C. C. JURY
North Side Queen Square,
opposite Post Office.

THE POOR OYSTER.

A Source of Epidemics of Typhoid Fever, Says a Physician.
It is gratifying to know that that filthy bivalve the oyster, whose proper function in the world is the consumption of the ooze and slime which cover the bottom of the ocean and the stems of submarine plants, is rapidly creating such a bad reputation for itself that there is already a prospect that its consumption as an article of food may be practically abandoned.
It has long been known that the consumption of the oyster not infrequently gives rise to severe illness. A few years ago an eminent surgeon in Chicago died as the result of consuming a few raw oysters. It is more recently, however, that the fact has been made clear—and it has been established beyond the possibility of a doubt—that the oyster is a common source of epidemics of typhoid fever. The British Medical Journal has been particularly active in making this fact known to the public, as the result of which it is claimed by the leading oyster companies of Great Britain that there has been a decrease in the consumption of oysters amounting to three-fourths—that is, the quantity required to meet the demand at the present time is only one-fourth that of three or four years ago.
In their anxiety to save their business from utter ruin the oyster companies have appealed to sanitary authorities for relieving suggestions. Professor Herdman of Liverpool comes forward with the suggestion that oysters received from foreign parts should, like cattle, be subjected to quarantine for from one to four weeks and also suggests that no one should think of consuming oysters without subjecting them to at least one day's washing in a stream of water running from a tap. It is not claimed, however, that any of these measures will entirely obliterate typhoid fever and other poisoning germs, but only to some degree diminish them.
The companies are, of course, laboring earnestly to recuperate their rapidly failing business, and it is accordingly proposed that the government should appoint oyster inspectors, whose duty it shall be to make careful investigation of the bivalves offered for sale in the English markets—to examine their mouths and look at their tongues, so to speak—and ascertain whether there remain behind any of the filthy germs which they have been in the habit of swallowing in the pursuit of their life calling.
It must be clear to any one that to provide for the inspection of every oyster—the only method by which complete safety could be obtained—would be altogether too expensive a process, and one which can never be adopted. Consequently it is pretty certain that, however successfully the public alarm may be quieted for the time being, it will redevelop sooner or later as the result of new outbreaks, and it is to be earnestly hoped that the ultimate result will be the repudiation of the oyster as an article of diet, the germ being being left alone to pursue unmolested the avocation allotted him by nature.—Dr. J. H. Kellogg in Good Health.

THE LEADING BICYCLISTS
use Adams' Tutti Frutti. It always gives staying power. Some dealers to obtain a big profit try to palm off imitations.
See that the trade mark name
Tutti Frutti
is on each 5c. package.
Save coupons inside of wrappers for latest books and prizes. 150
Plumbing and Heating.
The undersigned has opened a shop on Great George Street for the purpose of doing general Plumbing, Gasfitting, Steam, Hot Water and Hot Air Heating. Being equipped with the latest appliances known to the trade and employing workmen who understand every detail of the business he can guarantee first-class work in all its branches. Estimates furnished at short notice. See him before placing your orders. It will be money saved. Don't forget the place, opposite Victoria Cafe.
G. McINNIS
