LEARNING TO SPEND MONEY

Singer Bobby Vinton, whose annual income has jumped from \$6,000 to \$200,000 in two years, says breaking the habit of not spending money is a problem. The 24-year-old Pennsylvanian with a college degree in music is now at the top of the pop music field with his slow and smooth style. (AP Wirephoto)

Cemetery Is Jammed At Edith Piaf Funeral

PARIS (Reuters) — Women jammed each other, scrambled over gravestones and fainted in the Pere Lachaise cemetery as singer Edith Piaf was buried Monday.

About 15,000 persons, most of them women in their 50s, jammed into the cemetery. Another 40,000 lined the road leading to the grave where "Piaf" — French for sparrow—was buried.

Legend said Miss Piaf was born in Paris, Dec. 19, 1915, went blind at the age of three and got her sight back four years later after a miracle.

Bouquets were hurled at the hearse as it went to the graveyard carrying Miss Piaf's body, leaving only the legend behind.

Her death at age 47 Friday from internal hemorrhaging ended a five-year struggle with ill health that began with a nearly fatal auto accident in 1950.

Miss Piaf's second husband, 27-year-old singer Theo Sarapo —whom she married in the Greek Orthodox Church—had to be supported by friends when the coffin was lowered into the grave.

U.S. Plans Talks On Wheat Sales

WASHINGTON (CP) — The U.S. state and agriculture departments plan to invite the Canadian external affairs department to send a representative here in a week or so to seek an understanding between the two countries on their respective wheat-selling policies, a United States official said.

The U.S. protested last week that, by selling wheat at a fixed price for delivery over an extended period, Canada was pegging world wheat prices when in fact they should be rising.

The U.S. threatened to retaliate, perhaps by increasing its wheat give away programs, which Canada has protested in the past interferred with its trade markets.

ECM Votes \$94 Million For Research

BRUSSELS (AP) — The five other members of the European Common Market overrode objections of France and voted a \$94,000,000 program for nuclear research in the coming year.

The European ministerial council, ruling body of the six-nation Common Market, met until almost 2 a.m. before reaching a decision on the 1964 Euratom budget, including the controversial research item.

Euratom is the nickname for the joint peaceful use of nuclear energy in the six countries—France, West Germany, Italy, Belgium, The Netherlands and Luxembourg.

On the showdown ballot, France stood alone in opposition to the appropriation for nuclear research. The other five abandoned their quest for unanimity and pushed the budget through as their votes were enough for council rules, to assure passage of the budget.
