No mails crossing to-day. INTERESTING.—The Sultan of Sooloo is dead. Owing to the storm the market to-day was small. The "Northern Light" has not yet reached Pictou. DR. EDWARD CLAY, Immigration Agent, at Halifax, is dead. GLADSTONE was confined to his room on the 12th inst., by catarrh. On the cable roads of Chicago 180 cars carry 27,000,000 passengers yearly. THREE cases of drunkenness at the Stipendiary Magistrate's Court this forenoon. FIVE sunstrokes occurred among the British troops at Suak on the 10th and the heat there is increasing. THAT sense of extreme weakness indicates diseased blood. Ayer's Sarsaparilla purifies and invigorates. [mar17 lw wky] LAST week, 360 barrels of sugar were shipped from the Moncton refinery to St. John, London, Ont., and Halifax. MINING POWDER.—Will arrive to-morrow twenty-five kgs blasting powder.—NORRIS BROS., City Hardware Store. [mar18 2i] MR. THOMAS A. LePAGE will read a paper on "Matthew Arnold" before the Literary and Scientific Association this evening. THE cases brought by the Alliance against Simon Bolger and P. Connolly for breaches of the Scott Act, were to-day dismissed by the Stipendiary Magistrate. SHE said, "Oh, yes, I am very fond of little boys," and as a snowball stuck in the back of her neck, she added, "I feel as though I could eat a couple this minute, boiled!" BLASTING POWDER.—We expect twenty-kgs by "Northern Light" to-morrow.—NORRIS BROS., City Hardware Store. [mar18 2i] WOMEN'S RIGHTS are making rapid strides in Great Britain. Oxford University, says a cable despatch, has decided to grant women the same examination as is given to men. MEN and women are equally benefited by the use of that great Brain and nerve rejuvenator, Mack's Magnetic Medicine, an advertisement of which appears in another column. [mar17 lw wky] SMELTS.—One hundred tons of smelts have been shipped from Richibucto, N. B., during the present winter. As smelts average five to the pound, the catch is one million in number. ONDERDONK has now employed on his Pacific Railway contract in British Columbia 8,000 men, 6,000 of whom are Chinese and a portion of the balance Indians. The Chinese men are paid a dollar a day. THE "EARLY ROSE" Must Go.—In Maine the producers believe that the sway of the "Early Rose" potato is waning. They judge from the Boston demand that the "Beauty of Hebron" is the coming favorite. THERE were 211 failures reported in the United States during the week ending March 8. The failures in Canada during the same time were as follows: Manitoba, 3; New Brunswick, 2; Nova Scotia, 5; Ontario, 17; Quebec, 16—total 43. THE annual business meeting of the Provincial Rifle Association for the election of officers, etc., will be held in the Stipendiary Magistrate's room, on Wednesday next, the 19th of March, at 7.30 p. m. G. L. DUGHERTY, Secy. [m11 s&t] THE Boston Pilot alludes to the recent dynamite scare in Halifax. It says:—"Dear old Halifax, like a mature virgin, is always anticipating dangers to which she is least exposed. Naughty Rossa is not casting covetous eyes on your iceberg charms. VANDERBILT says he considers journalism "the meekest business a man can be in." Any person who has been handled like Mr. Vanderbilt's naturally thinks newspapers bad institutions. The Indian who tried to lasso a locomotive never afterward had much of an opinion of railroads. THE news that three Englishmen have been seen by a native among the prisoners of the Mahdi raises the hope that Edmund O'Donovan, the daring London correspondent, is one of them. Not only is his own safety a matter of public interest, but the fact that if he escapes he will tell the history of the Mahdi's movements for the past six months is of much moment. THE icebergs have drifted down to the latitude of 45th and traffic earlier this year than has ever before been known. It is probable that some great derangement has occurred at the head of the current from the North, as it is unlikely that the bergs seen in great numbers off the Banks of Newfoundland have been loosened by an extraordinary season of early warm weather. HON. A. M. SUTHERLAND, provincial secretary of Manitoba, is dead. He was the youngest man in the Manitoba legislature, was represented for a constituency adjoining Winnipeg, since 1878. He was a son of Senator Sutherland, a descendant of the Scotch colonists. Mr. Sutherland became attorney-general in 1882 and last fall, on ex-Judge Miller becoming attorney-general, Mr. Sutherland took the portfolio of provincial secretary. SINCE the Post Office, and other Government and business offices have been located on Great George Street, the traffic has greatly increased, but the residents have not yet made any effort to facilitate travel thereon. The sidewalks remain uncleaned and the pedestrian is obliged to tread along a narrow path which should only be seen on back streets. We hope the residents of Great George Street will give this matter a little attention, and at least keep the sidewalks clear of snow. ALDEN B. STOCKWELL is one of the men too seldom in America, who don't know when they are well off. He was a poor young man when he married the daughter of Elias Howe, the sewing machine man. His marriage brought him an income of \$200,000. Instead of being satisfied with that, he went into Wall Street and soon made a million or two. He was king of the street fifteen years ago. Last week he failed for \$400. The millions had gone, then the thousands, and now the hundreds follow. At the age of forty-five he has run his course.—P.M.

TELEGRAPHIC NEWS.

[SPECIAL DISPATCHES TO THE EXAMINER.] No News from the Soudan. LONDON, March 17. There is nothing new in the way of news from the Soudan. Gladstone will not Resign. LONDON, Mar. 17. The Daily News says this morning, Gladstone has no intention of resigning. A Civil War in Ireland Announced. DUBLIN, March 17. Placards have been posted about the County Cork announcing the outbreak of a civil war in March. The police have removed them. Dominion Political Notes. OTTAWA, 17. Hon. Mr. Bowell introduced a bill to amend the Customs Act of 1883. It provides for a re-adjustment of the penalties in respect to smuggling, false invoices, and also changes as to the courts in which the penalties shall be collected. The Orange Bill came up, Mr. Cameron asking for it the second reading. There was a good deal of discussion over this Bill. Mr. Blake, in a speech, attacked all secret societies, and ranked them all with dynamiters and nihilists. After speaking nearly three hours he sat down and was followed by Woodworth who resented the insult offered by Mr. Blake to the Free Masons and Oddfellows and other Secret Societies from the charge of malignancy and bitterness made against them by the Leader of the Grit Party. The House divided on the question whether the Orange Bill be read a second time—yeas 69, nays 105. Weather Bulletin. Probabilities for the next 24 hours for the Maritime Provinces. THE treasury department of the United States is rumored that foreign brokers are making heavy purchases in silver trade dollars at a discount of ten per cent., the purpose being to dispose of coin to emigrants about to sail for the United States, for American coin worth their nominal value. Trade dollars are not a legal tender, but an effort is now being made to have that Government purchase the coins at their face value and re-coin them into other pieces. There are now about seven million of trade dollars in that country, a large majority of which are held by mechanics.

STATEMENT OF BUSINESS, JANUARY 1, 1884. INCOME \$13,470,571.68 DISBURSEMENTS 8,567,903.49 TOTAL ASSETS, Dec. 31, 1883 53,030,551.70 TOTAL LIABILITIES, including valuation at FOUR per cent. 43,914,612.44 TOTAL UNDIVIDED SURPLUS \$ 9,115,939.26 Upon the New York standard of 4 1/2 per cent interest, the surplus is 12,109,756.79 Of which the proportion contributed (as computed) by Policies in general class, is \$6,420,523.79. Of which the proportion contributed (as computed) by Policies in Tontine Class, is \$5,689,233.00. From the undivided surplus, contributed by policies in the general class, reversionary dividends will be declared available on settlement of next annual premium, to ordinary participating policies. From the undivided surplus contributed by policies in the Tontine class, the amount applicable to policies maturing within the current year will be duly declared, as their respective annual premiums become due. NEW ASSURANCE FOR 1883 \$ 81,129,756 TOTAL ASSURANCE 275,160,588 Increase of Premium Income \$18,954,778.88 Increase of Surplus, 1,451,982.32 Increase of Assets, 5,994,839.84 The amount of new business transacted during 1882, \$62,250,000, exceeded the largest business ever done by any other company in one year; the business of 1883 is over \$18,000,000 larger. THE SOCIETY, In 1878 wrote \$21,440,213 Insurance. In 1879 " 26,502,741 " In 1880 " 35,170,905 " In 1881 " 46,189,095 " In 1882 " 62,262,279 " In 1883 " 81,129,756 " The Society has written a larger aggregate amount of new assurance during the past twenty years than any other company in the world. Total amount paid policy-holders since the organization of the Society, \$73,877,099.51. The amount of Surplus over liabilities (four per cent. valuation) is larger than that of any other life assurance company. The reasons for the increased patronage received by the Society during the past six years are:— 1st. The fact that the percentage and amount of its surplus over its liabilities, according to the State Insurance Reports (four per cent. valuation) are larger than that of any other life assurance company. 2nd. The percentage of dividends earned for policy-holders, according to the same Reports, is now, and has been for the last five years, greater than in any other of these large companies. 3rd. The Society issues a plain and simple contract of insurance, free from burdensome conditions and technicalities, INCONTTESTABLE AFTER THREE YEARS. 4th. In the event of death, a policy which has become incontestable is paid immediately upon the receipt of the proofs of death. 5th. The Society has no contested claims on its books. 6th. The popularity of the Society's Tontine and semi-Tontine systems of insurance, which provide full insurance in case of death, and give the greatest return for the money paid by the policy-holder if he lives, with more advantageous options to meet an insured's need at the end of the term, than any other form of policy ever devised.
