the EXAMINER PRINTING ROOMS.

### Local and Other Items.

HANLAN arrived in Liverpool on the  
14th inst.

An insurrection has taken place at Herat  
and the Governor has been murdered.

CONDUCTOR LUNT, of the E. & N. A.  
Railway, was killed under sad circum-  
stances at Bangor, on the 14th inst.

DR. WILSON, of Meagher's Grant, N. S.,  
was drowned in Musquodoboit River, on  
Monday last, while on his way to visit  
patients.

CAPT. N. R. CLEMENTS, one of the most  
enterprising citizens of Yarmouth, and  
proprietor of Clements' Line, died at his  
residence Yarmouth, on the 11th inst.

In the late Dominion rifle matches Nova  
Scotia carried off \$164 in prizes; Ontario,  
\$1,763; Quebec, \$1,019; New Brunswick,  
\$244; P. E. Island, 147; and Manitoba 35.

The Go-as-you-please match between Mr.  
Eph Clow, and an Unknown, takes place at  
Ludlow Hall, Summerside, on Sept. 22, 23,  
and 24th for \$100 a side. The money was  
put up yesterday.

ON Saturday last a fleet of 104 vessels of  
all sizes, was at anchor in Pictou harbor.  
Such a fleet had not been seen since the  
palmy days of 1862-63. Our readers can  
judge says the Standard, by this "specimen  
brick" of the injury to the coal trade  
wrought by the N. P.

A HEAVY GALE prevailed along the coast  
of Nova Scotia on the 8th inst., in which  
the brig "A. McLeod," of Charlottetown,  
was considerably injured. She arrived in  
Halifax on Tuesday with fore and main  
topmasts, foretopgallantmast, various sails  
and head-gear and best part of her deck  
load of lumber missing.

The Athenaeum says that the publication  
of the revised version of the New Testa-  
ment will not take place until the spring  
of 1881, when the Greek texts  
which are being prepared for the universities  
by Archdeacon Palmer, and Prebendary  
Scribner, will, no doubt, be completed.  
The editorial work, as regards the revised  
English version, has been intrusted by the  
universities, we believe to the Rev. J.  
Troutbeck, the secretary of the New Testa-  
ment Company.

THE following is the relative success of  
the various Provinces in the Dominion Rifle  
competition:—

Ontario, 119 competitors, won 153 prizes;  
value, \$1,766.

Quebec, 66 competitors, 87 prizes; value,  
\$1,019.

Nova Scotia, 39 competitors, 55 prizes;  
value, \$614.

New Brunswick, 19 competitors, 21  
prizes; value \$244.

P. E. Island, 16 competitors, 16 prizes,  
value \$147.

Manitoba, 3 competitors, 5 prizes; value,  
\$35.

The foregoing does not include the "Mer-  
chants" and "McDougall" Cups, won by  
Ontario and Quebec respectively.

THE Ottawa Citizen says:—"As to a fall  
session there is no reason to believe that  
it is a settled question at all, even if the  
news published is true. It is unlikely  
that any company can proceed with the  
work before spring; and the season opens  
so late that plenty of time would be left  
for the usual session to take place and  
for ratification of the bargain to be made  
if it pleased Parliament to ratify it.  
Nevertheless, in the event of the negotia-  
tions having reached the point reported,  
Sir John Macdonald may desire to give the  
public and Parliament the very earliest op-  
portunity of knowing and discussing the  
details of a matter so important to every  
man in Canada.

THE Monetary Times, speaking of the  
success of the Pacific Railway negotiations  
in London, says:—"The news of this bar-  
gain, is, financially, the most important  
piece of intelligence to this country that  
has ever reached the public ear. It will  
remove the oppressive fear that successive  
governments had pursued a policy which  
threatened to end in national bankruptcy.  
We get the road mainly for the land,  
we get it for what we have to give, and  
we are not piling up burthens on future  
generations which they could ill afford to  
bear. The company which gets the land  
will make it valuable by making it acces-  
sible; and thus the transactions will mutu-  
ally benefit both contracting parties."

THE Burrell-Johnston Iron Co. is a good  
illustration of the "ruined" industries of  
Nova Scotia. The Herald says the machine  
works are running day and night, filling  
large orders of machinery and stoves. At  
present they are manufacturing for the  
new sugar refinery, at Moncton, N. B., 6  
steam pumps, the largest 12x24 inch water  
cylinder, and 18 inch steam cylinder, for  
supplying the water for condensing the  
vapor arising from the liquid boiling in the  
vacuum pan. They are also construct-  
ing the melter, the granulator, and  
all the connecting machinery, including  
a bone-black duster and miscellaneous  
tubing and valves, &c. This in addition to  
the regular amount of mill work, &c., con-  
tinually in progress. The stoves manufac-  
tured by this Company must be increasing  
in favor, for we understand that larger  
orders than last year are now being filled. A  
cargo left for Cape Breton a few days ago,  
and another cargo is now ready to sail for  
Pictou and the Eastern ports.

### Correspondence.

We do not hold ourselves responsible for  
the statements or opinions of our correspondents.

### Abusive Language.

To the Editor of the Examiner.

DEAR SIR,—I observe our Stipendiary has  
resumed the custom of inflicting punishment  
on those who use abusive language to others;  
and adding to the sentence when improper  
language is used to the Court. A few days  
ago the Halifax correspondent communicated  
to the St. John Telegraph the following case  
which occurred there:—

"A merchant taxed a barrister in the city,  
the other day, with having in bad faith added  
costs to a claim he held against another party.  
This was repudiated by the lawyer, and an  
altercation took place, in the course of which  
the merchant called his professional opponent  
a d—d sneak, or words to that effect. Lex  
went to police court and summoned Mercatus  
for using abusive language. The Stipendiary  
imposed a fine of \$20 and costs."

A much more aggravated case here in every  
respect, only elicited the approval of our  
Stipendiary. No fine, no imprisonment, no  
rebuke—even when a threat was made in  
court to repeat the offence. Now, Mr. Editor,  
what about precedents? Which rule of court  
are we to be governed by? Or is the Statute  
Book to be laid aside and the Stipendiary to  
do just what he pleases?

Yours truly,

WM. HEARD.

Sept. 15, 1880.

A NUMBER of Russian dignitaries had a  
narrow escape from being blown into atoms  
by Nihilists, while on passage from Green-  
ock to London on the 13th inst. Among  
the occupants of the train were the Grand  
Duke Constantine and Admiral Popoff, of  
the Russian Navy. By providential inter-  
position the plot to blow up the train failed  
of accomplishment. It was near Busby, a  
station not far from London, some plate  
layers working on the track discovered, at  
a spot two hundred yards from the village,  
some fish plates which had been tampered  
with. The foreman made an examination,  
which resulted in discovering that four  
pounds of dynamite had been placed under  
the plates. The ties of the rails had been  
removed, and dynamite placed underneath.  
The dynamite was connected with an india  
rubber tube, containing gunpowder. The  
locomotive in its passage cut this, but by  
an almost miraculous accident the percus-  
sion caps, which were intended to fire the  
dynamite, had been misplaced, and failed  
to explode, so that the train passed in  
safety over what would otherwise have  
blown the whole train and its passengers to  
pieces. The discovery was made a few  
minutes after the train passed.

FURTHER GOLD DISCOVERIES.—The Hal-  
ifax Herald says that within the past fort-  
night some very rich gold bearing boulders  
have been found at Salmon River, five  
miles west of Harrigan's Cove, Halifax  
County. The excitement consequent upon  
the "find" has been very great, and no  
less than 1200 "number one" areas have  
been taken up in the vicinity—very largely  
by old gold miners—within the last few  
days. A small crushing of ten tons of  
quartz, the first taken out of the large 36  
in. lode at Harrigan's Cove, belonging to  
Mr. C. F. Mott and others, has yielded  
5oz. 6dwts., or about half an ounce to the  
ton. As the quartz from this lode can be  
mined at less than \$5 per ton, this is quite  
a satisfactory return, especially for the first  
crushing, and indicates in the opinion of  
good judges that good results from Harri-  
gan's Cove may be expected.

Coal shipments from the Port of Pictou  
for the week ending Sept. 13th, '80.—  
Halifax Co. 3,578; Acadia Co. 1,004; In-  
tercolonial Co. 2,023; Vale Co. 2,780.  
Total 9,385. Making the total shipments  
to date:—Halifax Co. 76,220; Acadia Co.  
34,605; Intercolonial Co. 39,554; Vale Co.  
38,734. Total 189,414.

A trades union congress opened in Dublin  
yesterday, at which 95,000 unionists were  
represented.

### Receipt for Making a Live Town.

1. Sell your building lots at reasonable prices.
2. Induce business men to locate in your town.
3. Patronize the business men of your own town.
4. Speak well of worthy public enterprises.
5. Speak well to strangers of your town and people.
6. Encourage your local newspaper by subscribing for, advertising in it, and paying for it.
7. If you can afford to do so devote a building lot for some large business enterprise, and thereby enhance the value of the town.
8. If anything should be undertaken that may be of benefit to the town, do not speak ill of it to others because you happen to be prejudiced against it.
9. Always sum up your expenses when you visit places outside your own town to buy goods.
10. If you have any surplus money, do not spend it in far-off speculations, but give yourself and your town the benefit of it by establishing some profitable factory.

CLARK'S DIAMOND DUST POLISH.—  
Unrivalled for cleaning Gold, Silver and  
Nickel ware. Enquire for it.
