One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Possibility Of Big Four Meeting

By CARTER L. DAVIDSON
PARIS, March 6 — (AP) — The possibility of a Big Four meeting including Russia will be discussed by the three Western Foreign Ministers in London soon, Foreign Minister Robert Schuman of France said tonight.

An authoritative French source said the British, United States and French Foreign Ministers will meet in London April 12. But the State Department in Washington said no date had been set. Schuman himself declined to comment on the date.

Schuman said at a press conference that the three Foreign Ministers will "study the problems of a Big Four meeting."

He said the three Ministers also will discuss the Far Eastern situation, including Japan, relations with Communist China, Indo-China and aid to Southeast Asia. It would also review the German problems.

Schuman, who leaves for London tomorrow said he will discuss all these international questions informally with Foreign Secretary Bevin there.

The French Foreign Minister gave a point-by-point reply to German criticism of the French-Saar agreement signed here last Saturday. The pact calls for French control over the rich Saar coal mines for 50 years, subject to a final German peace treaty.

But, on the other hand, mother can save daughter's reason and keep her from a nervous breakdown, from quarreling with her husband, by taking the children home with her for a few hours now and then and giving daughter a chance to relax and rest and get a new viewpoint by going out among the bright lights.

DEAR MISS DIX: What can a man do with a wife who refuses to have meals on time and who keeps a house that looks like a pigpen? I provide my wife with plenty of money and she has a maid, but it does no good. The house is just as untidy and the food as bad and the meals as unpunctual because she stays in bed and does not see that anything is done properly. I am getting to drink too much just to get my mind off my domestic worries, and I stay at home as little as I can because everything is so rotten in the house. What can I do?

ANSWER: A woman can get a divorce from her husband for "failure to provide" for her. A man should be able to get a divorce from his wife for "failure to make a comfortable home" with the money he furnishes. It is just as much an obligation of matrimony for a wife to fry the bacon as it is for the husband to bring it home.

There is no excuse on earth except sickness for a woman not to be a good housekeeper. So if a man is married to a healthy, able-bodied woman and she lies down on her duties, as this woman does, he is certainly justified in refusing to support her any longer in idleness. These lazy slovens take advantage of their official positions as wives to loaf on their jobs, but if they knew they would be fired out of house and home if they didn't reform, you would see them animated by a sudden burst of industry.

DEAR DOROTHY DIX: We are always hearing about mothers-in-law breaking up homes. What about fathers-in-law? I know of a number of homes where well-to-do fathers-in-law went to live with a newly married son or daughter, with the result that the homes are very unhappy and on the point of being wrecked.

ANSWER: Everything that is said about the inadvisability of mothers going to live with their married children applies to fathers. It isn't the sex of the parent that matters, it is the parental interference in the lives of a young couple.

DOROTHY DIX cannot reply personally to readers, but will answer problems of general interest through her column.
