

Signs of the Times.

The Right Rev. Bishop Samuel Falwos, of Chicago, preached in the St. Paul Reformed Episcopal Church, on the 16th inst., upon the "Signs of the Times." He said it was a remarkable fact that the great mass of intelligent, far-seeing business men, politicians, and worldly-wise people generally could not, or would not, read the signs of the times in their bearing upon that far more important matter—the second coming of Christ. A great many of the important events which happened in modern times were foretold, the speaker thought, centuries ago. He believed the events of to-day were as pregnant of indication as those of 1,800 years ago. The present condition of Egypt was, to the preacher, a sign and an evidence of the coming fulfillment of the prophecy that Egypt would be ruled by the Jews. He considered the domination of England equivalent to that, as it would be a control in the interests of the Jewish bondholders. Earthquakes, pestilence, and famines were prophesied as signs to be seen before the advent of Christ. The earthquakes in Italy, the approaching cholera pestilence, and the famines which have prevailed in Asia were the signs to meet these prophecies. It had been prophesied that iniquity would abound, and the Bishop thought the full measure of this prophecy had been fulfilled.

Coughing in Church.

In a recent sermon Henry Ward Beecher referred to the habit of coughing in church as follows: "As a physician I might say to you that much coughing is hurtful, as a musician I tell you it is abominably discordant. I don't want people to hurt themselves by refraining from coughing, but it has always struck me as being very funny that nobody coughs through a long prayer, but just as soon as the prayer is over there is a tempestuous wave of it." A Brooklyn paper says: "After that not a cough was heard through the whole sermon."

Heroic Remedy.

"I suppose I shall be an old maid all my life," sighed a young woman of 25.  
 "That's a grievous complaint," responded an old bachelor.  
 "Very," again sighed the maiden.  
 "Don't you want to cure it?"  
 "Of course I do."  
 "Take me for a husband?"  
 "Do you mean it?"  
 "Certainly."  
 "Well, desperate diseases require desperate remedies, and I guess I'll try you."  
 They fell upon each other's neck.—*Merchant Traveller.*

He Knew His Father.

"Now, Johnnie," said his teacher, "if your father borrows \$100 and promises to pay \$10 a week, how much will he owe in seven weeks?"  
 "One hundred dollars," said Johnnie.  
 "I'm afraid you don't know your lesson very well," remarked the teacher.  
 "I may not know my lessons very well," Johnnie frankly acknowledged, "but I know my father."—*Flushing Times.*

A Proper Time to Call.

Mistress of the house—"Who was at the door, Bridget?" Bridget—"The butcher, mu'm, after his money." Mistress of the house—"And did you tell him that I wasn't at home?" Bridget—"Yes, mu'm." Mistress of the house—"What did he say?" Bridget—"Shure, mu'm, an' he axed me whin ye wud be at home, an' O' told him that ye were at home on Thursday's."

**MORRIS & IRELAND'S**

**NEW IMPROVED PATENT EIGHT-FLANGE FIRE-PROOF SAFE.**

THE only Eight-Flange Safe in the world, and containing more improvements than ANY SAFE made, such as:  
 1st. THE PATENT INSIDE BOLT WORK, which is placing the bolt work with the whole of the flange (six inches) between it and the outside, that is, as far from the fire and thief as it can be.  
 2nd. THE PATENT HINGED CAP—the back plate of the door being on hinges, enabling the owner, by turning a thumb-screw, to have easy access to the lock and bolt-work. He can thus easily change the lock, clean, oil, and keep the bolt-work in good order.  
 3rd. IRON INSIDE LINING, stronger than wood, and which retains the moisture in the filling for an indefinite time. Wood is thicker and weaker, and after a few years absorbs the moisture and "requires filling over again."  
 4th. FOUR-WHEEL COMBINATION LOCKS, the simplest, strongest, most efficient and easiest to change of any in use.  
 5th. SOLID ANGLE IRON FRONTS, BACKS AND CORNERS, which prevents warping or injury to safe from falling, or falling walls or timbers.  
 6th. EIGHT FLANGES—the most important improvement ever made in fire-proof safes, providing eight lips, thus preventing the passage of heat, it having to pass over twelve inches, no injury arises from this source, as in other safes containing one, two or three flanges.  
 THESE SAFES have stood the test of years, and the greatest fire in this continent, and have the CHAMPION RECORD in the Boston, Chicago and Haverhill fires.  
 We are selling these safes as low as any good safe, and are disposing of large numbers throughout the Dominion.  
**BANK WORK AND VAULT DOORS** are specialties of our firm. For prices, testimonials and information, address,
