## Wreck Of Missing Air Liner Found In Brazil

### Declares Two Million Canadian People Now Without Proper Housing

OTTAWA, May 1—(CP)—Two members of the commons today called for improvement in housing for Canadians.

Speaking in the budget debate, C. E. Johnston (SC—Bow River) said 2,000,000 people are without proper housing and asked the government to revise its policy so that more and better houses are built.

Julian Ferguson (PC—Simcoe North) demanded "less red tape and procrastination in building houses."

Mr. Johnston said the backlog of housing units is about 700,000 behind the demand. Also, he said, not one house in 100 is being built according to specifications proposed by the government-owned Central Mortgage and Housing Corporation.

"Building standards are being flouted in almost every instance,"

he said.

He described a C.M.H.C. booklet laying down building regulations as "The no. 1 crime comic."

**Blames Lending Institutions**

The Social Credit member also blamed lending institutions for tightening up on loan money for home construction, declaring they are one of the elements controlling Federal Government housing policy.

Mr. Ferguson took issue with what he called Liberal claims that the Federal Government is responsible for prosperous conditions.

No credit is being given, he said, to the influx of United States capital in the development of natural resources.

On the same point, Mr. Johnston said the only contribution of the Federal Government to prosperity is its preparations for "war."

"If the preparations for war were taken away today," he said, "you would find yourselves in a depression again."

### Coming Events

- Pantry sale and Dance, French River Hall, Friday night, May 2.
- Annual Meeting of Afion Hall, May 6th, 8:30.
- Rummage Sale, Trinity Social Hall, Saturday, 3 P.M.
- Farmers book your clover seed now, McGuigan & Boyle.
- Dance Wiltshire hall tonight, Lunch after. In aid of rink.
- Sale of perennial plants, etc., beginning Saturday, May 3rd, Joe R. Smith, Clinton.
- Dance every Friday night, South Rustico hall. Music by the Charlottetownians.
- Coming—National Film Board, DeSable School, Monday, May 5th. Sale of lunches.
- Show coming, "My Son, My Son," Bonahay Inn Hall, Friday, May 2nd. Show starting 8:30.
- Reserve Monday, May 12th for Charlottetown, B. Y. P. U. variety concert, in Kingston Hall.
- In stock fish meal, oil cake and soya bean meal, McGuigan & Boyle.
- Rummage sale, Clover Club, Saturday, May 3rd, 3:00 o'clock, Bunbury W. I.
- Opening show Canoe Cove, Wednesday, May 7th, M.G.M.'s funniest comedy, "The Skipper Surprised His Wife."
- For Snapshots that will not fade, make your Films and Negatives to Garnham Photo Studios, Charlottetown.
- W. T. Scott will be hauling cream to Wiltshire factory on Mondays only until further notice.
- C. A. Frizell will commence hauling cream to Wiltshire factory on Monday, May 5th. Once weekly until further notice.
- Now in stock, registered Laurentian turnip seed, mangle seed, Timothy and clover seed, barley fishmeal, oil cake and bran. Dillon & Spillert.
- Islanders Country Club Dance Hall, Travellers Rest. Officially re-opens Saturday, May 3. Music by the Melody Boys Orchestra. Don't miss it.
- Coming Friday, May 2nd, at the Legion Hall in Mt. Stewart, a three-act play, "Miss My Western Miss". Don't miss M'iss.
- Collecting Hogs for Canada Packers each Thursday, Kinkora, Lower Free Town, Fernwood. Alden Corr. Phone 7-15 Kinkora, collect.
- Murray River General Stores will close every Wednesday, 12 noon, for summer months, starting May 7th.
- See Tracédie players present their 3-act play "Cyclone Sal" in Morell Memorial Hall, May 21st, instead of May 7th.
- See the Kinkora Dramatic Club repeat their play "A Fisherman's Luck" in Kinkora Hall, Monday, May 5th. Curtain 8:15. Dance after.
- Come to Spring Valley Hall, Tuesday May 6, and see Emerald Players present their play "Bells of Shannon". Good specialties. Curtain 8:00.

### Critical of Indemnities

Mr. Ferguson said the Liberal Party should be "man enough" to increase the indemnities of members of the commons to "where they should be."

He said that an indemnity of \$4,000 a member is "disgraceful, insulting remuneration."

(Members receive \$4,000 for each session of 65 days duration and a \$2,000 annual tax-free living allowance. Last year, when there were two sessions, members received a total of \$10,000.)

Every member "feels as I do" about the indemnities, said Mr. Ferguson. But they declined to discuss the question because they did not think it good politics.

Members should not be afraid to say they feel they are worth more than \$4,000 a year, members worked long hours, after the butcher and baker had locked up shop. Members lived in rented quarters in Ottawa while maintaining home in their own constituencies.

If people wanted the right type of men to come to parliament they should be prepared to pay higher indemnities. He did not indicate how much he believed should be paid.

### Milk Production Shows Increase

OTTAWA, May 1—(CP)—Milk production recovered in the first quarter of 1952 from the slump that last year took it to the lowest point in 10 years, the Bureau of Statistics reported today.

Production in February was estimated at 655,000,000 pounds, higher by 40,000,000 pounds over February, 1951. For the first two months of this year, production reached an estimated 1,788,000,000 pounds, higher by 49,000,000 pounds than similar period a year ago.

The Bureau said production figures for March will show a further gain of about one per cent over those of March, 1951.

## US Steel Workers Await Supreme Court Ruling

PITTSBURGH, May 1—(AP)—The steel industry and the United Steelworkers of the C.I.O. apparently were in agreement today on one thing—let the country-wide strike continue pending a Supreme Court ruling.

••Cornwall concert tonight. You will enjoy it.

••Our stores at Crapaud will be open on Tuesday, Thursday, and Saturday evenings, and closed Wednesday afternoons, beginning May 6, until further notice. Signed, Parker Canfield, Wm. Weddell.

••Commencing Monday, May 5th, Arnold Bruce will be collecting eggs and delivering feeds in the following districts: Mt. Mellick, Village Green, Mt. Albion, Pownal and Waterside Road. Please contact Mr. Bruce for further information. E. J. McDougall, Vernon.

••Come! Where? Winsloe Station Hall tonight. Another chance for fun and laughter as Winsloe players repeat their two hilarious one-act plays, "Courtin'" and "Married At Sunrise". You have heard about it, now see it for yourself. Hall located on pavement. Curtain 8:30 P.M. Sale of cake and ice cream.

### No Sign Any Of 50 Aboard Survived Crash

RIO DE JANEIRO, May 1—(AP)—The burned, broken wreckage of a Pan-American strato-cruiser that vanished Tuesday was found in Northern Brazil today with no evidence that any of the 50 persons aboard survived.

An air hunt over 320,000 square miles of jungles, river basins and plateau land finally located the double-decked liner in the Indian country between the towns of Barreiras and Carolina—on course to the end.

Air officials said the find was made by a C-46 Pan-American cargo clipper, 287 miles southwest of Carolina, a Tocantins River town itself 1,100 miles north-northwest of Rio de Janeiro.

The strato-cruiser, lost on one of the line's El Presidente flights from Buenos Aires to New York, was reported to have broken in halves and scattered its charred wreckage on both sides by a big hill.

Pan-American officials said a Panair Do Brasil Constellation circled the scene of the crash. It's pilot reported extensive evidence of fire and said he saw two of the big plane's engines lying 1,800 feet apart in the hilly, heavily wooded area.

The base of the rescue operations was moved to the town of Quaraçema, closer to the area.

Air force "paramedics"—doctors and medical attendants equipped with parachutes—were dispatched to the scene. They planned to drop as close as possible to the site of the crash, in a forested area where the Indians are regarded as semi-friendly.

The aircraft was on a non-stop schedule for the 2,800 miles from Rio de Janeiro to Port of Spain, Trinidad, when its last radio call was heard at 2:30 a. m. EDT Tuesday by a station at Barreiras, in Bahia state. It was 240 miles beyond Barreiras at the time and reported all well. It went down only about 400 miles northwest of Barreiras.

### Truman Asks Union To Call Off Steel Strike

WASHINGTON, May 1—(AP)—President Truman tonight asked Philip Murray to call off the steel strike.

The President made his request in a telegram sent to Murray, head of the C.I.O. steelworkers.

(At Pittsburgh, Murray said he had no immediate answer to the President's request.)

NEW YORK, May 1—(AP)—Sen. Brian McMahon of Connecticut today announced his candidacy for the Democratic presidential nomination.

TORONTO, May 1—(CP)—The Ontario Court of Appeal today ordered a new trial for Elias Meek, 39-year-old Cornwall district farm laborer, on a charge of murdering his employer's wife.

### US Steel Workers Await Supreme Court Ruling

Until a final decision is made on legality of government seizure, neither side appears eager to start getting steel mills back into production.

Steel men said it would be futile to try to resume operations now in case they have to stop again.

Speculation on a possible resumption attempt came on the heels of a Court of Appeals ruling which stayed a lower court's finding that the seizure is illegal. The latest court opinion put the government on top pending a review by the supreme court.

President Philip Murray of the C.I.O. and the steelworkers declined comment on the ruling.

There was no sign that Murray would tell his 650,000 strikers to return to work rather than conduct a strike against the government—after their technical employer.

A spokesman for U.S. Steel Corp. put it this way:

"It is doubtful if the mills will be back in operation at once, whatever happens. Shutting down and opening up steel mills is a costly business. We can't shut them down one day because of one court opinion, then open them up the next because of another court opinion."

Only token picketing was maintained in most steel centres. The number of idled industries due to the steel strike...

### Claim Best Homes In Canada Located In B. C.

VANCOUVER, May 1—(CP)—The "best homes in Canada" are in British Columbia.

The architects know and 900 of them are here today attending the 45th annual convention of the Royal Architectural Institute of Canada, discussing the trend to B. C.-type homes.

The modern, plush homes with their background of mountains and sea views, along with the more conventional types, have attracted attention from all parts of Canada.

Vancouver shares in the honor of having some of the most modern homes.

"Vancouver people won't live in a hole in the corner as many do back east," said C. J. Carroll of Ottawa, executive secretary of the Institute. "Living and recreation mean so much more to them than to people in other parts of Canada. They centre their attention on their homes and their design is outstanding."

He introduced B.C.-type homes to Ottawa. "They have attracted more attention than any other in the suburb of Rockcliffe."

The architects also learned that wealthy Toronto citizens are asking Vancouver architects to design B.C.-type homes in new suburbs.

### Army Appointments

OTTAWA, May 1—(CP)—Appointment of commanding officers for three recently-formed infantry battalions and a field artillery regiment, was announced today by army headquarters.

The infantry appointments are Lt.-Col. Richard M. (Dick) Ross, O. B. E. 42, Ottawa, to command the 2nd Highland Battalion; Maj. W. H. V. Matthews, M.C. and Bar, 35, Cowichan, B.C., promoted to Lieutenant-Colonel to command the 2nd Canadian Rifle Battalion and Maj. V. LeDuc, M.B.E., 41, Verdun, Que., to be promoted to Lieutenant-Colonel to command the 2nd Canadian Infantry Battalion.

Maj. D. M. Wilson, 41, Perth, Ont., will be promoted to Lieutenant-Colonel to command the 1st Field Regiment, Royal Canadian Artillery.

OTTAWA, May 1—(CP)—Canadian navy men are going to study blimps. Two of the big bags of helium belonging to the United States Navy will visit the Shearwater naval air station at Dartmouth, N. S., May 5-13, it was announced today.

### Jap Gov't Apologizes To Americans

TOKYO, May 2—(Friday)—(AP)—Calm returned to Tokyo today after the bloodiest May Day in years in which 20,000 Communist rioters attacked police and Americans alike in a violent anti-U.S. demonstration.

One rioter was reported killed by a police bullet and hundreds of others were injured. More than 60 were jailed. Police said 218 of their own men were mauled by the club-swinging, rock-throwing mob. Fifty-one were injured seriously.

Several Americans caught up in the angry streets were manhandled by the Communist mob, but none was hurt seriously. A dozen automobiles belonging to Americans were overturned and burned by the rioters. Others were smashed by the mob, made up largely of college students and Koreans.

Several U.S. service men were among those roughed up. Two were thrown into the moat surrounding the Imperial Palace. Most of the fighting occurred in the Plaza in front of the palace.

The rioters carried pictures of Stalin and Red China's Mao Tse Tung and shouted "Yankees go home."

The Japanese Government through the Foreign Office, issued a statement apologizing to the Americans for the disturbance.

The influential English language Nippon Times called for the outlawing of the Communist Party, a step the Japanese Government so far has refused to take.

### Another Case Of Foot, Mouth Disease Reported

OTTAWA, May 1—(CP)—Agriculture Minister Gardiner and John Diefenbaker (PC—Lak-Centre) langed before the Commons agricultural committee today as the 60 members continued to probe into alleged delay and mishandling of the foot-and-mouth disease outbreak in South Saskatchewan.

Mr. Gardiner, tabling a 386-page document dealing with reports on the disease, charged that Mr. Diefenbaker was trying to "build up" the idea that he was being "denied" information.

In presenting the committee with new information, he would leave it to the members to decide "what is going to be spread over the country with regard to this disease."

Mr. Diefenbaker countered that it was not a matter of spreading information, but of getting "full information" and to find out what had caused the disease to spread.

**New Outbreaks**

As members argued and debated whether the names of farmers whose herds had been infected should be made public, a new outbreak was discovered in the Weyburn area, 75 miles southeast of Regina.

The new outbreak was on a farm neighboring the one where the first Weyburn infection was reported Monday. A community (Continued on Page 15 Col. 2)

### Survivor of Sea Disaster Dies

YARMOUTH, N.S., May 1—(CP)—The last survivor of one of Nova Scotia's sea disasters was buried today.

Wilson Cook, 52, one of four persons who escaped when the steamship City of Monticello sank 52 years ago with the loss of 38 lives died quietly Monday.

The Monticello, under Capt. Thomas Harding of Yarmouth, was owned by the Bay of Fundy Steamship Company and ran between Saint John, N. B., and Digby, N. S. for many years.

She was lost during a November storm in 1900. Only one lifeboat was launched and this later was overturned, drowning three of the seven occupants. The other four reached shore and crawled to safety.

## 2,150 Marines Get Jolt In A-Bomb Explosion

By BILL BECKER  
LAS VEGAS, Nev., May 1—(AP)—A new tactical A-bomb of fiery intensity today gave 2,150 entrenched marines a solid jolt in their first nuclear manoeuvres, but there were no casualties.

The brilliant bomb burst about 2,000 feet above Yuca Flat, less than four miles from two picked combat battalions.

The weapons selected for the test came from the Atomic Energy Commission's top secret drawer, and it was perhaps the brightest bomb seen in a daylight test here.

Reporters, not permitted on the test site this time, saw a fire ball that lasted a full 10 seconds and continued to flicker in the subsequent nuclear cloud for perhaps another 5 seconds.

There was no concussion on Mt. Charleston, the press observation point 50 miles away, but the rumble of the blast and its echo were heard five minutes after the flash.

The marines were in foxholes and trenches, most of them 4 1/2 feet deep. Two hours later they proceeded toward Yuca Flat, the mythical enemy-held "atoll" which was the objective of their manoeuvre. There were no casualties.

The bomb was dropped from an air force B-50 at an elevation of probably 30,000 feet.

The detonation level of 2,000 feet put the marines closer to an atomic burst than any troops had been before. For the 1,500 army troops in last week's manoeuvres the bomb exploded at 3,500 feet.

### Mayor Stresses Possibilities Of Ch'town Airport Expansion

The belief that this city is in an "outstanding location for developing trade by air" with iron ore areas in Quebec and Labrador was expressed last night by Mayor J. D. Stewart when he spoke at the regular monthly dinner meeting of the Junior Chamber of Commerce.

Our natural water barriers would just fade away in the face of air travel if we had the runways at local airport lengthened," His Worship said. The matter of extending them was under study at the present time by Department of Transport officials. The cost to the City would simply be the original cost of the land needed and Mayor Stewart felt that

### Jet Airliner Service To Be Inaugurated Today

LONDON, May 1—(Reuters)—A British Comet jetliner will streak to South Africa tomorrow on a flight of less than 24 hours that will mark a new chapter in the history of air travel.

Burning up the 6724 route to Johannesburg at eight miles a minute, it will inaugurate the world's first jetliner service.

More significantly, it will signal an era that eventually will halve the size of the world in terms of air travel.

The new service will be the first leg in a Commonwealth—and later world—network of jetliner routes in which the state-run British Overseas Airways Company aims to capture the blue ribbon of the air.

The Comet plans to cruise to Johannesburg in 23 hours and 40 minutes journey time, with stops at Rome, Beirut, Khartoum, Entebbe and Livingstone. Flying time will be 18 hours 40 minutes.

Normal time for piston-engined airlines is 30 hours. Though the Comet is capable of twice the speed of these planes, it will not be able to cut the journey by half until air and ground crews grow used to the technique of jet flying.

Built by DeHavilland, the plane has a cruising speed of 490 miles an hour. It is free from propeller vibration and its 36 passengers sit in almost motionless suspension. The silent, pressurized cabin has its air renewed every three minutes.

Its four jets, developing 20,000 pounds of thrust, enable it to climb at the speed of an early-type jet

many of the large trans-Atlantic airlines would use this port when they found the regular airports at Goose Bay and Gander closed by fog.

The Chief Magistrate of the city said this airport had the shortest runways of any commercial airport in Canada. He thought that lengthening them would be one of the biggest forward steps the city could take as he maintained there is a terrific potential market for this Province's farm produce in the recently developed sections of Quebec. He said he could visualize the day when there would be large amounts of perishable freight going from (Continued on Page 15 Col. 1)

Its four jets, developing 20,000 pounds of thrust, enable it to climb at the speed of an early-type jet

Services to Pakistan, India and Singapore will follow later this year, probably in July. Then B.O. A. C. plans to open its dollar run with services from New York to the Bahamas and Jamaica.

**Nfld. Members Vote Increase In Pay**

ST. JOHN'S, Nfld., May 1—(CP)—Members of the Newfoundland Legislature today voted themselves an increase of \$500 in their sessional pay.

The new rate will be \$3,000 which includes \$2,000 indemnity and \$1,000 in expenses for members are not required to account.

Servants of the House also received increases ranging from \$100 to \$500.

### Congressmen Welcomed In The Canadian Senate

OTTAWA, May 1—(CP)—For the first time in the 85-year history of Canada's Senate, two members of the United States Congress were given places of honor on its floor today and heard themselves lauded for efforts to bring about creation of an Atlantic assembly in the cause of peace.

Senator Guy M. Gillette (D-Iowa) and Representative LeRoy Johnson (R-Calif.), along with Owen J. Roberts, former U.S. Supreme Court justice, were seated to the right of Speaker Elie Beaugard as the plush, red-carpeted senate went into session.

The Congressmen were welcomed by Senator Wishart Robertson, government leader, and Senator John T. Haig, Opposition leader, and in turn themselves addressed the assembled senators.

The Senate previously has extended this honor to British lords and other distinguished visitors, but never to members of the United States Congress.

The three Americans spearheaded a U.S. group which has been in Ottawa talking informally with Canadian parliamentarians about the possibilities of Atlantic union.

The precedent-setting appearance on the Senate floor came shortly after release of a unanimously-ensured resolution from closed meetings calling for exploration of the possibility of a North Atlantic Assembly.

The resolution, to be sent to the governments of the 16 North Atlantic Treaty powers, asks the legislatures of the sponsor nations of N.A.T.O. to "give consideration to the creation of a North Atlantic Assembly, composed of parliamentary representatives of the people concerned."

The Assembly would have as its objective, the implementation of article 2 of the North Atlantic Treaty dealing with economic cooperation.

High tide today at Charlottetown at 4:45 a.m. and 3:27 p.m.

High tide on the North Shore at 12:03 a.m. and 10:52 a.m.

Summer-time tide eighteen minutes later than Charlottetown.

Sun rises today at 5:01 a.m. and sets at 7:58 p.m.

HALIFAX, May 1—(CP)—Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight Friday.

**Synopsis:**

There were showers over the Maritimes today, and over Eastern Quebec there was snow and rain. The air is expected to be somewhat drier Friday and there will be general improvement, particularly in the southern regions.

**Regional forecasts:**

Prince Edward Island: Clear with a few cloudy intervals. West-erly winds 15. Low and high Friday at Charlottetown 34 and 48.

High tide today at Charlottetown at 4:45 a.m. and 3:27 p.m.

High tide on the North Shore at 12:03 a.m. and 10:52 a.m.

Summer-time tide eighteen minutes later than Charlottetown.

Sun rises today at 5:01 a.m. and sets at 7:58 p.m.
