BAD COMPANY.—The following beautiful allegory is translated from the German: "Sophrionus, a wise teacher, would not suffer even his grown-up sons and daughters to associate with those whose conduct was not wholly pure and upright."

How To Milk Cows.

The first process in the operation of milking, is to make the cow's acquaintance; give her to understand that the milker approaches her with none other than friendly intentions; for if he sweats, scolds, or kicks her, she may give the milker the benefit of her heels, which in my opinion he is justly entitled to.

A VALUABLE REMEDY.—As a general rule, we do not endorse, editorially, any of the numerous notices of popular medicines, that from time to time appear in the advertising columns of our paper; but we depart from our usual custom to-day to direct attention to the advertisement of Rogers & Co's. Medicine, because we believe the facts disclosed in the advertisement are such as to justify, if not call for, such special attention. The facts of the case detailed in the advertisement are placed beyond dispute by the certificate of the High Sheriff of Cumberland, and ten of the most respectable and well known citizens of Amherst, so that there is nothing of mere puffing about it, but a truthful statement, that ought to be laid before sufferers afflicted as young Copeland was. The character and social position of Mr. Rogers, who is well known to a great part of Nova Scotia, is sufficient to say that this is no mere quick nostrum, made only to sell, and put money in the pockets of speculators, at the expense of the credulous and unfortunate. NAPAN, Cumberland Co., N. S. } July 23, 1866. } MESSRS. ROGERS & Co. :— Gentlemen—Your medicine has done such wonders for my son, that it is my duty to make the case public for the benefit of others. The facts of the case are as follows:— About three years ago he took a severe cold; it settled into his limbs; he suffered most excruciating pain; he was often out of his mind. The doctors called it Inflammatory Rheumatism. In about three months his arms and legs—which were very much swollen, ulcerated, and continued to discharge freely for eighteen months, and he could only get about on crutches. Numbers of pieces of bone came out of the sores on his arms and legs. We heard of your medicine, and concluded to try it. My son is now well, and walks to and from school daily—about a mile. I may say that your medicine has transformed him, by the blessing of God, from a puny, sickly cripple, to a cheerful, lively boy; the change is wonderful, and I hope I shall ever feel grateful for the great blessing. Yours respectfully OSCAR F. LOWE. PUGWASH, August 28, 1865. MESSRS. ROGERS & Co. :— Gentlemen—Your medicine cured my wife of a most distressing case of hip disease; and as some persons seem disposed to misrepresent the case, I give you the following facts in relation to it; to all of which I am prepared to make oath, and prove by many other witnesses if necessary:— Three years ago she fell upon the ice, and broke or injured the bone of her hip. She was confined to her bed for three months. She then recovered and got comparatively well, and continued so for nearly twelve months, when her hip began to get painful, and swelled and broke, and discharged freely, and in great quantities. She suffered most excruciating pain; it broke in three places. The doctors were attending her, but could not cure her; in fact we gave up all hopes of her ever getting well. The doctors told me that she never could recover. We, however, thought we would try your wonderful medicine as a last effort and she soon began to improve, and in a few months she was able to attend her domestic duties. The sores all healed up, and she got as well as ever she was, with the exception of a little hitch or limp in her walk. She died last fall; but there was no symptoms of the old complaint. She was entirely cured of that. AICHIBALD DAWSON. Old DR. JUDSON'S DEAD SHOT WORM CANDY KILLS WORMS. A Cough, Cold, or Sore Throat, REQUIRES IMMEDIATE ATTENTION, AND SHOULD BE CHECKED.
