

OUR NEWS BUDGET for OUR SATURDAY SUBSCRIBERS

HALIFAX, (CP)—Halifax Atlantics and Charlottetown Islanders battled to a 4-4 overtime tie in a penalty-ridden Maritime Major Hockey League encounter here Saturday night.

The result made no difference in the late-season point race. It will take a victory or a Charlottetown loss to clinch the title for the league-leading Atlantics who hold an eight-point margin over the Islanders.

Hugh Campbell shot a pair of goals in the second period to tie it up after Charlottetown had taken a 3-1 lead. Buck Whitlock and Bill Ford traded tallies in the third to send the game into extra minutes.

An instructional and Administration Cadre staff headed by Capt. P. A. Soucy, formerly of this city when he was attached to the 5 Signals Regiment as training officer, is conducting a course here for various members of the units.

Assisting Capt. Soucy are W.O. 2 J. E. Smith, Staff Sgt. J. Doble, Sgt. L. A. Fisher and Sgt. Jack Porter. The latter is permanently attached to the P. E. I. Regiment, while the others are temporarily assigned from headquarters at Halifax.

They are conducting courses for senior and junior non-commissioned officers, for basic recruits and for the recently taken on strength Canadian Women's Army Corps members who are performing Orderly Room duties.

"In a single decade Canada's population has increased by 21.5 per cent, while the United Church of Canada has advanced in numbers by 30 per cent," said Rev. Malcolm C. Macdonald in addressing a large representation from the city and pastoral charges near Charlottetown, in Herby Hall on Saturday afternoon.

In addition to 200 new churches required in these new areas, provision will have to be made for 60 or 70 manse, according to the speaker, who added that 18 or 20 new churches and 12 or more manse were required in the Maritimes.

In conclusion Mr. Macdonald said: "We have here a challenge and an opportunity. Our plan calls for \$3,300,000 to be raised and expended on this work during the next five years, to which Trinity United Church here has already promised ten thousand dollars."

The men of Trinity organized on Saturday to go forward with the work of pledging the congregation in support of this church extension movement.

Need for a reconsideration of the trade arrangements on potatoes between Canada and the United States was emphasized in the annual brief presented last week by the Canadian Federation of Agriculture to the Prime Minister of Canada. The recommendation on this subject suggests that the matter be taken up "when trade arrangements are again being discussed."

Another item of importance to all farmers of Canada is the matter dealing with income tax. The brief suggested that a bona fide transfer of a farm or farm equipment to a son or daughter of the farmer should be treated the same as a transfer to any other buyer with respect to depreciation for income tax purposes.

The brief states it is the belief of farmers that the costs of clearing and breaking bush and forest land for agricultural purposes is just as much a cost of developing natural resources as the costs involved in exploration for gas, oil and minerals. Because of this the Federation asks that such clearing and breaking be considered a deductible farm expense.

The Charlottetown Islanders and "Buck" Whitlock made the most of the "Whitlock Night" celebrations last night to defeat the Sydney Millionaires 6-6 in a free scoring game at the Charlottetown Forum before a crowd of about 2400 fans.

Whitlock had himself a banner night in a hockey as well as a material sense when he scored one goal and assisted on three more. His goal, near the midway mark of the third period, brought the Islanders into a draw with Sydney while his four points increased his lead over Billy Watson in the point parade to 10.

Legislation extending the present boundaries of the City of Charlottetown to include the whole of the incorporated village of Parkdale together with a portion of the Spring Park area is recommended in the report of Judge C. St. Clair Trainor, Commissioner appointed by the Provincial Government to inquire into the Parkdale water supply problem.

The report, tabled yesterday in the Legislature, states that in the Commissioner's opinion, "the only satisfactory solution of the problem of health and convenience facing the fringe area and the problem of health alone facing the City of Charlottetown occasioned by the lack of a safe water supply in the fringe area is the extension of the present City boundaries followed by the supplying of the fringe area with the normal city services."

Wide expansion in public health activities during the past year is shown in a detailed interim report of the Health Branch, Department of Health and Welfare, which was tabled in the Legislature yesterday by the Minister, Hon. A. W. Matheson.

The report, which covers the period ending Dec. 31, 1952, strongly recommends that two suitable medical doctors receive special training in public health and be employed one to operate out of the central office serving the eastern part of the Province, the other out of Summerside serving the western portion. If suitable staff could be procured to work under the direction of these officers, an excellent service could be provided throughout the Island.

The "Chinese Bridge" came into prominence again yesterday when Mr. R. R. Bell, Leader of the Opposition, asked Premier J. Walter Jones when it was bought and how much it cost. The questions were tabled in the Legislature and were answered by the leader of the Government.

The bridge was purchased June 2, 1951, and was bought by the pound at a total cost of \$469,056. No other payments have been made, but storage bills to date

have been \$18,714 with the storage on the four spans which have been sold amounting to \$6,608. By weight the four of the eleven spans sold amounted to 35.3 per cent. For this the Government received \$18,445 for a net gain of \$40,418 less interest.

Three spans were sold to the Canadian National Railway with one span, not yet delivered nor paid for, being sold to a Toronto firm. The Premier stated that plans had not yet been finalized regarding the possible use of any such bridge or steel in this Province.

The Islanders great centre-star Roy "Buck" Whitlock was honored last night by hockey fans throughout Prince Edward Island and the Maritimes in an impressive hockey ceremony that far surpassed anything of its kind ever staged in the Maritime Provinces.

Approximately 2400 fans were on hand to honor the Charlottetown born hockey player and to see him being honored by civic and hockey dignitaries during a half-hour "Whitlock Night" ceremony between the second and third periods of the Islanders-Millionaires game at the Forum.

A large assortment of gifts ranging from a 1953 Ford Tudor Mainliner to a "Buck" supporters throughout the Maritimes to a car for his young son Bobby were presented to the Whitlock family in a ceremony that certainly reflected much credit on the committee who organized the event.

Five young ladies received the holy habit of the Sisters of St. Martha in a reception ceremony at the Mother House, Mount St. Mary's, yesterday morning. His Excellency Bishop Boyle officiated in the presence of a large gathering of relatives and friends. The sermon was preached by Rev. S. Moore, O.S.A.

These young women, who by putting on the religious dress, took the first important step in their chosen career of a consecrated service, were given the following religious names: Miss Anna Trainor, Sister Mary Wilfred; Miss Marjorie Deveaux, Sister George Marie; Miss Clara Pineau, Sister Eric Grace; Miss Mary Macinnis, Sister Francis Adèle; Miss Theresa Currie, Sister Mary Clare.

In his monthly report to the Town Council on Monday evening, March 9th, Wilfred C. Wright, chairman of the Street Committee, announced that arrangements had been completed with the Provincial Government for the paying of one and one-half miles of permanent pavement at an estimated cost of \$14,400.00.

Sixty per cent of this amount will be paid by the Provincial Treasurer out of Capital Grants and gasoline taxes. The streets to be paved are Chapel Street; Hebrew Street to the C. N. R. right-of-way; Church Street to the C. N. R. right-of-way; Bell Street to the hospital and Breakwater Street.

Charlotteville Islanders kept alive their drive for first place in the Maritime Major Hockey League here Tuesday night when they wiped out an early 3-1 Sydney lead and went on to an 8-4 triumph in the last meeting of these two teams this season.

Roy "Buck" Whitlock, honored with a Whitlock Night by Charlottetown fans Monday night, continued his fast scoring pace and moved nearer the circuit point crown by sniping two goals and picking up three assists.

Bullet Bob Gray also had a pair of goals for the Islanders with Stewart in the Draft Address department who had a four-point night, Walter Pawlyshyn, Lyle Wiseman and Marcel Clements.

"It is strange that the two largest Districts in Prince and Queen's Counties, Summerside and Charlottetown have no representation in the Cabinet," stated A. W. F. Stewart in the Draft Address for the First District during his speech on the Draft Address last night.

He noted that junior member for Charlottetown is eligible for a Cabinet post and that he would receive one at some future date. However, Mr. Stewart thought that the Charlottetown representative was better off out of the Cabinet at the present time as he like some of the other members were strong in their opinions to hold a post for a long period.

The steady growth in the number of users of electricity, especially in rural areas, in recent years was highlighted by Hon. A. W. Matheson, Minister of Health and Welfare, when he rose to resume his part in the Draft Address debate in the Legislature yesterday.

Hon. Mr. Matheson pointed out that while city users had increased approximately 1,500 in number in a thirteen year period, rural users had jumped from 861 to 4,944. He estimated there were about 7,000 homes needing electricity where there would be only two families to the mile and another 5,000 with a population density of four to the mile.

The Minister said that rural electrification is a very important question to the people, the Government, the Public Utilities Commission and the Maritime Electric Company. While he believed electricity had to be provided he foresaw that it would cost a lot of money. He was inclined to agree with other speakers who believed that private enterprise would be the source of power. However, he expressed the opinion that of the many schemes advanced and selected should be carefully studied.

A suggestion that the Provincial Department of Industry and Natural Resources impress on the Federal Government the need of a three mile limit off the shores for druggers was made by Hon. J. Brenton St. John, Liberal, First King's, when he took part in the Draft Address debate in the Legislature yesterday afternoon.

Hon. Mr. St. John, Minister

without portfolio, also suggested that in certain areas, such as Basin Head and Murray Harbour, a limit of six miles be laid down. He said that while the Government can make rules and regulations for our druggers, Federal legislation is needed to control druggers from other Provinces.

The Public Utilities Board would notify his department when they were ready to proceed with installations for telephone or electric light service he would see that every obstruction would be out of their way in time, stated Hon. Dougald MacKinnon, Minister of Public Works and Highways, in speaking in the Draft Address debate in the Legislature yesterday.

The Minister said he had received many petitions and delegations asking for widening of specific roads as a preliminary to providing these facilities. "I promise that no one will be held up for necessary services by our department," he said.

No Federal aid in extending the runway facilities at the Charlottetown airport will be forthcoming unless the City assumes the full responsibility for operation and maintenance, it was revealed last night by Coun. Edwin Johnstone, Acting Mayor at the adjourned meeting of the City Council.

While no formal resolution was adopted, the members of the Council voiced strong objection individually to this proposal, and agreed to meet as a body to present the matter before the Provincial Government, with a view to obtaining support in emphasizing the importance of the project from an interprovincial transportation standpoint.

"In the past few years the dairy industry has been subjected to the most vicious propaganda and an attempt by a few big business concerns to rob 455,000 farm families of a just living," declared Mr. R. A. Profit, President of the P. E. I. Dairywomen's Association, in commenting on the campaign for margarine and other cheap butter substitutes at the Association's annual meeting yesterday.

"I say propaganda," Mr. Profit added, "for the introduction of these cheap substitutes did not originate from any spontaneous demand on the part of the people, but was instigated by well-organized and powerfully directed propaganda" on the part of those who saw a chance to make enormous sums of money. If this were not so, how can you account for the failure of this to become a political issue in one of the largest cities of Canada with over a million populations, namely the city of Montreal.

Miss Frances Pendergast, 16, daughter of Mr. and Mrs. James Pendergast, Kensington, has been chosen to represent Prince Edward Island as one of a group of 50 teenage girls from all parts of Canada who will spend more than a month in Great Britain this summer as guests of Mr. Garfield Weston. The announcement was made in the Legislature yesterday by Premier Jones.

The group will sail for England, May 22, on the Empress of France and will spend a month in England, Wales, Scotland and Ireland touring famous cities and towns. In addition, the Canadian girls will spend several days in London at the Coronation with a similar group of 50 British girls who will be coming to Canada as Mr. Weston's guests.

The need existing for special treatment centres for cerebral palsy sufferers and retarded children was outlined by Mrs. Stewart in the Legislature yesterday afternoon as two groups combined to present briefs prior to the opening of the session.

The main brief was presented by Mrs. Dan Farquharson, Charlottetown R.R. 9, a member of the recently formed Cerebral Palsy Parents Organization. Representing the Parents' Council for Retarded Children was Mrs. Stewart Pierce. In the age group from one year to 16 there are presently 69 active cases of cerebral palsy being treated at the Red Cross, some of them are also mentally retarded. Just how many it is difficult to say as occasionally several treatments or examinations are necessary to determine the mental state.

In a brief discussion of the

briefs presented Dr. W. J. F. MacMillan said that the Red Cross was doing all it possibly could for these types but was not equipped to do all that is required. He thought, too, that a small centre should be started here to aid the children and suggested to Hon. A. W. Matheson that a close perusal of the health grants receive" from Ottawa might show some funds not now being used which could be transferred for this purpose.

Hon. Mr. Matheson agreed that it was possible and will investigate the matter.

College students, school children and a smattering of older folk enjoyed a rare treat outside Old Spain yesterday afternoon, and it was not ice cream, but their first sight of a couple of baby seals. The week-old pure white wet furred babies were having a snack of smelts followed by a chaser of milk from a regulation baby's bottle complete with standard equipment.

The young visitors were picked up at the Magdalen Islands yesterday morning when Captain Trainor dropped down on Grindstone and Amherst Islands while on a routine ice patrol trip. Mr. Joseph DiGiacinto, one of the officers aboard the plane, is the proud purchaser of the seals, which he has been assured by the game warden on the Magdalen can survive in captivity on land for at least a year, according to his experience. The owner stated they were brought here as a gift for a certain young lady.

The difficulty of keeping veterinarians operative here was stressed by Hon. C. C. Baker, minister of Agriculture, in his speech during the Draft Address debate in the Legislature on Wednesday. Greater financial returns in other places induced veterinarians to leave posts in this Province and he spoke of the possibility of losing practitioners in the O'Leary and Souris areas. On the latter point he was assured by Mr. William Acorn, First Kings, that the practitioner was "very happy" in his post and would remain.

However, Dr. Mustard, serving the O'Leary district at present, had a lucrative private practice in Charlottetown and was expected to depart in May. But the Minister said that Dr. George Fisher, in charge of Veterinary Services in this Province, had several applications and it was expected that a new veterinary surgeon would be in O'Leary by the time Dr. Mustard left. He also complimented Dr. Fisher on the excellence of the job he has been doing here.

"That the matter of rural electrification was a hot question in his district was an understatement. It was sizzling, stated Mr. William Acorn, 1st King's, final speaker in the Draft Address debate in the Legislature Wednesday night.

In the course of his speech, Mr. Acorn suggested that the Department of Industry and Natural Resources might give some consideration to the establishment of a brewery. He noted the alarm expressed by some speakers over the increase in liquor purchases for the month of February. This might be explained, he thought, by the fact that last year there was a heavy snowfall, and "the boys realized they could not get to town," and the Mounties were unable to see them. They made their own brew. This year it was being bought legally. In reference to the brewery, Mr. Acorn said that in the O'Leary district and they could provide a good brewmaster. This would give employment and better than sending money away. It was done before and could be done again. A good export trade might even result, he felt.

"What would they feed pigs on?" queried the Premier. "Mash," was the retort.

MURPHY — At the Charlottetown Hospital on March 10th, 1953, to Mr. and Mrs. Gregory Murphy, Hope River, a daughter, Teresa Marie, 7 lbs. 11 oz.

DINGWELL — At Toronto East General Hospital on March 6th, 1953, to Mr. and Mrs. Athol Dingwell (nee Arnold) a son, Leslie MacLean, 6 lbs. 13 oz.
