It will pay Cash Buyers to call and examine our Goods and  
Prices before purchasing elsewhere.

ROBERT ORR'S OLD STAND.  
Charlottetown, Nov. 16, 1880.

## THE NEW CANADIAN BEVERAGE!

**KAOKA,**  
The Only Satisfactory Substitute for Tea and Coffee. Highly  
Recommended for Regular Use at Ordinary Meals.

THE VERY BEST ARTICLE FOR DIETARY USE EVER DISCOVERED.

THE injurious effects which the continuous use of tea and coffee have on the  
human system are well known. The most eminent physicians advise the  
patients to abstain from using either. Owing to the taste for these beverage  
which has been universally acquired, it has been found necessary to find a sub-  
stitute. Various substitutes have been tried, but KAOKA is the only one ever  
discovered which has been found to perfectly answer the purpose. Unlike Tea  
and Coffee, it contains neither Theine nor Caffeine, nor any other poisonous  
principle whatever which can even by long use, prove hurtful to the weakest  
constitutions. It is especially recommended for sick persons and children.  
Families using white bread habitually should adopt KAOKA as their regular  
drink at meals. They will then have supplied to them the elements which,  
when taken into the system, go to form bones, nails, teeth, sinews and brains,  
and which have been separated from the fine flour of which the white bread is  
made. Thousands of persons who have been afflicted with Dyspepsia, Nervous-  
ness, Indigestion, Sleeplessness, Sick Headache, &c., have been restored to  
perfect health by eschewing tea and coffee altogether, and drinking with their  
meals nothing but KAOKA. It contains no "chemicals." The elements from  
which it is made are wheat and sugar, nothing more.

For sale in pound and half-pound packets at the "Crown Grocery," South  
Side Queen Square.

ROBERTSON & CAMERON,  
Charlottetown, October 1, 1880—30 ins rod

## To Whom it May Concern.

NOTICE is hereby given to all persons in-  
debted to me, either by Mortgage, Judg-  
ment, Promissory Note, Book Account, or  
otherwise howsoever, that in consequence of  
my illness and inability to attend to business  
personally, I have this day appointed WIL-  
LIAM C. BOURKE, of Charlottetown, as my  
attorney and agent to collect and receive all  
amounts due to me as above.

I therefore request all persons indebted to  
me as aforesaid, to make immediate payment  
of the amounts due, to the said William C.  
Bourke, at his office in Charlottetown, he  
being the only person authorized and em-  
powered by me to grant receipts or discharges  
for the same.  
Dated at Millview, Lot 49, this 30th  
October, 1880.

J. R. BOURKE.

Referring to the above, I, the undersigned,  
William C. Bourke, hereby request payment  
of all amounts due to the said John R.  
Bourke (of Millview), whether on Mortgage,  
Judgment, Promissory Note, or otherwise, to  
be made to me at my office (in the Store of  
Bourke, Son & Co.) in Charlottetown, forth-  
with.

WILLIAM C. BOURKE,  
Nov. 17, '80—2aw, pat ar 1m law

Dodd; or on the premises, to  
MRS. JAMES OFFER.

Nov. 13, 1880.

## PURE

POTATO FARINA!

Preferable to Corn Flour.

Five cents per lb.

Nov. 11, '80—pat 1m

BEER & SONS.

THE place to get your Printing done is a  
the EXAMINER PRINTING ROOMS

## Lord Granville on the Situation.

THE "IRISH" AND THE "EASTERN" DIFFI-  
CULTIES DISCUSSED.

In a recent speech, Earl Granville, For-  
eign Secretary, said: "It is a humiliating  
and discreditable fact that in Ireland there  
is a want of security for life and property.  
It is impossible for this state of things to  
continue. The public has a right to ex-  
pect that the Government will not merely  
introduce a means which is likely to cope  
with the present emergency, but will pro-  
vide for the future." After referring to  
successive phases of the Eastern Question  
he said: "No new proposition relative to  
Greece has been made since that of France,  
but it is impossible for the Greek question  
to remain without solution." He gave par-  
ticulars of England's proposal to occupy  
Smyrna. Russia and Greece accepted the  
proposal; Austria at first promised assist-  
ance, but afterwards declined to take  
any active part in maritime opera-  
tions. France thereupon declared  
that if Austria absented herself, she  
too, would be unable to join. Germany  
took the same course. In the meantime  
a rumor reached Constantinople of the  
Smyrna proposal, which acted as a stimu-  
lant to the Sultan, who categorically prom-  
ised to surrender Dulcigno. Earl Gran-  
ville defended European concert which he  
said exists at this moment and he hoped  
it would long continue. Austria, he said,  
has been most anxious for the settlement  
of the Dulcigno question. The relations  
between England and Russia were most  
friendly, Germany and Italy helped to  
maintain the concert. He concluded by  
saying that the Government were not  
ashamed of their foreign policy, and would  
adhere to it, endeavoring to uphold the  
concert of Europe while retaining their  
full liberty of judgment and action among  
the nations of the world.

## How to Keep Warm.

With the coming of wintry weather has  
appeared a widespread and laudable desire  
on the part of the public to keep warm.  
Some of the means employed, sufficient  
clothing being among them, are eminently  
practical, but others equally important are  
greatly neglected. All the warmth that can  
be enjoyed out of doors is that which, cre-  
ated within the human system, has been  
prevented by appropriate clothing from  
getting away; so it stands to reason that  
the person who does not eat enough, or  
subsists on improper food, is bound to  
suffer from cold; no matter how many  
coats he wears. No one can be comfortably  
warm unless he eats enough to make the  
 requisite quantity of blood. Cleanliness  
also is necessary to persons who do not  
want to suffer from cold. Unless the skin  
and all other outlets of physical  
waste are in proper condition a  
great deal of bodily heat is squandered  
in attempts to overcome the results of care-  
less habits. People whose sitting rooms or  
offices are never ventilated are sure to feel  
chilly, even if the mercury in their rooms  
stands at eighty degrees. In an unventi-  
lated atmosphere ten degrees cooler the same  
person would not complain of cold chills  
running down their backs. Finally, exer-  
cise is absolutely necessary. No clothing,  
open fires, or hot air devices can save any  
one from discomfort in winter unless exer-  
cise is frequent and earnest enough to  
make heavy clothing discomforting for a  
few minutes.

## Laycock's Readiness.

The New York Sun says: "If Laycock  
were to be renamed in Indian style he  
might, perhaps, be called Oarsman-Not-  
Like-Courtney. No professional sculler  
was ever more anxious to row early and  
often. As soon as he reached England he  
began to make matches. His terms were  
simply—\$1,000 a side; the course the  
usual one on the Thames; the time as soon  
as possible. Thus, while other oarsmen  
were training, he was winning races from  
Blackman, from Hosmer, and from Riley,  
and receiving forfeit from Hawdon, then  
he wound up by coming out first in all  
three heats of the international regatta,  
beating Ross, Smith, and the others, who  
had been in training as long as he, but not  
rowing races. Laycock has now challenged  
Hanlan for \$1,000 a side; and having  
heard that Ross was dissatisfied with his  
Saturday's defeat, offers him also another  
match at \$1,000 or \$500 a side. The Aus-  
tralian will gain some friends by his plucky  
readiness to row. He is the opposite of  
that type of oarsmen who waste more time  
in the preliminary diplomacy of one race  
than Laycock needs for rowing a dozen."

## The Panama Canal.

M. DeLesseps' Panama Canal scheme  
has been placed before the London public.  
It is proposed to issue 500,000 shares at  
500 francs each, interest to be allowed on  
paid up shares during the progress of the  
work. There has not yet elapsed sufficient  
time to enable me to ascertain how this  
scheme will strike the English public, but  
the tone in the city is decidedly not favor-  
able to this project.

The London "News" says: "The  
Panama Canal when completed will be a  
great boon to shipping. That it will prove  
a profitable speculation for another twenty  
years is doubtful. It is an excellent but  
premature work, which would have been  
better for the support by subsidies from the  
Governments interested. The "Times"  
take a similar view.

## A Curious Fact.

It is a curious fact that rents on all the  
Duke of Devonshire's estates in Ireland,  
(he holds 60,325 acres in Cork, Waterford  
and Tipperary) have been paid in full,  
this being almost the only property in the  
sister island of which as much can be said.  
This fact, it is shrewdly suspected, may  
have helped not a little to convince Lord  
Hartington that coercive measures are not  
needed in Ireland. The Duke of Devon-  
shire is an absentee landlord and cannot  
be said to be personally popular, and hence  
it is supposed that the Land League must  
have issued secret orders to his tenants to  
pay in full, a hypothesis which would ex-  
plain fully the remarkable exception offered  
in his case.

## Vennor's Predictions for December

Vennor sends to the Albany Argus his  
weather predictions for December as follows:  
"December will, in all probability, open with  
little snow, but the weather will be cloudy,  
threatening snow falls. There will probably  
be some snow about the middle of the month.  
With the second quarter of the month colder  
weather will probably set in with falls of snow  
but good sleighing need not be expected until  
after the middle of the month. There will be  
a spell of mild weather about the 13th and  
14th. After a brief interval of mild weather,  
during which more snow will fall, the third  
quarter of the month will probably see blaster-  
ing and cold weather. The last quarter of  
the month will bring milder weather, but will  
terminate probably with heavy snow falls and  
stormy weather; in fact the heaviest snow  
falls will be toward the end of the month, and  
snow blockades may be looked for, the snow-  
falls extending far to the southward, possibly  
as far as Washington, with very stormy  
weather around New York and Boston.

The Intransigent, of Paris, this morn-  
ing, publishes three important letters, eman-  
ating from the Russian Revolutionary  
Committee, and addressed to Rochefort,  
Karl Max and Leon Hartmann. The  
Committee asserts that the Nihilists are  
fighting for the sovereign rights of the  
Russian people. It invites the moral co-  
operation of Rochefort, and appeals to  
Europe and America for funds to enable it  
to carry on the struggle. The letter to  
Hartmann authorizes that active fire brand  
to open permanent agencies, in both  
Europe and America, for receiving subscrip-  
tions.

When a band serenades General Grant it is  
the best policy for the members to choose the  
easiest tune. The General does not know  
one tune from another. The other evening  
while a band was playing "The Last Rose of  
Summer" he said, "I always did like 'Home,  
Sweet Home,' especially that part of it which  
refers to the oaken bucket." The band began  
another air, "Yankee Doodle," and General  
Grant said, "I always did like that tune of  
'Home, Sweet Home.' That refrain about  
'Away Down Upon the Swanee River' always  
struck me as being very sentimental."

ADVANCE IN COAL.—There is grumbling  
in Montreal owing to the advance in the  
price of stove coal to \$7.50 per  
ton, and egg and chestnut at \$7.55.  
The high price of wood has created an ex-  
tra demand for coal. A considerable por-  
tion of Montreal's supply of coal has been  
stuck at Ogdensburg, New York, by the  
early close of navigation, and one or two  
barges are detained at Whitehall.

RAILWAY building in America is going on at  
a great rate this year. The "Railroad Gaz-  
ette" of November 19th gives a total of 110  
miles of new railroad. The construction thus far  
this year is 5,056 miles, against 3,042 miles  
reported at the same time in 1879, 1,840 miles  
in 1878, 1,892 miles in 1877, 1,970 miles in  
1876, 1,150 miles in 1875, 1,664 miles in 1874,  
3,276 miles in 1873, and 6,202 miles in 1872.  
It is thus seen that the present is the largest  
year since 1872.

The marketing of the shares of M. De-  
Lesseps' Inter-Ocean Canal scheme is con-  
ducted with much adroitness. Leopold II.,  
King of Belgium, subscribed for twenty  
thousand shares in his own name. This is  
expected to give an impetus to the project,  
and enlist for it the sympathy of a large  
number of Belgians.

TURNING TOWARD JERUSALEM.—The str.  
New Brunswick arrived in port from Bos-  
ton, at ten o'clock last night with a large  
party of persons aboard who left the city a  
short time ago for the States. One of the  
party gives his opinion that the present  
winter will witness many wanderers re-  
turned.—News.

Alfred Tennyson has a new volume in the  
press. It will consist of ballads and other  
rhymed poems, "English Idylls," and  
poems in the Northern dialect after the  
manner of the "Northern Farmer," and it  
will appear early in December.

MONTREAL imports for October were of the  
value of \$2,687,498, being about \$100,000 in  
excess of October last year. For the ten  
months of this year, the total imports were  
\$25,907,068, of which \$6,040,319 were free  
goods. For the same period last year the  
figures were \$20,097,435.

The forts built to protect Rome from a  
coup de main have been completed, save  
one which now lies under way, and will  
command the road from Tivoli to the  
capital.

Italy has demanded reparation from the  
Porte on account of the alleged maltreat-  
ment by Turks of an Italian fisherman at  
Mytilene.
