

THE DAILY EXAMINER. NOVEMBER 1, 1881.

Public Spirit.

There is no point at which personal meanness betrays itself so strongly and surely as it does when brought into relation to schemes of public improvement. Set a subscription paper going through a community, to raise money for some public object, and it will usually sift out the mean men as certainly as a screen will sift the dust from a bushel of coal.

Land League Meeting.

A regular meeting of the Charlottetown Branch of the Irish National Land League was held last evening at 8 o'clock, in their Hall, Queen street.

After other routine business had been disposed of, Mr. John L. Trainor came forward and, with a few neat and appropriate remarks, introduced the following resolution:

Whereas, The occupiers of land on this Island for many years have been forced to undergo the hardships and privations incident to landlordism, and amid the oppression of these dreary years sustained an agitation for free land which, happily, terminated successfully—Landlordism becoming a thing of the past, and Whereas, The people of Ireland are now engaged in a similar struggle with a more oppressive system than was ours, this Branch of the Irish National Land League deems it in place to express its sympathy with the Irish people in their struggles.

Resolved, That while it might have been politic, before the present despot policy of incarcerating the popular and elected leaders was cast, to await the merits of the cases instituted to test the result of the Land Act of the British Government, recently become law, this League has little faith in its being a satisfactory remedy for the grievances of the mass of the Irish tenant farmers, and that it would be unwise of the Irish people to let slip any advantages already gained by this agitation which would contribute to its successful termination; and this League extends to them their sympathy and any legitimate assistance towards such an end.

Resolved, That this League declares its strong condemnation of the conduct of the Irish Executive Government in imprisoning the recognized leaders of the nation without trial, and views such invasion of the rights and liberties of the subject as a gross act of tyranny, unjustifiable, and a disgrace to the dignity of Imperial statesmanship.

The above resolution was ably supported by William Keughan, Esq., C. C., Hon. Simon Bolger, M. L. C., P. D. Cox, Esq., P. R. Bowers, Esq., and several others. Mr. Bolger's stirring speech on the agitation for land reform in Ireland created a profound impression on those present.

Probabilities for the next 24 hours for the Maritime Provinces.

TORONTO, November 1-10 a. m.

Light to moderate winds fair mild weather.

A CORRESPONDENT of the St. John "Sun" writes: "Our fresh fish business with the Upper Provinces ought to reach huge proportions. We found that all the fresh fish meats used at the Windsor Hotel, Montreal—and the bill is a big one—are purchased at Portland, Maine. The fish at the hotels were not of the best, certainly not such as might be supplied from St. John with a short rail line, properly equipped with refrigerator cars."

The trial of Guiteau has been finally fixed for the 14th of November. The counsel assigned by the Court to the assassin will offer the plea of insanity.

Cardigan Notes.

Trade has been brisk at Cardigan Bridge during the past week, and the following vessels have been loaded with potatoes, viz: Rosina, Two Brothers, Fama, Mariner, Mary B., and James E. McDonald's new schooner, in all about 12,000 bushels besides about 8,000 bushels in warehouses.

[Facts from Murray's Corner.

On the 22nd ult., a number of sports met at the far-famed Murray's Cross, Lot 43, (the new Pandemonium.) True to his former instincts, King Alcohol put in his unhalloved appearance, and, deplorable to relate, he received a very cordial reception. He was ushered in by two individuals of the gender proper to ladies (9—a mother and a daughter, who regardless of law and modesty, sallied forth from Charlottetown to vend their maddening poison to unfortunate drunkards who generally attend such notorious gatherings in wistful expectation. On their arrival at the memorable grounds they selected very conspicuous positions at the portals of an old forge, and they began to dispose of their fire water with avidity at the rate of ten cents a glass—no halves. The mother acted as saleswoman in front of the old fabric, and the daughter as supplier in the rear. The daughter, through vain modesty (3; no doubt was so closely veiled that her most intimate acquaintances almost failed to recognize her. The mother being more of the virago, faced her thirsty customers, without veil or mask, except the dust of ages, which generally rests on her haggard countenance. After a number of the more intemperate had drunk deeply of the "Mountain Dew," they became quite ecstatic, and were more to be pitied than admired. They thus continued their illicit traffic until the dusky shades of evening compelled them to cease, when the mother and the daughter took a very hasty departure for their home in the city.

It is very sad to think that, in civilized and enlightened Charlottetown, there dwell two females who would so degrade themselves for the sake of a few miserable, ill-gotten dollars, and that there exist men in the country so unfortunate as to make beasts of themselves in open violation of the laws of God and man.—Com.

The United States cabbage crop is a failure and prices rate high. Importations are being made, and among the cargo of the steamer "Leipzig," which arrived at Baltimore on Saturday from Bremen, were 8,000 heads of cabbage, imported from Oldenburg, Germany. This is said to be the first importation of vegetables ever brought to that port.

A Paris despatch says:—Statistics show that since the commencement of the Tunisian expedition the French troops, varying in number from 25,000 to 35,000, had from 12,000 to 15,000 on the sick list. The deaths from disease have been nine hundred, typhoid fever being the cause of 65 per cent. of the mortality.

The question of the Jewish emigration to America is still the subject of concern to the Russian Government. Another attempt will be made to turn the Jews into peasant farmers and settle them in the provinces of Kherson and Ekaterinoslav.

An effort is to be made to establish a French colony in the North-West. Four millions of acres have been secured for the purpose, and the promoters of the scheme are about to proceed to France to make arrangements for bringing out colonists next spring.
