

Nova Scotia Built Ship Bounty To Be Fitted As Public Exhibit

NEW YORK (CP)—The Nova Scotia-built vessel the Bounty Mayer said Tuesday is to be refitted for use as a permanent public exhibit, a year at the New York World's

Fair, being berthed in Fishing Bay, a distance to the fair grounds here. The vessel, a model of the original Bounty, was built in Lunenburg, N.S., at a cost of \$750,000 and was used for the filming of the movie Mutiny on the Bounty.

Since release of the movie and a 30,000-mile voyage by the Bounty last year to promote the vessel as a revenue-producing investment. Among those expressing interest in purchase was a group in Halifax, Rear-admiral H. F. Pullin (Ret.) said a year ago that a company would be formed to buy the model of the

only a fraction of the cost and the potential value of the Nova Scotia tourist industry. The Bounty has been in harbor at Oyster Bay, N.Y., on Long Island through the winter and will soon begin undergoing conversion work to pattern its below-decks areas after the

18th century British warship and operate it to promote the Nova Scotia tourist industry. The ship was fitted below decks with modern sea-going equipment, used in her publicity voyage. The MGM spokesman said the conversion probably won't be completed much before the world's fair here begins next spring. He said MGM intends to keep the vessel in New York for eventual sale of the craft, government in South Korea.
