VARIETIES.

ACTION.—I have often had occasion to observe that a warm blundering man does more for the world than a frigid wise man. A man gets into a habit of inquiring about properties and expediences and occasions, spends his life without doing any thing to the purpose. The state of the world is such, and so much depends on action, that every thing seems to say loudly to every man, "Do something" —"do it" —"do it." —*Cecil.*

NOT SO BAD.—It is related of an old Presbyterian minister, down East, that being astonished at the outrageous flatteries inscribed on the tombstone of the village church yard, he was heard muttering as he went out of the gate—"Here lie the dead and here the living *lie.*"

The latest mode of "popping the question" is to do it with a kind of a laugh, as if you were joking. If the girl accepts, well and good; if she does not, you can say, you were only in fun.

Lord Byron gives this account of a party with Sheriden: "He was first silent, then talky, then disputatious, then unintelligible, then altogether, then inarticularly, then drunk.

The best thing to take after being intoxicated—Asa solution never to get tipsy again.

Rev. Roland Hill once said—"I or not want the walls of separation between different orders of Christians to be destroyed, but only lowered, that we may shake hands a little easier over them."

Henry Ward Beecher says that "dress does not make the man; but, when the man is made, he looks better dressed up."

The following is a good phrase, descriptive of an energetic character: "Cromwell did not wait to strike until the iron was hot, but made it hot by striking."

A son of the Emerald Isle, having been told that the price of potatoes had risen, exclaimed, "This is the first time I ever felt grieved at the rise of my best friend."

Cheap living in Patagonia. The natives steal all they eat, wear a couple of fig leaves for clothes, and sleep, most any where. Very convenient mode that for "short" style of folks.

The first line—we have not been able yet to get further than the first line—of Mr. Charles Dickens' new work of fiction, "Hard times," reads thus: "Now I want is facts!" We are not so exacting as the talented author. We could be well content to dispense with facts, if he would only once more give us, as he used to do, good fictions. But one thing we must insist upon; and we trust that Mr. Dickens will excuse our parodying his brilliant style, when we assure him that—"What we want *are* grammar!"

A very pretty young woman went to the post office, lately, with a letter and no direction, and said to the postmaster: "Send that to my sweetheart!" The postmaster took it, looked at it, and said: What is his name, and where does he live? The girl replied: "Ah that is the very thing I don't want any one to know."

A youngster, who had just risen to the dignity of the first pair of boots with heels on them, laid liable, through some demeanor to paternal chastisement. After pleading to get clear, to no effect, he exclaimed:—"Well if I've got to stand it, I mean to take off my boots."

"Why?" asked his mother.

"Because I wont, be whipped in them new boots, no how. That's so."

A passenger on the mail boat from Louisville, not in the habit of "indulging," found himself somewhat under the influence of "Old King Al." Being asked how he came to drink so much, he replied, "why fact is, gents, (hic) the river has got so low, (hic) the captain has forbid the use of water as a beverage, there is none to spare.

'This is a pretty time o'night to come skulking home, you drunken brute! Whar have you been, eh?' said Mrs. Potts, when she saw Mr. Potts practising at the cork screw polka on the staircase. 'Been—hic—been? Why—hic—ye see, Sal,—hic—Sally, I've been to the—hic —temperance mass—hic —meeting, and I've eat too m-much lemonade.' 'Eat what?'—'Yes—hic—eat that, too.'—At this juncture a heavy squelch announced the downfall of the Potts family.

R. R. R.

What do the Sick Require?

To these who think.—If sick, if suffering the tortures of pain, or afflicted with long illness, the invalid's constant hope and most fervent desire is to be relieved and cured of the distressing ailment, that time. On this principle the R.R.R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R.R.R. Theory is predicated.

The R.R.R. REMEDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor into the wasted and broken body, and renew each member and organ of the human system with strength and power.

The R.R.R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S RENOVATING RESOLVENT, and RADWAY'S REGULATORS.

RADWAY'S READY RELIEF is for the instant relief of the sufferer from pain, whether arising from Diseases; to disinfect animal, malarious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagion, and from sudden attacks of Cholera, Dysumonia, Ship Fever, Fever and Ague, &c. Likewise for the effectual and radical removal of all pains and diseases of the kidneys, Bladder, &c.

Its first action is to remove the pain, (hence its usefulness in Neuralgic cases;) its second, to repair and heal, as in the case of a cut, or wound. If the Relief be applied after the first little smarting is over the pain is extinguished, and the work of reparation now commences. But if the Relief is not applied, there will follow after the first pain, what will continue, and an inflamation be set up, and instead of a simple incised wound we have inflamation —disease to contend with. Beside, its direct power over pain, the Ready Relief is the most effectual and convenient "counter irritant" that is known to the medical world.

If there is a congestion or heaping up of the blood in any particular part, occasioning pain and threatening inflamation or disease, as Sore Throat, Lumbago, or pains in the bowels, Dysentic complaints, &c. the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion disperses, and the pain ceases, as if by a little water will protect the system against any attacks from infectious and malarious poisons.

FREQUENTLY

whether Typhoid or Bilious, RADWAY'S READY RELIEF, given internally, and applied over the surface of the body, and the bowels regulated and kept regular with R.R.R. Pills, in from 24 to 48 hours the patient will soon be out of danger, and speedily restored to health. If the R.R.R. Remedies are given, the will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT is the second of the R·R·R. Remedies. It is for the cure of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideration of the RESOLVENT, the second of the three R.R.R. Medicines.

RADWAY'S RENOVATING RESOLVENT is for the cure of Chronic Diseases, of inflammation that is kept alight on fire by some sustaining cause: for the Resolvent acts only by destroying what now encoaled combustion. And this cause is a deposit resulting from the inflammation whilst it is in an active or semi-condition, for it is only when in a state of rest before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous issue surrounding joints; if a person is Scrofulous, these deposits effect the glandular tissue in small lumps under the chin and along the neck; if he have a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs; if Syphilis, it takes place the Bronchial tubes: if Syphilis, it occurs in every tissue and organ in the whole system, for that disease spares nothing. None of these deposits are Chronic Inflammations, (for it is this in every case.) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the tissues shall be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and the blood be purified. We therefore want a medicine that will act on the absorbents and stimulate them into action, and at the same time purify the blood; for experience has shown that purifying the blood alone will scarcely ever cure Chronic diseases: to ensure success they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action of the RESOLVENT is directed first to the absorbents, stimulating them into action, and second to the blood which it depurates and renders pure. The glands, the liver, pancreas, kidneys &c., which are the sewers that nature has established for purifying the blood. You will, after this description, see how, appreciate the means we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT. It resolves away diseased deposits; it purifies the blood and invigorates it. Thus the morbid are removed and discussed by its operation: Chronic Swellings are dissipated; Nodes are softened and melted away. Thus the most loathsome Skin diseases disappear under its action; Scrofulous constitutions are soon amended, and the disease checked when ever it has attacted the system. Syphilis, with all its horrible train of concomitant symptoms, is certain and infallible cure; and Consumption too, oftimes finds its master—Consumption, that prevalent and lamentable disease of the lungs, that is so well known to us all, from its fatal and almost helpless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race, ravaging over our vitals with an insidious yet awful certainty, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake: it is but one of the forms of Scrofula—it is a Scrofula deposit, an inflamation of the lung structure, and *could be as readily cured as* any other Scrofulous disease—such as Consumption of the Bowels, Consumption of the Liver, Complaint, or White Swelling—if it was not for he peculiar structure and action of the lungs in which it takes place.

The lungs expand and contract during every respiration: and from the moment the first breath of life is drawn, until the last guttural sigh passes from the dying invalid, a never-ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be for an Ulcer of the lungs to heal, where it is continualy kept irritated by the act of breathing.

Understand, then, we do not offer you the RESOLVENT as one pain reliever for pulmonary or Scrofula of the lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case, the complaint in the lungs in its first stages—is incurables incurable; but we can recommend it as the most certain remedy (when taken as directed in our pamphlets) that we possess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT What the Relief is to Acute diseases the RESOLVENT is to Chronic; it resolves away the foreign and diseased deposit; it purifies the blood and it renovates the system

NO. 3

We now request the reader's attention to the third of the R.R.R. REMEDIES.

RADWAY'S REGULATORS.

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pills," will find RADWAY'S REGULATORS the most prompt and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use

We have hitherto been treating of diseases or inflammation in its acute or chronic state, and its remedies; the RELIEF in one hand and the RESOLVENT on the other. We now proceed to consideration of that state of the system immediately proceeding disease or inflammation, viz: IRRITATION. To allay irritation of the nervous system, and remove its effects when present, is the office of the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS

But how is the system irritated to cause of diseases? Because the glands of the system are controled by the brain and nervous centers, and what irritates the brain causes irregularities of the glands; and when the glands refuse to do their work, they throw the matter which it is their duty to remove, is left in the blood, and increases already existing irritations. The glands are sewers of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and those of the skin and intestinal canal. Now, every irregularity in these organs renders it indispensable to keeping the blood in a pure and natural state. If we give you poison instead of food to eat you can easily understand that the blood will become corrupted by it, and instead of life giving; instead it will be just as surely corrupted if the glands do not abstract the worn out materials from it

Again if the kidneys are interfered with in their action, from any irritation whatsoever, why then we have the salts of the urine, the poisonous urea, circulating in the blood, producing headaches, coma, drowsiness. &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great laboratory the Liver, Indigestion and Biliousness will be left open, and cars run off the track as usual.

It is well enough for the public and legislators to caution against "nostrums," and "take heed," yet these casualties will occur, which result in severe contusions, broken limbs, burns, &c.

The Mexican Mustang Liniment.

Upon such occasions, is invaluable! The wonderful effects of its soothing and healing properties have induced many, who have tried it, to always carry a bottle of it with them when they are travelling.

Frequent tests have proven it to be efficacious in curing Rheumatism, Piles, Scrofulous diseases, Cancers, Ulcers, Old Sores, Neuralgia, Toothache, Earache, &c. Also Spavin, Ring-bone, Scratches, Kindred Heels, Foundered Feet, in *Horses and other animals.* It is external in its application, and we GUARANTEE it to CURE PERMANENTLY in every case for which we recommend it.

Many Physicians use it because they can depend upon it—so can their patients.

Farmers and Livery-stable Keepers.

Say they have it, and they will not be satisfied without it, after giving it a fair trial. Therefore we say to travellers upon highways and by-ways use this Liniment, and you will find no disappointment. Justly introduced throughout the United States, British Possessions, and West Indies, that it is almost impossible to count of the cure at any Station without beholding the gay banner of the "Mustangs."

The prices are as follows:—25 cents, 50 cents, and $1 per bottle; the 50 cent being three times as large as the 25 cent, and the $1 size nearly 3 three times as large as the 50 cent size, so that the large bottles are cheapest.

New Annan Mills,
Lot 19, June 23, 1854.

NATIVE LASS.

THE Subscriber begs to inform his friends and the public, that he has just received, by Schooner *Native Lass*, from Boston, a large and varied assortment of AMERICAN and WEST INDIA GOODS. Consisting in part of

40 Cases Ladies', Gents' and Childrens' BOOTS and SHOES, all kinds.
13 Cases American CLOCKS, various patterns,
2 Bales BEDTICKS,
2 do. Grey and Striped COTTONS,
1 Case UMBRELLAS and PARASOLS,
1 Case WINDOW BLINDS,
1 Cask GLAUBER SALTS,
1 Case LOOKING GLASSES, assorted sizes.
A large assortment of *FARMING IMPLEMENTS*, consisting of Rakes, Hoes, Scythes, Snathes. &c.
10 Boxes assorted CONFECTIONARY,
20 Boxes CANDLES, 15 do SOAP,
3 Boxes STARCH, Pipes, CIGARS, ORANGES, Currants, Spices, Lines, Whitewash Brushes, Scrubbing and Shoe do., and a great variety of other Goods.

Also,

4 Hhds. SUGAR,
10 Bbls. CRUSHED SUGAR,
100 Bbls. CANADA FLOUR,
100 Bags YELLOW CORN,
A few Bbls. CORN MEAL.

All of which will be sold at the lowest figure for Cash, or approved Credit.

PROCLAMATION

TO THE

Good People of P. E. I.

PROBABLY there is not a family in your Province but what some members of it are more or less afflicted by Humours or Chronic Affections. As a remedy for these various complaints, there are sumdries proportions brought into the market, but all of them of little or no good. But there is a discovery which has recently been made in chemical analysis that is wonderful in its operation. It has been long enough tried and we have proof sufficient to satisfy all from men holding the highest offices the people of the United States can give—that the medicine will do just what it is recommended. It is DOCTOR HAMPTON'S VEGETABLE TINCTURE. The medicine is compounded from the Vegetable Kingdom and may be taken by any person without injurious consequences. By a wise choice and combination of some of the best of each class of co-operative, simple remedies, it fully reaches all the essential organs of the human system, and there it has proved itself so effectually curative of the WHOLE ROUND of chronic affections.

Over ten million bottles have been sold in the north and west during the last five years.

Three to five bottles is warranted to cure the worst case of *Rheumatism.*

Two bottles will check the worst case of *Dyspepsia.*

Three bottles are warranted to cure the severest case of *Eruptive Diseases.*

Five to eight bottles will cure the worst case of *Scrofula.*

One to two bottles is guarranted to cure the worst kind of *Pimples on the Face.*

Two to three bottles is warranted to cure the worst case of *Ring Worm.*

Three bottles is a certain remedy for the *Piles.*

Five bottles will cure the worst case of *Gout.*

Three to five bottles has never failed to cure the worst case of *Liver Complaint.*

Five bottles will cure the worst cases of Cough, Consumption, General Debility, Asthma, &c.,

As a FAMILY MEDICINE it has no superior.

We could give hundreds of cases where the cures were truly wonderful, but we request all to get a pamphlet and read the hundreds of certificates of its cures *Price $1 per bottle.*

General Agent for P. E. I., W. R. WATSON. Sold also by M. W. SKINNER.

Notice to Travellers.

IT has become an established fact that accidents will happen notwithstanding the care and attention which may be paid to the safety and convenience of travellers. Explosions will take place, bridges will be left open, and cars run off the track as usual.

It is well enough for the public and legislators to caution against "nostrums," and "take heed," yet these casualties will occur, which result in severe contusions, broken limbs, burns, &c.

AYER'S

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than the contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the agent below named, will always be glad to furnish the public wherein are full particulars, and indisputable proof of these statements.

Office on Transportation, Laurens R. R., S. C., Aug. 3, 1853.

J. C. AYER. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the winter of 1851, for a severe attack of Bronchitis, with entire succes. I was induced to try it on my little boy. I gave him a tea-spoon-ful every three hours commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines,—but for your imperfect discovery, my little boy would now have been in another world.

I am yours, with great respect,
J. D. POWELL, Supt. Trans., L. R. R.

Rock Hill, (Somerset Co.,) N. J., July 21, 1852.

Dr. J. C. AYER,—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in the highest terms of praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done, I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.m

Please send me a further supply, and believe

Yours, with respect,
JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1852.

J. C. AYER. Sir; This may certify that I have used your CHERRY PECTORAL in my family of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has done for me more than all the rest of the drugs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,
D. A. McCULLIN, Attorney at Law.

Wilksbarre, Pa., September 28, 1850.

Dr. J. C. AYER, My dear Sir,—Your medicine is much approved of by those who have used it here, and its composition is such as to know and maintain its reputation. Invariably recommend it for pulmonary affections, as do many of our principal physicians.

I am your friend,
CHAS. STREATER, M. D.
