

THE DAILY EXAMINER

OCTOBER 11, 1895.

PROSTITUTION TO PARTY.

It was announced a few days ago that Mr. H. P. Duchemin would take a position upon the teaching staff of Prince of Wales College during the absence of Professor Robertson, who is unfortunately compelled to relinquish his educational work on account of ill-health.

CHANGE IN SCHOOL HOURS.

The proposal of the School Board to have two sessions of the City Schools each day—one in the forenoon and the other in the afternoon—has very naturally given rise to considerable discussion.

NEWS NOTES.

The season's catch in Behring Sea will be only about forty thousand skins, or ten thousand less than last year. Queen Victoria's coronation crown, first worn fifty-eight years ago, is valued at over \$250,000, weighs two pounds, and is almost covered with 3,000 precious stones.

MEETING AT RED HOUSE.

A public meeting of the Red House Farmers' and Dairyman's Association was held at Red House on Wednesday evening last. J. C. Underlay, Esq., President of the Association, occupied the chair.

To His Honor The Honourable George W. Howland, Lieutenant Governor for the Province of P. E. Island.

We the undersigned, on behalf of the Red House Farmers' and Dairyman's Association, beg to extend to Your Honor a cordial welcome to this section of the Province, not only as the representative of our beloved Queen, whose noble and virtuous reign has done so much towards placing Great Britain in the proud position of the earth, and doubly endeared to every true Canadian by her gracious and considerate sympathy in our recent national griefs, but as in one in whom have always recognized an earnest and zealous laborer in every work that tended to advance the interest and prosperity of the people of this Province.

We trust that your visit here will be a source of some pleasure to yourself, as we feel assured it will be of much interest and advantage to those who have the privilege of listening to your words of advice and encouragement this evening, and that the dairy and general farming business in this place will receive materially promoted by your encouragement to the new departure in agriculture so successfully inaugurated here by Professor Robertson, under the able superintendence of Mr. Dillon, and that prosperity and happiness may ever attend the journey through life of yourself and Mrs. Howland, the sincere and earnest desire of the Red House Farmers' and Dairyman's Association.

Still, "good reasons must give way to better." We shall welcome short letters setting forth the reasons for as well as against the change, and expressive of public opinion concerning it.

We greatly regret to hear that Mrs. W. W. Jenkins, of Georgetown, passed away this morning, as the result of a sharp attack of pneumonia. Mrs. Jenkins was in the prime of her womanhood, and was universally respected. We sympathize with her bereaved husband, her father (Joseph Fairchild, Esq.) and her family.

The steamer Fastnet took from here on Wednesday seven Shropshire Down yearling rams, bought from Senator Ferguson, Victoria Co., Cape Breton. This lot included all the prize-takers in the yearling classes at Charlottetown and St. John Exhibitions. They are all registered in the American Shropshire Association's Flock Book. Two years ago the same Society bought five young rams from Mr. Ferguson, and the last purchase shows that the farmers of Cape Breton know a good thing when they get it.

—Montreal Gazette: There are disadvantages, as well as advantages, from the taxpayer's point of view in the ad valorem system of duties. Take the case of sugar. The price of that commodity of universal use is rising in the world's markets, and may not improbably advance a cent or more a pound from the lowest quotation of the year. The American duty on the article is 40 per cent. ad valorem, which means that a rise of a cent in price involves an advance of nearly a cent and a half to the consumer. The Canadian duty is a specific one of 4 cent a pound, and the rise does not increase the taxpayer's contribution to the revenue.

The Turkish Troops Massing. LONDON, October 9.—A despatch to the Chronicle from Vienna says the Porte is preparing for an emergency, and is expecting serious events in the coming winter or spring. Troops are quietly gathering, especially on the Macedonian and Bulgarian frontiers, and forces of considerable strength are removing from Asia to Turkey into Europe.

The French May Yet be Far Away. LONDON, October 9.—While no official news has been received by the French government of the fall of Antananarivo, a despatch from Paris to the Standard says it is taken for granted there that the Malagasy capital has been captured, and is in the possession of the French. The despatch announcing that he queen and ministers of state had left the capital and fled to Amboisitra is suspected to be a fabrication, founded on plausible possibilities.

The report of an earthquake in Newfoundland on the 7th is corroborated. A heavy rain caused a landslide, blocking the railroad and destroying a few bridges. This fact probably gave rise to the report.

The German Emperor has invited the Prince of Wales to shoot with him a few weeks hence at Springe, in Hanover, where the vast beech forests swarm with wild boar, and splendid sport is always obtained.

The London newspapers set in the immense crowds which attended the anniversary of the death of Parnell in Dublin on Sunday, evidence of the sympathy of the masses in Ireland with the Parnellites and their cause.

The expenditure of England for drink is estimated at \$900,000,000 a year. The consumption is undoubtedly enormous, but not so good a deal of the liquor which appears in official statistics is afterward exported.

TELEGRAPHIC. SPECIAL DISPATCHES TO THE EXAMINER. GREAT FIRE AT CHATHAM. Sixty Thousand Dollars' Worth Destroyed. CHATHAM, N. B., Oct. 11. A conflagration swept over ten blocks of this town yesterday. It broke out about noon in the rear of the store of B. M. Moran & Son, and spread to the adjoining building. The wind was blowing almost a gale, which fanned the fury of the flames. Thirty buildings, including barns and shops, were destroyed. The loss is estimated at \$60,000. Not more than \$15,000 was covered by insurance. The firemen are still on the scene of the fire, working and trying to extinguish the burning embers. The insurance was principally held in the Phoenix, of London; the Lancashire and Imperial. Some other companies have a few hundred dollars. But the greater part of the \$15,000 is in the former companies.

The Shoe that's envied!

A good shoe is a good friend—to the man who wears it—to the dealer who sells it. But a good shoe is a bad enemy to the dealer who can't get the right to sell it. We are local agents for THE SLATER SHOE, which is the best shoe for men we know. We are the only firm in this city which can buy these shoes WHOLESALE, and with the knowledge and consent of the makers. Other shoemakers want them so badly that they get their friends to purchase from us "on the quiet" a few individual pairs, at full retail price, in order to put them in their windows for show. But these firms can't buy the Genuine Slater Shoes to SELL again—they buy them to KEEP them and talk against them. We buy ours wholesale from the manufacturers, so we can afford to sell them retail. We keep every size, width and shape in stock, so that we can fit any man, no matter what kind of feet he is addicted to. Ours are The Genuine "Slater Shoes," stamped on the sole \$3.00, \$4.00, \$5.00 per pair. Now don't you think it must be a pretty good shoe that's envied like this? Perhaps you should see these shoes that shoemen want so badly. We are the only people who have the right to show them to you.
