

ANTARCTIC EXPEDITION.—H. M. S. Erebus, commanded by J. C. Ross, and Terror, commanded by F. R. M. Crozier, arrived in Simon's Bay, Cape of Good Hope, April 4, from the Antarctic Regions, having attained the lat. of 78. 10. S.

The Duke of Cambridge is said to have saved £300,000. The second daughter, Princess Mary, will soon have a German Prince seeking her hand and purse, seeing the generosity of a reformed House of Commons.—*Scotsman*.

The Rev. George Talbot, M. A. formerly of Balliol College, has resigned the living of Evercech-cum-Chesterblade, Somerset, and joined the Church of Rome. This is the fifth member of the University of Oxford who has turned Romanist since the conversion of the Rev. R. W. Sibthorp.—*Morning Herald*.

Earl Spencer, at his estate at Wormleighton, for some time past has kept all the poor in the parish, so that the inhabitants are not troubled with poor-rates. His lordship allows his labourers in the winter 9s. a week when out of employment. The men are employed on his lordship's estate, hedging, ditching, &c., with a house, for which each pays a nominal rent of 1s. per annum.

DEATH OF THE EARL OF CATCART.—This nobleman expired on the 23d of June, at his residence, Cartside Cottage, Renfrewshire, in the 88th year of his age. The deceased Earl was a General in the Army, Colonel of the 2d Life Guards, Vice-Admiral of the coast of Scotland, Governor of Hull, &c. &c. He has left a family of four sons and three daughters, and is succeeded in his titles by his eldest son, Lieutenant-General Lord Greenock.

We have been assured, upon undoubted authority, that the amount of treasure in gold, diamonds, &c. captured by Sir Charles Napier, at Hyderabad, falls little short of three millions of money; the share of the gallant general is estimated at not less than £300,000.

THE SOLAR HALOS.—In our No. of Saturday last (17th June) we noticed the appearance on Friday afternoon, about one o'clock, of two remarkable halos, the one surrounding the sun, and the other having one edge of its circle through the sun's centre; and that half an hour afterwards the latter had disappeared, and the former ring became very beautiful in colours and brilliancy. We find from the Yorkshire papers that phenomena of a similar character were observed at Halifax, at Wakefield, at Hull, and in all probability in many other places. The Halifax Guardian of Saturday, says—"Yesterday, for upwards of two hours in the middle of the day, a large and remarkable halo surrounded the sun, and excited the wonder of all whose eyes could bear to look upon it." We find also that the same phenomenon was remarked at Wakefield. In Hull it was seen "with a difference." The *Rockingham* states that it was visible from 11 o'clock until 2. The sun appeared enveloped in a thick misty cloud, which encircled it like a halo; and some distance to the westward there were three rings, all complete, except at the top, interlacing each other in the most curious and brilliant rays.—*Manchester Guardian*.

LIVERPOOL, JULY 4.

The unsettled state of the country generally, and the condition of Ireland and Wales in particular, coupled with the intelligence from Spain and France, render the position and prospects of trade exceedingly discouraging, and, in consequence, instead of being enabled to report any improvement as the season advances, we have to note the opposite result.

The accounts from Manchester and the surrounding manufacturing districts continue to partake of such a character as is calculated to inspire any other feeling than that of hope. Little business is going forward, and great want and deprivation is still endured by a great mass of the labouring classes, and to complete the woful tale, extremely low prices rule.

The prospects for the forthcoming harvest are still propitious.

There are at present three Queens and two Kings in London: the Queen of England, the Queen Dowager, and the Queen of the Belgians; the King of Hanover and the King of the Belgians.

Lieut. Colonel Fawcett, of the 55th Foot, who distinguished himself in China, and had recently received the order of knighthood, was shot in a duel by his brother-in-law, Lieut. Monroe, of the Guards, on the 1st July. Colonel Fawcett expired on the succeeding Monday. The affair took place in a field at the back of the Brecknock Arms, Kentish Town, and is said to have been caused by an insult offered by Lieut. Monroe, to Col. Fawcett's lady, at a party at which they met a few evenings before.

JUDGE HALBERTON.—Bentley's Miscellany for July contains a complimentary notice of the forthcoming volume of the Clockmaker, with an excellent portrait of the author.

On the 3d December last, a fire broke out at Wellington, New Zealand, which destroyed fifty-six houses, chiefly of wood.

NOVA SCOTIA.

The Baptist Association of Nova Scotia met at Yarmouth on the 21st June. Important subjects engaged the attention of the members assembled. Temperance, Education, Sabbath Schools, the Foreign and Domestic Missions, occupied a considerable portion of their time. There is said to have been a large attendance of Ministers and Laymen, and that the greatest harmony and unanimity prevailed during the whole of their sittings.—*Pictou Banner*.

Pictou, July 15.—The Synod of the Presbyterian Church of Nova Scotia met in this town on Tuesday the 11th inst., at 4 o'clock, p. m., and continued in Session until yesterday. About 20 clergymen were in attendance. The sermon at the opening of the Synod was, as usual, preached by the Moderator, the Rev. W. McCulloch. It was appropriate and impressive. The remainder of the day was spent in the transaction of routine business, and in devotional exercises.

On Wednesday, the draft of a pastoral address to the members of the Church was read and approved, and 1000 copies of it ordered to be published for general distribution. An overture was adopted on the representation of vacant congregations in Church courts by one Elder. A Committee was appointed for the purpose of drawing up a formula for admission to sealing ordinances, with instructions to report at next meeting of Synod. During a considerable part of this and next day, the Synod was employed in considering the general state of the Church, and devising measures for the promotion of religion within her pale. For this purpose, it was agreed to revive the system of Presbyterial visitation—to labour after the promotion of greater purity—to exercise increased diligence in the preparation of students in Divinity—to adopt measures for encouraging young men of piety and talent to enter the office of the Holy Ministry—to hold meetings of Presbyteries for the mutual improvement of its members, and to enjoin upon Ministers and Elders to be more punctual in their attendance on Church courts.

On Thursday a communication was received from the Moderator of the Synod of Nova Scotia, in connection with the Church of Scotland, requesting the appointment of a deputation from that Synod, to meet with a deputation from that Synod, in the Grand Jury room of the County. A Deputation was appointed accordingly. A Committee of nine members of Synod was appointed to correspond with any similar Committee who may be appointed by the Synod of Nova Scotia in connection with the Church of Scotland, respecting a union; and to hold friendly intercourse with them during the recess.

On Friday, an overture on the propriety of maintaining a foreign mission, was remitted to Presbyteries for consideration, with instructions to report at next meeting of Synod.

The next meeting of Synod was appointed to be held in Pictou, on the second Wednesday of July, 1844.

HALIFAX, July 17.—The fine new barque Alert, Capt. Daley, which left port on Monday last, with the remainder of the 64th Regt., struck on a rock off Country Harbour, on the following morning about 3 o'clock, after which she was found to leak so badly that it was deemed necessary to run her on shore for the preservation of those on board. The troops and crew were all saved. At the last accounts we understand she was nearly full of water. The account of this unfortunate accident first reached this place on Thursday evening, by the schooner T. C. James, from Montreal, and on Saturday morning H. M. Ship Rose, and the Dock Yard schooner, proceeded to the wreck. The baggage was all lost.

With the double view of making sure of the letters from hence getting forward in time for the mail which would leave Halifax for Liverpool on Tuesday last, and of being ready to receive the English mail for this Island the moment it reached Pictou, Capt. Hubbard's despatch boat Charles was sent off from hence at an early hour on Saturday morning for Pictou, from whence she returned on Monday afternoon. Capt. Hubbard states that the English mail for Quebec arrived at Pictou at one o'clock on that morning, but that the mail for this Island, for some cause or other, which remains to be explained, was detained at Halifax. We hope that a strict inquiry will be made into the cause of the detention, the more especially as this is not the first occurrence of the kind which we have had to complain of.

The advices by the English mail, which arrived here on Wednesday afternoon, were to the 4th inst. Ireland was comparatively tranquil; for although Repeal meetings continued to be held in various parts of the country, there was no indication of anything like an outbreak. The insurrection in Spain had assumed such a formidable appearance, that the Regent (Espartero) had deemed it necessary to march against the insurgents in person. A serious riot had taken place in Wales, which was not suppressed before a good deal of mischief had been done. These "Rebecca riots," as they are termed, are attributed chiefly to the oppressive toll-system in Wales, and to the disgust at the operation of the new Poor Law. The farmers and inhabitants of the rural districts (says the *Times*) complain that they are heavily rated to pay the expenses of building a large Union workhouse—of officers' salaries—and of supporting the paupers of distant town populations, none of which, they contend, they ought to be liable to.

The French police were actively engaged in endeavouring to discover who are the Frenchmen said to have passed over to Ireland to foment discontent and to stir up the people to resistance.

ALARMISTS.—The paper which raised the report respecting military drilling among the Canadians, has contradicted the alarming announcement. Thus it is, either by foolish or worse, alarmists,—by mistakes or fabrications, that history sometimes becomes falsified, and people and countries seriously injured.—*Halifax Gazette*.

Hay-making commenced in some parts of England on the second week in June.

SANDWICH ISLANDS.—The British Minister at Washington has officially communicated to the U. States Gov. that the seizure of the Sandwich Islands by Lord Paulet, was an act unauthorized by the English Government, and that they would be restored to their native sovereign.

MIRAMICHI ELECTION.—The election of a member to serve in the General Assembly, to fill the vacancy in the representation of the County of Northumberland, commenced at Miramichi on Monday the 17th inst. The candidates were Mr. J. A. Street and Mr. John T. Williston. The poll was opened at Newcastle, where Mr. Street's supporters chiefly resided; but the opposite party having crossed from Chatham in great numbers, many of them armed with bludgeons, commenced a furious attack upon their opponents, and drove them from the ground, taking complete possession of the hustings, and tearing down the barricades. Their triumph, however, was only of short continuance, for the opposite party greatly reinforced in strength, soon returned, and after an obstinate conflict, put the Chatham people to flight. A number of them fled for refuge on board the St. George, which soon carried them beyond the reach of their pursuers, being on the eve of starting when they came on board. Such was the state of things when the St. George left. Many were grievously injured from the wounds and bruises they received; and the wonder is, that none were actually killed outright. It was understood that very few votes had been polled when the disturbance commenced.

From the arrangements which have been entered into between the Directors of the Steam Navigation Company of this Island and parties in New Brunswick, the Steamer St. George, we understand, will continue to run to Miramichi once a week, as usual, for the remainder of the season, agreeably to the advertisement in our first page. She started for Miramichi yesterday afternoon, and will call at Bedeque on Friday the 28th inst.

On Tuesday last, the Catholic Bishop of Charlottetown, the Rev. B. D. McDonald, after the celebration of Mass, laid the corner stone of the intended new Catholic Church in this Town, which, when completed, will be the largest building in the Island, being one hundred and forty-one feet long, including the Tower, by seventy feet wide, and thirty-six feet post. It will be built in the Gothic style, and from its situation and style of architecture, will be highly ornamental to the Town. Under the stone was placed a hermetically sealed bottle, containing the silver and copper coins of the present Reign, together with a newspaper of the day, and the name of the reigning Sovereign, the Governor and the Bishop. His Lordship was assisted in the ceremony by the Rev. Messrs. Reynolds, Brady, and Meville.

At two o'clock, the Right Rev. Bishop, with the clergy, attended by the Benevolent Irish and Temperance Societies, with the Band, and the badges and banners of the respective societies, and a considerable portion of the congregation, walked to the recently purchased burial ground on the St. Peter's Road.

On the Bishop's arrival, after being vested, he proceeded to consecrate the ground for a burial place, except a small portion, which was reserved for those who may die in such a state as to be deemed unworthy of burial in consecrated ground. After the ceremony, the procession returned to the Town, and escorted the Bishop to his residence.

The day will be long remembered by the Catholic population of the Town and neighbourhood.—*Com.*

On the afternoon of Tuesday last, the children of the Wesleyan Sunday School assembled at the chapel, from whence they walked in procession to Kensington, a pleasantly situated farm in the vicinity, a part of which was kindly lent on the occasion by Mr. George Beer, jun., its present occupant.

After amusing themselves for a short time about the grounds, they sat down to the long rows of tables which were set out upon the lawn, and regaled with tea, cake, and other good things, which had been previously provided for them by their friends. After the children had finished their repast, tea, &c. was supplied to about 170 guests and teachers. The tables having been cleared, a number of appropriate hymns were beautifully sung by the children, who were afterwards affectionately addressed by Mr. J. Boyver, in the course of which he adverted to the circumstance, that just twenty-six years had elapsed since the first Sunday School was established in Charlottetown by their present minister, the Reverend Mr. Strong, and which had continued in active operation up to the present day. After prayer, the children again formed into procession, when they returned to the chapel and were dismissed, all seemingly highly gratified with their entertainment.

INFANT SCHOOL.—About a fortnight since, the Building lately erected on the South East Corner of the land connected with Saint Paul's Church, was opened as an Infant School, under the management of a Committee of Ladies, by Mr. and Mrs. Hubbard, from England. The number of scholars already enrolled is 120, and it is fully expected that a very large accession to that number will take place after the present pupils and their monitors are sufficiently trained. It is certainly a most pleasing sight to see this Institution in such a fair way of becoming a blessing to the town, and it is cheering to reflect that very many of the rising

generation who have been hitherto but too much neglected, will receive a useful, moral and scriptural education. The building is neat, substantial and commodious; having, in addition to the large room for the school, four rooms and a cellar, in one end of the building, for the accommodation of the teachers. On Sundays, the school, which was formerly held in the church, occupies the building, and comprises about 150 scholars, most of whom are well advanced in reading, &c. The average attendance is about 110.—*Gaz.*

FIRE.—A fire broke out at 7 o'clock on Tuesday morning, in a building in the occupation of Mr. Barnstead, a Baker, and used by him as a Bakehouse, situate at the rear of Mr. Lawrence Cummings, Queen Street, one of the most densely built upon spots in the town. The alarm being speedily given, the Firemen with their Engines, with their accustomed promptitude, repaired to the spot, and providentially a good supply of water being obtained, the destructive element was soon got under—no more damage having happened than the destruction of the building in which the fire originated. Had this taken place at night, it is impossible to calculate upon the extent of damage which must inevitably have followed among our wooden buildings in the heat of summer.—*Id.*

The body of a young man named OLIVER SCOTT, who it appears was in the boat with the ill-fated Mr. William Coffin, when he upset in St. Peter's Bay, was seen floating up with the tide in the mouth of St. Peter's Harbour on Tuesday last, and was brought on shore and decently interred at the burial ground of that place. The deceased was about 20 years of age, and almost a stranger in this country, but is the son of a respectable farmer in England, which place he left about 18 months since. We do not know from what country he came, but there is a possibility that this notice may meet the eye of some of his friends, if copied into English papers, and they may learn the melancholy end of his worldly career.—*Id.*

THE CROPS.—At no corresponding period of the past, compared with the present time, have the crops in this Island presented a more thriving and healthful appearance. This must be attributed, in a great measure, to the abundance of rain which has fallen during the last four or five weeks, together with the genial warmth of the atmosphere. The grass-crops are most luxuriant, and should the weather prove favorable for hay-making, there will be little reason to complain either of thinness or scarcity of crop. Some farmers in the vicinity of Charlottetown commenced mowing about a week ago.

THE REGATTA.—Thursday proving a dead calm, the amusements for that day were confined to rowing matches, all of which were ably contested, and excited unbounded applause from the multitudes assembled from the town and country around, to view the animating scene. Yesterday a fine breeze sprang up from the N. W., which continued to blow steadily throughout the day, when the sailing matches took place, affording excellent sport.—Particulars in our next.

SIR WALTER SCOTT ON BEAUTY.—In one of the delightful descriptions of Female Loveliness which adorn the pages of this interesting writer, he alludes to a fragrant and balmy mouth and pearly set of teeth, as ranking among the first attributes of Feminine Beauty. The care and conservation therefore of ornaments, so precious and important, cannot fail to become objects of high interest; and our own experience induces us unhesitatingly to recommend "ROWLAND'S ODONTO, or Pearl Dentifrice," as an indispensable appendage to the Toilet of Beauty, and as calculated to heighten and preserve the advantages of "Balmy Breath," and "Pearly Teeth," in all their beauty and perfection.—See advertisement.

Passengers. In the St. George, from Miramichi, on Tuesday last—Mr. and Mrs. Johnston, servant, and 2 children; Theophilus Desbrisay, Esq., Mr. Curry, and 6 in the steerage. In do. from Pictou, on Wednesday last—Colonel Caulder, Lady and two daughters; Gordon Thompson, Esq.; Major Beate; Rev. Mr. Geddie and Lady; Rev. Messrs. M. Intyre, Patterson and Kier; Messrs. Lane, Nicholson, Wiswell, Elliot, Ellis; Miss Bernard, Miss Clark, Mrs. Cunningham, Mrs. Newton; and seven in the steerage.

PORT OF CHARLOTTETOWN.

- ENTERED.
- July 14.—Schr. Industry, Goodwin, Pictou; Coals.
 - 15.—Lady, La Vache, Canis; Limestone.

ROBERT HUTCHINSON. Charlottetown, July 10th, 1843.

The FIRST PRODUCTIONS in the WORLD for THE HAIR! THE SKIN! THE TEETH!

ROWLAND'S MACASSAR OIL

Is universally acknowledged to be the ONLY ARTICLE that will effectually produce and restore Hair, (including WHISKERS, MUSTACHIOS, and EYEBROWS) prevent it from falling off or turning grey, free it from scurf and dandruff, and render it delightfully soft, silky, curly, and glossy.

CAUTION—Numerous pernicious compounds are universally sold as "MACASSAR OIL." To ensure the real article, see that the bottle is enclosed in a wrapper, (a steel engraving of exquisite workmanship) on which are engraved "ROWLAND'S MACASSAR OIL," in two lines.

To further ensure the genuine article, see that the words "Rowland's Macassar Oil" are engraved on the back of the envelope nearly 1500 times, containing 29,028 letters—WITHOUT THIS NOSE ARE GENUINE.

Price 3s. 6d.; 7s.; Family Bottles, (equal to four small), 10s. 6d. and double that size, 21s. per bottle.

ROWLAND'S KALYDOR

This elegant and fragrant Preparation thoroughly eradicates all Pimples, Spots, Blisters, Redness, Tan, Freckles, and other Defects of the Skin, heals Sunburns, Stings of Insects, and reduces inflammation. It imparts a youthful rosy hue to the most bilious Complexion, and renders the Arms, Hands and Neck transparently fair and delightfully soft and smooth.

It is invaluable as a renovating and refreshing Wash during travelling, or exposure to the sun, dust, or dry piercing winds, and preserves the atmosphere of crowded assemblies.—GENTLEMEN will find it peculiarly grateful after shaving, in allaying the irritation of the Skin.

Price 4s. 6d. and 8s. 6d. per bottle, duty included.

ROWLAND'S ODONTO

OR PEARL DENTIFRICE. A FRAGRANT WHITE POWDER, of Oriental Herbs.—It eradicates Tartar and decayed spots from the Teeth, preserves the Enamel, to which it imparts a Pearl-like whiteness, and fixes the Teeth firmly in the Gums. Being an Anti-Scorbutic, it eradicates the scurvy from the Gums, strengthens, braces, and renders them of a healthy red; it removes unpleasant tastes from the mouth, which often remain after fevers, taking medicine, &c. and imparts sweetness and perfume to the breath.

Price 2s. 9d. per box, duty included.

ROWLAND'S ESSENCE OF TYRE, OR IMPERIAL DYE,

Changes Red or Grey Hair, Whiskers, Eyebrows, &c., to a beautiful Brown or Black. Price 4s.—7s. 6d.—10s. 6d. and 21s. per bottle.

ROWLAND'S ALSANA EXTRACT

Immediately relieves the most violent Tooth-Ache, Gum-Boils, and Swelled Face. Price 2s. 9d.—4s. 6d. and 10s. 6d. per bottle.

OBSERVE!—To protect the Public from Fraud, The Hon. Commissioners of Her Majesty's Stamps have authorised the Proprietors' Signature to be engraved on the Government Stamp, thus—

A. ROWLAND & SON, 20, Hatton Garden, Which is affixed to the Kalydor, Odonto, and Alsana. None of these are Genuine without the Stamp.

Beware of Imitations!! composed of the most pernicious and trashy ingredients, and which are frequently pressed upon the unwary as "GENUINE," and under the lure of being cheap.

Be sure to ask for "Rowland's" Articles. Sold by every PERFUMER and CHEMIST throughout the civilized world.

MR. SEARS' PICTORIAL WORKS.—The Subscribers have just received, and offer for Sale, at their Establishment, in Water Street, several entire sets of Mr. Sears' splendid Works. COOPER & BREMNER.

Charlottetown, 8th Oct. 1842.

HAT MANUFACTORY

JOHN HOBBS, Hatter, returns his sincere thanks to his friends, and the public generally, for the very liberal support he has received since he commenced business in this Island, and begs to intimate, that he has REMOVED to Margate Road, New London, near Mr. Tuplin's Mill, where he continues his business, and will thankfully receive and punctually attend to all orders sent to him.

He has appointed Mr. John Williams, Merchant, Charlottetown, his Agent, who has constantly for Sale a supply of his Hats, &c., and will attend to and forward all orders that may be entrusted to his care without delay.

Gentlemen's Beaver and Felt Hats, Ladies' Riding Hats, and Beaver Bonnets; Children's fancy Hats, &c., made to order. Old Hats cleaned, &c. Beaver and Muskrat Skins bought. Margate Road, New London, April 13th, 1843.

VESSEL FOR SALE.

ALEXR. PICKERING offers for Sale the Schooner New London, burthen about Twenty Tons, old measurement. She is well calculated for the Fishery, or a small coaster. New London, June 10th, 1843.
