High-handed and Summary Dismissals.

POOR MEN AND THEIR FAMILIES OUT OF HOUSE AND HOME.

An Example of Liberal Economy

OTTAWA, May 20.

Mr. Quinn, of Montreal, raised once more, yesterday afternoon, the question of the dismissals, especially on the Lachine Canal. Mr. Monk, of Jacques Cartier, followed, giving instances where officers after twenty or more years service, had received notice at 9 o'clock at night ordering them to depart early next morning, giving over the houses, they occupied, and leaving them with their families on one night's notice.

Hon. Mr. Blair made no reply. When the vote for Rideau Hall maintenance was reached, Hon. Mr. Tarte asked for \$18,000 in addition to the usual \$8,000 for heating and lighting.

It was pointed out by Mr. Bennett that this was \$4,000 more than the vote for this current year.

Mr. McInerney showed also that it was \$4,000 more than the sum actually expended in the last year of the late government, and more than \$3,000 in excess of the average expenditure during the last four years of Tory rule.

Mr. Burnette amused the House by reading the declarations of Mr. Muloch who year after year protested against a smaller outlay than he now asked.

Mr. McInerney moved that the amount of the vote be reduced by \$3,000, leaving it somewhat larger than the late government had found necessary for several years back.

Mr. Kaulbeck seconded the motion. A long and heated discussion took place, which resulted in the amendment being lost when put to vote.

TURKEY AND GREECE.

Conditions of the Armistice.

ATHENS, May 20.—M. Ralli, on behalf of the government of Greece, has offered the Crown Prince the conditions of the armistice concluded at Artz upon the basis of mutual occupation of antipellum positions, adding that he impart these conditions to the commanders of the Turkish force; declare that from this moment you suspend hostilities and will only resume them in the event of an attack; disclaim all responsibility for any violation of armistice, and invite the Turkish commander to suspend all hostilities.

DEATH TO CANADIAN INDUSTRY.

Tariff Tinkering Exemplified.

MONTREAL, May 20.—As a result of the new tariff on wire nails, the manufacturers here find that it will shut out of the Manitoba market over 25,000 kegs, orders for which have been placed with American dealers.

P. E. Island Fish Report.

Alberton.—Herring fishery good and lobsters fair here and at Tignish.

Wall Paper

We are in the Wall Paper business to give better satisfaction to our customers than any other dealer in this city. Our papers are the most artistic and the prices the lowest. We are agents for the best Canadian and American manufacturers. Call in and see.

LATEST NEWS BY WIRE AND MAIL.

MONTREAL, May 18.—One of the most interesting items on the jubilee programme was announced to-day. It is a special jubilee service to be held in the church of Notre Dame. Since the church has been built this is only the second time that such a service has been held there. The last time was to celebrate the battle of Malakoff. The announcement is considered the highest possible proof of the loyalty of the French Canadian Catholics.

LONDON, May 18.—In an interview in Reading prison yesterday, Oscar Wilde said: "My health physically is good, but my brain is weary. As to my future I am in the hands of a few faithful friends. To them I will deliver myself up, and with them chiefly lies my destiny. To them alone will I communicate my dearest ambition. At present my brain is too weak, too worn, too tired; but the power that is within me will again resume its sway. I shall write again soon, but not yet. I am too tired, too distressed."

"Do you propose leaving England?" was asked. "Not at present," was his reply. "I am in the hands of a few friends. They will decide everything for a while. I do not intend to efface myself. I shall get to work before long, in fact, the very moment I feel well enough. For the present, I shall retire into absolute seclusion. The public will hear from me through my next work, and not before it is ready, and not by any other means."

LONDON, May 18.—London is still without accounts of the battle at Donokos from the Turkish side, but it is evident that the Greek defeat was complete and decisive. An Italian officer with the Greeks puts their killed and wounded at 2,000, but probably this is much exaggerated. It is believed that Edhem Pasha will insist upon the surrender to him of the passes over the Othrys range before he consents to an armistice, but save for a small force of Turkish cavalry following the retreating Greeks at a distance of 2,000 yards, the Turks have not attempted to attack the Greek rear guard. The war is virtually ended. The crown Prince headed the retreat, and his headquarters are now established close to Devenfourka Pass, a very narrow gorge through the Othrys range, about 12 miles from Mamia.

LONDON, May 19.—The correspondent of the Daily Telegraph at Athens says he has absolute proofs that one of the powers has made serious underhand attempts to undo the work of the European concert.

OTTAWA, May 18.—The report that Mr. Laurier will sail for England by the Vancouver is not true. He and his party will sail from New York by the Lucania on the 5th June, along with Sir Henry Strong, who goes over to take his seat as member of the judicial committee.

CONSTANTINOPLE, May 18.—It transpires that the Czar made a direct appeal to the Sultan to order his troops to cease hostilities and arrange an armistice, and this coupled with the fact that most serious results would have ensued if Turkey had persisted in her defiant attitude, brought about the present state of affairs. The Turkish minister of foreign affairs called upon the foreign ministers this afternoon to convey to them the Sultan's decision to arrange an armistice. It is now believed that the terms of peace will be negotiated directly between Turkey and Greece.

TORONTO, May 18.—The Mail and Empire special from Ottawa gives an unconfirmed rumor that the Government has received an expression of opinion from the Colonial Office, adverse to the proposed discriminatory tariff proposals.

HAVANA, May 18.—A serious railroad accident has occurred near Vega, Alta, province of Santa Clara. A freight train consisting of 28 cars, while on its way to Placetas, lost four cars unknown to the engineer. The loosened cars ran fast down a hill, and near a curve collided with a passenger train. The cars caught fire, the engineer, a gendarme and five passengers were killed, and 27 passengers were wounded.

ATHENS, May 19, 1 a. m.—The communication from the Turkish to the Greek commander at Artz, which followed the raising of the flag of truce by the former, was in Turkish and ran as follows:

"On condition that no Greek soldier belonging to any arm of the service remains on the territory of the Ottoman empire, we have orders that an armistice shall be concluded on sea and land with a view to arriving at and understanding. (Signed) "YUSSUF" "Chief of staff."

NEW YORK, May 18.—A Herald cable from Vienna says: At a large conference of Austrian manufacturers, held here today it was resolved to call upon the Government to endeavor to conclude international agreements with European powers with a view of "effectually meeting the common danger to European economy arising from the prohibitive tariff policy of the United States."

BRANTFORD, Ont., May 18.—In West Brantford last night, while her husband was absent at work, Mrs. Thomas Russell took her five children out of bed, one at a time, put them into a cistern containing three feet of dirty water and shut down the cover with the intention of drowning them. She then crossed the street and notified the bartender of Taylor's hotel of what she had done. He gave the alarm and with assistance rescued the children, including a three month old baby, from the cistern half dead. After considerable work all were resuscitated and are now doing well. Mr. Russell, who is 48 years of age when arrested told the police her children were cursed. She is reported to have gone insane on Christian science doctrine along with overwork nursing the children.
