The president, Mrs. Erith Hughes led the devotions which opened with a hymn. The theme of the meeting was "the mark of a matured person". Scripture reading by Mrs. Ivan Turner was followed by a solo by Glenda Diamond, and a prayer by Rev. T. R. Goudge. An anthem was sung by the choir.

The guest speaker, Mrs. Lloyd Howatt of Covehead Road gave an interesting talk on the 150 fortunate countries of the world, and explained how we could help, in a small way, to clothe

MARY HAWORTH Widow Shouldn't Depend On A Friend's Husband

DEAR MARY HAWORTH: I have a very dear friend, now a widow. For 12 years prior to her husband's death, they and my husband and I, were a constant foursome.

My husband has high regard for her and her husband. But is it right, now that she is widowed, to have him doing favors for her and her children?

I feel sorry for her and am willing to allow this. But am I being foolishly protective? Other people tell me that it is not a healthy situation. What is your opinion?

T. C.

DEAR T. C.: I should think the situation described is a set-up for spawning trouble in two households. And if it isn't corrected, the widow may walk off with your husband eventually, or short of that, may permanently cripple your happiness and sense of security in relation to him.

Inasmuch as the triangular implications already are disturbing you, with the duplicitous help of pointed comments from bystanders, I suppose you may as well face up to the headache, openly and honestly.

This would mean putting the cards on the table with your

Reduce Your Income Tax

You can cut taxes now on money you set aside for your retirement years, if you meet either of these two simple requirements:

- 1 You are not a member of a Registered Pension Plan;
- 2 You are a member of a Registered Pension Plan but your contribution is less than the maximum allowed for tax savings.

One other important thing. Your savings (in excess of any contributions to your employer's Registered Pension Plan) must be put into a "Registered Savings Plan"—the kind of plan you would buy from a life insurance company. And you must establish your plan by March 1, 1967, for relief on your 1966 income tax.

If you are not a member of a Registered Pension Plan, the maximum allowed for tax savings is 20% of your earned income or \$2,500, whichever is less. If you are a member, the maximum allowed for your combined savings under both the Registered Pension Plan and Registered Savings Plan is 20% or \$1,500, whichever is less.

Why is a Manufacturers Life Plan the best way?

Because there's no guessing about the basic amount of money you'll accumulate or the basic lifetime income it will purchase when you retire. You have these figures in writing in your contract when you buy.

Moreover, you may purchase a participating contract and receive dividends in addition to the basic guaranteed benefits.
