

The Daily Examiner

DECEMBER 7, 1885.

Chapleau's Defence.

The Hon. Mr. Chapleau has written a lengthy and very able defence of the conduct of the Government in refusing to interfere with the just sentence of the Court as to the traitor Riel.

The venerable bishop of Saint Albert, Mgr. Grandin, has said that the conduct of Riel which he directed the insurrection was odious and monstrous, that he had systematically persecuted the church.

Besides the citations which I have already made, there is a collective letter from the missionaries in the district of Prince Albert, dated the 13th June, 1885.

We, the priests of the districts most particularly affected by the rebellion, to wit: St. Laurent, St. Antoine, Grandin, Luck Lake and Batoche, for it was there, in the midst of the people, that Louis "David" Riel had established his headquarters.

Louis "David" Riel does not merit the sympathies of the Roman Catholic church, or the members of that church, having usurped our mission as priests, and robbed our people of the benefits and consolation it was our duty to render.

To Mr. Chapleau it appears that the sympathizers with Riel have forgotten much, "they have forgotten the grief and despair of the victims of the rebellion; the blood of the colonists and holy missionaries; and that a failure of justice would drive the people of this immense region to despair and hatred."

"For the people of Quebec," he truly says, "it is a question of sentiment; for the inhabitants of the Northwest it is a question of security—an affair of life or death." The Government considered all these things and decided that the law should take its course.

Mr. Walter H. Smith, well-known in astronomical and meteorological circles as the founder and president of the Astronomical Association, last year edited the late Mr. Vennor's MSS., and this year publishes Smith's Planetary Almanac and Weather Guide for 1886.

By the time this work is in the hands of the public, what kind of a winter are we going to have? will be in everybody's mouth. With three superior planets on the same side of the Sun as the Earth, with the potent inferior Venus near inferior conjunction, the winter of 1885-86 must be a very cold one.

Duties of Americans.

CANON FARRAR sailed for England on Saturday. Before he left, he delivered in Boston a lecture entitled "Parting Thoughts." At the conclusion of this lecture he pointed out what seems to him to be the responsibility imposed by Heaven upon Americans at this time.

I would say, first of all, it is to combine the old with the new. It is to combine the experience of the East with that of the West, and by combining the long past of Europe with the long future of America.

To establish a pure and righteous press, let the shadows of civilization blot out its sunlight. To strangle the growth of mammoth worship, let us carry out the conception of progress, to recognize that it is not only your duty to preserve but to improve.

To deepen in the world, as America has had and has exceptional opportunities for doing, the sense of the duty and necessity of religious tolerance.

To work out a fearless, intelligent combination of religious tradition with the advancing knowledge of mankind. If Christianity is to hold her own, Christians must beware of stagnant dogmas and dead theologies.

The spring indications are said to favor early warmth, with summer-like weather in April, followed by damaging frosts in May, and perhaps June. Farmers are warned not to sow corn in Canada and the Northern United States, as another cool summer is likely, but to turn their attention to small grains.

The Brooks smoke-consuming locomotive, America, now being tried on the Boston and Albany Railroad, weighs forty-three tons, and is an odd-looking machine, with the smoke-stack immediately in front of the cab.

The Spanish Cortes has been summoned to meet on the 26th inst.

Drowned in a Marsh.

JOHN CUMMINGS, OF ALEXANDRIA, LOST HIS WAY AND IS DROWNED IN A MARSH.

Mr. JOHN CUMMINGS, aged 60, a respectable farmer of Alexandria, Lot 49, came to this city on Saturday, and after transacting his business, returned to walk home in the evening.

I am brother of the deceased. He left home between 8 and 9 o'clock yesterday morning. He said if he did not return home about dark not to expect him as he had business in town that might detain him over night.

EDWARD CULLEN, (sworn)—About 10 o'clock Mr. Daniel McEae and Michael Cummings came to the house and told us there was a man calling out in the fields by the marsh.

HERBERT HENRY and Angus Beaton corroborated the statement of Mr. Cullen. The latter who knew the deceased well, said he (the deceased) did not have the habit of coming home with liquor, though he sometimes took a drop.

The Jury, after a short deliberation, returned the following verdict:— "That the deceased, John Cummings, having lost his way to his home, owing to the extreme darkness of the night, came to his death by being drowned while crossing a marsh, over which the tide had risen to an unusual height at the time."

A Mild Winter.

MR. WALTER H. SMITH PREDICTS SLEET, RAIN, FLOOD, AND GREAT STORMS—AN EARLY SPRING AND COOL SUMMER FOR 1886.

By the time this work is in the hands of the public, what kind of a winter are we going to have? will be in everybody's mouth. With three superior planets on the same side of the Sun as the Earth, with the potent inferior Venus near inferior conjunction, the winter of 1885-86 must be a very cold one.

THE PUBLIC HEALTH.

NEW CASES.

Mrs. Vaughan, wife of Henry Vaughan, truckman, has contracted smallpox. The disease developed on Miss Bell, infected district, yesterday. She was removed to the Hospital to-day.

DEATHS AND CONDITIONS OF PATIENTS.

Dr. Jenkins to-day made the following report:— To the Chairman of the Board of Health:

SIR,—I have to report the death of the infant of the late Mrs. Loughran, aged 8 weeks. Agnes McDonald is very low indeed. Christy Bell, just admitted, has a sharp attack, but has no bad symptoms.

The convalescents are all progressing rapidly.

Yours, etc., J. T. JENKINS, Health Officer.

On Sunday Dr. Jenkins made the following report:— To the Chairman of the Board of Health:

SIR,—There was no death to report last night, but this forenoon Mrs. McCarey, who has been for some days in extremis, sank. Agnes McDonald is still very low, but seems not to lose anything. Kinsman had a very bad night. His case is serious. Corney is very ill, and, being of a weak constitution, his case is critical.

J. T. JENKINS, Health Officer.

Dr. Jenkins on Saturday made the following report:— To the Chairman of the Board of Health:

SIR,—I have to report the death of Mary Breen and an infant of Owen McCarey's, aged seven weeks. Mary McDonald and Mrs. McCarey are still very low, but have lost nothing since last report.

In the men's ward, Kinsman has a very severe attack, but at present there are no unfavorable symptoms.

Thomas Corney, who was sent from the P. E. Island Hospital on the 18th November, had no symptoms of small-pox until December 1st, when the primary fever set in, which has since developed into a pretty severe attack, and, being reduced by previous disease, I fear it will go hard with him.

Ann Murphy has just arrived. Her age will make her case a hard one.

The convalescent patients are progressing rapidly.

Yours, etc., J. T. JENKINS, Health Officer.

ACKNOWLEDGMENTS.

Mrs. Jas. Palmer, bed, linen, etc.; 1 box delicacies, Mrs. F. W. Moore; 1 jar oysters, Capt. May.

MEETING AT BALDWIN'S STATION.

A meeting of the inhabitants of Baldwin's Station was held in the School House on December 4, for the purpose of taking precautions to prevent the smallpox from visiting this locality.

Whereas, We, the inhabitants of Baldwin's Station see with dread the danger of strangers and inhabitants daily coming to and from places where smallpox now prevails;

Resolved, That all meetings for political, social or gambling purposes are forbidden under a penalty of twenty-five dollars on any person or persons engaging therein.

The following gentlemen were appointed a committee: John Kenny, J. H. Bradley, Edward Gay, A. Bradley, James Congan, Hugh P. McQuaid and T. Cairns.

It was also ordered by the committee that A. Bradley and J. Congan do prevent all persons from Charlottetown or any infected district from landing at Baldwin's Station.

Dec 5, 1885. DENNIS McQUAID, Secretary.

Willie McLaren, ill with smallpox at Georgetown, is doing well. It is a bad case, but under the skilful treatment of Dr. Kaye, the patient is improving and considered out of danger.

A Thrilling Burglar Story.

SALTSBURG, PA., Dec. 4.—An unknown burglar robbed a jewelry store here Wednesday evening. He was tracked and chased by some fifty men, but he emptied his revolver at them. This checked the crowd, and he escaped to the woods.

At that point four feet deep; seizing the prisoner by the throat the stout constable tried in vain to drag him alive to the shore, and finding that the desperado threatened to get the best of the situation and as a last resort he thrust the fellow's head beneath the water and held it there until life was extinct.

NEW STORE

North River Bridge

L. E. PROWSE has opened, in Mr. George Docklands' Store, at North River, with a

First-Class Stock of Dry Goods, Clothing and Groceries,

Which he will Sell at LOW PRICES.

The people need have no fear of Small Pox in this Goods, as I import direct from the English markets, and ever since the outbreak of the disease in the city the goods have been thoroughly fumigated, so there can be no possible chance of infection in the Goods.

The people at North River will find this a great convenience, as it will save them the trip to town, and they can buy just as cheap at home.

The Store in the city will be continued as usual. I need not say anything about the Low Prices, as all know I sell Cheap.

L. E. PROWSE,

Sign of BIG HAT, 74 Queen Street. Ch'town, Nov. 24th, 1885.
