### LETTERS TO THE EDITOR.

#### Chronic Grumblers.

Sir,—A day or two ago I happened to meet a successful shipmaster of Summerside on Water Street, in this city, and almost the first thing he said to me after the usual remarks concerning the weather probabilities, was "Do you know that there is scarcely any patriotism left in Charlottetown?" I asked him in what respect. His reply was, "You never hear a Summerside man run down his town," but here, when a stranger asks how business is, the reply invariably is "Oh, there is nothing doing, everything is going to the dogs." I was forced to confess that it was only too true.

People get into a bad habit of complaining of "hard times" when in reality, business with them is as prosperous, if not more so than it always was. They are chronic grumblers from a bad habit contracted. One individual sets the ball rolling by saying "Charlottetown is going down"; another takes up the refrain, and so the bad habit spreads. I tell you it is more contagious than don't you do it. Stick up for your town even if we have poor sidewalks and no waterworks. I am, of course, aware that we have some among us who find it difficult to make both ends meet; but they are not, as a rule, the class who forever go about complaining about "hard times."

Wage earners who know nothing of hard times, and whose wages are just the same as last year also get inoculated with the same disease, and talk of how bad things are this year. In a great many cases it is no more than a habit, and a bad one at that. These same young men will spend their dollars in a bar room, and think nothing of the money so spent, but they will talk of the business stagnation and the scarcity of money, all the same.

Don't you think, Mr. Editor, that contentment contributes very naturally to success, and discontent the reverse.

Hoping the evil habit referred to will be discontinued,

I am yours,  
J.M.

#### Judge Palmer Gets Married.

St. John, N. B. abounds in social and business sensations these days. The attempt of the local papers to suppress the news has been ridiculously unsuccessful. Things done in a corner are now proclaimed from the house tops. A social event which has been much talked of for some time past took place in the Centenary Church on Tuesday morning, when Judge Palmer, Equity and Supreme Court Judge, was married to Minnie, daughter of Gilbert Bent. The ceremony took place at 8 o'clock. Both bride and groom were unattended, and the number of guests were small. Rev. Mr. Brewer was the officiating clergyman. Mr. and Mrs. Palmer left by the next train for the west on a month's tour. The affair is causing quite a talk around town, the groom being over sixty years of age and double the age of his wife.

#### Monarchy in France.

A document written by Comte de Paris in Scotland in September last and addressed to his partisans, has been made public. He denounces alliances between the right and extreme left for the simple purpose of hampering the Government. He says: "The monarchy is the Government in reserve. The Conservatives ought not to put themselves out of court by refusing to accept the republic as a working machine until the way is prepared, not by violent means, for the monarchy. He urges them to adopt a programme in favor of the reduction of new public posts and treasury burdens, the maintenance of five years military service, appointment of a non-political general to command the army, the stopping of religious persecutions and the reinstatement of magistrates who will loyally support the republic. In conclusion he says: "By accepting this programme you will inspire France with the faith that she should have in us that our efforts will be useful to her."

#### Shot by Mistake.

Mr. J. C. Hill, a prominent resident of Edgewood, a wealthy suburb of Pittsburg, Pa., mistook his daughter for a burglar a few nights ago, and shot her through the neck, inflicting, it is feared, a fatal wound. Mr. Hill made collections of about \$5,000, which he took to his home to keep over night. His daughter, who had a bad toothache, arose early in the morning, and went down to the library to warm herself by the fire. Her father hearing the noise thought burglars were in the house, and taking his revolver followed her down stairs. When he reached the door of the library he fired, the ball striking his daughter in the back of the neck and passing through to the front. The young lady is in a critical condition, and her father is almost crazed with grief.

#### What True Merit Will Do.

The unprecedented sale of *Boschee's German Syrup* within a few years has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected, and leaves them in a purely healthy condition. A bottle kept in the house for use when these diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the West. Price 75 cents, large bottles, and smaller sizes of 50 cents.

### Secession Not Wanted.

PROVINCIAL SECRETARY FERGUSON SCUTS THE IDEA OF PRINCE EDWARD ISLAND LEAVING THE CONFEDERATION.

An Ottawa correspondent telegraphs the *Montreal Gazette*: Hon. Mr. Ferguson, Provincial Secretary of Prince Edward Island, who is now in this city, in company with Premier Sullivan, on business with the Government, in an interview here this evening, pronounced as ridiculous and altogether devoid of foundation the statements published in the New York press and purporting to be despatches from Ottawa to the effect that Prince Edward Island and New Brunswick had threatened the Dominion Government that they would fall into line with Nova Scotia in the secession movement if their claims for the fulfilment of the terms upon which they entered Confederation were not satisfied. He laughed at the idea of Premier Sullivan and himself having come here to "effect a reconciliation" as stated. Their visit to Ottawa was, he said, in connection with several matters of interest to the island, which he did not care to make public at present. Of course the subject of the fulfilment of the terms upon which Prince Edward Island entered the Confederation would not be ignored. This, as was well known, had for long been a burning question on the Island, but now seemed not far from a satisfactory settlement. Certainly no threat of secession would be made. It would be very childish to threaten what they did not mean; and as for secession, such a thing was not even thought of by the Islanders. Their only grievance was the want of continuous communication with the mainland, which they were now satisfied they had a good prospect of getting, as the Dominion Government were giving the matter their serious attention. The Islanders believed they had a good case and sought to win it by calm and fair reasoning, the force of which the Federal authorities seemed fully to appreciate, and they seemed also to be desirous to do full justice to the Province, and the people of the Island had full confidence in the justice of the Dominion Government. Hon. Mr. Ferguson is a warm advocate of the scheme for tunnelling between the Island and the Mainland, thus securing railway communication and putting an end to the present trouble. This scheme has been pronounced feasible by Mr. Walter Shanly, C. E., and other high authorities. The tunnel would require to be about seven miles in length, and its entire cost is estimated at five million dollars. The greatest depth of the channel is but eighty feet. As for the much talked of secession movement, Mr. Ferguson says it is well known that in Nova Scotia, which alone has given it any endorsement, it is merely a piece of bluff. He knew there was no sympathy with it in P. E. Island, and the public utterances of Premier Blair, of New Brunswick, proved that his Government were altogether opposed to it, and he believed the people whom they represented were likewise loyal to the Confederation.

#### A Check to Coercion.

The development of the coercive policy has been checked by a strong division of opinion within the cabinet. Lord Ashbourne insists upon instant action based upon the judgment of the Irish judges—that the anti-rent campaign is illegal. He favors the adoption of the severest measures, treating the National Leaguers as engaged in an illegal conspiracy. Sir Michael Hicks-Beach backed by Lord Randolph Churchill, demands a mild enforcement of the ordinary law. Several members of the Government, outside the cabinet supporters of Lord Ashbourne, have advised Lord Salisbury to dismiss Sir Michael Hicks-Beach from the office of Chief Secretary for Ireland, and appoint as his successor a man in favor of thorough coercion. The *St. James Gazette* and the bulk of the Tory papers violently assail the Government for the dilatory use of the existing powers of suppression.

How pale you are! is frequently the exclamation of one lady to another. The fact is not a pleasant one to have mention, but still the act might be a kindly one, for it sets the one addressed to thinking, appraises her of the fact that she is not in good health, and leads her to seek a reason therefor. Pallor is almost always attendant upon the first stages of consumption. The system is enfeebled, and the blood is impoverished. Dr. Pierce's Golden Medical Discovery will act at a tonic upon the system, will enrich the impoverished blood, and convert the pale and languid into a healthy and robust condition. It will also cure the following diseases:—Anemia, Chlorosis, Dyspepsia, Indigestion, Catarrh of the Stomach, Neuralgia, Headache, Nervous Prostration, Debility, and all the ailments which attend upon a weak and impoverished system. It is sold by all druggists and general dealers in the West. Price 75 cents, large bottles, and smaller sizes of 50 cents.
