

THE DAILY EXAMINER.

JULY 21, 1893.

"IT WAS ALL MY FAULT."

That Admiral Tryon possessed a brave spirit is proved by the fact that he elected to go down with his men. His true greatness is also exhibited in the fact, which has been brought out in evidence taken at the Court Marshal, that he several times stated before the ship went down, "It was all my fault," "It was all my doing." If he had had a grain of meanness in him, he would not have taken pains to rid his subordinate officers of all responsibility on account of the catastrophe. The race of brave and honorable British gentlemen has evidently not yet died out. One of the best signs of a man is his readiness to admit his fault.

POISON ON HAND.

It seems likely that our trading Government will be left with a large quantity of poison on hand at the end of the season. As a result of the dry, cool weather of June, or from some other cause, the potato blight has not materialized as the Government anticipated. More than this, private dealers are underselling the Government all over the country. A farmer residing near Mount Stewart was, we are informed, disgusted when he found that he had paid eighteen cents per pound for Government Paris Green, when he could have obtained as good or better from the merchants of the town for fifteen cents. The disgust of the farmers is, indeed, widespread. A thousand dollars of the people's money have been invested in the Government's poison speculation, and the greater part of it has been practically lost, for all our wide awake farmers prefer to deal with their merchants who price of Paris Green are cheaper.

THE UNITED STATES AND RUSSIA.

THERE MUST BE A VERY good understanding between the Autocratic Czar of Russia and the Democratic President of the United States. Policy and diplomacy make strange bedfellows. Why has Russia decided to maintain a strong naval squadron at New York, and why has the United States decided to permit her to do so? It is, as the New York Press remarks, "a proceeding without precedent in time of peace." The Press—which professes to be well informed—explains that "inasmuch as a large portion of the Russian fleet is ice-locked every winter in the Baltic, it will be seen that the maintenance of a squadron on our Atlantic coast, with New York as a base of supplies, would be a decided advantage to Russia if hostilities should break out between the Czar's government and Great Britain during the months of winter or spring." If this be the motive of Russia, and if, as the Press intimates, "a diplomatic understanding has been reached between the United States and Russia which secured for this country the active assistance of the Russian navy in case of an attack upon the Monroe doctrine by any other European power," Great Britain and Canada have cause to beware. Are we to conclude that the United States desire to enforce the Monroe doctrine? Is it to be understood that Russia intends to open hostilities with Great Britain in the spring?

THE FRANCO-SIAMESE DISPUTE.

The quarrel between France and Siam seems to have had its origin in a mutual misunderstanding. It appears that the government of Siam had issued an order that foreign vessels of war should not be permitted to cross the bar of the Menam river. The French admiral professes to have been unaware of this fact. At any rate, he crossed the bar, and the Siamese ships opened fire upon the aggressor. The French replied, and there was for half an hour a wild exchange of shots, resulting only in the killing of ten Siamese sailors by the explosion of a stray shell. Out of this untoward occurrence there has arisen the warlike situation which is set forth in the dispatches. Choleric France is boiling over with indignation—threatening Siam and warning Great Britain to beware. Politic Russia has placed its warships at the disposal of its ally in the next great war. Celestial China seems to be inclined to aid its Siamese neighbor. Peaceful England is endeavoring to "gain possession of the facts" and to restrain France from over hasty action. In the House of Commons a few days ago the Parliamentary Secretary of the Foreign office reported that everything possible would be done by Great Britain to arrive at a pacific solution of the questions involved. It was imperative, he added, to keep distinct from the main issue certain allied questions, especially the question of Siamese independence. In the House of Lords the Foreign Secretary himself declared that Great Britain was fully alive to the responsibility attaching to her, and would not lose any opportunity of obtaining a satisfactory solution of the matters at issue. The reasonable and dignified attitude of England seems to be the strongest existing guarantee against a bloody war. France does not care to antagonize Great Britain, and so practically strengthens the Dominion of Germany, Austria and Italy. Nor does she care to see Siam placed under British protection. On the contrary France desires to strengthen her own position in Siam, and she knows that in building vessels of the largest, most costly, and most elaborate character whose floating capacity, in the very circumstances for which they are designed, would not be worth a quarter of an hour's purchase.

WESTERN FARMERS' CONVENTION.

The Meeting Yesterday—Deputation Appointed to Confer with the Finance Minister.

The Western Farmers' Convention was held at Emerald yesterday. The attendance was not large owing to the farmers being engaged at harvesting. Among those present were John Moore, Crapault, president; H. A. Stewart, Hamilton, Sec'y; W. McN. Simpson, J. Heber Haslam, R. H. McDonald, Arthur Simpson, Dugald S. Wright and S. R. Black. The officers elected for the ensuing year are: R. H. McDonald, President; George Haslam, Vice-president; and H. A. Stewart, Sec'y-Treasurer (re-elected). Speeches were delivered by several of the farmers present, among others W. McN. Simpson, R. H. McDonald, John Moore, Dugald S. Wright, Arthur Simpson and J. Heber Haslam. Each of these gentlemen seemed to be strongly of the opinion that the farmers of P. E. Island should adopt some new methods of farming to keep abreast of the times and meet the altered conditions of the market. J. Heber Haslam, who presided, outlined the different conditions of agriculture in the various provinces, and said that each province should be adapted to some particular use of agriculture, and it was for the farmers to find out what soil was best adapted to produce, and then to change his method to that end. Certain it was that it would be fatal to the farmers of P. E. Island to keep on growing oats to the same extent as in the past, and that our soil was such, that at the present prices, it was nearly impossible to grow grain here at a profit. He then went on to enumerate what, from his own's ravings, he thought the farmers of P. E. Island could grow to advantage and what at the conditions here were the most favorable for producing. The Finance Minister, Hon. George E. Foster, having requested the Convention to send a deputation to meet him in Charlottetown to discuss matters concerning the interests of the farmers of P. E. Island, a committee consisting of J. Heber Haslam, Arthur Simpson, D. S. Wright, R. H. McDonald and John Moore were appointed for that purpose. Considerable discussion followed as to the matters that were to be brought to the Finance Minister's attention, and it was agreed that all the farmers should have to use in the way of raw material, such as fertilizers, etc., should be allowed to come in duty free, and that everything that a farmer uses in the way of fencing, binder twine and agricultural machinery should be cheapened as much as possible; and if decreasing the duties on these articles would cheapen them, the committee were instructed to strongly urge on the Finance Minister the necessity of the farmers getting these articles as cheap as possible.

OBITUARY.

It is with feelings of regret that the inhabitants of Tracadie Cross and vicinity are called upon to mourn the death of one of its oldest residents, Donald A. McDonald, Esq., which sad event took place at his residence on the 4th inst., at the advanced age of 83 years. During his long life in this world he endeavored himself to all by his kind and charitable disposition. He bore his illness with Christian resignation to the Divine will, and after receiving from his beloved pastor, the last sacraments of the Catholic Church, he peacefully breathed his last. His remains were followed to St. Bonaventure's Church on the 6th inst., by a very large concourse of people. A solemn Requiem Mass was celebrated by Rev. Peter Curran, and the choir was ably assisted by Rev. J. J. McDonald, nephew of the deceased, and Mr. D. F. Morrison, Ecclesiastic. The services at the grave being performed, the deceased, loved and respected for his many virtues, was committed to the earth. He leaves four sons and two daughters, besides a large circle of friends and relatives to mourn his loss. May his soul rest in peace.

PERSONAL.

Rev. A. McLean Sinclair, of Belfast, P. E. Island, formerly pastor of the East River congregation, passed through here on Monday to Antigonish, New Glasgow Chronicle. Rev. Thomas Duncan, for many years the popular and esteemed pastor of St. James' Church, and Mrs. Duncan, arrived here last evening from Scotland. They are the guests of Charles A. Hyndman, Esq., Brighton. Rev. D. H. Lodge, of Shelburne, has after twenty years of faithful and successful work in the different circuits to which he had been called, decided to take a three months' rest. He went to the Island on Saturday last—St. John Sun. The late Bishop Racine in 1834 entered the seminary at Quebec where he completed his classical course. He studied theology with His Eminence Cardinal Taschereau and Bishop Hogan, Langevin, Sweeney, of New Brunswick, and McIntyre, of Prince Edward Island. Archbishop and Mrs. Jones, who have just returned to Windsor, desire to express their regret at having been unable for want of time to return the calls of their friends. We understand the Archbishop was much pleased with his visits to the several churches under his jurisdiction in the Island. Mrs. Henry Cooper of Charlottetown, and her daughter were in Truro a few days ago, arranging some business matters for Miss Clementine Cooper, who left Truro two years ago, and who is now a resident of Los Angeles, Cal., where she is about to be married to Captain Hart, late of Cape Breton. Miss Cooper is a daughter of the late J. B. Cooper, Esq., who was formerly printer, editor and publisher on Prince Edward Island. Her aunt was the late Mrs. Scott, relict of the late Rev. James Scott, Baptist clergyman, well known to many in P. E. I. and Nova Scotia. Mr. Cooper lived with his daughter in Strawick for some years, where he died, after which Miss Cooper lived in Truro, inheriting her aunt's property, and a year or two ago moved with some friends to the Golden State—Truro Sun.

The Goulds' Protests.

Mr. George J. Gould and his fellow heirs under the will of Jay Gould think that their estate is being robbed by the New York Tax Commissioners. In the tax list for 1893 the personal estate of Jay Gould is put down at \$10,000,000. The heirs have obtained a writ of certiorari from Justice Tracy, of the Supreme Court, for the purpose of reviewing this assessment. The heirs contend, in the first place, that they should not be taxed at all, as they did not come into possession of the estate until January 13th, four days after the taxing law went into effect. If the court does not take this view of the case the heirs say they should not be asked to pay on more than \$2,000,000 worth of property. The Gould estate has already paid \$600,000 as collateral inheritance tax, and this concludes the estate to be worth \$63,000,000. Comptroller Myers, who collected this tax, estimated the estate as worth \$76,000,000.

Unlike the Dutch Process

No Alkalies or Other Chemicals are used in the preparation of W. BAKER & CO.'S Breakfast Cocoa which is absolutely pure and soluble. It has more than three times the strength of Cocoa mixed with starch, Arrowroot or any other substance. It is not only economical, but also one of the most nutritious, and easily digested. Sold by Grocers everywhere. W. BAKER & CO., Dorchester, Mass.

HERE AND THERE IN SPORT.

Yachting.

In the Royal Irish Yacht Club and Regatta on Wednesday, the Salsania won, beating the Britannia by 2 mins. 43 secs. The Calluna was third, having broken her mainmast. The English champion Valkyrie has gone to Stowes, England, to join the fleet. She will fit out there, and shortly start for America. The American Navalos, now at Cove, is gaining many admirers among English yachting experts.

Acquatic.

Hanlan and Gaudard row at Orilla tomorrow. Hanlan is confident of his victory, and many of his admirers feel sure he will regain the championship which he lost in Australia. Stand-by will row the winner for the world's championship. The Canadian championship race will be held at Hamilton on August 4th and 5th. The National championships will be contested at Detroit on August 9th and 10th.

It is probable that Guy Nickalls, the great English single sculler, will compete at the Detroit championships, and with his partner Fletcher, another English crack, may row double-scull. All the scratch professionals will compete in the Lake Quigamon races on July 28th. John L. Sullivan will likely be referee.

Hanlan and Eddie Durman have made up again, and will row double after the former's big race. Cycling. John S. Johnson has already won 29 first and 10 second prizes this year.

All the fast ones, including Zimmerman, Windle and Wells, the Canadian, will compete at the Ashby Park races to-day. In the great twenty-mile road race at Toronto a few days ago W. R. Hensell, of Toronto, with a four-minute handicap, won after a hard race. Crooks, of Buffalo, N. Y., took the time prize. Hensell's time was 1h. 2 m. 39 secs. There were 142 starters.

Frank Beedleson, a one-legged rider who is on his way from San Francisco to New York, was to have reached the latter place yesterday. He has had to travel for 66 days, and has averaged over 100 miles a day for six days. This record is twenty days ahead of any two-legged rider.

George Meistrin, aged 16, arrived at Chicago from Sioux City, Ia., a few days ago, having made 600 miles in about 7 days. He had to find his way alone. He expects to beat this record going back.

At Herne Hill, Eng., lately E. Dance won the 100-mile race in 4 h. 43 m. 58 sec—a world's record. He made new records from 45 miles to the finish. It is expected that 2,000 wheelmen will compete at the big races in Chicago next month.

Bearings presents an elegant supplement of John S. Johnson in the current number, and the Toronto Mail publishes two pictures of Hensell and other Canadian flyers.

A St. John wheelman recently made a new road record of 27 min. for 9 miles. A Newark, N. Y., club lately won a \$700 trophy in an open contest.

Platte.

Corlet is showing at the Midway Plaisance, Chicago, and offers to give \$500 to anyone who is able to strike him in the face.

Joe Lannon will referee the coming contests of the South Boston Athletic Club.

Dixon and Sully Smith have been matched to fight at Holy, Ind., on Sept. 18th, for \$500.

Johnny Griffin and Geo. Johnston, of England, will contend for a \$5,000 purse and a \$2,000 side bet in November, at the same club.

Jack McAuliffe and Jimmy Carroll will battle at the same place on Oct. 14th, for \$15,000.

There is nothing small about Fitzsimmons. He says he would sooner go back to the anvil for \$3.50 a day than accept such a trifle as \$17,000 for a fight. He wants to make the purse and the terms.

Lacrosse.

The Amherst men beat Moncton Wednesday, by 4 goals to 3. Truro beat the Wanderers on Tuesday, by 3 goals to 0.

The Secretary and Vice-President of the famous Shamrocks have returned from Chicago, where they made arrangements for matches between the Shamrocks and Toronto the first week in August.

Cricket.

The Cornwallis and Toronto and the Capitals and Shamrocks play matches tomorrow.

The return match between the Phoenix and Cabot Clubs will be played tomorrow afternoon at the Park. It will be close and exciting, and the juniors are confident of turning the tables on their competitors.

Twenty thousand people saw Cambridge win by 266 runs in the late varsity match with Oxford, at Lord's, Eng.

A representative Boston team are making an extended tour of Eastern clubs, and are scoring many victories.

Yacht.

Black Pilot, 2,304, may reappear on the turf this season. It is reported that Golden is reeling off half-miles at the rate of 1.15.

At Erie, Pa., on Wednesday the team Lunette and Evangelina covered 161 miles in 49 mins. and was a wager of \$2,000.

The late Admiral Tryon was once a prominent turfite, and his horse has won the great Newmarket stakes.

Brazilian, fresh from his successful Quebec campaign, made a new track record of 2:27 at Halifax on Labor Day.

Haskell.

Philadelphia is still first and Boston second in the League. The calling of a "hall" instead of a "strike" lost Boston a game at New York on Monday. The leaders in the race are losing game after game. Athletic. James McEachern, our champion pole-vaulter, is getting into condition, and intends to compete at the Boston (Caledonia) games next month. There are few, if any, professionals in the vicinity of the Hub who can come anywhere near the local man's best record of 19 ft. 4 in. We wish "Jimmy" every success. E. W. Morris, instructor of the Winnipeg A. C., challenges any athlete in the world to compete with him in all-round world's series of games. He is 50 years of age, and wishes to show how he yet retains his athletic powers. Grandin, the French walker, left New York a few days ago on his trip to the World's Fair. He was gaily bedecked in French and American national flags. He will walk all the way. NOMAD. The Patriot must, of course, have a fling at Mr. Cyrus Shaw, M. P. P. Mr. Shaw earned the Patriot's abuse by standing up for the rights of his constituents and the country. Mr. Shaw fought hard against the gerrymander of King's County, and the disfranchisement of the Dominion of Wales, and the detestable debt and the Patriot says he has done "dirty work." What do the people say?

The publishers of the city directory of Chicago say that this city is now the most populous in America, beating New York by 400,000. The 1893 estimate of Chicago's population is 2,100,000.

USE SKODA'S DISCOVERY, the great Blood and Nerve Restorer.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commending it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 70c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the

CALIFORNIA FIG SYRUP CO., SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y. W. R. Watson, Druggist, Charlottetown, P. E. Island.

SUPREME COURT.

GEORGETOWN, July 20. James Landrigan vs. the School Trustees of Lot 38, King's County. Action for wages alleged to be due a teacher after his discharge. He had been dismissed by the Board of trustees. Verdict for defendant. Mellet vs. Macdonald. Action on covenant. Verdict for plaintiff for \$100. M. & D. C. McLeod for plaintiff; Peter S. and John S. Macdonald for defendant. F. C. McCormick and J. McNeill. Scott Act appeal. Allowed without costs. F. C. McCormick and Wallace W. Jenkins. Scott Act appeal. Allowed without costs. Court adjourned.

The Court of Chancery met at Georgetown this forenoon. The case of Westway vs. Westway, an action to redeem on mortgage, is now before the court.

THE DOMINION DEBT.

(Montreal Gazette.) The total assets of the Dominion at the close of the last fiscal year were \$59,820,000. Not a dollar of this sum directly represents expenditures upon public works such as the intercolonial and Pacific Eastern Island railways, the canals, and the numerous public buildings located throughout Canada. If these items were entered at their cost price in the balance sheet of the Government, the Government would be shown, and it even the Government properties in the shape of lands, post offices and customs buildings were included at their fair market value, the net debt would be cut down by tens of millions of dollars. The largest item in the assets represents the purchase of bonds for the sinking fund, the Government having now accumulated about \$30,000,000 in this way. The tangible character of the assets as a whole is manifested by the fact that in 1892 they produced an interest income of \$1,066,400, or an average of 2 per cent. Turning to the gross liabilities of the Dominion, we find them to be composed principally of a funded debt of \$209,000,000, of which all but ten millions is payable in London. Of the Canadian issues, only one bearing a higher rate of interest than 4 per cent, is still outstanding, namely \$2,433,000 of five per cent issued in 1868 for the construction of the International railway, and which falls due in 1903. Next is \$1,000,000 of debentures bear 3 per cent interest, that being the rate of the last two loans, \$24,000,000 bear 3 1/2 per cent, and the balance 4 per cent. The next largest item of debt consists of deposits in the Government savings banks, these amounting to \$40,000,000, upon which interest at the rate of 3 1/2 per cent is paid. There is due the provinces \$16,407,000, principally for allowances of debt on interest and on the redemption of the notes. The only other considerable item in the liabilities is one of \$17,000,000, representing the Dominion note issue, which bears no interest and involves no charge, except that of interest on the specie reserve held for the redemption of the notes. The average rate of interest paid on the gross debt was 3.30 per cent in 1892; the rate being 2.93 per cent.

SPECIAL DESPATCHES TO THE EXAMINER.

THE FRANCO-SIAMESE DISPUTE.

Russia Out in Aid of France.

China Comes to the Rescue of Siam.

A Warlike and Threatening Situation.

PARIS, July 21.

The statement is published that Baron Mohren, the Russian ambassador to France, officially informed the French Government prior to the session of the Chamber of Deputies, on Tuesday last, when Foreign Minister Delcasse declined France's position in the Franco-Siamese dispute, that Russia would support France on all the points involved in the Siamese question. It is further stated that the Russian fleet in Chinese waters is under orders to proceed to the Gulf of Siam for the purpose of supporting the French.

TEHRAN, July 21.

Information has been received here from Peking to the effect that China has taken measures to support Siam against France.

An Athletic Thief.

BROOKLYN, July 21. Duncan C. Ross, champion athlete, was arrested at the instance of John A. McDougall, of New Glasgow, now residing at Brooklyn, on a charge of robbing him, of \$250, while riding in a car between New York and Brooklyn. McDougall recovered \$246 of the money and withdrew the complaint.

Destructive Fire.

MONTREAL, July 21. St. Anne de la Perade was visited by a destructive fire yesterday. Before the fire was subdued thirty-one houses, a planing mill, a cheese factory, two stores and a hotel were destroyed.

Man Killed.

LONDON, July 21. William Ingram of Nova Scotia was killed between the railway tracks while crossing the quay in London. He had taken passage on the steamship Vancouver for Montreal.

Coming East.

MONTREAL July 21. Messrs. McKay, Masson and Cargill, M. P. for Hamilton, Grey and Bruce, have left here for the lower provinces.

A Traveller's Tale.

OTTAWA, July 15.—W. F. Sparham, of 95 Nepean St., a traveller for the well known house of Russel, Gardner & Russel, tells an interesting story about the cure of a kidney trouble that has afflicted him for the past nine months. Ever since attacked, Mr. Sparham tried physicians' prescriptions and other medicines, but none had any effect. He constantly suffered pain, which finally became so intense that he could not sleep. Death seemed the only possible deliverance from his suffering. He got a box of Dodd's kidney pills from Henry Waters, a druggist here, and that one box effected a perfect cure. Mr. Sparham is to-day the happiest man in the Ottawa valley, and he has many friends who rejoice with him.

Though England has done nothing in the Siamese-French row but look on, the Paris papers are loudly abusing her over the affair.
