Robichaud Says Election Was Not 'Snap Decision'

By FRANK SULLIVAN

SAINT JOHN, N.B. (CP) — Premier Louis J. Robichaud says his surprise call for a New Brunswick election April 22 was not a spur-of-the moment decision.

"I took the whole weekend to think it over," the premier said in an interview after asking the lieutenant-governor to dissolve the legislature this week.

"I wanted to do what was the best thing for New Brunswick and I decided the best thing to do was to let the people decide."

The main thing they will have to decide is whether to return his Liberal government which ousted the Progressive Conservatives in 1960 by capturing 31 seats to the PCs 21 in the 52-seat legislature.

The election issue, the premier says, is industrial development. However, Conservative Opposition Leader C. B. Sherwood says it is the condition of the provincial treasury.

The premier's bombshell came during Tuesday's sitting when Mr. Sherwood, charged the public interest was not protected in the government's dealing with South Nelson Forest Products Limited and its Italian parent, Cartiere del Timavo, for a pulpmill on the Miramichi River.

Premier Robichaud said he had received a letter from the South Nelson firm that asked if the people really wanted them to remain in the province. The company had become worried by opposition displayed in the legislature to foreign capital investments in the province.

He said the letter stated that unless the company was "reassured by the people of New Brunswick" that it was wanted in the province, it was prepared to pull out with its losses and locate elsewhere in Canada.

Mr. Robichaud said there are many other companies around the world also interested in locating in Canada and specifically in New Brunswick as a result of trips abroad by the premier and other representatives of his government.

The Conservative opposition to foreign investors was disturbing to virtually all of these interests.

"I want a clear mandate from the people of New Brunswick whether they want development of our natural resources or whether they want to leave the resources unexploited," he said.

Mr. Sherwood says the real issue is financial. He contends New Brunswick" is on the brink of financial crisis as a result of Liberal mismanagement". He says the premier called the election to choke off debate on the provincial budget and an investigation into the South Nelson deal.

REPORT DEFICIT

The Liberal government reported a deficit of $6,200,000 for fiscal 1961-62, about $2,300,000 more than estimated. Provincial Treasurer L. G. DesBrisay has budgeted for a further deficit of $6,152,000 for 1962-63.

Continuing on the subject of industry the premier said the provincial government was negotiating with a Belgian compony interested in investing heavily in the Rothesay Paper Corporation newsprint mill development near Saint John.

It was negotiating also with the Renault car manufacturing company in France for location of a plant in the province.

Opposition Leader Sherwood has accused the government of having agreed to give away 1,000 square miles of choice New Brunswick timberland to the Timavo-South Nelson firms, to build access roads at expense of the taxpayers for the life of a 50-year agreement and to supply power at a rate seldom given to the forest industry.

Premier Robichaud contends the South Nelson project would mean up to $50,000,000 for provincial coffers over the long term and $15,000,000 this year alone.

Following up quickly the Conservative charges Mr. Robichaud dropped his election bomb.

The dissolution left much legislative business unfinished and many bills will have to be introduced again after the election.

Dollar Cut Boosted Profits For Aluminum Ltd. In '62

MONTREAL (CP) — Greater sales volume and the lower exchange value of the Canadian dollar were largely responsible for higher earnings of Aluminium Ltd in 1962, President Nathanael V. Davis said in the annual report released here.

He said it is impossible to assess exactly the impact of the lower exchange rate, but the company estimated the benefit to 1962 earnings was about $5,000,000.

As previously reported, the company had net income in 1962 of $37,780,708, or $1.23 a share, up from $30,609,380, or $1 a share in 1961. Sales were a record 729,672 tons compared with 671,120 tons in 1962.

Dollar value of sales in 1962 also rose to a new high at $559,075,354, compared with $516,931,053 in 1961.

The report said capital expenditures in 1963 are estimated at $90,000,000, with about 70 per cent of the total to be spent on expansion of fabricating facilities.

NOT AN EASY YEAR

Mr. Davis said the over-capacity of the free world industry made competition in 1962 more severe than in 1961, itself "not an easy year."

He said the company's earnings, and those of most members of the industry, did not provide a satisfactory return on investment. But new uses of aluminum developed in recent years and the maintaining of expansions of primary facilities to "clearly foreseen demand" should improve materially the company's position in coming years.

Also announced were the 1962 results of the company's principal subsidiary, Aluminum Company of Canada Ltd.

Alcan had net earnings of $27,163,151 in 1962, compared with $311,755,014 in 1961.

♦ 10 6 3 2
♣ 9 8

EAST
♠ 8
♥ A K Q J 10
♦ J 9 7 5
♣ K 6 3

SOUTH
♠ A K Q J 9 4 3
♥ 6 3
♦ K Q
♣ A 7

The bidding:

East	South	West	North
1 ♥	Dble.	Pass	3 ♣
Pass	4 ♠		

Opening lead—five of hearts.

This was Board No. 1 in the match between Italy and Switzerland played in Torquay during the 1961 European championships.

As usual, the Italians got off to a good start. The Italian East (Mascheroni, playing with Cermoncini— they were fondly referred to as Macaroni and Cream) opened the bidding with a heart. The Swiss pair (Bardola and Jacobi) then got to four spades on the bidding shown.

Although twelve tricks were easily made, it must be said that it is hard to fault North-South for failing to reach the sound slam contract after the bidding had been opened against them. The cards fit exceptionally well, and, besides, the Swiss pair had only 26 high-card points to work with.

However, the Italian North-South pair of Brogi and Bianchi, when they played the hand, did reach the slam on the following bidding:

East	South	West	North
1 ♥	3 NT	Pass	4 ♦
Pass	4 ♥	Pass	5 ♣
Pass	6 ♠		

As with so many other Italian bidding sequences, an explanation is in order. To begin with, the three notrump overcall had nothing to do with notrump. It showed the strength for an opening game-forcing bid and furthermore requested partner to show how many aces he had.

Four diamonds indicated one ace It did not show diamond length or strength.

Four hearts asked North about heart control. The five club response showed second round control of hearts—in fact, precisely a singleton. If North had lacked first or second round control of hearts, he would have signed off (artificially) by bidding four spades, and South would have passed in such case.

Having acquired the knowledge that North had a singleton heart, South contracted for six spades, which was easily made, of course.

The hand was made to order for the Italian bidding methods and provides a dramatic example of the good results that can sometimes be obtained by the use of artificial conventions.

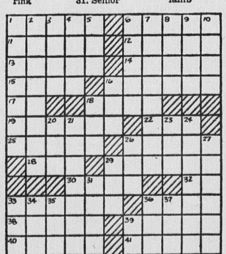
Saturday's Answer



3-18

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
