

Enforced Abdication of the Khedive.

The enforced abdication of the late Khedive of Egypt was a remarkable occurrence. The enforcing parties were the Governments of England and France, acting with the approval of other European Governments. The dethroned Prince richly deserved his fate. Toward his own people he was a spoiler, toward foreign creditors, a swindler. Nevertheless, his dethronement was, under the circumstances, a very remarkable and significant event. It indicated, among other things, the interesting position that made it of immense importance to several of the foremost powers of the world that the country should have for a ruler an intelligent and honest man. It furnished a new illustration of the decline of Mahomedan influence in the old Turkish empire. It is true the old Khedive has been succeeded by his son. But the dethronement and the enthronement were accomplished at the dictation of two foreign Governments without any display of force on their part. The change effected is suggestive of interesting thoughts relative to Egypt's future. It forces the conclusion on one that the interests of civilization imperatively demands that Egypt should enjoy enlightened and progressive government. Thus governed, it might perform a work of immense value in the civilization of Africa. It was once hoped that the reigning Egyptian family might furnish a succession of able rulers. The late Khedive for a while promised well. The new Khedive may really do well. But it may become a question whether any Mahomedan Prince can meet the requirements of the situation in Egypt. Meanwhile the active participation of the French Government with that of England in Egyptian affairs signalizes the entrance of resuscitated France on the International arena in a very marked manner.

Prince of Wales Visit to Australia.

The *Central News* has good authority for saying that His Royal Highness the Prince of Wales will proceed in the Indian troop ship *Serapis*, to visit the Australian International Exhibition at Sydney. No positive or direct orders have yet been received on the subject, but a question has been put by the Admiralty as to when the machinery of the *Serapis* will be ready for sea, and the reply has been returned that forty-eight hours would suffice to prepare the ship in that respect. The internal fittings would take about two months to complete. The *Serapis* was the vessel which conveyed the Prince to India, and she was the next on the list for service; but it is understood that His Royal Highness expressed a wish to have that vessel placed at his disposal, so that the *Janna* was sent instead with troops to the Cape. The *Serapis* has an advantage over the other Indian troopships, inasmuch as she is considerably higher between decks, and has a much greater width in the hatchways. The *Serapis* has been taken out of dock and brought alongside the dockyard, so that her preparations can be proceeded with at any moment.

Anglo-Israel.

Since the ascension of a Jew Premier to the head of the English Government those writers and speakers whose idea is that all Jews of the earth will ultimately be enabled to re-settle in Palestine, have been very frequently heard from. The latest thing in this line is a lecture delivered by the Rev. Mr. Williams, of Boston, in the St. James street Methodist Church, Montreal, to what is reported in the papers of that city to have been a good audience. The lecturer opened with some startling statements on anatomy, one of which was that the brain was divided into three parts, corresponding in division and characters to the tribes of Israel. He afterwards asserted that the United States in a session of the tribe of Manasseh from Great Britain, the ten tribes of Israel; also, that the time will come when the United States will come under the British flag, which is to be removed to Palestine, the last named territory to be the grand centre to which all the tribes of the earth will flow.

CATARRH.

Constitutional Catarrh Remedy CURES CATARRH.

Hear what a Reverend Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., Brockville, Ont.:—
"DEAR SIR—It is now two years since your 'Constitutional Catarrh Remedy' was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be 'too good to be true.'
I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case described in many particulars. The inward 'drop' from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your agent came to Walkertown in August, 1876, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.
A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper.
Yours truly,
W. TINDALL, Methodist Minister.
