THE TALK OF LONDON.

Wyndham's War Figures Astonish the Country.

LONDON, Feb. 2, 4.30 a. m.—Mr. Wyndham's remarkable declaration in the house of commons that Great Britain will have in a fortnight 180,000 regulars in South Africa, 7,000 Canadians and Australians, and 26,000 South African volunteers, is received with wonderment. Of this total of 213,000 troops with 452 guns, all are now there with the exception of about 18,000 that are afloat. Beyond comparison this is the largest force Great Britain has ever put into the field. At the end of the Crimean war she had scrapped together 80,000 men. Wellington had at Waterloo 25,000.

Mr. Wyndham's speech was the strongest defence the government has yet put forward as to what has been done and is being done.

The general tone of the morning papers is that his figures will astonish the country. Roughly speaking only 80,000 men are at the front. Ten thousand others have been lost and 10,000 are shut up at Ladysmith.

Excluding these, there are 70,000 troops who have not yet been in action in addition to those at sea. Why so many effective have not yet been engaged is explained by the lack of land transportation and the organization of supplies to which Lord Roberts is devoting his experience and Lord Kitchener his genius for details.

It seems as though the weight of these masses must destroy the equilibrium which now holds the British forces stationary wherever they are in contact with the Boer army.

Lack of transport and organization will not explain adequately why when generals at the front require reinforcements, they get them in rather small numbers. Knowledge is slowly penetrating to London that large garrisons must be kept in Cape Colony to hold down the Cape Dutch, who, as everyone knows, outnumber the British residents three to two.

Cable scraps received during the last twelve hours do not further illuminate the military operations. Various independent correspondents confirm the report that General Buller told his troops on January 28th, that he hoped to relieve Ladysmith within a week. It is believed in some trustworthy quarters that he is again assailing the Boer lines. A further list of casualties published by the war office brings the total from the crossing of the Tugela to the abandonment of Spion Kop to 1,985 officers and men.

Exceptional activity at the navy yards continues, but a correspondent of the Associated Press learns that this is chiefly new construction and refitting work. Three ships will be commissioned at Devonport this month.

Some unpleasant criticism of the war office has been caused by the discovery that the sights of the Lee-Enfield carbines are defective. Old carbines have been supplied to the outgoing fourth brigade of cavalry.

The only announcement regarding fresh military preparations is the formation of three additional batteries.

No Cure for... Bright's Disease

In its advanced stages—The Reason Why—Dangers Prevented by the Timely Use of Dr. A. W. Chase's Kidney-Liver Pills.

To understand Bright's Disease is to know that in its advanced stages it is past the reach of human aid. The cells of the kidneys undergo a wasting change, which leaves them dead so far as performing their functions is concerned. Just think of having the kidneys dead. Think of the poisons left in the system when these organs could no longer perform their duties as filters of the blood.

It would be difficult to conceive of anything more dreadful, and yet this is the goal to which every case of neglected kidney disease must lead. When the back aches, when urinating is difficult or too frequent, when there are deposits in the urine after standing for 24 hours, there is no time to lose in procuring Dr. Chase's Kidney-Liver Pills.

It is not claimed that they will cure Bright's Disease in its last stages. They are an absolute cure for kidney disease, and so long as the kidneys are not entirely wasted away they will give new strength and vigor and enable them to resume their duties of filtering the blood.

Dr. Chase's Kidney-Liver Pills will stop backache and headache in short order by removing the cause, and will positively prevent Bright's Disease. One pill a dose, 25c. a box. At all dealers, or Edmanson, Bates & Co., Toronto.

ON THE RIVER.—The river yesterday and Saturday was in splendid condition for skating. And the weather was just right too—not much wind and pleasantly cold. Many were out enjoying this, perhaps best of all exercises, of which there has been little in Charlottetown lately except in the rink. A boat half a dozen ice boats were also gliding about.

BURIED AT EGMONT BAY.—The body of Stephen Arsenault, who was killed by falling from the side of a vessel in Maine some days ago, was brought to the island for interment, arriving at Wellington station on Saturday, where a large number of friends and neighbors of the deceased were waiting to receive it. The funeral took place yesterday (Sunday) and was one of the largest ever known in Egmont Bay. A wife, an aged mother, and fourteen children are left to mourn.

Paton & Co. have broken the back of dull trade, with a liberal use of printer's ink, and a big clean stock of white wear. Also a stock of fine linen and household goods, and over three miles of dress goods at remarkable reductions for cash during their remodelling sale. Hundreds are taking advantage of their offer. Goods ordered by letter will be delivered free to any station in Prince Edward Island during the sale. Paton & Co. 30, 54, 31, wky. li.
