"THE EXAMINER."

THE proprietorship of the *Examiner* having passed into new hands, it will be our duty, next week, when the arrangements necessitated by the change, shall have been completed, to state on what grounds a continuance of the very liberal patronage which has hitherto been extended to it, will be looked for by its new proprietors. Meanwhile, it is sufficient to say that no departure from the liberal principles by which, throughout its whole course, the *Examiner* has been distinguished, is contemplated.

THE Dramatic and Musical entertainment to be given in St. Andrew's Hall on Monday and Tuesday next, promises to be a grand affair. The plays to be presented, Much Coin Much Care, and O'Callaghan, are of the most mirthful nature, and the music will be quite select. We understand that the performers are already proficient in their different parts. Those who wish to spend a pleasant evening should not fail to attend this performance. We wish them bumper houses.

The Montreal *Trade Review*, in "some thoughts on changes in the Tariff," refers to postage on newspapers in the following language:—

"There is no objection raised against recent legislation among our eastern fellow-subjects, that we more strongly sympathize with, than their objection to the re-imposition of newspaper postage. The Government might very properly have acceded to the manifest wish of the House during its last meeting, and not only have left newspapers free in New Brunswick and Nova Scotia, but extended the boon to Ontario and Quebec. There is not over $35,000 of revenue involved, and when compared with three quarters of a million of postal revenue, that sum is insignificant. We believe none of the imposts enacted in December last, is more unpopular than this one among the 'wise men of the East,' and we think Parliament would do a graceful and a conciliatory thing to abolish the tax before the *present Session* comes to an end."

EX-GOVERNOR EYRE.—It is said that as Mr. Eyre, the late Governor of Jamaica, having come to London, an application would be made to Sir Thomas Henry, at Bow Street, for a warrant to bring him before the court charged with being an accessory to the murder of Mr. George William Gordon. The former application, which was stopped by the grand jury, was against General Nelson and Lieutenant Brand, Mr. Eyre not having at that time come forward to meet the charge.

DARING ROBBERY.—We learn that James Beairsto, Esqr. of Malpeque, had about 500 bushels of oats stolen out of a granary near the shore, where he had them stored. This is certainly one of the most daring robberies we have ever heard of. As there is no doubt but that there were several persons engaged in this business, the parties will yet be found out. "When rogues fall out honest people get their own."—*S. Journal.*

RELIEF FUND.—The subscriber begs to acknowledge, per Hon. G. W. Howlan, the sum of five pounds, as a donation from the Hon Robert P. Haythorne, in aid of the funds subscribed for the relief of the destitute, in the Second Road District of Prince County.

JAS. FORSYTH, Sen.

TO THE EDITOR OF THE EXAMINER.

Dear Sir,

In answer to a letter in your last number signed "C. L. Strickland," I beg to ask the assumed author if "the Tuplin horse won the first heat easily," at the second race, how came he (C. L. S.) to tell me that he had staked three pounds on the Lilly, and in referring to statements on the subject, in the *Summerside Journal*, said I should contradict them as untrue. Will he deny that fact? Dr. Strickland says, in reply to your correspondent ("Disinterested looker on," whose favor I never saw until I received the *Examiner* in which it appeared,) that at "two o'clock was *the time appointed for the race, &c.*" True, *that was the hour named, but the race* which came off was for *second class horses*, entering for the second-class *purse* only, and not, as he knows very well, for the first race, which, *for that day*, did not come off for want of competition. And he knows, too, that the driver of the "Lilly" only offered to enter her in said *second-class race*, in order to make the required number, and agreed to "haul her out" and "not drive round the course," because the horses entering in that *second-class race* would not compete with Lilly, and not, as Dr. Strickland would unfairly insinuate, for fear of being beaten.

As to the fourth fortnightly races, the "assertions for proof" of the Doctor is still further from the truth, and in reply thereto, to use his own *elegant* words, "a greater falsehood was never uttered," than that Lilly broke "twenty times." Why don't he tell how many times "*Boss*" galloped? One of the Committee, Dr. Jenkins, can testify that I demanded the third heat to settle the dispute, and was denied that right.

That the "Lilly" won the race in question, can be testified to by every *disinterested* man on the ice at the time, and that had competent judges, who would not be overawed by the *Brigade*, been appointed, the "Lilly" would have been declared the winner, is also no "conjecture;" in proof of which I may state, that one of the judges was heard to exclaim *the Lilly is ahead!* when a shout from the *Brigade* decided to the contrary—influenced or intimated by whom, one of the Committee was heard to say to the *judge*—save the mark—stick to it "*Boss*" is ahead. No wonder that duplicity was practised, when C. L. S's. own servant-man was one of the judges.

And another of the judges said the race was such a close tie that it was impossible to tell which won. His decision on that matter would be on a par with his ideas of truth relative to other matters touching character.

Instead of offering to "drive the race over again," C. L. S. and his brigade left the ice for their resort at Rocky Point Wharf, where a dissentient voice, who contended that "Lilly" won the race, would have been maltreated were it not that he was rescued from the crowd by a friend.

As to his allusion to the practice in "England or the United States," I think my love of fair play will compare favorably with that of one who would stoop to select his own servant as judge to secure for him the paltry stakes in question, regardless of that principle of honor by which a British subject, if not a Yankee, is actuated.

As to his advice about *running horses*, I may say that he having witnessed and was among those who entered the famous *Bulls' Run* race, his experience on that subject may be of some value to him. Had he attempted to treat on the rules by which that celebrated *running* was conducted, his practical experience of that scene would show more capabilities for *running* than can be expected under ordinary circumstances. When the roads are dry, C. L. S. may hear from the owner of the "Lilly," in "fun," or from *five* to fifty pounds or *upwards*. C. L. S's boast of fifty pounds might as well have been left out, as on that score also he can be met by,

Yours truly,

P. M. BOURKE.

NEWFOUNDLAND.

The Legislature is still in session. The new tariff increases the duty on nearly every article to a very large extent. This *increase* is rendered absolutely necessary in order to raise a revenue. Those who clamor against Confederation should make a note of the fact, and contrast the Dominion tariff with the following list of duties on a few articles:—"The duty on smoked meat, &c., is increased from $1 (under last year's tariff) to $2; butter from 70c to $1 12; cheese from $1 25 to $1 50; flour from 36c to 41c; lumber from 50c to $1; corn meal from 12c to 15c; oatmeal 12c to 20; pork 70c to $1; shingles 30c to 40c; tobacco 7c to 12c."

Intelligence has been received of the wreck, at Hatter's Point, on the 4th inst., of the schr Quato, Poole, master, while proceeding from Burge to Lapoile, on board of which were the Rev. Mr. Chamberlain, of Lapoile, Mrs. Chamberlain, and Mr. DeGrouchy, agent for Messrs. Nicolle & Co., of Lapoile, and that Mrs. Chamberlain, Mr. DeGrouchy, and 4 seamen were drowned, Mr. Chamberlain and the Master being the only persons saved.

Among the recent discoveries of antiquities at Rome is the base of an altar, the inscription upon which states that it was erected by Cneius Domitius Calvinus, who was one of the consuls in the years B. C. 53 and 40, but who performed many public works during the reign of the Emperor Augustus. This altar is supposed to have stood before the statute of Jupiter Victor, near or within whose temple it was found.

AN EXTRAORDINRY CREATURE DISCOVERED IN MISSISSIPPI — THE "WHAT IS IT" OUTDONE.

From the Vicksburg Herald, March 1.

About twenty five miles from this city is a small stream known as Bear Creek, which empties into the Big Black River. For some time past strange stories have been told by the negroes of an extraordinary animal seen near this creek. These stories were laughed at and derided by the citizens, no one believing in any such statements. This extraordinary creature had often suddenly presented himself among the negroes in the early twilight, causing great consternation among them. He is described by the negroes as being about eight feet high, each eye, in their language, "as large as a hen's egg," with no nose and no upper lip, his two eye teeth as large as a man's thumb, extending down over his chin about eight inches; his right foot points directly to the front, and the left to the rear, and the measurement of the track is just twenty three inches in length; his finger-nails are about six inches long; the hair on his head—which is stiff and wiry—sweeps the ground as he walks, and is parted in the rear and brought down in front on each side of his singularly formed chest, which is not round or flat, but is angular like that of a fowl. The hair on the body of this singular being is very stiff, and grows to the rear, parting at the angle of the breastbone, growing back, and uniting, with a long, stiff growth on the spine, which extends back about one foot like the spinal fin of a fish or the bristles on the back of a boar—the hair on his arms is parted and grows in the same way, making a long, thick brush on the back of the arms, extending from the shoulders to the point of his middle finger. The same peculiarity is observable on his legs. No white person has ever seen him until recently, when he was discovered by a hunting party. Several gentlemen, acquaintances of ours, met on last Thursday week with a view of bear hunting in this swamp. They were accompanied by about fifteen well trained dogs. They prepared for the hunt early in the morning, and when about commencing their attention was attracted to an unusually large human track in the soft soil; upon examination it was discovered that the track was constantly being reversed. In an instant the stories of the negroes occurred to the party, and at once it was determined to pursue the creature which had made the track. The dogs were instantly called and encouraged to follow the track, which they did promptly. The gentlemen, mounted upon good horses, found but little difficulty in keeping up with the hounds. In a few minutes an object was presented to their view which sent a chill to the heart of every member of the party. They unearthed the nondescript. A being—apparently human—suddenly arose from his lair, turned and for a moment stood in silent inspection of his pursuers, and then instantly, with a yell truly terrific, wheeled and with the speed of the fastest horse, rushed away before the dogs. This wild and exciting chase was continued for a distance of nearly ten miles, when at last the terrible monster, foaming with rage, was brought to bay upon the banks of the Big Black, and turning with a fury unparalleled, it seized the foremost dog with both hands, and by the exercise of superhuman muscular strength, buried its long talons in the body of the howling brute, and literally tore the dog asunder. Dropping this, it instantly seized the next and sent its two immense tusks through the skull of the doomed dog. One of the hunters becoming alarmed for the safety of the party, drew his revolver and fired twice at the monster, but evidently without effect other than to frighten it by the report, when, turning, with a hedious yell, it plunged into the river, diving and remaining under water fully five minutes, when it would suddenly spring high into the air, screaming with the voice of a regiment of soldiers. It finally swam to the opposite side and disappeared in the neighboring forest, since which time it has only been seen twice by white persons. Several attempts have been made to capture it, but up to the present time without success. What this strange creature is, no one can conjecture. The gentlemen with whom we have conversed represent it as a black man about six feet high, but in other respects resembling, to a great degree, the description given by the negroes. It has broken the negroes from attending Loyal Leagues at night in that section of country.

"Time Tries all Things," and has proven that *Wistar's Balsam of Wild Cherry* is *the* remedy *par excellence*, for the cure of coughs, colds, croup, whooping cough, bronchitis, asthma, phthisic, sore throat, influenza, and last, but not least, consumption.

A gang of female robbers has just been broken up in Paris. The leader, a stout middle-aged woman named Catherine Keller, planned the operations and gave out the parts. Marie Antoine, a young Genevese girl, was her lieutenant and led the active work out of doors. A big *paysanne* was a useful member, and used to bustle about in the crowds at the omibus stations, while the rest picked pockets.

The friends of the Hon. Mr. McGee have purchased a full length portrait of him, and will present it to him, as a birthday gift, on the 14th April.

MUD DIGGERS.—Instead of 50, the correct number for New London is 100, mostly worked by horses. At Rustico there are 75; at Covehead 8 and in Tracadie Bay about 30—making a total for places yet heard from of 500.—*Pat.*

Holloway's Pills.—To Purify the Blood.—With this medicine the discovery of a great principle of guidance in treating the diseased body dawned upon mankind—the necessity of purifying the blood, "the life of the flesh." This rational treatment gradually superseded the barbarous bleedings, destructive emetics, and undermining mercurial preparations, which had entoiled the profession and public for centuries. Purification of fluids and solids is the noble purpose Holloway's medicine was designed to effect, and wonderfully has accomplished its end—a truth, at the present day, universally admitted and acted upon. In loss of appetite giddiness, partial failure of memory, bilious attacks, and habitual costiveness, *Holloway's Pills exert the most salutary powers* in invigorating any organ which is failing through weakness.

DEATH! DEATH!—*Death can be and has been* in innumerable instances prevented by the use of that wonderful curative, *JUDSON'S MOUNTAIN HERB PILLS*, the best medicine in the world. The Ice in the Bays and Rivers is still good, and Horses and Sleighs are passing over it in all directions. From present appearances we are not likely to have an early Spring. It would require at least two weeks warm weather to destroy the ice. There is not yet the slightest appearance of an opening in the Three Tides, in this Harbor. An unusual occurrence at this season of the year. We are informed that several Sleighs, loaded for Charlottetown, left Summerside, a few days since, drove direct outside the Harbor, and came down the Straits the whole distance on the ice. Such a voyage is a rare occurrence.—*Isl.*

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.
