GREAT BOOM!
Away Ahead!

IT IS A FIRST-RATE PLACE TO BE, and as we undoubtedly possess the ability to keep ahead, we can afford to lend a helping hand to our numerous struggling competitors. As we have attained to the proud position we now enjoy as leaders in our art, through years of toil and hard work, we would say to our competitors, DON'T BE DISCOURAGED. Step by step, if you persevere, perchance may find you approaching our present standard. BUT REMEMBER! you will not find us there. Perfection is our Standard, and nothing short of that will satisfy our ambition to present a faultless garment upon a faultless gentleman.

To supplement our own natural skill, we employ artists who acknowledge no superiors in the Dominion of Canada. Thus equipped with superior heads and unequalled hands, and Goods of the finest quality, we feel safe in saying that we are prepared to fill the bill every time.

McLEOD & MCKENZIE,
Star Merchant Tailors.

Charlottetown, Nov. 30, 1888—eod & wky

Beauty

Is desired and admired by all. Among the things which may best be done to enhance personal beauty is the daily use of Ayer's Hair Vigor. No matter what the color of the hair, this preparation gives it a lustre and pliancy that adds greatly to its charm. Should the hair be thin, harsh, dry, or turning gray, Ayer's Hair Vigor will restore the color, bring out a new growth, and render the old soft and shiny. For keeping the scalp clean, cool, and healthy, there is no better preparation in the market.

"I am free to confess that a trial of Ayer's Hair Vigor has convinced me that it is a genuine article. Its use has not only caused the hair of my wife and daughter to be

Abundant and Glossy, but it has given my rather stunted mustache a respectable length and appearance."—R. Britton, Oakland, Ohio.

"My hair was coming out (without any assistance from my wife, either). I tried Ayer's Hair Vigor, using only one bottle, and I now have as fine a head of hair as any one could wish for."—R. T. Schmitt, Dickson, Tenn.

"I have used Ayer's Hair Vigor in my family for a number of years, and regard it as the best hair preparation I know of. It keeps the scalp clean, the hair soft and lively, and preserves the original color. My wife has used it for a long time with most satisfactory results."—Benjamin M. Johnson, M. D., Thomas Hill, Mo.

"My hair was becoming harsh and dry, but after using half a bottle of Ayer's Hair Vigor it grew black and glossy. I cannot express the joy and gratitude I feel."—Mabel G. Hardy, Delavan, Ill.

Ayer's Hair Vigor,
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by Druggists and Perfumers.

NEW GOODS!

Christmas and New Year Supplies.

CARPET SWEEPERS.
Every mother knows how often little ones get something in the eye. Take hold of the lashes of the upper lid with the left hand, and pressing the dull point of a pencil against the middle of the lid, turn it upward; then remove the substance with a camel's hair brush, or the corner of a soft handkerchief. Particles of lime often cause great pain if they get into the eye, as any one who has ever whitewashed a ceiling can testify. Apply weak vinegar to neutralize the alkali and remove the particle as directed.

A sprained ankle can be successfully treated at home. Remove the shoe and stocking as quickly as possible, and wash frequently with cold salt water. If there is much heat in the joint, apply cloths wet with a mixture of seven ounces of water, one of laudanum and one dram of sugar of lead. Keep the foot elevated and cool; do not stand on it, and move it as little as possible.

For the sting of a bee, or the bite of an insect, apply diluted ammonia, or bicarbonate of soda, to the part affected.—*American Agriculturist for December.*

Y. M. C. A.

THE annual meeting of the Young Men's Christian Association was held in the Upper Parlor last evening. There was a fairly good attendance, although the weather was stormy. The President, J. D. Seaman, Esq., occupied the chair and delivered an address of some length, reviewing the work of the Association for the past year, and suggesting improvements in some departments. The Reading Room is to be re-fitted and improved in a short time, and the committee in charge of the proposed improvements to the room deserve all praise for their successful efforts in raising funds. On the whole, the operations of the Association during the year were effectively carried on and much good was done. The receipts for the year foot up a very respectable amount. Several members who did good service in the interests of the Association moved away since the last meeting, including Messrs. Turner, Crosby and Brown.

The Secretary, Chas. Leigh, jr., read his report for the year, which, we understand is shortly to be published in full.

H. J. Cudali, Esq., Treasurer, read the financial statement for the year.

Reports were given by the Chairmen of the various committees.

The thanks of the Association were conveyed to Mr. Seaman for his efficient services as President during the past three years.

The following officers were elected for the ensuing year:
President—John T. Mellish.
Vice-Presidents Judge Hensley, J. D. Seaman, F. S. Moore, Geo. Bremner, Geo. Ritchie, J. M. Campbell.

Treasurer—H. J. Cudali, (re-elected.)
Hon. Secretary—G. F. Beer.
General Secretary—C. Leigh, Jr.
Executive Committee—P. Pope, Chas. Palmer, W. J. Miller, G. H. Taylor, Geo. Carter, W. G. Sabine, W. T. Huggan, J. T. McKenzie, Wm. McKie, A. Kennedy, S. S. Peterson, E. D. Sterns.

Timely Hints to Mothers.

It is at this season of the year that one of the most dreaded diseases makes its insidious attacks. Many a fond mother, upon being suddenly awakened by the peculiar ringing, rattling cough that heralds croup, has been so frightened as to be unable to think of or apply a remedy. It almost always attacks its victim in the night, and is greatly to be dreaded on account of the extreme rapidity with which it develops. If possible in this case, as in all cases where you distrust your ability to act, send for a physician, but do not sit down helplessly meantime, as you may do much to relieve the sufferer and check the ravages of the disease. Give an emetic at once. Syrup of ipecac should always be kept in the house for this purpose, as it is the easiest to give a child. Let the dose vary from a quarter of a teaspoonful to a teaspoonful, according to the age of the child, and give every five minutes, until vomiting ensues. Put hot, moist poultices of flaxseed or hops on the throat and upper part of the chest. A hot bath, if practicable, will often give relief, but do not undertake this unless you have the proper conveniences.

Another malignant disease, where a little prompt action will often avert the most serious, is diphtheria. The symptoms are soreness of the throat, pain in swallowing, and the formation of a grayish membrane in the back of the throat. There is always a low fever, depression of spirits, and a rapid decrease of strength. One of the best remedies to be applied in the early stages of the disease is to paint the throat with iodine. If this is not at hand, use lemon or lime juice until it can be obtained. Always keep a soft camel's hair brush among your medicines. If the patient is old enough to use a gargle, pure lemon or lime juice, a solution of chlorate of potash, or alcohol and water is very effective.

Little children often suffer painfully with earache. A drop of warm olive oil, mixed with an equal quantity of laudanum, will generally relieve this, if dropped in the ear. Or place a little cotton, well saturated with chloroform, in the bowl of a new clay pipe; insert the stem into the ear of the sufferer and blow gently. The evaporating chloroform will relieve the pain immediately.

Every mother knows how often little ones get something in the eye. Take hold of the lashes of the upper lid with the left hand, and pressing the dull point of a pencil against the middle of the lid, turn it upward; then remove the substance with a camel's hair brush, or the corner of a soft handkerchief. Particles of lime often cause great pain if they get into the eye, as any one who has ever whitewashed a ceiling can testify. Apply weak vinegar to neutralize the alkali and remove the particle as directed.

A sprained ankle can be successfully treated at home. Remove the shoe and stocking as quickly as possible, and wash frequently with cold salt water. If there is much heat in the joint, apply cloths wet with a mixture of seven ounces of water, one of laudanum and one dram of sugar of lead. Keep the foot elevated and cool; do not stand on it, and move it as little as possible.

For the sting of a bee, or the bite of an insect, apply diluted ammonia, or bicarbonate of soda, to the part affected.—*American Agriculturist for December.*

WELL DONE.—It is said that the New York City Board of Education has voted \$15,000 for free educational lectures to working men and working women.

THE ST. LAWRENCE.—The steamer St. Lawrence, Captain R. Cameron, reached Pictou at nine o'clock last night, and arrived here on return at eleven this forenoon.

THE STANLEY.—The steamer Stanley, Capt. Finlayson, with ninety bags of mail matter, left Pictou at eight o'clock this morning, and arrived here at half-past eleven o'clock this forenoon.

TRY IT.—A correspondent sends the New York World the following problem, and asks if it can be worked out: A man has 27 turkeys to kill in six days; he is to kill an odd number every day.

THE CANADIAN HORTICULTURIST.—Every one interested in growing fruits, flowers or in forestry would find it to their advantage to take the Canadian Horticulturist, a beautiful monthly journal of high standing, devoted entirely to these subjects, and containing articles written by the leading fruit-growers, florists, and foresters in Ontario. The journal is to be enlarged in the month of January; the paintings and engravings of fruits and flowers continued and used even more liberally. Altogether, it is to be made as interesting and attractive as possible. It is published by the Fruit Growers' Association of Ontario, at \$1 per annum, which also entitles the subscriber to the privileges of membership of the Association, including a copy of the Annual Report of the meetings and discussions, given verbatim, and a share in the distribution of trees and plants for testing in various parts of Ontario. Subscriptions should be sent to L. Woolverton, M. A., Grimsby, Ont., Secretary of the F. G. A. of Ontario.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. See name and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. [April 1 '85]

The Market To-day.

The attendance at the market to-day was small, and there was not much business doing. Following are the prices:—

Beef (quarter) per lb.	\$.06 to 0.10
Beef (small) per lb.	0.04 to 0.06
Veal, per pound.	0.00 to 0.00
Butter, fresh, per lb.	0.21 to 0.23
Butter, tub, per lb.	0.17 to 0.19
Cabbage, per doz.	0.30 to 0.50
Ducks, per pair.	0.55 to 0.90
Eggs, per doz.	0.24 to 0.45
Fowls, per pair.	0.30 to 0.40
Geese.	0.45 to 0.80
Flour, per cwt.	2.80 to 0.00
Ham, per 100 lbs.	0.45 to 0.50
Ham, per lb.	0.13 to 0.14
Lamb, per lb.	0.06 to 0.08
Mutton, per lb.	0.06 to 0.08
Oats (black) per bush.	0.32 to 0.34
Oatmeal, per cwt.	2.40 to 0.00
Pork, small.	0.08 to 0.10
Pork (carcass), per lb.	0.06 to 0.07
Potatoes.	0.18 to 0.19
Straw, per load.	0.00 to 0.00
Sheep pelts.	0.50 to 0.60
Turnips, per bush.	0.16 to 0.00
Turkeys.	0.70 to 1.30
Fresh fish per doz.	0.00 to 0.00
Pigs per pair.	0.00 to 0.00
Celery, per doz.	0.30 to 0.40

Odds and Ends.

Fifty three persons under sentence of death, are confined in the Kansas penitentiary.

Albany proposes to have a "winter carnival," and the common council has voted aid to the amount of \$1,000.

Less than fifty years ago there was not a photographic camera in the world; to-day there are 15,000 photographic establishments, to say nothing of the thousands of amateur outfits, in the United States.

A retired merchant, aged 83, of Providence, and a Boston widow just one year his junior, was married on Friday. It was a case of love at first sight, the couple having met for the first time only three weeks ago.

There is a granite house in Rowan county, Va., built in 1766, and is still owned and occupied by the descendants of the man who built it. The five-place is 8 feet wide, 5 feet high and 5 feet deep; the house is in a good state of preservation.

The McNab treated the family to a fantasia upon the bagpipes, and when he had concluded he looked round with honest pride and remarked:—"Eh, men, but that's vera deefinit!" "Is it?" asked the O'Flaherty. "Begorra, Oi wish it had been impossible."

At Denison, Tex., a negro took laughing gas before having a tooth pulled, and astonished the dentist by leaping from the chair through the window, carrying sash and all to the pavement, twenty feet below, yet, strange to say, was only a little shaken when he came to himself.

A good colored brother in Georgia recently wrote to his bishop for a clerical supply as follows:—"Send us a bishop send us a sliding elder; if you can't send us a sliding elder send us a stationary preacher; if you can't send him, send us a circus rider; if you can't spare him, send us a locus preacher; if you can't spare a locus preacher send us an exhauster." That settled it, and he got a preacher.

Mrs. George Hirsch, of Navarro County, Tex., gave birth to six children last month. There are four boys and two girls. The father, George Hirsch, is 31 and the wife 27. They have been married five years and have three children besides the recent accession. Hirsch has named the boys Frederick, Mills, Cleveland and Thurman. The girls are Victoria and Louise. The babies are tagged to preserve their identity.

The tidy sum of \$23,000 has just been paid for a single box at the Metropolitan Opera House in New York. This would purchase a handsome residence in any city in the country, or would support a family in better style than most families are compelled to get along on nowadays. A box at the opera, however, is deemed as essential to the existence of a fashionable family in the metropolis as a roof or the means of subsistence are in some other social strata.

WELL DONE.—It is said that the New York City Board of Education has voted \$15,000 for free educational lectures to working men and working women.

THE ST. LAWRENCE.—The steamer St. Lawrence, Captain R. Cameron, reached Pictou at nine o'clock last night, and arrived here on return at eleven this forenoon.

THE STANLEY.—The steamer Stanley, Capt. Finlayson, with ninety bags of mail matter, left Pictou at eight o'clock this morning, and arrived here at half-past eleven o'clock this forenoon.

TRY IT.—A correspondent sends the New York World the following problem, and asks if it can be worked out: A man has 27 turkeys to kill in six days; he is to kill an odd number every day.
