THE WALL PAPER MEN.

KIPLING'S CONDITION IS UNCHANGED.

His Wife Able to Leave His Bedside.

FOR THE FIRST TIME IN TWO DAYS.

Kipling's Improvement Will be Necessarily Slow.

[SPECIAL TO THE EXAMINER.]

NEW YORK, Feb. 28.—Mrs Kipling went out driving at 5 o'clock yesterday with Mr. Loibley, and remained out an hour.

It was the first time in two days that she had left the bedside of her husband.

That she considered Mr. Kipling's condition warranted leaving him even for a short time was regarded as a hopeful sign.

The following bulletin was issued at 5.45 p. m.

Mr. Kipling has held his own through the day.

(Signed) E. G. JANEWAY. THOS. DUNHAM.

Dr. Danham at 10 o'clock last night said that Kipling's condition remained the same. He said Kipling has been almost too sick a man to take a sudden turn for the better. His improvement will be necessarily slow.

New President Elected.

[SPECIAL TO THE EXAMINER]

HALIFAX, Feb. 28.—J. Norwood Duffus has been elected president of the Maritime Province Amateur Athletic Association in the place of E. T. Hammitt, who has gone to Bermuda.

Sousa Prevented a Panic.

KANSAS CITY, Mo., February 24.—Kansas City's great auditorium and convention hall, the second largest of its kind in the United States, was formally dedicated yesterday. Just as Sousa's band began to play the last number on the afternoon programme some one in the gallery shouted for Pryor, one of the soloists. The audience, consisting of twenty five thousand people, thinking "Fire" was shouted, arose and looked around for smoke. A panic was imminent, but Sousa was equal to it. Facing the throng he waved his baton and the band struck up "Yankee Doodle." Three times the band played it before the crowd was seated in quietness.

Money for Navy Yard.

WASHINGTON, Feb. 24.—Acting Secretary Allen has prepared for submission to congress a deficiency item amounting to \$750,000 for machinery for the machine shops at the New York Navy yard to replace those destroyed by fire, and an item of \$325,000 for buildings to shelter the plant.

Recruiting in Canada.

LONDON, Feb. 24.—In the House of Commons Arnold Foster, replying to a question submitted by Wyndham, member for Dover, said that the matter of recruiting in Canada for the regular army and also the repatriation of the hundredth regiment were still under consideration.

Do You Know

That impure soaps are the direct cause of a large amount of skin diseases? Avoid the danger by using "Sunlight" and Lifebuoy Soaps, which are guaranteed to be absolutely pure; equally good for the toilet as the laundry.

PROF'S. ROBERTSON AND MACOUN

Held a Meeting at Rustico Yesterday,

BUT MISSED THE MEETING AT BRADALBANE.

Where an Interesting Discussion on Exhibitions, etc., Took Place.

[SPECIAL TO THE EXAMINER.]

Professors Robertson and Macoun arrived at Rustico at 3 o'clock yesterday, and found a large audience awaiting them. Hon. Mr. Farquharson, Premier of the Province, was amongst those present. Rev. Father Macdonald occupied the chair.

Professor Robertson, in the course of a pithy and practical address, which was intently listened to, touched on four points. The first of these was the greater and more numerous difficulties that beset farmers in our days. Under this heading he dealt particularly with the exhausted condition of the soil, the difficulties of growing a larger and better crop, the difficulties arising from the greater prevalence of weeds, the changing demands of the markets for better qualities of products, and the prevailing low scale of prices for all classes of farm products. He gave suggestions as to how fertility could be maintained in P. E. Island, counting, in this regard the quality of our soil, the history of agriculture here and the means available for restoring and improving the fertility of the soil.

Under the second heading he discussed the question of the growth of crops—dealing mainly with the benefit that would spring from the grading up of seed. He advised so much the importation of new varieties of seed as the careful and skilful grading up of the sorts found to do well under Island conditions. He gave particular directions as to how each farmer could have his own seed grain crop. By following this plan and carrying out in detail the recommendations, which were neither expensive nor difficult, he believed that the crop of P. E. Island could be doubled per acre in five years. This he said was more easy of attainment than the establishment and the extension of the dairy industry which had taken place. He then spoke of the rearing and fattening of swine for the English market. Lastly he gave a description of the most improved method of fattening and shipping chickens for the British market.

Professor Macoun followed and gave an excellent address on the cultivation of potatoes, with illustrations of the varieties which have given the largest yield per acre at the Experimental Farm at Ottawa, and which are the best quality for keeping and eating.

After the meeting at Rustico, Professors Robertson and Macoun started for Bradalbane, in the midst of the rain. By some mischance their driver took the wrong turn, and when they ought to have been at Bradalbane they found themselves in the vicinity of Stanley Bridge, having driven against a barbed wire fence and encountered sundry other obstacles on the way. At Stanley Mr. James Brown very kindly undertook to pilot them over the road to Bradalbane, and they arrived at the hospitable Hotel Macdonald, dripping, shortly before eleven o'clock.

In the meantime Premier Farquharson, who had come by way of Haunter River, Mr. John Moore and Mr. Best of Crapaud, and a number of the farmers of the neighborhood assembled at the Hall. A meeting was organized by the appointment of James Elliot, Esq., Vice-President of the Bradalbane Agricultural Association, to the chair, and the proceedings were begun by calling upon Mr. Moore.

Mr. Moore said that he appeared merely as a step-gap. He expected to have been a listener and a learner rather than a speaker. He had been doing a good deal of thinking about how to keep up the fertility of the land. We took out of the land every year a lot of grain and roots all drawing out the fertility of the soil. A big barn full of hay represents a considerable amount of fertility. If we continue extracting fertility and return nothing to the land the farm will soon be no better in summer than it is in the winter. It was a question of supplying a certain amount of fertilizer or of feeding the crops back to the farm. Even if all were fed back the fertility of the soil would be reduced by twenty per cent, which entered into the composition of cattle and their products. Taking fertility into account there is no money—but rather loss—in raising hay at \$6 per ton. It is proved that a little nitrogen is supplied to the land in the rain and the snow which falls upon it, but nature in this way only helps us to a small extent. If the farmer sells his hay at \$6 per ton, he is selling at a loss to the fertility of the soil—the capital in his bank.

NOTES FROM THE CAPITAL

Sir Charles Tupper in Western Ontario.

MINISTER SIFTON AND HIS PROPOSED NEW MOVE.

Civil Servants and Timber Lands Town Sites, etc.

[SPECIAL TO THE EXAMINER.]

OTTAWA, Feb. 28.—Sir Charles Tupper will spend the greater portion of the week in Western Ontario, in organization work.

Hon. Mr. Sifton, desiring to weaken opposition criticism at the coming session, has at last decided upon a policy which has been urged upon him for months past by Conservative speakers and newspapers. An Order in Council is to be passed prohibiting Government officials from acquiring an interest directly or indirectly in any mining claims, timber lands or town sites under penalty of speedy dismissal from the public service.

Pacific Overtures.

[SPECIAL TO THE EXAMINER.]

MANILA, Feb. 28.—It is said that Aguinardo is inclined to pacific overtures.

THE REVOLT IN ROUMANIA.

Its Serious Character—What Caused the Agitation

LONDON, Feb. 24.—Letters to newspapers speak of the serious nature of the peasant revolt which occurred between two and three weeks ago in Roumania, when two regiments of infantry sent to protect an estate belonging to an uncle of ex-King Milan were compelled to beat a retreat. It appears that the agitation is chiefly of a Socialistic character, although the name of the Czar has been coupled with the Socialist propaganda. The peasants have been told that it was the wish of the Czar, "the highest protector to Roumania," that the land should be divided among them on easy terms of payment, in accordance with the project of an agricultural bank, which was some time ago approved in the lower house, but rejected by the Senate. A petition by the Czar has been circulated in the rural districts complaining that the King and Government have failed to comply with his wishes. At the municipal elections last autumn the Liberal party, which is in office, co-operated in many instances with the Socialists against the Conservatives, and thus enabled the Government to secure a large majority. The consequence has been a rapid spread of Socialism. According to the Neue Freie Presse of Vienna, there are at present no fewer than seventy Socialistic societies scattered about the country. It is even said that Socialism has begun to effect the discipline of the army.

A BOSTON REPORTER

Who is Now King of One of the Caroline Islands.

TACOMA, Wash., Feb. 23.—The captain of the American bark Gerard C. Tobey, now in this port, tells a strange tale of a reporter for the Boston Journal, who was shipwrecked and put aboard his ship while intoxicated at New York. At Shanghai he deserted, but upon his arrival at Hong Kong the captain was surprised to find that he had preceded him there.

King O'Keefe, the absolute ruler of the island of Yap and other islands believed to belong to the Caroline group, had taken a fancy to him and had made the Boston journalist assistant king and sub-ruler of the next most important island. When the captain left, the journalist, who was known as "Charley" to his sea-faring friends, was flying high and ruling his subjects in a lordly manner.

DEAR SIR,—I was for seven years a sufferer from Bronchial trouble, and would be so hoarse at times that I could scarcely speak above a whisper. I got no relief from anything till I tried your MINARD'S HONEY BALM. Two bottles gave relief and six bottles made a complete cure. I would heartily recommend it to anyone suffering from throat or lung trouble.

THE ADAMS MURDER CASE

A Man Named Molineaux Arrested.

MOLINEAUX WAS LOCKED UP IN THE TOOMBS.

His Arrest Followed the Verdict of the Coroner's Jury.

[SPECIAL TO THE EXAMINER.]

NEW YORK, Feb. 28.—Roland Burnham Molineux son of Mr. Leslie Molineux, of Brooklyn, was arrested last night charged with murdering Mrs. Catherine J. Adams in this city on December 28th.

He was locked up in the Toombs. The arrest followed the verdict of the coroner's jury accusing him of the crime.

The evidence against him is considered very strong and complete.

ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menacers to health of the present day.
