

OPENING

(Continued from page 1)

quarters of a million more bushels of grain produced in the Province in 1950 than in any average year, but the island producers still would probably have to import grain.

He cited the fact that the Department had given financial assistance to control pests and pointed out that assistance had been given during the cut-worm emergency.

With regard to the Conference's recommendation that cattle entering the Province should have a health certificate, he stated that a law to this effect had been passed and enforced. He also reviewed the efforts of the department to secure veterinary services.

He paid high tribute to the work of the Women's Institute superiors, Misses Mary Robins and Myrtle Bowyer, Dominion Entomological Laboratory, Mr. F. M. Cannon, Provincial Department of Agriculture, Mr. W. R. Shaw, Dominion Laboratory of Plant Pathology, Mr. R. R. Hursi, Seed Potato Certification Branch, Mr. Henry MacLaren, Livestock Production Services, Mr. James Mundy, Poultry Services, Mr. F. M. Nash, Vocational Education, Mr. Ralph MacLean, Fruit and Vegetable Division, Mr. Chester Shaw, Federation of Agriculture, Mr. Lincoln Dewar, Fox Experimental Station, Dr. G. A. Gunn.

Interesting verbal reports were given by Mr. Arthur LeLachur, Plant Products Division and Dr. E. S. Notting, representing the Health of Animals Branch.

Committee meetings will be held today and tomorrow. Soils and crops committees will meet at Birch Court and plant diseases, pests and horticultural committees will meet at the Plant Pathology Laboratory today.

Tomorrow morning the livestock and poultry committees will meet and tomorrow afternoon the market and poultry committees will hold discussions. The convention will reconvene on Friday to receive the reports of committees.

CANINES HELP
The Royal Air Force in Britain recruits dogs for guard and security duties at air stations.

BIRTHS, MARRIAGES, DEATHS
50c per insertion

BIRTHS
MIDSTONE - At Hamilton, Ont., January 15th, 1951, to Mr. and Mrs. John Lidstone, (nee Mary Wood) a daughter.

MARRIAGES
STYMEIST-LECOO - At 10 Lepp-Born Ave., Charlottetown, on Monday, January 15th, 1951, by Rev. J. H. Bishop, Mamie Helen Lecoq of Glen William to Cecil Thomas Szymeist of Murray River.

DEATHS
MCALLEN - At his home Jan. 16, Peter Frederick McAllen in his 52nd year. His remains are resting at his home, 22 Alley Street, from where the funeral will take place Friday morning at 10:15 to St. Dunstan's Basilica for Requiem High Mass. Interment in the Roman Catholic Cemetery.

DEATHS
FYFE - At the P. E. I. Hospital, January 15, Hannah G. Fyfe, 84 years, nee Davison. Funeral Parlours, Kensington, until Wednesday noon, thence to the home of her nephew, Elmer Fyfe, Stanley Bridge, where funeral will be held Thursday at 1:30 p.m. followed by service in Stanley Bridge United Church at 2 p.m. Interment in Cavendish Cemetery.

JOHNSON AND JOHNSON will be the only Drug Store open this afternoon and evening.

ROAD REPORT-Due to Monday's thaw and freezing rain all main highways on Prince Edward Island are reported icy and treacherous. Although sanding crews are busy on all highways, motorists are cautioned to drive carefully and proceed at moderate speed. Buses are running on all main highways in the Province.

FUNERAL AT ST. PETER'S BAY
The funeral of the late Newton J. MacEwan was held yesterday afternoon from the MacLean Funeral Home to St. Peter's Bay United Church where service was conducted by Rev. R. A. MacLeod. During the service a trio composed of Mrs. D. A. Birch, Miss Miriam Waye, and Rev. R. A. MacLeod sang "Face to Face." Interment was in Midgill cemetery. Pallbearers were Chester C. Pratt, Everett M. Quigley, John MacClum, Frank Jay, John J. MacKinnon, Ronald MacDonald.

MALE CHORUS PRACTICE - Almost a full attendance was present at the regular weekly practice last night when the Charlottetown Male Chorus met at the Y.M.C.A. for their rehearsal with the conductor Mr. Stan Lancaster and Mrs. Allison MacLeod at the piano. Appropriate selections were rehearsed for the Burns Concert, which is to be held in the near future. The Chorus has also been asked to sing on a program arranged for the delegates of the East Coast Fisheries Convention which is being held at the Charlottetown Hotel.

LEGION CARD PARTY - The regular Tuesday night Canadian Legion auction 45's card party was held at the Legion Home of the Charlottetown Branch last night with nine tables participating. The prize winners are as follows: Ladies: 1. Mrs. Corrigan; 2. Mrs. E. Barry; consolation, Mrs. Alberta Martin. Men's: 1. Mr. Harold Cudmore; 2. Mr. William MacLeod; consolation, Mr. William Stewart; door prize, Mrs. Loreta Martin and Mrs. Edward Smith. The proceeds of the card party are in aid of a cigarette fund for hospitalized veterans in the two City Hospitals and the Provincial Sanatorium.

TRINITY Y. P. U. - Trinity United Church Y.P.U. held its regular meeting in the Church social hall yesterday evening with about 110 young people in attendance. The meeting opened with a lively singing song directed by Leith Stetson and with Mary Morrison at the piano. The business meeting followed with Charlie Downe the vice president in the chair. Leith Stetson was appointed second vice president. After the business meeting an interesting talk on social work was presented by Mrs. Tim Tyler. Entertainment was provided at Beach Grove, the Infirmary and Falconwood. The worship service, led by June Elkhou and Peggy Ellis, opened with the hymn, "Beneath the Cross of Jesus." A story entitled "The Perfect Blueprint for Happiness" was read followed by a prayer. The service closed with the hymn "From Greenland's Icy Mountains" and the Mispah benediction. Recreation led by Charlie Hynes and Donald Wood, was enjoyed by all.

Personals
Miss Irene Morrison teacher of Hazel Grove School visited friends in Hunter River last week.
Mrs. Boyd Weeks Fredericton spent Thursday guest of her cousin Mrs. Claude Younker, New Wiltshire.
Miss Hilda MacLeod, Charlottetown has spent a few days in Fredericton the guest of Mrs. Boyd Weeks.

Mr. and Mrs. Ernest White of Charlottetown were recent guests of Mr. and Mrs. Daniel Hickox, Burlington.
Mr. J. Raymond MacIsaac, Cherry Valley, leaves for Ottawa this morning to take up training with the R. C. M. P.

Trinity Mission Circle Meeting
The January meeting of Trinity Mission Circle was held in the Social Hall of Trinity United Church on Monday evening, January 15th. The meeting opened with the business period, conducted by the retiring President, Louise Cox. Reports read by the Secretary and Treasurer showed that 1950 had been a most successful one for the Circle.

The worship service was conducted by Mildred Myers and Ruth Oudmore, and was followed by a very interesting study of Japan presented by Louise Cox and Blanche Howatt.
Rev. Mr. Ashford installed the following slate of officers for 1951: Past President, Louise Cox; President, Mildred Myers; Vice-President, Joyce Anderson; Secretary, Jean Kennedy; Treasurer, Blanche Howatt; Missionary Monthly Secretary, Gladys MacMillan; Supply Secretary, Ruth Oudmore; Community Friendship Secretary, Wilma Watts; Pianist, Louise Cox; Reporter, Ena MacLeod.

12 New Women's Institutes Formed

Twelve new branches of the Women's Institutes were organized in Prince Edward Island during the past year; three have been reorganized and none have been discontinued, reported Miss Mary H. Robin, W.I. supervisor, at the Agricultural Conference yesterday. She reported a year "of broadening activity in many fields of our work." At home many Institutes have helped to improve their schools until now only sixty-six of the 550 rural schools remain without new or renovated buildings. The Institutes have cooperated with sixteen service or welfare organizations at the Provincial level and have made monetary contributions to eleven Health and Welfare organizations and two cultural organizations. In all twenty-two organizations have received cooperation. "Many welfare organizations have come to look upon the Women's Institutes as a Community Chest."

A detailed report of activities outside the Province was also given.

Bracken Ayrshire Tops List

The Honourable John Bracken went to Prince Edward Island and personally selected the Ayrshire cow Fairvue Fashion Linda from A. MacRae & Sons, Charlottetown, P. E. I., which had previously made two outstanding heifer records. And so it is that a year or so later Fairvue Fashion Linda made her third record in the Ayrshire herd of the Hon. John Bracken and his son George, at Manotick, Ont. This record is not only the highest Ayrshire record made by a Bracken-owned cow but is also the highest Ayrshire record made in 1950 by an Ayrshire.

Fairvue Fashion Linda commenced her latest record at 6 years of age and subsequently produced 19,017 lbs. milk, 829 lbs. butterfat, 4.36% in 365 days on 2 milkings per day. This being, as already mentioned, not only the highest record made by an Ayrshire in 1950 but also the third highest record ever made by an Ayrshire on 2 milkings per day. As a record indicated her 2 year old record of 15,602 lbs. milk, 684 lbs. butterfat, 4.38%, in 365 days, on 2 milkings per day, was the highest record made in that class that year, as also the second highest 2 year old Ayrshire record ever made by an Ayrshire.

Her other record, which topped the list the year it was made was 18,880 lbs. milk, 704 lbs. butterfat, 4.17%, in 365 days on 2 milkings per day.

Fairvue Fashion Linda was sired by Glangray Bit O'Fashion probably the most outstanding sire ever used in Prince Edward Island.

Girl Guides Ass'n Prov. Executive Holds Meeting
Excellent reports of progress in Girl Guiding were given at the Provincial Executive meeting of the Canadian Girl Guides which was held at the home of Mrs. G. E. Hartlen on Saturday afternoon with the Provincial Commissioner, Mrs. Gordon Hutchison, presiding.

The minutes were read by Mrs. Whitelaw, Secretary after which a financial report was given by Mrs. Fred Pickard, Treasurer. Girl Guide cookies having been received from Marvin's, Mrs. D. MacGulre, chairman of the Finance Committee, told those present of the price quoted for the cookies and also outlined the results of the previous Cookie Day. After a considerable discussion, it was decided that this year the Provincial Executive will again sponsor a Raisin Day rather than a Cookie Day.

Miss Suzanne MacKinnon, Provincial Camp Adviser, reported that the Girl Scouts of America are again requesting two Canadian Camp Counsellors to go to the United States for six weeks next summer where they will assist at Girl Scout Camps. The name of a qualified P. E. I. Guide and Camp-counsellor is to be submitted for consideration.

Commissioner of Training, Mrs. G. E. Hartlen, stated that as the Guides would like some training arrangements are now being made to take care of same. When the date is announced, all Guides and prospective guides will be eligible to attend.

Turnip Maggot Control Problem Still Unsolved

Though investigations were carried out last season on a large scale, no solution to the problem of turnip maggot infestation is yet in sight, reported Mr. T. M. Cannon officer in charge of the Dominion Entomological Laboratory, at yesterday's session of the Provincial Agricultural Conference.

Detailed control and biological studies were conducted last year, as well as field surveys, and these investigations are being continued throughout the winter, the report states. Arrangements have been made to construct two rooms in the plant protection greenhouses at the Dominion Experimental Farm, where temperature and humidity can be controlled. These rooms will be ready in the course of a few weeks.

While insect populations in general were below normal during 1950, there was a serious outbreak of the red-backed cutworm in King's County and the eastern part of Queens. This occurred during the latter part of June and early July. Several thousand acres of grain were infested and the damage ranged from slight thinning to complete destruction of the crops. Infestations were confined to grain fields in which potatoes or turnips were grown the previous year.

Another insect that is gaining prominence in the Province is the barley jointworm, first noticed about four years ago, which has since become widespread. Further studies will be made this year in potato insect control to determine the minimum amount of parathion that can be used safely and effectively.

The report notes that in pea-moth investigations, it was found that parathion gave almost 100 percent control. During the past two seasons, elaborate experiments were set up to further study the biology and control of the corn earworm, but infestations were so light that very little information could be obtained. This project will be discontinued for the present.

Notes Further Improvement in Swine Production

380 Island breeders have participated to date in advanced swine registry and there has been an appreciable increase during the past year in the number of sows qualifying in the higher scores, states the report of Mr. H. W. Clay, senior livestock fieldman, Dominion Department of Agriculture, which was submitted at yesterday's opening session of the Provincial Agricultural Conference.

"When the present year is completed on March 31st, we should have more sows qualifying in 1950 than in any previous year," the report adds. In 1948 only 70.9 per cent of the sows tested qualified, whereas this year 83.3 per cent qualified. The number of pigs raised to weaning age has remained more or less stationary at 9.1-2 per litter for the sows tested.

Test groups were found outstanding for maturity in that they reach market weights much earlier than the average for the sows in Central and Western Canada. The average slaughter age for all the groups tested in 1950 was 188.6 days. In a detailed statement of hog marketing and grading percentages, the report shows that the percentage of Grade A's increased from 35 in 1941 to 51.6 per cent in 1950. "This improvement," the report states, "is all the more amazing when we consider that our annual marketing in the same time has increased from 47,412 in 1941 to 97,159 in 1950."

During the coming year it is anticipated that there will be a material increase in hog production in this Province, largely due to the heavy 1950 grain crop and the present unfortunate potato market situation. After reviewing the success of Island swine exhibits at the Maritime Winter Fair and Royal Fair, the report predicts that Island efforts at the latter exhibition this year "will have far reaching results in bringing the swine show standard from a hobby show to a commercial proposition."

Blind Bowlers Continue Activities

Despite the poor weather conditions yesterday afternoon seven of Charlottetown's sightless men and women were on hand at the Rollaway Bowling Alleys to engage in the second week of bowling. Mr. George Waiters and Mr. O. K. Freedy, members of the Charlottetown Rotary Club, acted as guides and scorekeepers for the two games of candle pins.

The following candle pin scores were made during the two games: Mr. G. E. Wood, 1st game 56, 2nd game 62. Miss I. M. Alchorn, 41, and 44. Mr. Peter McGarry, 35, and 40. Mrs. M. E. Simmonds, 29 and 41. Mr. M. I. Warren, 30 and 39. Mr. W. McEachern, 16 and 26. Mr. L. L. Edwards, 10 and 25.

The P. E. I. Field Secretary of the Canadian National Institute for the Blind, noted that in the case of each bowler an improvement on the first game scores, showing that the interest and ambition of each player is bringing results in better bowling ability. The only strike of the afternoon was made by Miss Ida Alchorn, and one spare was acquired by Mr. G. E. Wood.

ST. LAURENT

(Continued from page 1)
comfort over the world situation from the time I came in contact with the views of the United States and those at the London conference over the Korean issue. He replied, "I don't think so, really."

As to some criticism that the cease-fire request of the United Nations' cease-fire committee displayed too soft an attitude towards Red China, Mr. St. Laurent said it was not always wise to express one's real feelings to those with whom negotiations were being conducted. "I don't think any of us want to sell our souls to Soviet Russia or Red China," he observed.

LOCAL BREEDERS

(Continued from page 1)
Island breeders to the school. This school will be conducted by Professor Rathby and Mr. James Bremner, Secretary of the Canadian Jersey Cattle Club. Purpose of the school is to teach breeders the fine points of an animal with an eye towards qualifying the breeders to judge cattle. The school will be held during the last part of June or first of July.

The Provincial Association will also sponsor a banquet for the Maritime Jersey Breeders at the Amherst Winter Fair next November. Each year an association from one of the Maritime Provinces sponsors this banquet. Mr. Edilson Mutch of North River told the meeting of his reasons in refusing to purchase the three year sire Brampion B. Violet's Beacon at the Roslyn Park dispersal sale last November.

"I saw ten of the sire's calves," he stated, "and five of them I judged to be good enough for the Provincial show here and five of them I would leave at home." Of the five good enough for the show, Mr. Mutch did not think any of them would win a championship. Mr. Mutch was authorized to bid as high as \$9,000 on the animal by the Island Jersey Breeders Association.

He told the members that he bought a bull calf in Toronto and would turn him over to the Association if they wished. If not he would keep the young sire for his own herd. **Calf Club Grants**
The Association voted small amounts of money to the three Jersey calf clubs in existence. These clubs are located in the following communities - Bedeque, Victoria and Miscouche.

The matter of vaccinating calves was also discussed. Several members objected to the restriction of age limit in which a calf can be vaccinated to six to eight months instead of from four to eight months. This restriction it was pointed out necessitated two vaccination periods a year in each herd. The high costs of vaccination were also discussed.

Review Efforts In Combatting Tuber Diseases

There have been no new diseases of a challenging nature to record during the past year with the main field of research being concerned with diseases of field crops and potatoes, stated Mr. H. R. Hursi, Plant Pathologist, in his report to the Agricultural Conference at Birch Court yesterday.

"It is a satisfaction to report that the much feared ring rot disease of potatoes has remained at an insignificant level and no longer is a threat to the industry," he stated. Extensive tests on the effect of various methods of handling and storing potatoes in relation to Fusarium storage were initiated in the autumn of 1949, he continued. He noted that the transference of potatoes from cool storage to a warmer location such as occurs under shipping conditions significantly increased the amount of rot following a transfer period of one month. Fusarium damage was again tested as a means of reducing the disease but the results were unfavourable.

Five potato fungicides were tested by the Potato Fungicide Committee during the year. Bordeaux Mixture gave best control of late blight on the foliage and it was followed closely in this respect by Dithane D-14. In the control of tuber rot the copper fungicides Bordeaux and Basi-Cop ranked first and again Dithane D-14 placed second. Highest yields were obtained from plots treated with the zinc containing fungicide Dithane-14 and Crag 658.

Four new fungicides together with Bordeaux mixture as a standard treatment were screened under severe epiphytotic conditions at Charlottetown. Bordeaux mixture and Dithane Z-78 gave best control of late blight on the foliage. Varietal resistance to storage rot was studied from January to April 1950. Eight blight resistant seedlings and six named varieties were included in the test. One blight resistant seedling proved superior to the others in resistance to storage rot. The Sebago variety proved highly susceptible (57.7 percentage infection).

Field studies showed that only the Houma variety of potatoes showed high resistance to Verticillium wilt in a test of eight blight resistant seedlings and six named varieties. Results from the same varieties tested for black leg showed that the Sebago variety contracted severe black leg while the variety Chippewa showed marked resistance. Further studies on wilt of potatoes have given evidence that Semesan blue, Malachite green and hydroxy-quinoline sulfate all give a significant control of wilt in highly infested cobbler seed.

As a preliminary to studying the factors that influence black leg incidence some progress has been made at the Charlottetown laboratory toward the establishment of suitable techniques of producing the disease. MONTREAL, Jan. 16 - (CP) - Police last night found 15-year-old Pierre Chevalier, missing from his home in Rouyn, Que., for two months. The boy's father appealed to police yesterday to help find his son whom he believed might be working in a foundry here. After checking a score of foundries, police found him.

RADAR STUDIES

Great progress in knowledge of meteors has been made in recent years through the use of radar for observation.

Home Construction Figures Given

OTTAWA, Jan. 16 - (CP) - Construction was started on more new homes but fewer were completed during the first nine months of 1950 than in the corresponding period of 1949, the Bureau of Statistics reported today.

Starts on new dwellings in the nine months increased to an estimated 71,945 units for all Canada, against 67,862 in the corresponding 1949 period. An estimated 59,431 units had been completed against 62,936 in 1949. Increases in the number of starts were reported in the Maritime Provinces, Quebec and the Prairies while decreases showed in Ontario and British Columbia. Maritimes and Quebec, but lower elsewhere.

By Provinces, the number of starts in the nine months, with 1949 figures in brackets: Newfoundland 12,536 (10,000); Prince Edward Island 298 (316); Nova Scotia 1,965 (1,909); New Brunswick 1,962 (1,706); Quebec 21,387 (23,301); Ontario 23,822 (26,294); Manitoba 3,433 (3,743); Saskatchewan 2,569 (2,586); Alberta 6,876 (6,312); British Columbia 6,067 (7,758).

Number of completions in the same period: Newfoundland 923 (1,000); Prince Edward Island 313 (209); Nova Scotia 1,848 (2,230); New Brunswick 1,567 (1,263); Quebec 19,074 (18,538); Ontario 20,416 (22,536); Manitoba 2,801 (3,223); Saskatchewan 1,429 (2,454); Alberta 4,774 (6,834); British Columbia 6,198 (7,658).

Number of units under construction at Sept. 30: Newfoundland 1,927 (1,800); Prince Edward Island 291 (310); Nova Scotia 2,452 (2,426); New Brunswick 1,578 (1,822); Quebec 18,488 (15,823); Ontario 25,879 (23,670); Manitoba 3,400 (3,117); Saskatchewan 2,585 (1,977); Alberta 6,296 (6,735); British Columbia 6,964 (7,835).

VANCOUVER, Jan. 16 - (CP) - Eleven women collapsed from gas poisoning yesterday after leaving a dancing class. Fumes entered the building when a bulldozer broke a gas main outside. The victims were revived.

HOLMAN STORE NEWS
The belles of the balls this winter will be wearing EVENING GOWNS from the Ladies' Wear Department. Dazzling beauties, made of taffeta, sheer, net, nylon marquisette and satin and net combination, are in a wonderful array of entrancing colors. Besides the charming Evening Gowns (many of them jacketed) are a number of smart, attractive DINNER DRESSES that feature sophisticated simplicity of line and design. Evening fashions are available in sizes 12 to 20 - priced 17.95 to 42.95. Be your loveliest in an Evening Gown of distinction from the Ladies' Wear Department.

When you Buy More - You Save More, Shopping in the GROCERY DEPARTMENT at Holman's during the 3-Day Town-Wide Sale (Thursday, Friday and Saturday). For instance there are Specials on Coffee, Tea, Sunlight Soap and Biscuits, to say nothing of Poultry and Bacon. . . You simply cannot afford to miss these or any of the other Special Food Values. Be very, very wise! Shop in Holman's Grocery Department on Thursday, Friday and Saturday.

Shop at Holman's during the 3-Day Town-Wide Sale - Thursday, Friday and Saturday of this week! You have a perfectly well opportunity to replenish your supply of fine COTTON SHEETS and save Plenty too. Substandard hemstitched or plain hemmed Cotton Sheets are on Sale for 3.99 to 4.59 a pair in the Dry Goods Department. They're in the 54 by 100 and 68 by 100 sizes. Read the 6 Big Pages of Special Buys and Bargains in your local paper. . . Then rush and shop at Holman's. . . On Thursday, Friday and Saturday of this week!

The ladies of the Youth Centre wish me to tell you that they have just received a brand new shipment of COTTON JERSEYS with LONG SLEEVES! They're priced at ONLY 98 cents each and are available in sizes 2, 4 and 6. The colors are brown, blue and red in all-over patterned designs. These are really useful garments for your girl or boy - they like to wear them and you'll like them too, they save on laundry because they don't need any ironing or pressing. Shop today for Cotton Jerseys with Long Sleeves in the Youth Centre.

Every Girlie will want a "PERK-UP" WALLET made by Betty Lou! They take the place of a Handbag - slips right into a pocket.
