

Bacon Literature.

We knew a fellow who, upon learning that a friend of his had gone into the publishing business at once subscribed for the paper.

A new married gentleman and lady, riding in a chaise, were unfortunately overturned. A person coming to their assistance, observed it was a very shocking sight.

Very shocking, indeed, replied the gentleman, to see a new married couple fall out so soon.

When the idea of pleasure strikes your imagination, make a just commutation between the duration of the pleasure and that of the repentance that is likely to follow it.

Thirteen objections were once given by a young lady to accepting an offer of marriage—the first twelve being the suitor's twelve children, and the thirteenth the suitor himself.

The saying that "man is not perfect" is not quite correct. Who has not heard of perfect strangers, some who were perfect rascals, and not a few who were perfect fools.

The criterion of true beauty is that it increases on examination—that of false that it lessens. There is something, therefore, in true beauty, that corresponds with right reason, and is not merely the creature of fancy.

"Do you suppose you can do the landlord in the 'Lady of Lyons'?" said a theatrical manager to a seedy actor, in quest of an engagement.

A tradesman told a youth in his shop to write in large letters on a sheet of paper, "Wanted, a stout boy, as light porter."

John Newton says, "When I get to heaven I shall see three wonders there. The first wonder shall be to see so many people there whom I did not expect to see; the second wonder will be to miss many whom I did expect to see; and the third and greatest wonder of all will be to find myself there."

A settler, while felling a tree, was surprised by a bear. In his surprise he cast his axe at him, but missed him. Weaponless, confounded, and confused, he did just right.

Riches are distributed with very little discrimination. To spend money properly requires as much brains, as to acquire it, and yet who ever knew a man of brains to have a rich uncle, or a young man of genius to become the residuary legatee of a silver mine?

Three young "bloods" of this town bear a remarkable resemblance to each other. The three happened to call on the same day at the barber's, since his removal to his new stand, on Water Street.

PEAS.—Though the season is very backward, and the ground still wet and cold, yet it is quite time to sow some peas. The market gardeners have already put in acres of them, and in some places they are up and making some show.

POTATOES.—The early ones should soon be planted. Those that have been sown should not be set out until all danger of frosts is over.

Many persons complain that they cannot find words for their thoughts, when the real trouble is that they cannot find thoughts for their words.

Sawdust pills would effectually cure many of the diseases with which mankind are afflicted, if every individual would make his own sawdust.

Why make it a reproach to any one that he has "changed his tune?" What sort of a singer would he be who never did so?

In life we shall find many men that are great, and some men that are good, but very few men that are both great and good.

WORK FOR THE SEASON.

The season is usually backward, and the work of the farm has been much delayed by the bad weather. When good weather comes everything will have to be done in a hurry; not much will be gained by sowing seeds or planting until the ground gets warmer than it is now.

HEDGES.—All hedges that were not clipped or sheared in the fall, should be in the spring before they start. We consider the spring altogether the best time to trim evergreen hedges, especially the hemlock.

PLANTING TREES.—A great revolution has occurred in selecting fruit trees for planting. Bushy plants are now sought for. The shade which the side branches make is considered beneficial to the tree.

PEAS.—Though the season is very backward, and the ground still wet and cold, yet it is quite time to sow some peas. The market gardeners have already put in acres of them, and in some places they are up and making some show.

POTATOES.—The early ones should soon be planted. Those that have been sown should not be set out until all danger of frosts is over.

FARMERS EVERYWHERE ATTENTION!

THE time of Crotch-harrows, wooden Flails and wooden Ploughs have passed away forever! These things are replaced by newer and better inventions.

A THRESHING MACHINE will enable you to get your grain ready for market early in the season and at one quarter the cost of the old method!

With a good and cheap FANNERS you can raise the wind at any time!

THE subscriber in view of these facts, which must have become patent to everybody, feels that he is no longer justified in "hiding his light under a bushel," but let the farmers of this Island know that they need not be without labor-saving machinery on their farms when he is around.

Last year he sold twenty Threshing Machines, and is prepared to manufacture any number of them to order.

In that period he also sold twelve sets of Fanners, and has now on hand twenty sets the same, of different styles and prices.

Here-rakes, Ploughs, Harrows, and in fact every kind of implement used on a farm—short of a mowing machine—is made by him. His work is too well known to need pulling at his hands.

If you need anything in his line, just come along or send to him at his manufactory on Union Street, Summerside, and you will have your wants attended to.

Iron-turning of all descriptions neatly done to order. THOMAS HALL. Summerside, March 26, 1868.—2m

Mrs. S. A. Allen's PREPARATIONS FOR THE HAIR.

Mrs. S. A. Allen's World's Hair Restorer is suited to both young and old. It strengthens the Hair, prevents its falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to restore grey hair to its ORIGINAL YOUTHFUL COLOR.

It is NOT A DYE, but acts directly upon the roots of the Hair, giving them the natural nourishment required, producing the same vitality and luxuriant quantity as in youth. It will restore it on bald places, requires no previous preparation of the hair, and is easily applied by one's self. One bottle will usually last for a year, as after the hair is once restored, occasional applications once in three months will insure against grey hairs to the most advanced age.

The Restorer Reproduces and the Hair Dressing Cultivates and Beautifies. Principal Sales Office, 198 Greenwich Street, New York City. August 1, 1867.

Mrs. S. A. Allen's World's Hair Dressing, or ZYLOBALSAMUM, is essential to use with the Restorer, but the Hair Dressing alone often restores, and never fails to invigorate, beautify and refresh the Hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position.

FOR LADIES AND CHILDREN, whose hair requires frequent dressing, it has no equal. No lady's toilet is complete without it. The rich glossy appearance imparted is truly wonderful. It cleanses the Hair, removes all dandruff, and imparts to it a most delightful fragrance. It will prevent the Hair from falling out, and is the most economical and valuable Hair Dressing known. Millions of bottles sold every year.
