DOMINION OF CANADA,

Province of Prince Edward Island,

CITY OF CHARLOTTETOWN.

IN THE CITY COURT, before Rowan Robert Fitzgerald, Esq., the Stipendiary Magistrate for the City of Charlottetown.

Take notice that His Honor the Stipendiary Magistrate for the said City of Charlottetown has, by virtue of the power and authority in him invested by the statute of the General Assembly of the said Island, intituled "An Act to consolidate and amend the several Acts Incorporating the City of Charlottetown," ordered and appointed that MONDAY, the 4th day of August next, be the day set down for hearing all appeals made to him from the last preceding valuations, assessments, or rates imposed or authorized by the City Council of the said City, and that on such day and daily thereafter until all such appeals have been heard, at the hour of eleven o'clock, forenoon, in the said City Court, in Charlottetown aforesaid, all such appeals will be heard and finally determined by him.

Dated this 22nd day of July, A. D. 1890.

By order,
ROBERT VANIDERSTINE,
Collector for said City.

P. E. Island Hospital.

WANTED.—A skilful Matron and Housekeeper for this institution, to take charge about the first of October next. A person of some experience, well recommended, will be preferred. Applications to be addressed to

BENJ. BALDERSTON,
Secretary.

Ch'town, P. E. I., July 19, 1890—eod tf

LETTERS TO THE EDITOR.

I. O. G. T.

SIR,—The "Blooming Hope" Lodge of Alexandria, in conjunction with "Excelsior" Lodge of Pownal, are bound to make an effort in suppressing the sale of the so-called hop beer. Since the old "Five" has been wiped out two similar shanties have been opened up for the sale of that beastly and degrading beverage, which ruins more young men than any or all of the distilled poisons put together. Committees have been appointed to push the work in the vicinity of the above Lodges and man-traps, consisting of the most faithful and most earnest workers in both Lodges, for the purpose of suppressing those evils. It is to be hoped that their efforts may prove a success, and that they may succeed in stamping out those two dens, which are glaring stains upon the surface of the fair settlement in which they have originated. Not only in the eyes of the law and temperance organizations are such places the source of crime and misery, but also in the eyes of every honorable and right-thinking man and woman in this or any other settlement. The hop beer fraud has had its day, and the people are beginning to see the great piece of deceit that has been practiced upon them in the past under a cloak of harmless beverages. They are beginning to see that the platen so bright and shining without is a mass of corruption and death-dealing agents within. In the future the man who drinks the so-called hop beer will not be looked upon as a temperance man, but will be dubbed a foe to the tempeance cause. The rumseller will have to invent another substitute for rum and rye, or else shut up his shop and live the life of an honest man.

Below is a list of the officers elected by "Blooming Hope" Lodge, for the quarter beginning the 1st of August:—

Worthy Chief Templar—Lemuel Wood.
Past Chief Templar—Wm. Frizzell.
Worthy Vice Templar—Milly Wood.
Secretary—Isaac Judson.
Financial Secretary—Jacob B. Dockendorff.
Treasurer—Edith M. Wood.
Chaplain—Wm. F. Dockendorff.
Marshal—Lemuel Wood.
Guard—Edith J. Dockendorff.
Seentinel—Seymour McLaren.

SHAKESPEARE.

Ice Water.—Doctors Disagree.

A celebrated physician says "All ice-water drinking is bad," also that "a severe blow upon the body just over the solar plexux," which in good United States language means an important portion of the nervous system located just back of the stomach), "will cause almost instant death," and he further says "the sudden shock caused by a deluge of ice-water into the stomach has exactly the same effect upon the solar plexus as the blow, and may cause sudden death by its action upon it and through that on the heart." Another equally celebrated physician says, "Any diction which unqualifiedly say that cold drinks are bad and hot drinks are good must be absurd" and further "cold water stimulates gastric secretion; therefore do not smile at your friend because he thinks a half-glass of ice water before eating gives him an appetite and helps his digestion." In continuation, we will say, drinking ice water in copious draughts when over-heated is injurious, if not dangerous, that is undeniable. But that the free drinking of water, in some form, in hot weather, must be avoided, is deniable, and is one of the greatest popular errors extant. When a man is perspiring freely, a vast amount of water is drawn from the body, which must be resupplied, or great injury is done to the physical health, and the foundation of some of the worst forms of kidney disease is being slowly but surely laid. Do not drink ice-cold water, but pure cool water; a little lemon juice will improve its effectiveness. Plain soda water with a little acid is also excellent in hot weather. If from drinking too much ice water you have stomach cramps, or are "water logged," as it is called, or are attacked with cholera morbus, summer complaints, diarrhœa or dysentery, do not resort to alcoholic stimulating drinks, which irritate rather than allay the inflammation which has caused the trouble; but adopt the practice of taking daily just before retiring, during July and August, one teaspoonful of Johnson's Anodyne Liniment in a little sweetened water, which will prevent all such attacks and ill effects from ice water. In fact a little pamphlet sent free to any one by I. S. Johnson & Co., Boston, Mass., contains a vast amount of information about treating those summer troubles with that good old household remedy.

The Home.

We sometimes think, and with good reason, too, that parents are much to blame, in many instances, because of the disobedience of their children. Many a child goes astray, not because there is a want of prayer or virtue at home, but simply because home lacks sunshine. A child needs smiles as much as a flower needs sunbeams. Children look little beyond the present moment. If a thing displeases, they are prone to avoid it. If home is the place where faces are sour and words harsh, and fault-finding is ever in the ascendant, they will spend as many hours as possible elsewhere. Let every father and mother, then, try to be happy. Let them look happy. Let them talk to their children, especially the little ones, in such a way as to make them happy.

Eighty Miles an Hour.

A special train, bearing 150 Pennsylvania editors, was run from Baltimore to Washington a short time ago at an extraordinarily fast gait. It left Baltimore at noon, and thirty-five minutes later had travelled forty-two miles, and was in the Pennsylvania railroad station at Washington. The speed averaged 72 miles an hour, or allowing for starting and stopping, at least 80 miles for the greater part of the run.

K. D. C. Cures Dyspepsia.

News Notes.

Eighty deaths per day is the cholera record in Mecca.

Gold to the value of $5,975,000 has been engaged at New York for export so far this week.

After fourteen weeks, the strike of the cloak makers at Philadelphia has ended in a victory for the laboring men.

The Russian government has taken steps to stop the work of Protestant missionaries, especially in Western Russia.

It is estimated that the public debt of the United States has been reduced about $4,000,000 during the month.

During the one hundred years of the existence of the patent office in Washington, 433,432 patents have been issued.

Mr. Thomas Wills, of Bangor, Wales, has just arrived in Ottawa, to select a site for a colony of settlers from Wales, where he says the delay in securing church disestablishment is creating a desire among the peasant classes to try their fortune in Canada.

Little Annie Tyers, 8 years old, came all the way from Liverpool alone on the SS. Vancouver to Montreal, and from there by train to Coburg, where she was joyfully received by her mother. A ticket was sent to England with full instructions, and the child came in care of the steward of the vessel and the railroad conductor.

Personal.

Rev. H. Beers, of P. E. Island, is officiating in Christ Church, Stellarton.—*New Glasgow Vindicator.*

An exchange says: Thomas P. Gorman, the editor of the Ottawa *Daily Free Press*, has prepared a strong, and in some respects startling, paper entitled: "The Dominion's Original Sin," which will appear in an early issue of *The Arena*. This paper will not only be read with profound interest throughout Canada, but giving as it does a thrilling page of a memorable passage in history, it will be of more than ordinary interest to readers of magazine literature.

The political opponents of Premier Whiteway, of Newfoundland, assert that his visit to England is to secure for himself a governorship. This taunt is apparently suggested by the fact that a former active Newfoundland politician, Sir Ambrose Shea, retired to the governorship of the Bahamas. The political opponents of a Newfoundland public man, however, are usually pretty severe, and, in the press, print their attacks in type so large as almost to scare the fish in the sea.

When Mr. Gladstone conducted the celebrated Midlothian campaign he was ten years younger than he is to-day, and his speeches had a sensible effect upon the election of 1880. This autumn he is to undertake another northward tour and hopes to repeat his noteworthy triumph. Though the details are not yet arranged it is definitely decided that he shall go, which indicates that in the opinion of the Opposition a general election is not very far off.

Odds and Ends.

That man who hasn't any work to do never seems to be quite happy unless he is bothering somebody else.

It is not until she has married a man that a woman begins to hear how many other women there are in the world who wanted to get him.

Paint the tongues of your fever patients with glycerine, says a physician; it will remove the sensation of thirst and discomfort felt when that organ is dry and foul.

Managing Editor—Was our reporter the first one on the scene when the L train was wrecked?

City Editor—Better still, he was the first man killed.

The married men of two continents are anxiously looking for the effect which the publication of the Blaine-Salisbury Behring Sea correspondence will have upon the market price of sealskin sacques.

"Brethren," writes a Georgia editor, the paper is a little late this week, but when we tell you the reason we are sure you will forgive us. We were out in the country attending the funeral of our mother-in-law. She died young, but she died game."

His Ambiton.—The minister was calling for recruits for temperance work. "In one little town," cried he, "there's seventeen gin mills; that's where we want to go, brethren." "Yes, yes," shouted a red-nosed, sleepy individual in the rear of the church, "let's go now."

Great Magazine Editor—We are very short of matter. All the great generals, notorious politicians, famous lawyers, popular actresses, eminent physicians and prominent scientists seem to be too busy to write for us just now.

Assistant (meditatively)—Perhaps we might get some articles from literary men.

Great Managing Editor.—Good idea! I'll make a tour of the poor houses to-morrow.

Decreasing the Death Rate.

The mortality among consumptives has been materially decreased of late years by the use of Scott's Emulsion of Cod Liver Oil with Hypophosphites of Lime and Soda. Phthisis, Bronchitis, Abscess of the Lungs, Pneumonia and Throat affections are completely subjugated by a timely use of this excellent pulmonic. Palatable as milk. Sold by all druggists at 50c and $1.

Farm Notes.

One of the very best articles for mulching is salt hay. It is tough in texture, lies close, is not easily disturbed by the wind, and if stacked or sheltered after the crop is gathered, will last three seasons. In addition, it has no seeds to grow and disseminate.

Balance of stock of Ready-made Clothing on hand must go. Best bargains in the city at J. B. Macdonald's.

K D. C. for the Stomach.
