb could produce three immediately important by-products:
1. The spread, or proliferation, of nuclear weapons, a development which the United States, Britain and the Soviet programs. at least some time in 1965, of the Chinese People's Republic game to impose its will, through neighbors.

\$50 Million For Winter Works Program

OTTAWA (CP)—A \$50,000,000 provision for this winter's municipal works program is announced in the Commons. The \$500 bonus for winter-built homes has been tabled in the Commons.
It made up the bulk of a supplementary estimates list totalling \$61,200,145 to be added to fiscal year spending for the 1964-65 fiscal year.
The list brings total government spending plans in the current fiscal year to \$6,836,006,787. The figure does not include the old age pension fund or non-budgetary loans, investments and advances.
A breakdown shows the municipal winter works program is expected to cost \$35,000,000 and the bonus for winter-built homes \$15,000,000. Both are about the same as for last year.
Other major items in the list of additional expenditures: \$1,554,000 more for Canadian Arsenals Limited, a Crown company producing munitions; \$5,000,000 for an accelerated construction and repair program in various government departments; \$1,000,000 to support defence development programs in Canadian industry; \$1,002,000 for National Farmers Board works connected with the 1967 Montreal world's fair.

Chinese Cheer, World Ponders Consequences

TOKYO (CP)—China celebrated its acquisition of the atom bomb while the world pondered the grave political and human consequences which might follow.
"An important achievement in strengthening national defence, an important contribution to the defence of world peace," trumpeted the official Peking People's Daily in a special edition.
The Chinese announcement late Friday gave only the barest information that the bomb had been exploded in western China.
Only a few nations shared the Chinese Communist mood of flattery, chiefly those who support the Chinese line of violence and revolution.
In the eyes of the many people the Chinese bomb could produce three immediately important by-products:
1. The spread, or proliferation, of nuclear weapons, a development which the United States, Britain and the Soviet programs. at least some time in 1965, of the Chinese People's Republic game to impose its will, through neighbors.

Deluxe HOOVER Vacuum Cleaner

Cleans drapes, floors, upholstery and also dusts with greatest of ease. With this powerful Hoover Vacuum there's no cleaning job "too big or too small." It's one of the best suction cleaners in Canada.

- Complete set of cleaning tools to do all your home cleaning.
- Smartly styled, lightweight, it floats on air, no pulling or tugging, won't mark your floors.
- Powerful 1 H.P. high speed twin fan motor.
- Full one year guarantee, service and parts always available.
