

"Covers Prince Edward Island Like The Dew"

VOL. LXXVI, NO. 198

Authorized as Second Class Mail by the Post Office Department, CHARLOTTETOWN, CANADA, SATURDAY, JULY 20, 1963.

NOT MORE SEVEN CENTS THAN

14 PAGES

Miss Cheryl Paquette, 18, Summerside, centre, was chosen as Miss Prince Edward Island at the Summeride Lobster Carnival celebrations near their finale. The young lady who will enter training for a nurse next fall won prizes of a \$100 wardrobe, a \$50 cash prize, and other things. The charming young lady is flanked by two princesses, Miss Gail MacDonald, 16, Bedeque, left, and Miss Claudia Sears, Summerside, right. (Story and other pictures on page 3.)

## Canada Will Tak To Yanks On Serious Tax Worries

By ALAN DONNELLY  
OTTAWA (CP) — Finance Minister Gordon said Friday the government plans to discuss with Washington Canada's "serious worries" about President Kennedy's proposed new tax on American purchases of securities from Canada and 21 other countries.

In a cautious statement, he told the Commons that the situation resulting from the president's announcement Thursday of his tax proposal is "a little delicate."

Mr. Gordon entered a debate amid charges by Opposite Leader Diefenbaker that his June 13 budget measures may have provided a lead to the drastic Kennedy proposal.

Mr. Diefenbaker, stating the new U.S. tax would affect Can-

ada "to a tremendous degree," said the government's tax proposal is "a little delicate."

## China Taunted By Soviet Leader

MOSCOW (AP) — Sputtering with rage over Red China's challenge to his leadership of Communist camp, Premier Khrushchev dared Peking's leaders Friday to take their ideological dispute to the people.

"I declare to those who would like to overthrow us: I challenge you, gentlemen, comrades, let's pick out any plant or any collective farm," he said.

"And you may rest assured, you won't need armor or a pillow for protection. Our people are polite here. They listen to you and say: 'Get out!'"

"The Soviet premier flung down the challenge in an extemporaneous outburst at a Kremlin rally honoring visiting Hungarian Premier Janos Kadar.

"He twice departed from his prepared text to flay his Chinese antagonists, groping for words in obvious vexation.

"And who will remain in this house because it is a wholly owned subsidiary of the Atlantic parent firm. But a competing car-maker, Ford Motor Company, was a good boy because it is a wholly owned subsidiary of the Atlantic parent firm.

"The flight established a transatlantic speed record, cutting 25 minutes off the existing mark. The aircraft made the return flight two days later.

"No special ceremonies are planned for the anniversary.

"TCA was chosen by the Canadian government to operate the transatlantic air service during the Second World War.

## Surprise Attack Guard Included

MOSCOW (AP) — Premier Khrushchev, in a proposal to back up a nuclear test ban, called Friday for an East-West non-aggression pact and a system of airfield and railroad inspections to prevent surprise attack.

While his negotiators and American and British representatives meeting in a nearby palace sorted out details of a partial test ban, the Soviet leader walked to the podium in the Kremlin congress hall and made a series of proposals that seemed to point to an East-West summit conference.

He urged the United States and the Soviet Union as approaching agreement on a nuclear test ban covering everything except underground explosions. He wants underground blasts covered too, he said, but he added that the West insist on inspections and implied those will not be approved.

"The test ban he wanted a non-aggression pact, just as he said July 2 in East Berlin, but he clearly opened a new way to negotiations that by saying:

"We think that the question of the form of the non-aggression pact can be solved without any great difficulties to the satisfaction of both sides. Most important thing is not the form, but the content."

"The most important thing is for each side to display willingness to give up from its own territory to the other side. The dramatic proposals immediately were studied near the British and American dele-

gations here even though there was some indication that he had outlined them in their first talk last Monday, when he opened the nuclear negotiations. Khrushchev spoke at a meeting of 6,000 in honor of Hungary's visiting premier and Communist party leader, Janos Kadar.

The audience cheered repeatedly. (Continued on page 2, col. 6.)

Other observing centers have been set up from throughout the Territory to Maine, along the line of the total eclipse, to ensure someone will get a good look at the phenomenon if some areas are clouded.

space pilot Joseph M. Walker, shot unexpectedly to a record X-15 altitude of 67 miles Friday, 23, giving a harder kick as it thumped upward.

## Sun's Eclipse Stirrs Interest

By KEN SMITH  
GRANDMERE, Que. (CP) — Scores of telescopes pointed toward the sky Friday while hundreds of scientists completed preparations to watch the total eclipse of the sun today.

Rising with the telescopes were the scientists' prayers that the weather will co-operate. If a clear blue sky isn't possible, scientists hope at least a hole in the cloud cover during the critical period.

Six teams of scientists, four from overseas, have set up observation stations near this community 110 miles northeast of Montreal. The path of the total eclipse, caused by the shadow of the moon as it swings between the earth and the sun, is to pass over Grand-Mere at 10:09 p.m. EDT.

Other observing centers have been set up from throughout the Territory to Maine, along the line of the total eclipse, to ensure someone will get a good look at the phenomenon if some areas are clouded.

## TCA To Mark Its 20th Year

MONTREAL (CP) — Trans-Canada Air Lines will quietly mark Monday its 20th anniversary of scheduled air service across the North Atlantic.

The first such flight left Montreal International Airport July 22, 1943 bound for Prestwick, Scotland. The converted four-engine Lancaster bomber carried four official passengers, more than a ton of armed servicemen, and air crew.

The flight established a transatlantic speed record, cutting 25 minutes off the existing mark. The aircraft made the return flight two days later.

"No special ceremonies are planned for the anniversary.

"TCA was chosen by the Canadian government to operate the transatlantic air service during the Second World War.

## HIGHER TEMPERATURES

Above-normal temperatures in Eastern Canada with below-normal temperatures in the West are forecast for Canada from mid-July to mid-August according to the United States weather bureau. Precipitation is expected to be heavy in the West and light to moderate in the rest of the country. The forecast is based on long-range predictions and is subject to error. (CP Newsmag)

## House Questions Govt. Advertising

OTTAWA (CP) — A Toronto Globe and Mail story quoting Liberal party director Keith Davey on the size and number of federal government advertising contracts brought a string of barbed questions in the Commons Friday.

David Orlikov (NDP—Windsor North) started it off by asking Prime Minister Pearson whether Mr. Davey is a government employee in view of his reported statements in Friday's editions of the Toronto paper.

"When Mr. Pearson replied 'no,' Mr. Orlikov pressed to know how Mr. Davey came to be in making announcements about the award of government contracts. If he isn't a government employee.

Mr. Pearson said silently in his seat until Douglas Fisher (NDP—Fort Arthur) prodded him for an answer. He then said:

"Perhaps Mr. Davey read them in the spending estimates."

By ALEXANDER FARRELL  
MONTREAL (CP) — Many theologians at the fourth World Conference on Faith and Order in Montreal, Quebec, Friday took tasks facing Christian bodies to give the ministry the missionary character of the early church.

As the conference sessions settled down Friday to the job of drafting reports, church organization at the grass-roots level remained one of the most hotly debated subjects.

The section reports will be submitted to the full conference before it ends Saturday. If accepted, they will be sent to member churches — Orthodox, Anglican and Protestant — for their consideration.

Some of the 300 delegates have taken the view Christian in a way Friday's same missionary position as it was before the Roman Emperor Constantine embraced it in the fourth century.

"We've lost not only imperial favor but also the favor of the masses," said one delegate. "Let's get away from the professional pastor and back to the ministry of tent-makers and fishermen."

In the section on the ministry numerous doubts were expressed that the traditional "pastor" form of organization is to be replaced by something entirely different.

## Fishing 2-Mile Limit Talks Expected Soon

CAPITAL BUREAU OF THE GUARDIAN  
OTTAWA — Talks concerning Canada's intention to institute a 12-mile limit may take place near the end of August, Paul Martin, secretary of State, said Friday.

He was replying to a question from former Fisheries Minister Angus MacLean who asked if Mr. Martin had any statement to give to the house on the proposed 12-mile limit.

Mr. Martin said he would take into account the views of the fishing industry and the fishing rights which those countries claim in the waters adjacent to Canada's coast.

Mr. Martin said he had been no such talks as yet but it was possible that talks with regard to the 12-mile limit and to the negotiations with regard to fishing rights might take place some time near the end of August.

The press reports to the effect that preliminary talks have already taken place are not correct," he said. "I cannot add anything to what I already said."

David Pugh, MP for Okanagan-Boundary in British Columbia, asked if nations from other countries are still fishing within the 12-mile limit of Canada's coast.

Mr. Martin said he would take into account the views of the fishing industry and the fishing rights which those countries claim in the waters adjacent to Canada's coast.

## Liberals Accused of Discrimination

OTTAWA (CP) — The Liberal government was accused Friday in the Commons of penalizing and discriminating against Canadian corporations that are largely American-owned through its tax changes.

Conservative and New Democratic Party opposition MPs combined to attack the withholding tax changes announced in the June 13 budget. Detailed resolutions incorporating the changes were before the Commons for formal retroactive approval.

The changes affect the tax on dividends paid to foreign investors in order to encourage a minimum 25-per cent Canadian investment in foreign-controlled corporations.

George Nowlan, former Conservative finance minister, said the proposal is "vicious-looking" and makes an arbitrary distinction between the "good boys and the bad boys."

"The good boys will get a tax cut, the bad boys will get it on the head."

He said that under the definitions of the resolutions, the Motor of Canada Limited is a shareholder whose Canadian residents.

By the end of the war, TCA was operating three round trips a week with a fleet of six planes. By the end of 1945, the service began to lose its identity as a wartime venture.
