these provinces and Canada will likely go into such Confederation; and it is the opinion of this meeting that it would be unjust and detrimental in the extreme towards this Island for Her Majesty's Government to force its inhabitants into any Confederation while the people and their representatives disapprove of it, especially when so financially oppressive on the inhabitants of this colony.

Therefore resolved, as the opinion of this meeting, that Confederation would be injurious to the inhabitants of this Island; and they ought at public meetings to express their determination against any such Confederation, or any Confederation, until the terms are first published and submitted to the people of this Colony at a general Election.

Proposed by Mr. Owen Beagan, seconded by Mr. D. Webster, and carried unanimously, that the following resolution be adopted:—

No. 2. *Resolved*, That the thanks of this meeting are due to our present representatives for their determined opposition to Confederation, and for their conduct in every other matter in the Legislature for the benefit of the country and this district in particular.

Resolution No. 3. Proposed by Mr. Michael Murphy, seconded by Mr. Angus McDonald, and carried, that a report of this meeting, together with the resolutions, be published in the *Examiner* newspaper; and the other papers published in the Island are respectfully requested to copy.

Hon. Mr. COLES, in conclusion, said, he did not intend to dwell upon any subject but Confederation, but as the above resolution was passed he was glad to have to inform them that the present Government approved of the Liberal principles in regard to the Land Question which he had always advocated.

A vote of thanks was awarded to the Chairman; when three hearty cheers were given to Her Majesty the Queen; three for the Hon. George Coles, and three for the Hon. F. Kelly.

The Hon. Mr. Coles proceeded to his other appointments, seemingly well pleased to find the minds of the people firm on that subject, which has cost him no little attention; and the people satisfied to know he could represent their views conscientiously, and without any selfish motive.

MICHAEL MURPHY,
Secretary.

Fort Augustus, June 21st, 1866.

ATROCITIES OF THE U. S. WAR.—Mr. Samuel John Gurney, eldst son of Mr. Gurney, of this Island, went to London in 1854, where he remained some time, and thence to the United States before the Rebellion. He married a Southern lady, possessing Cottonplantation property. In 1862 he opposed the burning of cotton on the estate, when some merciless scoundrels seized and confined him in the fortress of Fort Hudson. During his incarceration his wife visited him twice, and, on attempting to do so the third time, was captured by the Federals, under General Banks, and confined for two months in a small hut, closely guarded by the soldiers, where she was most cruelly treated, insulted and fed on soldier's rations, most of which time she was sick. When Fort Hudson surrendered she again entered the fortress with the conquering army, and there found the corpse, shoes, and blankets of her departed husband, and had every reason to believe that he had been brutally murdered by the same party who had condemned him to the fortress.—*Com.*

FENIAN ROBBERIES.

That the principal object of the scoundrels who crossed over to the American border from the United States, was plunder, seems very clear from the following extract of a letter from the Toronto *Globe* correspondent:

"The Fenians pillaged most at Frelighsburg: five stores were entered. The Fenians helped themselves to boots, hats, &c. They pulled off their old clothes and put on the new; the old still lie on the floors of the stores. An examination shows what beggarly ragamuffins the raiders were The clothes left behind are filled with vermin, and too filthy to touch. They opened most of the letters at the Frelighsburg post office.

"I examined all the stores here to-day, and find the damage considerable. It is stated that waggon-loads of goods were carried off by the Fenians. I went through several private houses which had been ransacked. In some of the stores the damage will exceed one thousand dollars."

The recent action of the House of Representatives at Washington has exhibited, by an overwhelming majority, a degree of sympathy with the Fenians and hostility towards Great Britain, which cannot be said to be an indication in favour of the continuance of peace. But this is to be said: a great deal of allowance must be made for popular "buncombe," and that body cannot be held to be the governing power in the United States at the present time. The New York *Tribune*, which is the organ of the ultra republicans, appears to be making bids for Fenian sympathy, for party purposes.

CAST AWAY.—On Friday last a boat was found, bottom up, near Shemogue, with the body of a man named Smith, a pilot of Buctouche, lashed to the thwart. The correspondent who notes this discovery states that Smith left Buctouche to look out for a ship which was expected from P. E. Island. The boat in which he went out was a small one; the wind was blowing hard at the time he left, and it is supposed that exhaustion induced him to lash himself to the thwart to prevent being thrown out. The boat must shortly afterwards have been overturned by a heavy sea, and in that condition drifted ashore. Mr. Smith leaves a wife and a large family to mourn their loss.—*St. John Morning News, June 18.*

A Montreal correspondent of the New York *World* says he is assured, by good authority, that Gen. Sweeney allowed himself to be arrested, as he considered it would be the best way by which he would abandon the movement, the success of which he had despaired of, and the preparations for which had been defeated, partly by the mismanagement of his subordinates, and partly by the seizure of his arms and ammunition by the United States Government.

The "sick" Anti, Geo. L. Hatheway, while rusticating in Summerside, P. E. Island, far removed from the scene of political warfare in his own Province, undertook to address the people of that locality on Confederation and kindred topics. The address was characteristic of Geo. L.—flippant, discursive, abounding in misrepresentation and falsehood, and running over with abuse and vilification. Among other absurdities he asserted that an offer was made to bribe him with $10,000, and that Governor Gordon had sought to bribe him. These are, as they have already been pronounced through the columns of a contemporary, concoctions, pure and simple. This much, however, can scarcely be said of the stories afloat about G. L.'s attempt to divide an influential body in the constituency of York by the offer of money to some of its more prominent members, or one at least of them, and about his abandonment of the contest on finding this attempt unsuccessful.—*St. John Morning News, June 20.*

A man, by the name of Fox, not long ago married a young girl by the name of Ashley, near Tunbridge, Vt. They had some trouble, and parted. He became enamored of a young widow, and it seems was anxious to get rid of his wife. He saw her, and persuaded her to meet him in an old barn, on a farm where there was no one living, on pretence of making up and living with her again. She met him there, and the next morning the barn was a heap of ashes, and her half-consumed body was found with sufficient marks of violence still to be seen upon her head to show beyond question that she was murdered. Her lower limbs were burned off, but her body was not consumed. Her skull was fractured, evidently by a heavy blow. The murderer is now in prison.—*N. Y. Tribune.*

We learn that the Sch. *Happy Return*, belonging to D. H. Murray & and Wm. Palmer, of this place, was totally wrecked at Malpeque, P. E. Island, during the week, on her way to St. Pierre.—*Gleaner, June 16.*

Mr. Wilson, on Monday, and to the crowd assembled at Sailors' and Soldiers' Orphan Fair in the evening, by the Speaker of the House of Congress, Mr. Colfax. He addressed the crowd on the subject of Irish liberty, and Speaker Colfax also delivered a few remarks. Head Centre Stephens was to have been honoured by an invitation of Speaker Colfax; but understanding that similar honors were intended for Roberts, he declined, as he thought it would look like a collision between himself and Col. A Galveston (Texas) despatch says the steamer *Crescent* brings an extra Rio Grande *Courier* of the 19th inst., with details of the capture of the Liberal forces under Grevin of a large merchandise train from Matamoras to the interior. The train was conveyed by 10 Imperialist companies, numbering 350 men, under Captain Hoppa; 100 guerillas, made up of Confederates, and 1500 Mexican Imperialists. It had 8 pieces of artillery and 6 Mexican guns. The fight lasted one hour when the train was captured on the 16th inst., about 3 leagues from Canango Canal, and Maranina and Escabado with their remnants had placed themselves under Grevin. The Liberals numbered 2500, well armed and equipped. The train contained merchandize and ammunition of great value. Gen. Olivaras was wounded, and passed through Reynosa on Saturday night. Several officers of this command had arrived at Matamoras who confirmed the capture of 800 prisoners of Olivaras, and about 400 others, with the convoy, were sent to Canango under a double guard, with orders not to allow anything to be touched. Rumor says the Mexican Imperialist regiment changed sides in the fight. The Imperialists have suffered an irreparable loss by this capture. Twenty-one of the Austrians escaped.....A Monterey specie train is being at Calva for six days attempting to return to Monterey, and fears are entertained that it would also be captured.....Gold 148.

A Vera Cruz letter, dated the 13th inst., states that the Yellow Fever is raging in that city fearfully.... The last steamer from Europe brought 800 troops for Maximilian. The Liberals have released 28 of the Confederates captured near Gardovar. All work on the Imperial Railroad to the city of Mexico has been discontinued for want of funds, and from the aggressions of the Liberals. The Imperialists have lost and abandoned most of their important cities in the interior, and the general impression is that the Empire will not last long. Maximilian is in great financial distress. The Americans on the Cardova settlement are disheartened and preparing to return to the United States. Tampico is surrounded and closely invested by a strong force of Liberals. The Liberals are very active in the neighbourhood of Matamoras.——Gold 149¾.

"BANKRUPT CANADA."

The Montreal *Trade Review* of the 9th inst. has the following remarks on the state of the Money Market in that Province:

"Notwithstanding the great excitement which has existed during the week with regard to the Fenian invasion, and the continuance of the panic in financial affairs in England, our money market has remained quiet and unchanged. Happily, Canada was never in better circumstances, financially, to meet occurrences such as have transpired lately, both here and in England. The Banks are in an invulnerable condition after a year of most prosperous and atisfactory business. The Banks of Montreal and the City Bank made their annual statements this week. They exhibit a most satisfactory condition of affairs, and show an active employment of their capital, and evince careful and good management, which has enabled them to place large amounts to the "rest" of the Banks after paying dividends of eight per cent. for the year, and all expenses and losses which have taken place."

Another Canadian journal says:

"It is very gratifying to be assured that the business of the Canadian banks is in a very round and hopeful condition. On all hands, it is conceded that this country was never in a stronger condition to withstand the reverberation of such a panic as that which has convulsed the London market. The commercial editor of the Montreal *Gazette* observes, that whilst we read, with regret, of the serious troubles of the mother country, we have reason to congratulate the people of Canada, and more especially the mercantile community on the sound condition of financial affairs in this country. The monthly bank statement exhibits a sound and very satisfactory condition of business. The circulation on the 1st May, 1865, was $8,195,823. The circulation 1st of May, 1866, is $11,957,226. The amount of deposits 1st May, 1865, was $23,697,136. The amount 1st May, 1866, was $28,775,697. The amount of notes and bills discounted 1st May, 1865, was $44,113,633. The amount 1st May, 1866, was $43,837,426. It will appear from the above statement, showing an egress of over five millions in deposits since 1st May, 1865, that notwithstanding the high price of breadstuffs and other articles the increased capital has not been obtained by discounts, as the amount due the Banks on bills and notes discounted is nearly $300,000 less than it was last May. The increased capital on deposit, and the excess, three millions bank bills, in circulation, is the result of a good years' business in all branches of trade and industry in Canada the past twelve months."

Lord Monck, the Governor General of Canada, thus alludes, in his speech at the opening of Parliament at Ottawa, on the 8th inst., to the very prosperous condition of the Province, and to the prospect of a speedy accomplishment of the measure of Confederation:—

Gentlemen of the Legislative Assembly:

I have desired that the financial accounts for the current year, and the estimates of expenditure for the next year, shall be laid before you. Upon the very satisfactory results of the commerce of the country during the past year, the revenue has been so largely in excess with the estimates as to enable me, without inconvenience, to provide for the heavy and unexpected charges entailed upon the country.

Hon. Gentlemen and Gentlemen: The position which the great question of the Union of the Provinces of B. N. America has assumed is now such as to induce the expectation that the mission will be shortly carried into effect. I therefore hope and believe that it will be found practicable during the present Session to adopt such proceedure as may be necessary for completing the details of the Scheme as regards the province; and I venture to express the confident expectation that the next Parliament which will be held within these walls will not be confined to an assembly of the representatives of Canada, but will embrace those of all the Colonies of British North America.

I am happy to be able congratulate you on the general prosperity which pervades all classes of the community in the Province, and I pray that your councils may be guided by divine Providence to secure that which is the true end and aim of all government—the moral and material advancement of the great body of the people.

CANADIAN FLOUR TRADE.—Flour in the Montreal market is quoted in Shaw's Circular of the 15th inst, as follows:—Superior Extra, $9 a $9.50 per barrel; Extra Superfine $8.25 a $8.75; Fancy Superfine $7.50 a $8.00; City Brands of Superfine $6.60 a $6.75; Super from Canada Wheat $6.50 a $6.65; from Western Wheat $6.50 a $6 60; Super. No. 2 $6.20 a $6.35; Fine $5.75 a $6.

The following is a statement of the revenue and expenditure of the province of Canada for the month ending 31st May, 1866:—

REVENUE—	
Customs	$619,093 36
Excise	138,722 83
Bill stamp duty	6,263 24
Post Office	34,913 60
Crown Lands	199,649 23
Miscellaneous	76,397 81
Total	$1,075,040 07
EXPENDITURE	674,588 16

The Toronto *Leader* thus refers to a subject of general interest, which has been receiving considerable attention from the Anti-Confederate press of this city. Of Canadian flour, it says:—

"The Province of Nova Scotia and New Brunswick, which import large quantities of wheat and flour for consumption, have hitherto been in the habit of receiving their supplies from the United States. They have been accustomed to use an inferior grade or flour; and the Halifax papers tell us that a prejudice against Canadian flour has grown up there, on the supposition that it is naturally damp and liable to sour, in warm weather. The best flour in America, and that which commands the highest price in the New York market, is grown in Canada, and we hear from there nothing of this complaint of defective qualities. One of the Halifax journals—a ranting anti-unionist organ—advises its readers to have nothing to do with anything Canadian, and above all things, not to eat Canadian flour. Such barbarous notions as these will rapidly disappear before the civilizing influence of an union with the great Province of Canada, and the intercolonial trade to which it will give existence."

The names, ages, and religious tenets of the Fenians captured at Fort Erie, Canada, are published in the Canada papers. The total number is fifty-eight: fourteen are Protestants and forty-four Catholics: ane is a native of Germany, seven of Canada, twenty-five of Ireland, and the remainder of the United States: nineteen ore under twenty-one years of age. Among them is one David Farnfden, aged 42, who claims to be a minister of the Episcopal Church of Western New York. He is dressed in rustic black habiliments, with white neckerchief, and says he is a Scotchman by birth, having been born at Edinburg, and that his rectory is about sixty miles east of Buffalo on the New York Central line, and a John McMahon, who calls himself a Catholic Priest.

NEW IRISH CARDINAL.—The Most Reverend Dr. Cullen, Archbishop of Dublin, has received from the Holy Father the Cardinal's Hat, in recognition of his great merit. Dr. Cullen is said to be the first Irishman who has received this honour.

FIRE.—On Friday morning, about five o'clock, a fire was discovered in the premises owned by Mrs. D. Reddin, and occupied as a Bakery by Mr. B. D. Reddin. The Building and all its contents were consumed. We understand that Mr. Reddin's loss is considerable, there being only a partial insurance effected on the property. We have not heard how the fire originated.

SUDDEN DEATH.—On the evening of the 18th inst a man named Horace Eaten fell dead while digging clams on the shore near "the Point," Cascumpec.

ACCIDENT ON THE RAILWAY.—About 6 o'clock last Friday afternoon as the train was returning from Point du Chene, Jas. Grattan, the engine cleaner, while attempting to jump on the engine, which was in motion, slipped his foot off the steps and the wheel of the tender passed over it, crushing it almost to a jelly. He still held on to the handrail and by that means, in all probability saved his life. Dr. Jacobs of Moncton amputated the limb above the ankle. — *St. John Paper.*

James Hogg, Esq., editor and proprietor of the Fredericton *Reporter*, died at his residence in that city on Tuesday, 12 h inst. Mr. Hogg, besides being an able and intelligent editor, possessed considerable literary ability; he was the author of a meritorious volume of poems, and was, in his youth, a correspondent of his illustrious namesake, James Hogg, the Ettrick Shepherd.

HOLLOWAY'S PILLS.—Nervous Irritability. The very perfection of the human body renders it like a complex machine, very liable to be thrown out of order—a state that is at once made manifest by the nerves. Holloway's Pills are always the seasonable and reliable remedy; they relieve every ailment, which is not mortal, in the human system. As alteratives, stomachics, tonics and aperients, these Pills occupy a proud pre-eminence, from which no other medicine can dislodge them; they restore health and strength which nervous and dyspeptic sufferers have failed to recover elsewhere. Holloway's Pills act so directly upon the organs of digestion, assimilation and circulation that they immediately arouse torpid organs, augment diminishing vital power, and support failing energies.

At Mr. Bollum's Shipyard, Ennor River, Egmont Bay, on the 6th instant, after a few days suffering, of inflammation of the bowels, which he bore with Christian patience and resignation to the Divine Will, Mr. George Malcolm Bollum, Master Builder, in 59th year of his age, leaving a disconsolate wife and only son to mourn their irreparable loss. Deceased was eldest son of Peter Bollum, sen., of Birch Hill, Lot 49.

At her residence, Birch Hill, Lot 49, on the 8th instant, after a lingering illness, which she bore with Christian patience and resignation to the Divine Will, Mrs. Elizabeth Bollum, the beloved wife of Mr. Peter Bollum, sen., in the 81st year of her age, leaving a numerous family and a large circle of friends to mourn the loss of a kind mother and sincere friend and pious Christian, being a member of the native Presbyterian Church during the last 39 years. Deceased was a native of Rosshire, Scotland, (second daughter of Roderick McKenzie, Esq., of Rosshire, Parish of Applecross, Scotland,) and emigrated to this Island in the year 1803.

At Georgetown, on the 16th instant, after an illness of 6 months, Mary Jane Shanks, widow of the late Capt. J. A. McDonald, aged 36 years, leaving a family to mourn the loss of a kind and affectionate parent.

At Dundas, on the 27th ultimo, of consumption, Jesse, the beloved wife of Mr. John Coiley, aged 26 years, leaving a disconsolate husband, three children and a large circle of friends and relatives to mourn their loss. Halifax "Witness" please copy.

A Great Tea Party
AT
SOUTH WEST.

A TEA PARTY will take place at South West, Lot 27, on THURSDAY, the 19th JULY, on the grounds immediately opposite the R. C. Church.

The parishioners, knowing that the revenue of the Rev. Mr. DeLangie is not sufficient for the great labor he has to perform, have resolved to present him with the proceeds of this Tea.

The managing committee will spare no pains to render this *the Tea* of the season; every arrangement will be made for the accommodation and comfort of those attending; and as the grounds are spacious and beautiful, persons may rely upon enjoying a pleasant day.

No person will be permitted to sell spirituous liquors on the grounds, or in the vicinity, on that day, nor will any persons be allowed on the grounds in a state of intoxication. Suitable music will be provided, and arrangements made for the people to enjoy themselves at the various games of amusements.

Tickets of admission 1s 6d, children half price, which will be sold at the gate.

By order,
J. R. WALSH,
Secretary to Committee.
