We're out to clear the decks of these used Buicks this week and we're going to make the kind of deals that will make this objective a reality. Come in today or any day this week and you'll get the surprise of your life . . . the deal of your life.

You'll want to take a look at these breath-takingly beautiful Buicks. . . . The thrilling color styling . . . the rich fabrics and gorgeous interiors . . . and thrill to the engineering marvel that carries you forward in a surge of smoothness. We ask you to join us for some thrilling moments of real pleasure at Allison MacLeod's and let us show you these Buicks. You don't have to take our word for it . . . or even the word of your neighbor. We want you to take the keys and test these cars yourself. With six Buicks to choose from there is sure to be the very one for you provided you call early enough to see them all. These cars are away above average, the cream of the used car crop and like every car we sell is conditioned to meet an exacting and rigid check-up program. You'll go for these Buicks and these Buicks will "Go" for you.

We had started this sale with 8 used Buicks, however, after the proof of this ad was made we sold two of them, so we have included two of our better Pontiacs.

And These Trucks
