

Pledges Full Cooperation

Continued from page 1

were done. The biggest stretch of light paving was done on the five mile reach between Murray River and Murray Harbor. Most of the remainder was done on roads leading from such centres as O'Leary, Tignish and Wellington.

In all, he stated, 221 miles of roads were widened and graded to standard. He also said that his department was preparing a comparative cost sheet of road build-

ing in the different districts. This would enable him to recognize the districts where employees were efficient and it was important to know this road construction and repair would be at a stage where the entire present staff would not be needed.

Cheaper In Future

Mr. MacKinnon told the members that widening roads with heavy forests on each side was an expensive process, and he admitted that many of the roads done would have to be gone over again and rebuilt in later years.

However, by the time that became necessary it would be possible to do four miles in the time it takes to do one now, and at a cheaper cost.

He spoke of the many new processes being developed and hoped in the near future that a new type of dustless surface would come forth from experiments in progress.

The Minister agreed with Mr. Frank Myers, First Queen's, when he said recently the roads in his district were in a bad state. Mr. MacKinnon said it was a hilly sec-

tion and hard to work but in spite of this the roadwork was done as economically as elsewhere. He tried to provide some "extras" to make up for the roads and noted that the man on the road machine can save a great deal of money in the Province through going right ahead with his work.

Noting that labor is the basis of all costs he had seen that when potatoes went too high in price the people simply switched to another article of food. He thought there appeared to be a great variance in the opinions of

members regarding the position of agriculture here with some remarking on low prices. It was his experience that when one item went down another went up to maintain a counterbalance.

Beaver Damage

He told Mr. George Saville, Fifth King's, who had severely criticized the permission given to kill beavers, that if he had had as much trouble as the Minister with those animals he too would favor destroying them. Mr. MacKinnon said their building of dams had undermined many bridges and caused

a great deal of damage on the island.

He added, "Perhaps we can get them to join the railway" so they could either go on strike or only work half the time anyway.

Regarding the Wood Islands ferry service he said he had "a few dollars" in it, not to make money, but because he was interested in the service. Other boats could be obtained but they would have to be converted for use and then in two years would have to be reconverted as freighters again. This he said was too expensive for the

company.

There was a considerable amount of comment from other members, mainly from Mr. B. Earle MacDon-

ald and Mr. R. R. Bell, both of whom were critical of the service provided.

The speaker did not favor having the service taken over by the Canadian National Railways as he thought rates would rise if that happened.

It was suggested by Mr. MacDon-

ald that it might be possible for the Government to shortly acquire one or more boats from the Dartmouth Ferry Commission when the new Halifax-Dartmouth bridge is built.

51. Negative reply

DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
L S L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

K N A I N A M V Q L M B F M M B D S D J D
Q D B G I A G J I N A M V M S N M B F M M B D
B G A X — X G B H V K F M S.

Yesterday's Cryptoquote: SORRY HER LOT WHO LOVES TOO WELL. HEAVY THE HEART THAT HOPES BUT VAINLY—GILBERT.

There is no "overnight cure" for irregularity

But there is a simple, natural answer to the common problem of irregularity due to lack of bulk

There are men and women (perhaps you're one of them) who won't let "nature take its course". THEY TRY TO SUBSTITUTE UNNATURAL "FORCING ACTION" FOR THE NATURAL REGULARITY WHICH SENSIBLE DAILY HABITS AND SUFFICIENT BULK IN THE DIET COULD PROBABLY MAINTAIN.

Many fall into the habit of using laxatives in a way laxative makers never intended. They take "big doses" willy-nilly without even reading the directions on the label.

Naturally, such overdosing—with products intended only for overnight relief of a temporary stoppage—exerts upon the delicate digestive system an unnatural strain.

There's nothing wrong, of course, with taking laxatives occasionally. If you feel you have to take a laxative, just be sure you take it wisely—in an accurate, recommended dose.

BUT THERE IS A WAY TO AVOID TAKING DRUG-TYPE LAXATIVES AND TO PLACE YOUR DEPENDENCE ON NATURE, IF LACK OF BULK IN THE DIET IS YOUR TROUBLE.

In many natural foods—such as certain vegetables, fruits, and grains—nature grows abundant natural bulk which normally and naturally aids the rhythmic process of elimination.

In no other natural food is natural bulk so ideally found as in the outer layers of the whole wheat kernel, known generally as bran.

Bran is nature's "laxative food instead of a medicine". When properly processed and shredded, whole wheat bran yields smooth natural bulk that the digestive system can handle in a natural way.

The Kellogg Company has made whole wheat bran into a delicious breakfast cereal—Kellogg's All-Bran.

KELLOGG'S ALL-BRAN PERFORMS NATURALLY WHAT DRUG-TYPE LAXATIVES DO CHEMICALLY. IT HELPS CLEAR THE INTESTINES OF WASTE IN A NATURAL WAY. IT PROVIDES SOFT NATURAL BULK FOR EASY NATURAL ACTION.

There is no stomach upset, no churning, no after-effect except the feeling of satisfaction and fulfillment that comes with natural, normal elimination.

To obtain lasting relief, of course, Kellogg's All-Bran must be eaten regularly. You can have it for breakfast every morning secure in the knowledge that it isn't habit-forming.

More than one million servings of Kellogg's All-Bran are consumed each day. This popularity of itself is proof that this natural laxative cereal lives up to what we say about it.

But even better proof comes from thousands of satisfied All-Bran users. They write of their own free will to tell us what natural relief they receive from eating Kellogg's All-Bran daily and drinking plenty of water.

EAT KELLOGG'S ALL-BRAN EVERY MORNING FOR 10 DAYS. THEN, IF YOU'RE NOT COMPLETELY SATISFIED, SEND THE EMPTY CARTON TO THE KELLOGG COMPANY, LONDON, ONTARIO—AND GET DOUBLE YOUR MONEY BACK.

Remember—Kellogg's All-Bran has helped millions. Why not you?

Teen Fashion Show

Our buyer went all out when she purchased this collection of Children's Easter Togs.

Fashionable tots and teens will be proud as punch in our fabulous new Easter Fashions.

Come in today and see the dazzling array of Spring Coats and Coat Sets — Dresses — Skirts and Blouses.

Girls' Coats
Sizes 7 to 14x

Children's Coats
Sizes 2 to 6x

Blouses
Sizes 2 to 14x

Beautiful Spring Dresses

Cottons Lawns — Nylons and crepes in colors white — red — aqua, pink, blue and yellow — very smart styles.

Priced from—

Truly a fabulous collection of Nylons — Embossed taffetas — sheers — and cottons in solid colors — florals checks and stripes — many new spring colors —

Many flattering styles in solids — tweeds and checks with or without velvet trim — a rainbow of smart spring shades.

Priced from—

Coats with matching felt hats — plains checks and tweeds in colors navy, brown blue, red, rose, yellow and beige.

Priced from—

Skirts

Dozens of beautiful styles and colors — in smart tweeds — checks — taffetas — plaids and solids — various new spring skirts.

Sizes 2 to 6x
\$2.50 to \$4.25

Sizes 7 to 16
\$3.95 to \$5.95

Boys' Coats

With **STON** Caps to Match

Sizes 9 to 6x

Gabardines — checks — suedes and tweeds

In colors brown, blue, tan and navy.

Priced from—

\$6.95 to \$14.95
