FUTURE KINSMAN PLAYGROUND

The Charlottetown Kinsmen Club plans, with City co-operation, to turn the Desbrisay Crescent area into a children's playground.

Many major centers in Canada have one or more of these Kinsmen-built playgrounds, complete with fun provoking equipment for the younger generation to enjoy; wading pools, sand piles, swings, see-saws, slides, may-poles and many other devices designed to gladden the hearts of the ever-young, and to provide safe playing facilities out of traffic and off the busy streets. Mothers from Newfoundland and to the Pacific Coast are grateful to the Kinsmen because they can now relax for at least a few hours a day while the children play in ideal conditions in supervised playgrounds provided by right-thinking citizens.

Fund Raising projects which the Charlottetown Kinsmen Club have coming soon are the Spring Carnival, Peanut Day and Clyde Beatty wild animal circus. All funds provided by these projects will be spent on the new Desbrisay Crescent Park and Playground Project.

TORONTO STOCKS

TORONTO (CP) — The stock market carried its advance to a fifth stright session Friday as industrials and base metals improved in closing trading.

Refining oils and pipelines led industrials and golds were strong in the mining list. Western oils had more gains than losses but their forward push didn't have the steam it had during the previous four essions.

The gold index had the best gain, up nearly a point as McIntyre gained 3¼ points at 81¾ and Hollinger added a point at 26.

Noranda lost a point at 51 among senior base metals, which eased slightly as a result of profit-taking. Juniors were mixed to higher in a 20-cent range. Uraniums were quiet with the exception of Consolidated Denison, which jumped a point to 24¾.

Western oils moved in the narrowest range of the week. Security had the best gain, up 25 cents to $4.60. Other advances ranged to 15 cents. Canada Southern Pete lost 15 cents at $7.15.

Index changes: Industrials up .14 to 461.10; golds up .94 to 77.88; base metals off .81 to 211.74; western oils up .74to174.47.

Conference At Science Service Lab Is Concluded

The conference of research phytopathologists of the Maritime and eastern Quebec region concluded its deliberations yesterday.

In the morning, Dr. A.J. Skolko, Assistant Chief of the Division of Botany and Plant Pathology, Ottawa, eleborated on general policies, administrative matters, and project classification and reporting.

Dr. R.G. Ross of Kentville gave a comprehensive review of laboratory bio-assay methods including the spore gemination test, the toxicant-agar method, the thread technique, and the paper disk method. Dr. I.V. Hall, also of the Kentville Laboratory, presented some very interesting material from his research on the ecology and ontogeny of the blueberry.

The responsibilities of the Laboratories in both the field of research and the field of extension were placed on discussion by Mr. J.L. Howatt of Fredericton and the problems involved were deeply examined by officers of the four laboratories. It was noted that the agricultural extension services of some provincial departments were inadequate, and consequently the public was compelled to seek instruction and assistance from the laboratory research men who were often retarded in their investigations by numerous calls and interviews.

Plant diseases caused by nutritional deficiencies were discussed by Mr. J.E. Campbell of the Charlottetown Laboratory. Common diseases of this category in Prince Edward Island are whiptail of the element molybdenum, and brown heart of turnip which is induced by a deficiency of the element boron.

The conference next year will he held at the Plant Pathology Laboratory at Ste Anne de la Pocatiere, Quebec.

Quebec Farm Loans Report

QUEBEC (AP) — Loans under the Quebec Farm Loans Act enacted in 1937 now total $144,107,-945, Premier Duplessis said today.

During a press conference Mr. Duplessis said the farm loan board has authorized loans to 51,-452 persons, a total of 23,307 of them to young farmers who needed the money for establishment purposes. As of March 31 farmers have paid back $45,555,795 of which $26,145,607 was paid prior to due dates.

Mr. Duplessis said the charge has been made recently that much of the money paid back by farmers before due dates came from conversion loans authorized by the far loan board. He said the charge is not true. Only $2,-453,537 of the $26,145,607 total came from conversion loans.

The fact farmers are paying back farm loans as quickly as they have is a good indication that they are in a good financial position, Mr. Duplessis said, and it destroys the arguments of "prophets of gloom" who say farming in Quebec is in a slump.

NO SUCCESS YET

VANCOUVER (CP)—A detective with 28 years service on Vancouver's 800-man police force said Friday his "sit-down strike" for a pension so far has been without success. Det. Ernest R. Deacon hasn't reported for work since the last week of November, 1955. He has been suspended since last Feb. 14. He walked off his job to get fired so he can collect a pension, but says he has received no clarification on his status from the police chief.
