collapse of a rink at Listowel, Ont. Bob was in dressing room when roof collapsed. Forgotten equipment made him late or he would have been on the ice

Report Asks For Return Of Legislative Records

Some 8,000 books, journals and legislative records now housed in the Public and Legislative Library will be returned to the Provincial Building, according to a recommendation of the select standing committee on Liberals whose report was tabled in the Legislature yesterday.

Chairman of the committee was Hon. Prosper Arsenault, Frank Myers (P.C. - La. Queens), Brenton St. John (L-1st Kings) and Francis Seville (L-5th Kings) served with Mr. Arsenault on the committee.

Also to be moved to the Provincial Building are some 3,000 books kept at the Prince Edward Island Library at Prince of Wales College.

The books, which were once part of the P.E.I. Libraries which were moved to their present quarters about 1930 when the Public Library was built.

They were moved because of better fire protection and in order to make more space in the Provincial building.

Now with the acquisition of additional buildings such as the old Post Office and the old Marine Building, the Government now finds it has space for the books.

The report stated that removal of the books and records was not being made because of the present care being given them, rather it was a case of making room at one place and bringing more convenience to the other.

The report asked that a new stair be constructed in the library building. The existing stairway, it was noted, was too small and was also in bad state of repair.

Mr. Seville said he was very happy to learn that these books, records and newspapers would be taken over to the legislative building where they would be readily accessible to members of the House.

He said the committee was greeted at the P.E.I. Library by Miss Colton who showed them through the library quarters. Here, too, the committee noted the lack of storage space for the books.

Mr. St. John suggested that when the books are returned to the Provincial Building that a librarian be found as soon as possible. He felt that perhaps a retired school teacher would do a good job until a regular librarian could be found.

Mr. Myers observed that no books should be removed from the library once they are housed in the Provincial Building.

Dr. L. G. Dewar (P.C. - St. John's) said he agreed with the committee's recommendation. He always felt that the books should be in the legislative building where they could be used for the reference of members.

Premier Matheson said he was pleased with the report. He said the collection included all the journals of the house since it first held sessions. He also noted that the newspaper reports of former sessions would be most valuable.

The Premier said part of the collection could be stored on the second floor where vacancies now exist and if need be on the third floor.

Additional space for a children's reading room could now be made available at the Public Library, the Premier observed. He assured the members that steps to carry out the recommendations of the report would be undertaken as soon as possible.

In reply to a question from Dr. Dewar, the Premier said the Island government shares half the cost of operating the building with the City of Charlottetown and pays the salaries of three of the staff as compared to one which the City pays.

He recalled that the library was built in 1930 at a cost of \$37,000. Of the total amount the Harris estate contributed \$17,000, the Province \$10,000 and the City \$7,000. He did not know where the other \$3,000 came from.

The business and recreational portion of the program was pleasing and instructive, two very acceptable trips by the Cornwall group composed of Messrs. Gordon MacMillan, James Miller and Gordon Boyle were enthusiastically received.

The guest speaker Mr. Keizer of Trinity United Church gave an inspiring address on the place of laymen in the church development. Mr. Keizer in a very dramatic manner traced the great part played in the work of the church down through history and pointed out the urgent need under modern conditions of laymen service and support in the Master's Vineyard.

The president warmly thanked the speaker, and a supporting brief address was given by Mr. W.R. Shaw.

The ladies of the community Church served a delicious dinner of ham, scalloped potatoes, vegetables and all the necessary trimmings in the form of a variety of deserts and sweets that combined with an excellent program to make the event memorable in the annals of the local church.

The large group of men from New Dominion, Cornwall and Kingston who were present were highly delighted with an evening spent together, and are looking forward eagerly to further meetings, at the different preaching points in this field.

Repentigny is about 15 miles northeast of Montreal.

This was the third in a series of monthly meetings held by this group. The president of the Association, Mr. Gordon MacMillan, presided and called on Rev. B.A. Patterson to lead in the devotional exercises.

After the reading of scripture and prayer a number of favorite hymns were sung with Mrs. Gordon MacMillan presiding.

Survey Being Carried Out On Damage To Old Carferry

It is not anticipated that the carferry Prince Edward Island will have to go to Halifax for repairs to damaged steering gear, it was learned unofficially last night.

Captain Douglas MacLean, CNR Marine Superintendent, Atlantic Region arrived at Borden yesterday to conduct a survey of the damage sustained by the ships during her ten-day run from Port aux Basques to her home port.

The results of this survey, however, are not expected to be known until later today when the CNR Marine Superintendent has had an opportunity to complete his examination and report his findings to Moncton.

It is understood that a diver went down yesterday afternoon but that nothing definite was established. It was also reported that another underwater examination will be made this morning but that the damaged rudder will have to be taken up before the full extent of the damage is known.

It is hoped that the necessary repairs can be made at Borden or Charlottetown as a trip to drydock might delay the annual refit of the MV Abegweit, her sister ship, which generally takes place early in the spring.

The rudder of the Prince Edward Island was damaged when she went astern into a heavy bank of ice. Some of the crew members say the damage is extensive.

Tenders will be closed March 25.

The work consists of repairing the outer block by enclosing the existing work to the extent of 4 1/2 feet by 4 1/2 feet in steel shell piling.

Because the railway wharf was completely rebuilt during the past two years it was not possible to carry out any major repairs to Queen's Wharf as it had to be kept open for shipping.

OLDEST RESIDENT DEAD — STRATFORD, Ont. (CP)—This town's oldest resident, Patrick James Brothers, 102, died Tuesday.

Queens Member Back At Desk

OTTAWA (Special) — Heath Macquarrie, MP, will be back at his desk in the Commons today after a whirlwind trip through the Maritimes.

He was one of the speakers at the week-end conference of the Maritime region of the Progressive Conservative Student Federation at Halifax. On Friday he addressed students on the philosophy and history of the Conservative Party and later presided over a seminar discussion. Other speakers were Northern Affairs Minister Alvin Hamilton; Lorne Clarke of the Dalhousie Law School and Roberts McCleave, member for Halifax.

On Saturday morning Mr. Macquarrie flew to Charlottetown for talks with provincial party leader W. R. Shaw; House Leader R. R. Bell; Frank Myers, M.L.A.; George Rogers, president of the Queens County Conservative Association and other party officials.

On Monday morning Mr. Macquarrie met a number of his constituents at the provincial party headquarters before leaving for Ottawa. He also visited his mother, Mrs. Wilfred Macquarrie at Victoria.

House Built Around Still

MONTREAL (CP)—RCMP reported Tuesday that in a raid at Repentigny, Que. Tuesday night they found a still so big it had an \$18,000 house built around it.

RCMP superintendent Rene Bejez said a man and woman were busy pouring alcohol down the drain when police arrived but the remainder of the alcohol was seized along with 10 steel mash tanks of 400-gallon capacity and two stainless steel tanks of 300-gallon capacity.

The man, identified as Yvon Dupuis, 30, was to be arraigned in Joliette, Que.

Mr. Bejez said the size of the still indicated it would have been impossible to put into the house and the house "must have been built around it." He said the still consisted of a rare horizontal boiler and a rectifying column that reached from the basement to a false chimney.

Repentigny is about 15 miles northeast of Montreal.

This was the third in a series of monthly meetings held by this group. The president of the Association, Mr. Gordon MacMillan, presided and called on Rev. B.A. Patterson to lead in the devotional exercises.

After the reading of scripture and prayer a number of favorite hymns were sung with Mrs. Gordon MacMillan presiding.

Queens Wharf In Georgetown To Be Repaired

OTTAWA (Special) — An announcement of a call for tenders for repairs to Queen's Wharf, Georgetown, P.E.I., was made Tuesday by J. A. Macdonald, M.P.

The work consists of repairing the outer block by enclosing the existing work to the extent of 4 1/2 feet by 4 1/2 feet in steel shell piling.

Because the railway wharf was completely rebuilt during the past two years it was not possible to carry out any major repairs to Queen's Wharf as it had to be kept open for shipping.

WELCOME CALL OF THE WILD

The voice of medical experience belonging to Dr. Paul-Leon Rivard can be heard from Hudson Bay to Labrador. He is doctor and dentist to 2,000 lumberjacks, travelling physician to 2,500 Indians, surgeon, hypnotist and Justice of the Peace. Don't miss the story of this controversial figure, who has accepted the challenge of Quebec's vast northland with remarkable ability and dedication.

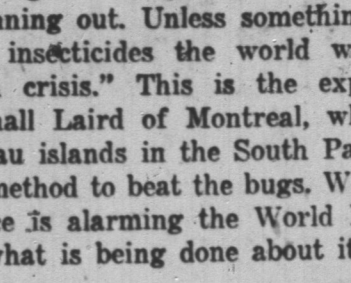

HONEYMOON ON A SAILBOAT

Not many young brides eat flying fish for breakfast and dream of mail on their honeymoon—but after travelling 6,000 miles across the Pacific Ocean in a small sailboat, it's understandable. Jill and Peter Hamilton continue the record of their unique voyage in Weekend Magazine. This episode concerns a birthday party ashore the isolated and romantic island of Pitcairn, where the young couple were welcomed by descendants of the famous mutineers of the Bounty.

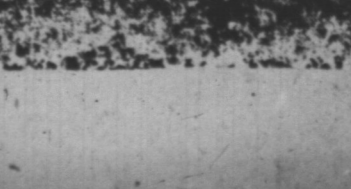

NEW MOVIE ACTOR IS A PET

Did you know that Audrey Hepburn has undertaken to coach and give room and board to her co-star in a new movie, Green Mansions? And that's not all — he also escorts her everywhere from supermarkets to movie premieres. Her husband-director Mel Ferrer is not quite so enthusiastic about the new member of his household. After all, when a guest chews your shoe laces...! But it can't be denied that Pippin is a real deer.

INSECTS STAGE A COMEBACK

Man's age-old winged enemies are up in arms. "Time is running out. Unless something is done to supplement insecticides the world will face a first-rate health crisis." This is the expert opinion of Dr. Marshall Laird of Montreal, who has flown to the Tokelau islands in the South Pacific to search for a new method to beat the bugs. Weekend tells why this menace is alarming the World Health Organization, and what is being done about it.
