

SPORTS FRONT

By PIUS CALLAGHAN

Farewell - Many Thanks

YESTERDAY many fine young athletes finished their course at St. Dunstan's University and leave the Malpeque Road Institution of learning after several years of study there.

Many of the graduates were standouts on the athletic field and gave fine contributions while they were enrolled there. There are so many that we dare not start listing them because that's the very time we'd overlook one or two of the most deserving names.

St. Dunstan's teams in hockey, football and basketball have always trained a top notch show and many of the boys who left the university yesterday made a notable contribution along this line. They have given their very best for their college and have won the respect and admiration of all onlookers.

Many of them will continue their athletic endeavours as they pursue their studies at other universities. We are sure they will give the same great effort there as they did while at old St. Dunstan's.

We wish all of these boys the very best in the years ahead. We know we are speaking for all sports fans when we thank them for their displays while wearing St. Dunstan's uniforms. It surely has been nice meeting and getting acquainted with these fine young men.

May the future be indeed good to them.

Racing Talk Goes On

HARNESS racing talk is filling the air these days. Only 17 days more and the first race of the season goes on at Charlottetown Driving Park.

There was persistent talk for a spell that the backward weather would delay the 1968 opening because the horses wouldn't be ready for the race. However, talking to race secretary and classifier, Dick Acorn last night, we were informed that things looked mighty rosy for a June 1 opening. Mr. Acorn felt he would have no trouble in getting a sufficient number of entries to stage the first program.

Meanwhile work goes on at a feverish pitch at both Charlottetown and Summerside tracks and everything points to the most enthusiastic season in the history of either track. There's plenty of improvements being made at each plant, all of them with the object of making things more pleasant for the paying customer.

It's A Challenge

AND that's exactly what both Summerside and Charlottetown tracks need—more fans to watch the horses in action.

As has been a hard struggle here on the island keeping horse racing going at the pace it has been going. Thickly populated spots like Halifax and Saint John are about the only Maritime centres that don't have the same financial worries as Charlottetown and Summerside. Their part-mutual handle makes it easier for St. John and Halifax. However, here on the island the betting is good in comparison but it isn't enough to do the trick. There must be more people and more betting if things are to go on here as they did in former years.

Some folks have the silly idea that you just have to hold a race and you make money. Nothing could be farther from the truth. It takes a lot of money to run a track and it takes a lot of money to break even on an ordinary race night.

We hope that each island track will see an upsurge in business this season. If we don't, we have the feeling that racing will become greatly curtailed in the years that lie ahead. And racing fans wouldn't like that to happen.

Baseball Front Quiet

THINGS are strangely quiet on the local baseball front. We haven't heard a peep out of anyone lately and the idea of Summerside and Charlottetown teams becoming involved in some kind of a schedule hasn't been discussed (as far as we know) here in Charlottetown. Probably there'll be a whole lot of baseball news one of these days but right now things are really dead. If there has been any secret meetings, we surely haven't been in on them.

How about some news, boys?

Baseball Committee Approves Bak Change

NEW YORK (AP)—The baseball committee officially dropped the one-second phase from the definition of a balk Tuesday as suggested last week by commissioner Ford Frick and the two major league presidents.

Charles Segar, secretary of baseball and chairman of the rules committee, decided to take a telegraphic poll instead of waiting for the next meeting in December. The vote of the nine-man committee was unanimous in favor of the change.

What constituted a balk had been interpreted differently by the two leagues. The National League, adhering strictly to the book rule, insisted on the one-second stop. The American League more liberally accepted a stop with no time limit, although the rules specifically

LOOK FOR BEST POINT SCORE

Russians Are Worried About U.S. in Olympics

NEW YORK (AP)—Want to know the point score of the 1964 Olympic Games at Tokyo? The Russians think it will be: Russia 712 points, United States 518, Japan 221.

They think the United States is improving too fast. In an attempt to keep pace, the Russians are using brainwashing, yoga and deep breathing, at a tonized air in special chambers.

These reports come from the Institute of the Study of the U.S.S.R. The institute says the Soviet government attaches great political importance to sports competition and "is taking great pains to ensure that Soviet athletes do not lose to the United States team in the forthcoming Olympic games at Tokyo."

Of course, the Olympics are supposed to be an individual contest, and point scores are strictly unofficial. They are kept by news agencies and the Russians, who take them seriously.

The Russians point out, according to the institute, that the Soviets scored 883 points at the 1960 Rome Olympics, and the U.S. 463.

They expect to better their total in 1964, and also expect the U.S. total to increase. Y. Mashin, one of the Soviet government sports bosses, says the Soviet Union should increase its point total by 29, while the U.S. will be up 55 points and Japan 76.

Game Postponement Formula Decided On

VANCOUVER (CP)—General managers of the nine Canadian Football League clubs Tuesday decided on a formula to be used if fog or other inclement weather forces postponement of the Grey Cup game again.

Under the formula, announced at the end of a two-day closed meeting: If weather forces postponement of the game before it starts, it will be played the following day; and if the postponement is forced in the first, second or third quarters, the game will be continued the following day.

If the weather halts a game in the last quarter CFL commissioner Sydney Halperin will have the alternative of declaring the game ended or ordering a short period.

Anti-Noise Bill Is Thrown Out

SPRINGFIELD, Ill. (AP)—The Illinois House of Representatives defeated Tuesday a bill to restrict the use of mechanical noisemakers at athletic events.

Representative Claude Walker, who sponsored the bill, said stress, air horns and cowbells spoil a baseball game and other sports attractions for most spectators.

Rep. Robert Austin, a professional football referee who led opposition to the measure, said he was against any law that would penalize the fans.

He also objected because the bill "does not mention the most serious matter of all—throwing pop bottles at officials."

Austin has been a professional football referee for years.

PRIOR TO PREAKNESS

Chateaugay, Candy Spots Raise Intriguing Guesses

BALTIMORE (AP)—Whether Chateaugay and Candy Spots are likely to take their places early in Saturday's Preakness was as intriguing a guess as around Pimlico Tuesday as the outcome of the Kentucky Derby rematch.

With the probable starting field rather firmly fixed at seven, visualizing how they will string out during the 1 1/2-mile stretch of the 1 1/4-mile Kentucky classic, Chateaugay started his winning drive from sixth place in a field of nine, and that was somewhat of an upset as well as his victory.

John Galbraith's Chateaugay passed Never Bend in the stretch of the 1 1/4-mile Kentucky classic, Chateaugay started his winning drive from sixth place in a field of nine, and that was somewhat of an upset as well as his victory.

Lunsford Signs For 6th Season
CALGARY (CP) — Calgary Stampede have signed football Earl Lunsford for his sixth season with the Western Football Conference club, it was announced Tuesday.

Giants Option Chuck Hiller

SAN FRANCISCO (AP)—San Francisco Giants said Tuesday second baseman Chuck Hiller is being optioned to Tacoma and the Giants are recalling Charles (Cap) Peterson.

Peterson, 29, has been playing second base for Tacoma in the Pacific Coast League. The move is temporary, the Giants said. Hiller has a slight fracture of his left hand and probably won't be able to play for two weeks. He must remain at Tacoma at least 10 days under the option rule.

Argos Sign Don Goodman

TORONTO (CP)—Toronto Argonauts announced the signing Tuesday of former University of Florida fullback-halfback Don Goodman.

Goodman played for Jacksonville in the Florida State League last year, leading the league in rushing.

Winds Fan Fire At Truro Heights

TRURO (CP) — Fire destroyed six acres of spruce forest at nearby Truro Heights Tuesday. Flames jumped into the woods after a grass fire, fanned by high winds, got out of control.

A number of homes, bordered the woods but none of them was damaged.

THREE GET TYPHOID

ST. JOHN'S (CP)—The first outbreak of typhoid fever in the province in about five years was reported Tuesday by the Newfoundland health department. Three cases, all young girls, occurred at Gaultois on the province south coast. A suspected germ carrier, who had typhoid fever about 15 years ago, has also been located and treated.

Mr. Johnson ...

you're spoiled!

Admit it... you've never had such special treatment! But you deserve to be spoiled, Mr. Johnson. After all, you just bought your family a new Valiant, the best compact car on the road today. And, Mr. Johnson, your new Valiant will spoil you, too, with its Slant-Six power, smooth dependable ride, big car comfort and thrifty money-saving ways. This kind of value is likely to spoil you for any other car. For good! Your wife loves Valiant too—we can tell. (She didn't open doors for the old car!) The fact is, Valiant wins most people on the very first ride... which only goes to show what compelling good looks and polished good manners will do for a compact. But Valiant doesn't rest on its first-impession laurels. Fifty-thousand miles later—you'll still bless the day you bought Valiant. Relax and enjoy it, Mr. Johnson. Live the life of *Rey*. Drive a Valiant, too!

No other compact does so much for you

- The 5-year—50,000-mile power-train warranty—protects you against major repairs (including parts and labor) and this warranty stays with the car for greater trade-in value.
- Valiant's standard-equipment alternator keeps your battery fully charged and ensures fast, positive starts!
- Valiant outperforms all the other compacts with its 101 hp Slant-Six engine (biggest standard engine in its class) and with its optional 145 hp "six"—it's terrific.
- Valiant means savings—with Slant-Six economy, with 4000-mile intervals between engine oil changes, and 32,000-mile intervals between chassis lubrications.
- Valiant's self-adjusting brakes have far more usable brake lining area than any of the other compacts, for greater safety.

nobody beats **Valiant** for value
